Because monies were improperly disbursed from the installment account, the account balance was not sufficient to pay the total tax liability of taxpayers participating in the installment program. To conceal the installment account shortage, property tax collections totaling \$267,130, which included some railroad and utility property tax payments and a real estate property tax payment, were improperly deposited or transferred into the installment account (see Appendix D).

By improperly depositing or transferring property tax monies into the installment account, some of these monies were not properly recorded as collections in the property tax records,³ and were therefore, not distributed to various political subdivisions. See MAR finding number 4.2 for details regarding the undistributed property tax collections.

Conclusion

The lack of segregation of duties, inadequate controls, and the absence of proper oversight as discussed in the remainder of this report, resulted in cash shortages occurring in the general account and the use of installment account monies to substitute for these cash shortages; improper disbursements to the

³ Real estate and personal property tax collections are recorded in a computerized property tax system. However, railroad and utility property tax collections are recorded in a manual tax book. Collectively, the computerized system and any manual records have been referred to as property tax records.

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

County Collector from the installment account; and some property tax collections not being properly recorded, deposited, and distributed.

Recommendation

The County Commission and the County Collector work with law enforcement officials regarding criminal prosecution related to the misappropriated monies and take the necessary actions to obtain restitution.

Auditee's Response

The County Commission and the County Collector have been working with law enforcement and will continue to work with law enforcement to pursue criminal prosecution of Pamela Oestreich for offenses committed. The County Commission will continue to pursue all available avenues to recover losses to the county and all other entities involved.

2. Questionable Transactions

The County Collector made questionable disbursements totaling \$8,414, and abated a protested tax bill for \$7,208 after the monies had been distributed.

Questionable disbursements

The County Collector issued questionable checks totaling \$8,414 from the general account. A purpose was noted on the memo line of each check, but no documentation could be provided by County Collector's office personnel to support these checks were written for the purpose indicated. Each of these checks was subsequently redeposited into the general account and used to substitute for cash shortages in deposits made to the general account. The following table identifies the questionable disbursements.

Purpose	Payee	Check Date	Check Number	Amount
Bankruptcy payment	Callaway County Collector	10/05/2016	6129	\$ 1,452
2015 real estate	Callaway County Collector	10/14/2016	6131	1,486
Bankruptcy payment	Callaway County Collector	06/12/2017	6312	413
Bankruptcy payment	Callaway County Collector	08/01/2017	6325	825
2017 land sale	Callaway County Collector	02/06/2018	6445	4,238
Total				\$ 8,414

For 3 of these checks totaling \$2,690 the purpose noted was "bankruptcy payment." The County Collector's office maintains bankruptcy payments in the general account until the tax liability has been paid in full. A check is then issued from the general account for the amount of the tax liability, the payment is recorded in the property tax system, and the check is redeposited into the general account. Our review found no related tax payments were recorded in the property tax system for these payments. The County Collector's office does not issue receipt slips for bankruptcy payments, does not maintain a ledger to account for bankruptcy activity, and office personnel could not produce documentation to support why these disbursements occurred.

Callaway County Collector and Property Tax System
Management Advisory Report - State Auditor's Findings

For the \$1,486 check issued with the purpose noted as "2015 real estate," we reviewed the activity of this account, but found no explanation for this disbursement.

For the \$4,238 check issued with the purpose noted as "2017 land sale," no documentation could be provided by County Collector's office personnel to support or explain this disbursement. A land sale occurred on August 28, 2017, involving the parties noted on the check, however, the purchaser backed out of the sale and subsequently placed a stop payment on the land sale purchase check of \$4,600. On February 6, 2018, the purchaser paid the 25 percent penalty of \$1,150 for backing out of the sale. The County Collector deposited the penalty payment check in the general account and issued a check to the County Treasurer for the same amount. Also on February 6, 2018, the County Collector issued the check for \$4,238.

Each of these checks was redeposited into the general account. In addition, as discussed in MAR finding number 1, these checks were used to substitute for cash shortage amounts after the daily deposits had been prepared for the general account. It is possible the notations were added to make the checks appear legitimate because a second signature from the County Auditor's office is required on checks issued from the general account.

Questionable handling
of protested tax

The County Collector abated a tax bill for a protested tax after the appeal had been dismissed and the monies distributed. The handling of this protested tax is questionable. The County Collector invests protested taxes in certificates of deposit until the appeal is resolved. As of March 31, 2018, the County Collector was holding protested taxes totaling approximately \$443,000 from various taxpayers.

The County Collector improperly abated a \$7,208 paid tax bill from the property tax system. The 2015 tax bill was originally paid in December 2015 under protest and was held in a certificate of deposit pending resolution of the appeal. Although the taxpayer's appeal was dismissed by the State Tax Commission in May 2016, the certificate of deposit was not redeemed until March 2017, and the tax payment was not distributed until August 2017. Property tax system reports show the County Collector abated the tax bill, and marked the payment for refund in September 2017. As a result, the October 2017 distribution of taxes was reduced by the \$7,208 abated tax bill, thereby decreasing the amounts paid to the various political subdivisions. However, County Collector's office personnel could not locate documentation to support that a refund for this tax payment had been paid. Also, no documentation could be provided to support why the County Collector abated this tax bill and marked the payment for refund when the taxpayer's appeal had been dismissed.

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

Conclusion

No documentation could be provided to support or explain these questionable transactions. Additional review is needed to determine if these transactions were appropriately handled, or if adjustments are needed to the property tax records. The County Collector should ensure sufficient documentation is maintained to support all transactions.

Recommendation

The County Collector should review the questionable transactions to ensure they were appropriately handled and should also ensure sufficient documentation is maintained to support all transactions.

Auditee's Response

The questionable transactions noted in the audit report will be reviewed for proper handling, and in the future, sufficient documentation will be maintained to support all activity. Procedures for handling of disbursements and protested taxes will be reviewed and improved.

3. Property Tax System Controls and Procedures

We noted significant weaknesses in controls and procedures over the county's property tax system.

3.1 Annual settlements

The County Collector's annual settlements for the years ended February 28, 2018, and 2017, were not complete and accurate. The annual settlement for the year ended February 28, 2018, had not been completed by the County Collector as of her March 15, 2018, resignation date. This annual settlement was reviewed and completed by the Chief Deputy Collector.

Year ended February 28,
2018

We noted numerous errors and inaccuracies on the annual settlement for the year ended February 28, 2018. For example:

- Total collections were incorrectly summarized. Errors occurred when rolling forward amounts to the front page of the settlement. For example, amounts paid in protest were separately reported and also erroneously included in total collections. Protested taxes should not be included in total collections until the protest is resolved and the amount of tax and/or refund has been determined and applied.
- Current charges for real estate and personal property taxes were overstated by \$121,432, due to protested taxes being included as part of the tax book charge amount, but also being reported as separate line item amounts.
- Activity related to railroad and utility taxes was not accurately reported. Actual collections for railroad and utility taxes totaled \$12,602,234; however, only collections totaling \$12,467,610 were reported, for an

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

understatement of \$134,624. In addition, actual delinquent credits for railroad and utility taxes were overstated by \$92,849.

- Activity related to delinquent credits for real estate and personal property taxes was not accurately reported. Delinquent credits for real estate and personal property taxes per the property tax system totaled \$932,298 and \$788,388; however, amounts reported on the annual settlement totaled \$827,090 and \$256,835, respectively. In addition, the amounts reported on the annual settlement for delinquent credits included delinquent credits for back taxes totaling negative \$14,643 for real estate and negative \$11,412 for personal property. Delinquent credits should not be a negative amount. Delinquent credits represent the taxes the County Collector could not collect for the current and prior years, and should agree to the back tax books prepared at the end of each year. As a result of these errors, total delinquent credits were understated by \$636,761.
- Total tax book changes for real estate property taxes reported on the annual settlement were understated by \$74,773. The County Collector made a notation on the property tax system report indicating the difference of \$74,773 was due to a "test ticket, not charged with collecting." However, audit work identified this difference was due to the improper deletion of the property tax bill discussed in section 3.4.

Year ended February 28,
2017

We also noted errors and inaccuracies on the annual settlement for the year ended February 28, 2017. For example:

- Total collections of \$40,159,579 reported on the front page of the annual settlement exceeded detailed collections reported on subsequent pages totaling \$40,151,719, by \$7,860.
- Current delinquent credits reported for railroad and utility taxes were overstated by \$26,924, and delinquent credits for railroad and utility back taxes totaling \$38,613 were not reported.
- Delinquent tax charges totaling \$1,436,286 do not agree to delinquent credits totaling \$1,241,127 reported on the annual settlement for the year ended February 29, 2016.

County Collector's office personnel could not provide an explanation for these differences. The differences are likely partially due to calculation errors and improper completion of the annual settlement form. The County Collector should ensure complete and accurate annual settlements are prepared to provide assurance all collections and distributions are accounted for properly. Incomplete and/or inaccurate annual settlement information reduces the effectiveness of the settlement as a mechanism for accounting for all monies the County Collector is charged with collecting. As noted in

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

section 3.3, procedures should be performed by the County Clerk, the County Auditor, and the County Commission to verify the accuracy of the County Collector's annual settlements.

3.2 Tax books

The County Clerk does not prepare the current tax books and does not verify the accuracy of the current tax books. The county's property tax system vendor prepares the real estate and personal property tax books based on assessed valuations provided by the County Assessor and tax levies provided by the County Collector. A review of the current tax books should include verification of individual entries in the current tax books and recalculating tax book totals and charges. Failure to prepare and/or review the tax books and test individual tax statement computations may result in errors or irregularities going undetected.

For example, County Collector's office personnel indicated due to errors in the interest and penalty calculations on the 2017 tax bills, some taxpayers did not pay the correct amount due. These errors were not corrected before the tax bills were mailed.

Section 137.290, RSMo, requires the County Clerk to extend the current tax books and charge the County Collector with the amount of taxes to be collected. If it is not feasible for the County Clerk to prepare the tax books, at a minimum, the accuracy of the tax books should be verified and approval of the tax book amounts to be charged to the County Collector should be documented.

3.3 Review of property taxes

The financial activities of the County Collector were not adequately reviewed by the County Clerk, the County Auditor, or the County Commission. Neither the County Clerk nor the County Auditor maintained an account book or other records summarizing property tax charges, transactions, and changes as required by state law. In addition, the County Clerk, the County Auditor, and the County Commission did not perform procedures to verify the accuracy and completeness of the County Collector's annual settlements. As a result, there is an increased risk of loss, theft, or misuse of property tax monies going undetected, and less assurance the annual settlements are complete and accurate. As noted in section 3.1, the annual settlements for the years ended February 28, 2018, and 2017, contained numerous errors and inaccuracies.

Section 52.361, RSMo, requires the County Collector to prepare the delinquent tax books. However, the County Clerk, the County Auditor, and the County Commission did not perform procedures to verify the accuracy and completeness of the delinquent tax books prepared by the County Collector.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasurer.

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

Section 55.160, RSMo, requires the County Auditor to keep a correct account between the county and all county officers. An account book or other records summarizing all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk and/or County Auditor. Such records would help the County Clerk and County Auditor ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk, the County Auditor, and the County Commission to verify the accuracy and completeness of the County Collector's annual settlements and delinquent tax books. Such procedures are intended to establish checks and balances related to the collection of property taxes.

3.4 Property tax system changes

The County Commission and the County Clerk do not adequately review changes (e.g., additions, abatements, and deletions) entered into the property tax system. The County Assessor generally communicates needed changes to property tax records to the County Collector's office on manual forms. Office personnel then post these changes to the property tax system. No reports of actual changes made to the property tax system by the County Collector's office are provided to the County Commission for review, and no comparison of actual changes to changes documented by the County Assessor is performed. As a result, changes to the amount of taxes the County Collector is charged with collecting are not properly monitored and errors or irregularities could go undetected.

For example, in October 2017, the County Assessor identified a 2016 real estate assessment of \$2,080,000 had been incorrectly adjusted by the County Collector in the property tax system to \$665,560. This error occurred prior to the preparation of the tax bills in 2016. Due to software issues, an adjustment had historically been necessary to correct the assessed valuation for this property after the property tax records had been transferred from the County Assessor's system to the County Collector's system. However, the 2016 assessed valuation had correctly transferred, and the County Collector reduced the assessed valuation in error. As a result of this error, the taxes originally billed and paid by the taxpayer in 2016, were understated by \$74,773. This error was not detected until the County Assessor conducted reassessment procedures in 2017. The County Collector contacted the taxpayer in October 2017 with an explanation of the situation and prepared an additional tax bill for \$74,773. After the additional tax bill was sent to the taxpayer, it was deleted from the property tax system in late October 2017. The taxpayer paid the additional taxes due in late November 2017. As further discussed in MAR finding number 4.2, the payment was improperly deposited into the installment account. The mishandling of these property tax collections and deletion of the tax bill from the property tax system was likely an attempt to conceal the misappropriation discussed in MAR finding number 1. In addition, because a report of changes made by the County Collector was

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

not reviewed or reconciled to records of the County Assessor's office, the improper deletion of this tax bill was not detected.

As previously noted, the County Collector has access in the property tax system to make changes such as additions, abatements, and deletions, but can also make corrections or changes to information entered into the property tax system, such as refunding a payment after it has been distributed. Because the County Collector is responsible for collecting tax monies, the ability of personnel within this office to make changes to the property tax system represents a significant weakness in internal controls. Good internal controls require the County Collector and other office personnel not have access rights allowing alteration or deletion of information. Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making changes to the tax books with the approval of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, an independent reconciliation of approved changes to actual changes made to the property tax system would help ensure changes are proper.

Recommendations

- 3.1 The County Collector prepare complete and accurate annual settlements.
- 3.2 The County Clerk prepare the current tax books, or at a minimum, verify the accuracy of the tax books prior to charging the County Collector with the property tax amounts to be collected. Procedures performed should be adequately documented.
- 3.3 The County Clerk and the County Auditor work together to maintain an account book with the County Collector. In addition, the County Clerk, the County Auditor, and the County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.
- 3.4 The County Commission and the County Clerk develop procedures to ensure all property tax changes are properly approved and monitored. In addition, the County Collector should ensure property tax system access rights are limited to only what is needed for the users to perform their job duties and responsibilities.

Auditee's Response

- 3.1 *The County Collector will work to prepare complete and accurate annual settlements in the future.*
- 3.2 *The County Clerk, with the assistance of the County Auditor, will verify the accuracy of the tax books prior to charging the County Collector with the property tax amounts to be collected. Procedures performed will be documented.*

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

- 3.3 *The County Clerk and/or the County Auditor will maintain an account book and will work with the County Commission to review the accuracy and completeness of the County Collector's annual settlement. Procedures and processes for this are already being discussed between the offices involved.*
- 3.4 *The County Commission is currently accepting all personal property tax changes by court order on a monthly basis. These changes are given to the County Commissioners in the form of a report prepared by the County Assessor. The County Commission, along with the County Clerk and the County Auditor, are currently working on procedures to ensure all property tax changes (including personal property and real estate property) are properly monitored and that changes are consistent between the County Assessor's and the County Collector's software systems. The County Collector currently has new office software out for bid and will ensure that the new system offers limited access rights to only what is needed for users to perform their specific job duties and responsibilities. The County Collector will also ensure that the new software has an adequate audit reporting trail of any changes made in the system.*

4. County Collector's Controls and Procedures

4.1 Segregation of Duties

Significant weaknesses existed in the County Collector's accounting controls and procedures. Property taxes and other monies collected by the County Collector totaled approximately \$44.1 million during the year ended February 28, 2018.

Accounting duties were not adequately segregated and independent reviews of accounting and bank records were not performed. The County Collector and all deputy collectors performed the duties of receiving and recording real estate and personal property tax collections. The Chief Deputy Collector typically prepared the daily deposit and the monthly property tax distributions.

The County Collector was primarily responsible for taking deposits to the bank; all receiving, recording and disbursement duties relating to railroad and utility property taxes; preparation of the monthly bank reconciliation and list of liabilities for the general account; and preparation of the annual settlement. The County Collector was also primarily responsible for most duties relating to the installment account, including preparing disbursements, maintaining the general ledger, and preparing the monthly bank reconciliation and list of liabilities, with no independent review. Prior to 2015, office procedures required a second signature by the County Auditor or Deputy County Auditor on checks issued from the installment account; however, the County Collector changed that procedure in January 2015 when a new County Auditor took office. Only one signature, usually the County Collector's, was applied to all checks after the change.

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, depositing, disbursing, and reconciling monies. In addition, documented independent reviews of detailed accounting and bank records are essential and should include comparing daily receipt activity to deposits.

4.2 Unrecorded property tax collections

The County Collector did not record property tax collections totaling \$217,936, in the property tax records. This total includes railroad and utility property tax collections totaling \$143,163 and real estate property tax collections totaling \$74,773. Since these monies were not reported as collections in the property tax records, they were not subsequently disbursed in accordance with state law and the various political subdivisions did not receive their share of these tax collections. The following table illustrates how these monies should have been distributed had they been properly recorded, deposited, and distributed.

Political Subdivision	Amount	Percentage of Total
School districts	\$ 154,891	71.1
County	23,462	10.8
Cities	9,195	4.2
Library district	7,861	3.6
Fire district	5,323	2.5
State	1,179	0.5
Others	7,486	3.4
Subtotal	209,397	
Penalties and interest	8,539	3.9
Total	\$ 217,936	100.0

As discussed in MAR finding number 1, these unrecorded property tax collections were deposited or transferred into the installment account apparently to replace monies that had been improperly disbursed from the installment account. For details regarding these property tax collections, see Appendix D. In addition, because these property tax collections were not recorded in the property tax records, these taxpayers did not receive credit for their tax payments.

Section 139.210.2, RSMo, requires all collections to be distributed to the political subdivisions by the fifteenth day of the following month, and Sections 151.150, 151.260, 153.030, and 155.060, RSMo, govern the distribution of railroad and utility property tax collections. In addition, the property tax accounts relating to the taxpayers with the unrecorded collections should be reviewed and adjustments made as determined necessary, to ensure taxpayer balances are accurate.

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

4.3 Unsupported transfers

The County Collector made unsupported transfers totaling \$76,778 from the general account to the installment account between January 2018 and March 2018. The transfers included undistributed railroad and utility property tax receipts totaling \$27,584, a previously distributed railroad and utility property tax receipt of \$18,764, and other collections from the general account totaling \$30,430. For details regarding these transfers, see Appendix D.

These transfers were electronically processed from the general account to the installment account, and no independent review or approval was required for these transfers. The County Collector's office has not established procedures for electronic transfers and office personnel could not provide an explanation as to why these transfers were made.

As discussed in MAR finding number 1, these unsupported transfers were likely made to replace monies that had been improperly disbursed from the installment account. In addition, as a result of transferring \$18,764 in previously distributed railroad and utility property taxes, along with transferring other collections from the general account totaling \$30,430, a shortage of at least \$49,194 was created in the general account balance.

To ensure all property tax collections are properly accounted for, monies received should be deposited and maintained in the appropriate bank account. In addition, the County Collector should establish procedures to ensure all transfers are necessary, independently reviewed, and adequately documented.

4.4 Receipting and cash controls

The County Collector did not have adequate procedures for receipting, recording, reconciling, and depositing monies. In addition, controls over cash handling need improvement.

- Receipt slips were not issued for railroad and utility property tax collections; and bankruptcy, installment, or partial payments.
- Monies were often not deposited intact. As noted in MAR finding number 1, we noted numerous instances where cash receipt collections were replaced with checks issued from the installment account. In addition, the County Collector's office frequently cashed personal checks for county employees and other individuals. For example, personal checks totaling \$780 were cashed and included in the daily deposit for April 8, 2016. The cashed checks included third-party checks totaling \$590 payable to the County Collector's husband and a third-party check for \$170 payable to Pam Oestreich, and a \$20 personal check written for cash by the Chief Deputy Collector. According to property tax system reports for April 8, 2016, only \$698 in cash receipts was collected for the day. Therefore, to have sufficient monies to cash the \$780 in personal checks, some starting cash in the cash drawer would have been used.

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

- The method of payment was not always accurately recorded in the property tax system and the composition of receipts recorded in the property tax system was not reconciled to the composition of deposits. County Collector's office personnel entered the method of payment into the property tax system. However, entry errors and some payments made with multiple payment methods were not documented. In addition, by not reconciling the composition of receipts to deposits, checks issued from the installment account and the general account were used to substitute for cash receipts without detection, as discussed in MAR finding number 1.
- The change fund was not maintained at a constant amount. A cash count of the change fund on March 27, 2018, totaled \$620, but office personnel did not know how much the change fund should have been. In addition, the change fund was used for petty cash purchases and to also replenish the long/short fund when necessary. A cash count of the long/short fund on March 27, 2018, totaled \$23. This fund receives monies from tax payments where the tax bill was overpaid by \$3 or less, and was used to cover shortages in tax payments where the tax bill was underpaid by \$3 or less. No records were maintained to support petty cash disbursements or the use of the long/short fund.
- Employees share multiple cash drawers during the busy tax season and one cash drawer the rest of the year. Because all employees have access to all drawers, there is less assurance the responsible party can be identified in the event of loss, theft or misuse of monies. Access to cash drawers should be restricted to only one person per drawer.

Failure to implement adequate receipting, recording, reconciling, and depositing procedures increases the risk that loss, theft, or misuse of monies received will go undetected. If a change fund is needed, it should be set at a constant amount and a procedure established to reconcile to this amount daily. In addition, the activity of the long/short fund should be documented to ensure this activity is appropriate. Also, access to the cash drawers should be limited to ensure responsibility for any losses or unreconciled differences can be determined.

4.5 Bank reconciliations

Bank reconciliations prepared by the County Collector for the general account were not always complete and accurate, and bank reconciliations for the installment account were not always complete, accurate or timely prepared.

General account

The book balance maintained for the general account combines the balance of the general account, the balance of a bank account used to record tax collections for a local city, and all protested tax certificates of deposit. Because the actual book balance of the general account is not tracked

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

separately, this balance is not readily available and it is difficult to determine whether the available cash balance is sufficient to cover liabilities. As a result, in October 2017, the County Collector was not aware the general account was overdrawn. Bank officials contacted office personnel notifying them of the overdraft as well as to indicate sufficient monies were not available to pay outstanding disbursements. The County Collector's office made a transfer of \$4,000 from the installment account to cover the overdraft and outstanding disbursements. The bank did not charge any fees for the overdraft and office personnel transferred the \$4,000 back to the installment account in January 2018.

The February 2018 bank reconciliation for the general account was not accurate. A deposit in transit of \$462 was included as a reconciling item on the bank reconciliation. Upon further review, we noted this deposit in transit of \$462 had been included on each monthly bank reconciliation since October 2017. As noted on Appendix A, we identified a cash deposit shortage of \$462 on October 19, 2017. The reconciled bank balance was overstated by \$462 for this deposit, which was not taken to the bank.

Installment account

The December 2017 bank reconciliation for the installment account was not complete or accurate. An outstanding check for \$360 was included as a reconciling item on the bank reconciliation and had been reported as an outstanding check on each monthly bank reconciliation since January 2017. This check was found in the installment account records and was originally issued in December 2016, but was voided after issuance. However, the check continued to be incorrectly reported as outstanding each month. Additionally, audit work identified two checks issued to transfer property taxes in November 2017 totaling \$1,711 and one check issued improperly in December 2017 for \$1,500 that had not been included as outstanding checks on the December 2017 bank reconciliation. These checks were also not reported in the installment account's book balance. As a result of these errors in reporting outstanding checks, the installment account reconciled bank balance at December 31, 2017, was overstated by \$2,851.

The County Collector did not prepare bank reconciliations for the installment account for January or February 2018. Based on information from the bank statements and installment account records, we calculated the reconciled bank balance at February 28, 2018, to be negative \$1,751; however, due to an outstanding check of \$3,000, the account balance was not overdrawn.

Conclusion

The preparation of complete and accurate monthly bank reconciliations and an adequate review of the reconciliations is necessary to ensure all monies have been properly deposited, accounting records are in balance, and to identify errors timely. Prompt follow up on differences and correction of errors is necessary to ensure monies are properly handled. The County Collector should consider maintaining a separate book balance just for the

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

general account that does not include the local city bank account and the protested tax certificates of deposit to ensure shortages are readily identified.

4.6 Liabilities

The lists of liabilities prepared by the County Collector for the general and installment accounts were not complete and accurate. In addition, the lists included unsupported reconciling items.

General account

The February 2018 list of liabilities for the general account contained numerous errors and unsupported reconciling items. For example:

- No documentation was found to support a reconciling item for \$14,430 labeled as "deposit." A transfer for this amount was subsequently made from the general account to the installment account on March 1, 2018. There was also no documentation or explanation to support the transfer.
- Tax disbursements for February 2018 totaled \$575,312 while the amount reported on the open items listing was \$573,470, for a difference of \$1,842.
- No documentation was found to support a reconciling item for \$4,110 labeled as "railroad and utility." No railroad and utility tax activity or deposit item agreed to this amount.
- No explanation for a reconciling item identified as "American Express monthly fee" for \$100 could be provided.
- The list of liabilities also included numerous other reconciling items such as deposit and disbursement corrections, duplicate credit card transactions, and unidentified balance corrections. The County Collector improperly resolved these reconciling items by offsetting them against the interest distribution calculation for the year ended February 28, 2018. As a result, 10 reconciling items, with a net total of negative \$117, decreased the total interest amount distributed to the political subdivisions.

Installment account

We noted the following concerns with the list of liabilities for the installment account:

- The December 2017 list of liabilities included a negative \$13,110 unidentified reconciling item, that was likely included as a means to balance the liabilities listing with the reconciled bank balance.
- The County Collector did not prepare a list of liabilities for the installment account for January or February 2018. Using installment account records and bank statements for January, February, and March 2018, we prepared a list of liabilities and compared it to the bank balance.

Callaway County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

As of March 15, 2018, liabilities exceeded the available cash balance by \$15,006. This shortage is a result of the improper activity involving the installment account discussed in MAR finding number 1.

Conclusion

Accurate lists of liabilities should be prepared monthly for the general account and the installment account, and reconciled to cash balances to ensure sufficient cash is available for the payment of all amounts due and all monies in the bank account can be identified. Prompt follow up on differences is necessary to resolve errors and ensure monies are properly disbursed.

4.7 Numerical sequence of checks

The County Collector did not issue checks in numerical sequence for the installment account.

The County Collector did not always use the next check in the numerical sequence when preparing checks for the installment account. For example, check number 1100 was issued on January 17, 2017, check number 1433 was issued on January 18, 2017, and check number 1435 was issued on January 17, 2017. Counter checks numbered 4, 5, and 6, were used in May 2017, followed by check number 1151.

To ensure all checks are issued only for authorized purposes, checks should be issued in numerical sequence and the sequence should be accounted for properly.

Recommendations

The County Collector:

- 4.1 Segregate accounting duties and ensure documented independent reviews of detailed accounting and bank records are performed.
- 4.2 Ensure all property tax collections are promptly and accurately recorded in the property tax records and disbursed in accordance with state law. In addition, the property tax accounts relating to the taxpayers with the unrecorded collections should be reviewed to ensure taxpayer balances are accurate.
- 4.3 Establish review and approval procedures to ensure transfers are necessary and adequately documented.
- 4.4 Ensure all monies collected are properly receipted, record the method of payment accurately, and reconcile the composition of receipts to the composition of deposits. In addition, the County Collector should discontinue the practice of cashing personal checks, and improve cash handling procedures by maintaining the change fund at a constant amount, documenting the activity of the long/short fund, and limiting access to the cash drawers.

Callaway County Collector and Property Tax System
Management Advisory Report - State Auditor's Findings

- 4.5 Prepare accurate and timely bank reconciliations and maintain an appropriate book balance for each bank account. Any differences should be investigated and promptly resolved.
- 4.6 Prepare accurate lists of liabilities monthly and agree the reconciled bank balances to the liabilities lists. Any differences should be investigated and promptly resolved.
- 4.7 Issue checks in numerical sequence and account for the numerical sequence of checks issued.

Auditee's Response

- 4.1 *The County Collector's office will segregate duties as recommended by the State Auditor's Office, and will ensure documented independent reviews are performed.*
- 4.2 *All property tax collections will be promptly and accurately recorded in the property tax records and disbursed as state law dictates. The property tax accounts will be reviewed and adjustments made as determined necessary.*
- 4.3 *The County Collector's office will put in place review and approval procedures to make sure all transfers are necessary and properly documented.*
- 4.4 *The County Collector's office will ensure that all monies collected are accurately recorded and reconciled. The office is no longer cashing personal checks as recommended by the State Auditor's Office. Cash handling procedures will be improved to maintain a constant amount in the change fund. Activity out of the long/short fund will be documented. Access to the cash drawers will be limited to one person per drawer when possible.*
- 4.5 *The County Collector's office will maintain an accurate book balance for each bank account. Bank reconciliations will be performed timely. Differences will be investigated and resolved promptly.*
- 4.6 *Accurate lists of liabilities will be prepared monthly and bank balances will be reconciled to the liabilities list. If there is a difference, a prompt investigation will be made with an immediate plan to resolve.*
- 4.7 *Checks will be issued in numerical sequence followed by proper accounting for the numerical sequence of all checks issued.*

- (1) No check from the installment account, general account, or any other type of deposit was found to substitute for the cash shortage.
- (2) This check was deposited into the general account via remote deposit.
- (3) Cash amount has been increased for an error of \$0.06 on the daily balance sheet.
- (4) Cash amount has been decreased for an error of \$100.00 on the daily balance sheet.
- (5) For this deposit, checks were issued from both the installment account and the general account to substitute for the cash shortage.
- (6) Check number 6129 for \$1,451.68 was issued from the general account to substitute for the cash deposit amounts for September 19, 2016, (\$502.62) and October 4, 2016, (\$949.06); however, the actual cash shortage for these dates totaled \$1,402.62, therefore, the check from the general account exceeded the cash shortage by \$49.06.

Appendix B

Callaway County Collector and Property Tax System
Supporting Documentation - Cash Receipt Shortages - General Account
January 1, 2016, through March 15, 2018

Note: The term "check" in this table includes checks, cashier's checks, and money orders.

* Credit card receipts are electronically deposited into the bank account.

** Long/(short) amounts are mostly due to the substitution of checks from the installment account for cash. However, also contributing to the long/(short) amounts are common and expected differences due to the County Collector's office cashing checks from county employees, errors due to entering the incorrect method of payment into the property tax system, payments made using a combination of payment methods, and over/under payments.

3/9/2018	16,000.00	(2) Transfer from the general account (unknown property tax collections)	Unknown
Total	\$ <u>267,130.05</u>		

Recap by status:

	Amount	Status
	\$ 115,579.29	Deposits of undistributed railroad and utility property taxes
	27,583.73	Transfers of undistributed railroad and utility property taxes
Subtotal	143,163.02	Total undistributed railroad and utility property taxes
	74,773.20	Deposit of undistributed real estate property taxes
Subtotal	217,936.22	Total amounts due to various political subdivisions
	18,763.83	Transfer of distributed railroad and utility property taxes
	30,430.00	Transfers of unknown property tax collections
Total	\$ <u>267,130.05</u>	

- (1) These railroad and utility property taxes were first deposited into the general account in December 2017, then distributed to various political subdivisions as part of the January 2018 monthly distribution, but then also electronically transferred to the installment account on January 17, 2018.
- (2) These monies were first deposited into the general account and then electronically transferred to the installment account.
- (3) A railroad and utility property tax payment of \$25,475.30 was split between a deposit into the installment account of \$8,539.18, and a deposit into the general account of \$16,936.12 on January 31, 2018. The \$16,936.12 deposited into the general account was subsequently transferred to the installment account on February 21, 2018.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Lewis County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Lewis County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the year ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Lewis County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Lewis County, Missouri, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise Lewis County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Lewis County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

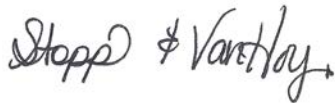

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Lewis County, Missouri as of December 31, 2017, or changes in financial position thereof for the year then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Lewis County, Missouri as of December 31, 2017, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 9, 2018 on our consideration of Lewis County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Lewis County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lewis County, Missouri's internal control over financial reporting and compliance.

**The County of Lewis
Monticello, Missouri
Notes to the Financial Statements
For the year ended December 31, 2017**

Note 1 - Summary of Significant Accounting Policies

The County of Lewis, Missouri ("County") was established in 1833. The County's is a county-organized, third-class county. The county seat is Monticello. The County's government is composed of a three-member board of commissioners and the following separately elected Constitutional Officers: Assessor, Circuit Clerk, County Clerk, Collector, Coroner, Treasurer, Recorder of Deeds, Sheriff, Surveyor, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts administration, recording of deeds and other instruments, public safety, economic development, road and bridge maintenance, public welfare, and social and human services.

The financial statements referred to above include only the primary government of Lewis County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements and are unaudited.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of the County and the comparisons of such information with the corresponding budgeted information for all funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**The County of Lewis
Monticello, Missouri
Notes to the Financial Statements
For the year ended December 31, 2017**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

Budgets are prepared and adopted on the cash basis of accounting.

**The County of Lewis
Monticello, Missouri
Notes to the Financial Statements
For the year ended December 31, 2017**

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2017 for the purposes of taxation was:

	<u>General Revenue</u>	<u>Special Road and Bridge</u>
Real Estate	\$ 79,790,760	\$ 44,541,260
Personal Property	42,160,570	23,854,630
Railroad and Utilities	21,281,456	13,526,454
	<u>\$ 143,232,786</u>	<u>\$ 81,922,344</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2017 for the purpose of County taxation, was as follows:

General Revenue	\$ 0.2685
Special Road and Bridge	0.2561

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

**The County of Lewis
Monticello, Missouri
Notes to the Financial Statements
For the year ended December 31, 2017**

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents".

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2017, as follows:

	<u>Carrying Value</u>	<u>Bank Balances</u>
Deposits	\$ 1,985,516	\$ 2,324,492
Investments	<u>-</u>	<u>-</u>
Total Deposits and Investments as of December 31, 2017	<u>\$ 1,985,516</u>	<u>\$ 2,324,492</u>

Note: The bank balances provided are inclusive of all funds of the County, and as such, may also include balances of unaudited funds which are not included in the scope of this report.

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2017; all deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

**The County of Lewis
Monticello, Missouri
Notes to the Financial Statements
For the year ended December 31, 2017**

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

Note 3 - Capital Leases

In August 2010, the county entered into a lease-purchase agreement to finance the purchase of a 2010 John Deere 770G Motor Grader at a cost of \$152,298, net of trade-in. The agreement requires seven annual payments of \$25,688, which includes interest payable annually at 4.25%. The lease was paid off in 2017.

In June 2012, the county entered into a lease-purchase agreement to finance the purchase of a 2012 John Deere 770G Motor Grader at a cost of \$199,236, net of trade-in. The agreement requires seven annual payments of \$25,241, which includes interest payable at 2.80%.

In March 2017, the County entered into a lease-purchase agreement to finance the purchase of a 2017 John Deere 770G Motor Grader at a cost of \$173,964, net of trade-in. The agreement requires four annual payments of \$36,303, which includes interest payable at 3.25%.

The following is the changes in long-term debt for the year ended December 31, 2017:

	Balance at 1/1/2017	Amount Borrowed	Amount Repaid	Balance at 12/31/2017	Interest Paid During Year
2010 770G John Deere Grader	\$ 24,622	\$ -	\$ (24,622)	\$ -	\$ 1,066
2012 770G John Deere Grader	71,624	-	(23,210)	48,414	2,031
2017 770G John Deere Grader	-	173,964	(40,000)	133,964	-
	<u>\$ 96,246</u>	<u>\$ 173,964</u>	<u>\$ (87,832)</u>	<u>\$ 182,378</u>	<u>\$ 3,097</u>

**The County of Lewis
Monticello, Missouri
Notes to the Financial Statements
For the year ended December 31, 2017**

Note 3 - Capital Leases (continued)

The following is the future minimum payments for all leases obligations as of December 31, 2017:

2012 770G John Deere Grader			
Year Ending December 31,	Principal	Interest	Total
2018	\$ 23,868	\$ 1,373	\$ 25,241
2019	24,546	695	25,241
Total	<u>\$ 48,414</u>	<u>\$ 2,068</u>	<u>\$ 50,482</u>

2017 770G John Deere Grader			
Year Ending December 31,	Principal	Interest	Total
2018	\$ 31,883	\$ 4,420	\$ 36,303
2019	32,935	3,368	36,303
2020	34,021	2,282	36,303
2021	35,145	1,158	36,303
Total	<u>\$ 133,984</u>	<u>\$ 11,228</u>	<u>\$ 145,212</u>

Note 4 - Interfund Transfers

Transfers between funds for the year ended December 31, 2017 are as follows:

Fund	Transfers In	Transfers Out
General Revenue Fund	\$ -	\$ 402,500
Assessment Fund	22,500	-
Law Enforcement Operating Fund	380,000	-
	<u>\$ 402,500</u>	<u>\$ 402,500</u>

Note 5 - Local Government Employees Retirement System (LAGERS)

Plan Description

The County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, RSMo. Sections 70.600-70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publically available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri, 65102, by calling (800) 447-4334, or by visiting the LAGERS website at www.molagers.org.

**The County of Lewis
Monticello, Missouri
Notes to the Financial Statements
For the year ended December 31, 2017**

Note 5 - Local Government Employees Retirement System (LAGERS) (continued)

Benefits Provided

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police) and early retirement age is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and the amount of credited service time.

Contributions

Full-time employees of the County do not contribute to the pension plan. The January 1st statutorily required employer contribution rates were 9.4% (General) and 9.4% (Police) of annual covered payroll for the year ended December 31, 2017. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2017, the County contributed \$111,865 to LAGERS.

Note 6 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under RSMo. Sections 56.800 to 56.840, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under RSMo. Sections 57.949 to 57.997, and certain personnel not defined as an employee per RSMo. Section 50.1000(8). The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

**The County of Lewis
Monticello, Missouri
Notes to the Financial Statements
For the year ended December 31, 2017**

Note 6 - State of Missouri County Employees Retirement Fund (CERF) (continued)

Contributions

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to CERF. All participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. During 2017, the County collected and remitted to CERF employee contributions of \$29,497 for the year ended.

Note 7 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, the County contributes annually (instead of monthly) to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 for the year ended December 31, 2017.

Note 8 - Post-Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County collected and remitted \$8,703 of premiums on behalf of participants for the year ended December 31, 2017.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceeding covering a wide range of matters that arise in the ordinary course of its business activities. The County is not currently involved in any pending litigation.

Compensated Absences

The County provides employees with up to 15 days of paid vacation based upon the number of years of continuous service. Employees receive five days of vacation after the first year of service, ten days of vacation per year after two years of employment, 15 days of vacation per year after seven years of employment. Vacation days do not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue one sick day per month. The county allows employees to have a maximum of thirty days. However, upon termination, employees do not get reimbursed for sick leave. These have not been subjected to auditing procedures.

**The County of Lewis
Monticello, Missouri
Notes to the Financial Statements
For the year ended December 31, 2017**

Note 9 - Claims, Commitments, and Contingencies (continued)

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make specific assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through August 9, 2018, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

To the County Commission and
Officeholders of Lewis County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Lewis County, Missouri as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise Lewis County, Missouri's basic financial statements, and have issued our report thereon dated August 9, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lewis County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lewis County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Lewis County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses that we consider to a significant deficiency as item 2017-001.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lewis County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Lewis County, Missouri's Response to Findings

Lewis County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. Lewis County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in dark ink, appearing to read "Stopp & VanHoy", with a stylized flourish at the end.

Creve Coeur, Missouri
August 9, 2018

**The County of Lewis
Monticello, Missouri
Schedule of Findings and Responses
For the year ended December 31, 2017**

Financial Statement Findings

2017 - 001 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County Clerk will work with the Treasurer and the County Commission to develop risk assessment procedures to address fraud risk within the County. The County Clerk's office expects to complete the development of procedures by December 31, 2018. The County Clerk is Chris Flanagan and the contact number is (573) 767-5205.

**The County of Lewis
Monticello, Missouri
Summary Schedule of Prior Year Findings and Responses
For the year ended December 31, 2017**

In accordance with Government Auditing Standards, this section reports the auditor's follow-up on action taken by Lewis County, Missouri, on the applicable findings in the prior audit report issued for the years ended December 31, 2016 and 2015.

Prior Year Financial Statement Findings

FS 16/15-001 **Condition:** Actual expenditures exceeded budgeted expenditures for two funds in 2016. The detailed list of funds can be found in Note 1.D. to the financial statements. RSMo. 50.740 prohibits expenditures in excess of the approved budgets. Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County strictly adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget.

Management's response and planned corrective actions: The County accepts the recommendation and will make the necessary changes. The County Clerk is Chris Flanagan, and the office number is (573) 767-5205.

Status: Management has corrected this issue.

FS 16/15-002 **Condition:** Budgeted expenditures exceeded budgeted revenues plus anticipated beginning fund balance for one fund in 2016 and three funds in 2015. Budgeted expenditures exceeded budgeted revenues for multiple funds in 2016 and 2015. The detailed list of funds can be found in Note 1.D. to the financial statements. RSMo. 50.740 prohibits budgeted expenditures in excess of budgeted revenues plus anticipated beginning fund balance. Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County refrain from adopting a budget with a deficit fund balance.

Management's response and planned corrective actions: The County accepts the recommendation and will make the necessary changes. The County Clerk is Chris Flanagan, and the office number is (573) 767-5205.

Status: Management has corrected this issue.

Prior Year Federal Award Finding and Questioned Costs

SA 16/15-001	Federal Grantor:	U.S. Department of Transportation
	Pass-Through Grantor:	Highway and Transportation Commission
	Federal CFDA Number:	20.205
	Program Title:	Highway Planning and Construction
	Pass-through Entity	
	Identifying Number:	BRO-56
	Award Year:	2016
	Questioned Costs:	None

**The County of Lewis
Monticello, Missouri
Summary Schedule of Prior Year Findings and Responses
For the year ended December 31, 2017**

Prior Year Federal Award Finding and Questioned Costs (continued)

SA 16/15-001 **Criteria:** Title 2 U.S. Code of Federal Regulations Part 200 requires auditees to prepare an accurate SEFA
(cont.) containing awards expended, CFDA title and number, award number, name of the Federal agency, and name of the
pass-through entity.

Condition: The Schedule of Expenditures of Federal Awards (SEFA) contained errors for CFDA number 20.205.

Effect: Federal expenditures reported in the SEFA were incorrect.

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Recommendation: We recommend management develop internal controls over reporting to ensure an accurate SEFA is prepared.

Management's response and planned corrective actions: Title 2 U.S. Code of Federal Regulations Part 200 is being reviewed and training sessions will be initiated by the County Clerk's office. The County Clerk is working towards capturing grant transactions in a manner sufficient to readily report the necessary information required on the SEFA by the next audit period. The County Clerk is Chris Flanagan, and the office number is (573) 767-5205.

Status: This finding is no longer applicable.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Osage County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Osage County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Osage County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Osage County, Missouri, as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Osage County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Osage County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Osage County, Missouri as of December 31, 2017 and 2016, or changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Osage County, Missouri as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated August 1, 2018 on our consideration of Osage County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Osage County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Osage County, Missouri's internal control over financial reporting and compliance.

**The County of Osage
Linn, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 1 - Summary of Significant Accounting Policies

Organized in 1841, the County of Osage was created by an Act of the Missouri Territory. It is a third-class county, and the county seat is Linn. Osage County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Osage County, Missouri.

Osage County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Osage County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise Osage County's legal entity. The Osage County Senate Bill B40 Board is controlled by a separate board which has issued separately audited financial statements. For information, please contact the Osage County Senate Bill 40 Board by calling (573) 897-3095 (or write to 205 East Main Street, Linn, Missouri 65051).

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements and are unaudited.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Osage County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the County's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

**The County of Osage
Linn, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

If Osage County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, Osage County adopts a budget for each governmental fund.

On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

Budgets are prepared and adopted on the cash basis of accounting.

During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures that exceeded the budgeted expenditures in 2017: Emergency Management Fund, Law Enforcement Training Fund, Recorder Technology Fund, Prosecuting Attorney Administrative Handling Fund, Prosecutor Training Fund, and Inmate Security Fund. The following funds had actual expenditures that exceeded the budgeted expenditures in 2016: Emergency Management Fund and Inmate Security Fund. The following fund did not have a prepared budget for 2017 or 2016: Special Elections Fund.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within Osage County's boundaries for the calendar year 2017 and 2016, respectively, for the purposes of County taxation was as follows:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 137,020,665	\$ 127,633,590
Personal Property	50,591,818	48,845,955
Railroad and Utilities	30,584,111	31,529,234
	<u>\$ 218,196,594</u>	<u>\$ 208,008,779</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2017 and 2016, respectively, for the purpose of County taxation, was as follows:

	<u>2017</u>	<u>2016</u>
General Revenue Fund	\$ 0.0622	\$ 0.0692
Special Road and Bridge Fund	0.2130	0.2154

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Osage County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

The County of Osage
Linn, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Osage County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents".

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The bank balances and carrying values of deposits and investments shown below are included in the financial statements at December 31, 2017, as follows:

	<u>Carrying Value</u>	<u>Bank Balances</u>
Deposits	\$ 2,220,676	\$ 2,333,885
Investments	<u>625,462</u>	<u>625,462</u>
Total Deposits and Investments as of December 31, 2017	<u>\$ 2,846,138</u>	<u>\$ 2,959,347</u>

The bank balances and carrying values of deposits and investments shown below are included in the financial statements at December 31, 2016, as follows:

	<u>Carrying Value</u>	<u>Bank Balances</u>
Deposits	\$ 1,535,263	\$ 1,644,458
Investments	<u>625,462</u>	<u>625,462</u>
Total Deposits and Investments as of December 31, 2016	<u>\$ 2,160,725</u>	<u>\$ 2,269,920</u>

Note: Bank balances are inclusive of all funds of Osage County, and as such, include balances of unaudited funds which are not included in the scope of this report.

The County of Osage
Linn, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2017 and 2016, 100% of Osage County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Osage County or its agent but not in the government's name. Osage County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of Osage County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Osage County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by Osage County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). Osage County has no policy in place to minimize the risk of loss resulting from over concentration of assets of a specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	2017 Balance	% of Portfolio	2016 Balance	% of Portfolio
Legends Bank	Cert. of Deposit	\$ 100,000	16.0%	\$ 100,000	16.0%
Legends Bank	Cert. of Deposit	100,000	16.0%	100,000	16.0%
Legends Bank	Cert. of Deposit	100,000	16.0%	100,000	16.0%
Legends Bank	Cert. of Deposit	100,000	16.0%	100,000	16.0%
Legends Bank	Cert. of Deposit	100,000	16.0%	100,000	16.0%
Legends Bank	Cert. of Deposit	101,462	16.2%	101,462	16.2%
		<u>\$ 601,462</u>		<u>\$ 601,462</u>

Note 4 - Long-Term Debt

Capital Leases

On February 25, 2009, Osage County entered into a cancelable lease purchase agreement with Legends Bank. The lease purchase is for \$1,665,000 with a maturity date of January 2018. The lease purchase agreement calls for monthly payments of \$16,730, which includes interest of 3.5%. The proceeds of the lease purchase were used to renovate the county courthouse. The County paid this lease purchase off in 2017 ahead of schedule.

On June 6, 2013, Osage County entered into a cancelable lease purchase agreement with Legends Bank. The lease purchase is for \$134,332 with a maturity date of June 2017. The lease purchase agreement calls for 48 monthly payments of \$2,990, which includes interest of 3.25%. The proceeds of the lease purchase were used to purchase 6 police vehicles.

On January 1, 2015, Osage County entered into a cancelable lease purchase agreement with FS Leasing. The lease purchase is for \$1,587,800 with a maturity date of October 2027. The lease purchase agreement calls for 26 semi-annual payments of unequal amounts, which includes interest of 3.25%. The proceeds of the lease purchase were used to refund the Series 2009 Certificates of Participation.

On August 5, 2015, Osage County entered into a cancelable lease purchase agreement with Legends Bank. The lease purchase is for \$76,747 with a maturity date of August 2017. The lease purchase agreement calls for 24 monthly payments of \$3,304, which includes interest of 3%. The proceeds of the lease purchase were used to purchase 911 equipment.

On February 28, 2017, Osage County entered into a cancelable lease purchase agreement with Legends Bank. The lease purchase is for \$90,008 with a maturity date of January 2020. The lease purchase agreement calls for 32 monthly payments of \$2,990, which includes interest of 3.75%. The proceeds of the lease purchase were used to purchase 3 police vehicles.

Although the agreements provide cancellation of the leases if the County should fail to appropriate funds at the annual renewal dates, the County does not foresee exercising its option to cancel.

Note 6 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under RSMo. Sections 56.800 to 56.840, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under RSMo. Sections 57.949 to 57.997, and certain personnel not defined as an employee per RSMo. Section 50.1000(8). The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

**The County of Osage
Linn, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 6 - County Employees' Retirement Fund (CERF) (continued)

Benefits Provided (continued)

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

In accordance with state statutes, the plan is funded through various fees collected by counties and remitted to the CERF. Eligible employees hired before February 2002 are required to contribute 2% of their annual salary, while employees hired after February 2002 are required to contribute 6% of their annual salary in order to participate in CERF. During 2017 and 2016, the County collected and remitted to CERF, employee contributions of \$87,212 and \$86,343, respectively, for the years then ended.

Note 7 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, Osage County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. Osage County has contributed \$3,366 and \$3,366, respectively, for the years ended December 31, 2017 and 2016.

Note 8 - Other Retirement Plan

Osage County have voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which is paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2017 and 2016 for the 457 plan were \$32,207 and \$35,811, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2017 and 2016 for the 401(a) plan were \$11,307 and \$11,408, respectively.

Note 9 - Post-Employment Benefits

Osage County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by Osage County.

Note 10 - Claims, Commitments and Contingencies

Litigation

The County is subject to various claims and legal proceeding covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

**The County of Osage
Linn, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 10 - Claims, Commitments and Contingencies (continued)

Compensated Absences

The County provides employees with up to 24 days of paid vacation based upon the number of years of continuous service. Vacation days do carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue eight hours of sick leave per month for a total of twelve days for the year. The County allows employees to carry forward any and all unused sick leave up to 720 hours. However, upon termination, employees do not get reimbursed for sick leave. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 11 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 12 - Subsequent Events

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through August 1, 2018, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

To the County Commission and
Officeholders of Osage County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Osage County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Osage County, Missouri's basic financial statements, and have issued our report thereon dated August 1, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Osage County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Osage County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Osage County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies as items 2017-002 and 2017-003.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Osage County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the accompanying schedule of findings and responses as item 2017-001.

Osage County, Missouri's Responses to Findings

Osage County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Osage County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in dark ink, appearing to read "Stopp & VanHoy", with a stylized flourish at the end.

Creve Coeur, Missouri
August 1, 2018

**The County of Osage
Linn, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2017 & 2016**

Financial Statement Findings

2017-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget and funds are not to be budgeted at a deficit.

Condition: During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures that exceeded the budgeted expenditures in 2017: Emergency Management Fund, Law Enforcement Training Fund, Recorder Technology Fund, Prosecuting Attorney Administrative Handling Fund, Prosecutor Training Fund, and Inmate Security Fund. The following funds had actual expenditures that exceeded the budgeted expenditures in 2016: Emergency Management Fund and Inmate Security Fund. The following fund did not have a prepared budget for 2017 or 2016: Special Elections Fund.

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds and not preparing budgets for certain funds.

Cause: Oversight

Recommendation: We recommend that the County adopt a budget for all funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Commission, County Treasurer, and County Clerk will review all funds throughout the year and make all necessary budget amendments as necessary in accordance with the Mo Revised Statutes. The expected completion date is December 31, 2018. The phone number for the County Clerk is (573) 897-2139.

2017-002 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2018. The phone number for the County Clerk is (573) 897-2139.

**The County of Osage
Linn, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2017 & 2016**

Financial Statement Findings (continued)

2017-003 **Criteria:** Management of the County is responsible for establishing and maintaining internal controls in the financial reporting system and for the fair presentation of the financial statements.

Condition: During our audit we were required to make several material audit adjustments to cash and revenue to ensure the financial statements of the County were not misstated. The County has not been reporting the value of certificates of deposits within the available cash balance on the budgets.

Effect: Due to errors reported in cash and revenue, the 2017 and 2016 financial statements of the County were misstated.

Cause: Lack of controls over financial reporting.

Recommendation: We recommend management of the County develop controls over financial reporting to ensure cash and revenue are be accurately reported.

Management's Response: The County Clerk and County Treasurer will work together to ensure that cash and revenue are accurately reported in the financial statements. The phone number for the County Clerk is (573) 897-2139.

**The County of Osage
Linn, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2017 & 2016**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Osage County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2013 & 2012.

Prior Year Financial Statement Findings

FS 13/12-01 **Criteria:** Statement on Auditing Standards (SAS) No. 115, Communicating Internal Control Related Matters Identified in an Audit, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, Statements on Auditing Standards: Clarification and Recodification, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County will begin the process of internal control documentation in 2014 with the direction from the County Commission. The County Clerk's (Patrick Steele) office phone number is (573) 897-2139.

Status: Management has corrected this issue.

FS 13/12-02 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the County's walkthroughs, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

**The County of Osage
Linn, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2017 & 2016**

Prior Year Financial Statement Findings (continued)

FS 13/12-02 **Cause:** Management has not prepared documentation of risk assessments, including identified risks and mitigating (cont.) controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Management's Response: The County will begin the process of fraud risk assessment documentation in 2014 with the direction from the County Commission. The County Clerk's (Patrick Steele) office phone number is (573) 897-2139.

Status: Management has not corrected this issue and the finding is repeated as finding 2017-002 in the current year.

FS 13/12-03 **Criteria:** SAS No. 55, Consideration of Internal Control in a Financial Statement Audit, as amended by SAS No. 78, Consideration of Internal Control in a Financial Statement Audit: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties within the office of the Collector and Treasurer.

Context: During the engagement, we noted that an individual is allowed to receive, record, deposit, as well as write, approve, sign and reconcile expenditures and receipts to the bank statement.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within each of the corresponding departments.

Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Management's Response: The County Collector's (Doris Keilholz) office and the County Treasurer's (Tim Neuner) has informed us that the County will look into making proper segregation of duties within their offices. The Collector's office phone number is 573-897-3706 and the Treasurer's office phone number is 573-897-3095.

Status: Management has corrected this issue.

**The County of Osage
Linn, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2017 & 2016**

Prior Year Federal Award Findings and Questioned Cost

SA 13/12-01 Federal Grantor: U.S. Department of Housing and Urban Development
Pass-Through Grantor: Missouri Department of Economic Development
Federal CFDA Number: 14.228
Program Title: Community Development Block Grant

Information on the federal program: The County was non-compliant with the sub-recipient monitoring requirement set forth by OMB Circular A-133.

Criteria: OMB Circular A-133 requires that pass-through entities monitor the activities of sub-recipients to ensure compliance with laws, regulations and the provisions of contracts or grant agreements.

Condition: During our testing of CDBG funds, we noted that the County did not monitor the sub-recipient's activities performed for the requirements of the Davis-Bacon Act and procurement and suspension and debarment.

Questioned Cost: Not applicable

Context: During our testing of compliance, we noted that the County did not monitor the sub-recipient's activities relating to the requirements of the Davis-Bacon Act and procurement and suspension and debarment.

Effect: The County was non-compliant with the sub-recipient monitoring requirement.

Cause: County personnel were not aware of monitoring responsibilities beyond obtaining and approving invoices.

Recommendation: The County should review the activities of the sub-recipient to ensure that the Davis-Bacon Act is being followed and that entities being used are not on the suspension and debarment list.

Management's Response: Going forward the County Clerk's (Patrick Steele) office will require clarification of monitoring processes, procedures and reimbursement. His phone number is (573) 897-2139.

Status: This finding is no longer applicable.

**The County of Osage
Linn, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2017 & 2016**

Prior Year Federal Award Findings and Questioned Cost (continued)

SA 13/12-02 Federal Grantor:	U.S. Department of Agriculture, U.S. Department of Interior, U.S. Department of Transportation, U.S. Department of Health and Human Services, and U.S. Department of Homeland
Pass-Through Grantor:	Department of Health and Senior Services, Office of Homeland Security Grants and Training, Missouri Department of Public Safety, and Highway and Transportation Commission
Federal CFDA Number:	All programs except 14.228
Program Title:	All programs except CDBG

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: OMB Circular A-133 requires the auditee to prepare the Schedule of Federal Expenditures and Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Cost: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by Governmental Accounting and Financial Reporting Standards.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements.

Management's Response: The County Clerk's (Patrick Steele) office will focus more attention on defining sources of funds going forward. His phone number is (573) 897-2139.

Status: This finding is no longer applicable.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Dallas County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Dallas County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Comparative Schedules of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Dallas County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Dallas County, Missouri, as of December 31, 2017 and 2016, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Dallas County, Missouri, as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 8, 2018, on our consideration of Dallas County, Missouri’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County’s internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of these statements.

DALLAS COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Dallas County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Collector, Circuit Clerk, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Dallas County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

Certain elected County officials, particularly the Collector and Treasurer, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	<u>2017</u>	<u>2016</u>
Assessment	✓	✓
Law Enforcement Restitution	N/A	✓
Sheriff's Revolving	N/A	✓
Special Election	✓	✓

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in October, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation were:

	2017	2016
Real Estate	\$ 121,170,520	\$ 112,486,620
Personal Property	35,294,826	34,418,693
Railroad and Utilities	16,580,040	16,704,001
Total	<u>\$ 173,045,386</u>	<u>\$ 163,609,314</u>

For calendar years 2017 and 2016, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2017	2016
General Revenue	\$ 0.1581	\$ 0.1586
Special Road & Bridge	0.2594	0.2659
Senior Citizens Tax	0.0500	-

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalents balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents includes deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017 and 2016, the carrying amounts of the County's deposits were \$1,380,863 and \$1,232,684, respectively, and the bank balances were \$2,715,745 and \$2,090,637, respectively. Of the bank balances, \$509,416 for December 31, 2017 and \$506,297 for December 31, 2016, were covered by federal depository insurance. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2017 and 2016, the County Collector held, in addition to the cash and cash equivalents listed above, cash representing collections of property taxes on behalf of various taxing districts in the County. Tax collections on deposit amounted to \$4,461,283 and \$4,601,084 at December 31, 2017 and 2016, respectively. The County Collector's deposits were covered by federal depository insurance of \$250,000 as of December 31, 2017 and 2016. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2017 and 2016, the County collected and remitted to CERF employee withholding and fees collected of \$79,595 and \$82,141, respectively, for the years then ended.

B. Other Retirement Plans

Dallas County offers voluntary 457 and 401(a) plans which are paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2017 and 2016 for the 457 plan were \$31,288 and \$30,267, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2017 and 2016 for the 401(a) plan were \$10,774 and \$11,233, respectively.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 and \$9,044, respectively, for the years ended December 31, 2017 and 2016.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

Full-time employees accrue sick leave at one day per complete calendar month of employment, up to 60 hours. Part-time employees shall earn four hours of sick leave per complete calendar month of employment, up to 60 hours. Upon termination, employees are not compensated for accrued sick time. Vacation time is accrued for every full-time employee, and accrues at the rate of zero days per year up to twenty-one days per year depending on length of employment. Part-time employees with benefits are subject to all the vacation provisions, except that vacation leave is credited at one-half the rate shown for full-time employees. Vacation days must be used in the calendar year they are earned. Any days accrued at the end of the year will be forfeited. Employees are compensated for unused vacation time at the date of termination.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of Midwest Public Risk. The County purchases workers' compensation insurance through this organization, a non-profit corporation established for the purpose of providing insurance coverage for public entities across Missouri and Kansas. The Fund is self-insured up to \$1,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

On February 10, 2016, the County entered into an agreement with Henry M. Adkins & Son, Inc. to purchase \$89,767 of voting equipment, including maintenance. The agreement calls for a four-year payment plan with no interest.

On November 1, 2016, the County entered into a fifteen year equipment lease purchase agreement with FS Leasing, LLC for a new HVAC system for the jail in the amount of \$235,887. The lease is to be paid in annual payments of \$20,002, which includes interest of 3.124%, with the final payment scheduled on February 1, 2032.

The following schedule represents changes in long-term debt outstanding during the year ended December 31, 2016:

Description	Balance 12/31/2015	Additions	Payments	Balance 12/31/2016	Interest Paid
Voting Equipment	\$ -	\$ 89,767	-	\$ 89,767	-
Jail HVAC Lease	-	235,887	-	235,887	-

The following schedule represents changes in long-term debt outstanding during the year ended December 31, 2017:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid
Voting Equipment	\$ 89,767	\$ -	(45,000)	\$ 44,767	-
Jail HVAC Lease	235,887	-	-	235,887	-

The following schedule represents future payments under long-term debt obligations:

Year	Principal	Interest	Total
2018	\$ 12,530	\$ 7,472	\$ 20,002
2019	57,694	7,075	64,769
2020	13,337	6,665	20,002
2021	13,742	6,260	20,002
2022	14,195	5,807	20,002
2023-2027	77,995	22,014	100,009
2028-2032	91,161	8,849	100,010
Total	<u>\$280,654</u>	<u>\$64,142</u>	<u>\$344,796</u>

8. OPERATING LEASES

The County acquires motor graders for the Road & Bridge department through operating leases. The County entered into a lease agreement in 2013 for four John Deere 772G motor graders, under which the County could purchase the graders at the end of the lease for \$688,000 in 2018. On March 20, 2018, the County traded in the graders and entered into a five year lease with Murphy tractor for six new 672G Motor Graders. The initial payment will be \$110,916 and the remaining five payments will be made annually at \$165,088, with the final payment scheduled on March 20, 2023.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 8, 2018, the date the financial statements were available to be issued. Based on this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Dallas County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Dallas County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Dallas County, Missouri's basic financial statements and have issued our report thereon dated August 8, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Dallas County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Dallas County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Dallas County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dallas County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and recommendations as item 2017-001.

Dallas County, Missouri's Response to Finding

Dallas County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and recommendations. Dallas County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

DALLAS COUNTY, MISSOURI
FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

2017-001: Budgetary Controls

Criteria: Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

Condition: Actual expenditures exceeded budgeted expenditures for four funds in 2016 and two funds in 2017. The detailed list of funds can be found in Note 1.D.10 to the financial statements.

Cause: The County approved expenditures in excess of amounts authorized by the legally adopted budgets.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County strictly adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget.

County's Response: Dallas County acknowledges that it did go over budget in the aforementioned funds. The amounts in Assessment were nominal. Assessment runs on a very tight budget and it didn't go over budget until the very last payroll of the year both times. The county does budget revisions in the fall so we do the best we can to anticipate expenditures. In the case of the Special Election Fund we had a special election called by the State in 2017 that was not anticipated and the revision did not get made in time. The 2016 election cycle includes a presidential primary which was an extra election for 2016 this was the first presidential primary for the new county clerk who did not anticipate the added expense. The Law Enforcement Restitution and Sheriff's Revolving were simply not revised. The cash was available in the funds. Revisions were just not made. All the budgets had the cash on hand no bills were paid that were not covered financially. We understand the importance of the budget and how that works with the state statutes. The county will take more steps to review the budgets so this does not happen in the future.

Auditor's Response: The response is appropriate to correct the concern.

DALLAS COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditor's follow-up on action taken by Dallas County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2013 and 2012.

1. The County did not prepare a budget for the Special Election Fund, and the 911 Board Fund had expenses exceeding budget.

Status: Partially resolved. See Finding 2017-001.

2. Documentation of the County's internal controls has not been prepared.

Status: Resolved.

3. There is no formal fraud risk assessment in place.

Status: Resolved.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Andrew County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Andrew County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Andrew County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Andrew County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Comparative Schedules of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Andrew County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Andrew County, Missouri, as of December 31, 2017 and 2016, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Andrew County, Missouri, as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated July 31, 2018, on our consideration of Andrew County, Missouri’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County’s internal control over financial reporting and compliance.

ANDREW COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Andrew County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, County Clerk, Circuit Clerk, Recorder, Coroner, Prosecuting Attorney, Public Administrator, Sheriff, Collector and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Andrew County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

Certain elected County officials, particularly the Collector and Treasurer, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	<u>2017</u>	<u>2016</u>
Senior Citizens Services	✓	N/A
Sheriff Revolving	N/A	✓

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation were:

	2017	2016
Real Estate	\$ 182,334,452	\$ 177,441,447
Personal Property	59,904,311	56,526,263
Railroad and Utilities	30,437,022	25,877,186
Total	<u>\$ 272,675,785</u>	<u>\$ 259,844,896</u>

For calendar years 2017 and 2016, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2017	2016
General Revenue	\$ 0.2478	\$ 0.2393
Special Road & Bridge	0.4917	0.4914
Johnson Grass	0.0147	0.0148
Senate Bill 40	0.0776	0.0783
Senior Citizens Services	0.0273	0.0276

In addition to the levies above, the County imposes special assessment taxes on residents of Neighborhood Improvement Districts (NIDs) located within the County. These taxes have been recorded as property tax revenues in the financial statements.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds, other than the funds of the Aggregate Cemetery Fund, are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

The Aggregate Cemetery Fund holds cash deposits and investments allowed by the Cemetery Trust Agreement. The terms of the trust agreement authorize investments in United States Government securities and stocks currently traded on the New York Stock Exchange. A court opinion docketed in 2001 authorized the County Commission to buy, sell or trade stocks and bonds as long as the shares of original stock making up the corpus of the trust were maintained. The Aggregate Cemetery Fund stated at cost was \$2,363,023, and the balance at market was \$3,120,765, as of December 31, 2017. The Aggregate Cemetery Fund stated at cost was \$2,299,200, and the balance at market was \$2,931,491, as of December 31, 2016.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017 and 2016, the carrying amounts of the County's deposits, excluding the Aggregate Cemetery Fund as stated at cost above, were \$3,669,859 and \$3,282,953, respectively, and the bank balances were \$4,054,624 and \$4,145,006, respectively. Of the bank balances, \$617,670 and \$540,515 were covered by federal depository insurance at December 31, 2017 and December 31, 2016, respectively. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2017 and 2016, the County Collector held, in addition to the cash and investments listed above, cash representing collections of property taxes on behalf of various taxing districts in the County. Tax collections on deposit amounted to \$4,461,745 and \$4,436,369 at December 31, 2017 and 2016, respectively. The County Collector's deposits were covered by federal depository insurance of \$250,000 as of December 31, 2017 and 2016. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Andrew County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Andrew County do not contribute to the pension plan. The June 30th statutorily required contribution rates were 14.5% and 14.8% (General), and 11.3% and 10.3% (Police) of annual covered payroll for 2017 and 2016 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2017 and 2016, the County contributed \$269,613 and \$269,564 to LAGERS.

4) Funding Status

As of February 28, 2017, the actuarial value of accrued liabilities exceeded the assets of the plan by \$15,948 for the General division, and the actuarial value of assets exceeded the accrued liabilities by \$180,920 for the Police division. As of February 29, 2016, the actuarial value of accrued liabilities exceeded the assets of the plan by \$92,773 for the General division, and the actuarial value of assets exceeded the accrued liabilities of the plan by \$126,566 for the Police division. These net pension assets are not recognized in the cash basis financial statements of the County.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2017 and 2016, the County collected and remitted to CERF employee withholdings and fees collected of \$199,348 and \$183,821, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,360 and \$2,616, respectively, for the years ended December 31, 2017 and 2016.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with up to 60 days of sick time, to accrue at one day per complete calendar month of employment. Upon termination, employees will not be compensated for any unused sick time. Vacation time will accrue at a rate between one-half day to one and one-half days per month depending on length of employment. No more than two weeks of vacation time may be carried over into the next calendar year unless approved by the County Commission. Compensatory time will accrue at a rate of one and one-half times overtime hours worked based on federal wage and hour regulations, up to a maximum of 80 hours. Upon termination, employees will be paid for any unused vacation and compensatory time.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2017:

- A. The Andrew County Public Benefit Corporation is obligated to USDA Rural Development Agency for \$5,571,045 under two notes. The two notes were issued in 2012 for \$5,200,000 and \$700,000, bearing interest at 4% and 4.25%, and are scheduled to be repaid in 40 annual payments of \$265,654 and \$37,065, respectively, ending September 2051. The building of the judicial center is pledged as collateral for the two notes. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2018	\$ 74,104	\$ 228,525	\$ 302,629
2019	77,144	225,485	302,629
2020	80,308	222,321	302,629
2021	83,602	219,027	302,629
2022	87,032	215,597	302,629
2023-2027	491,730	1,021,415	1,513,145
2028-2032	601,204	911,941	1,513,145
2033-2037	735,052	778,093	1,513,145
2038-2042	898,696	614,449	1,513,145
2043-2047	1,098,775	414,370	1,513,145
2048-2052	1,343,398	169,747	1,513,145
Totals	<u>\$ 5,571,045</u>	<u>\$ 5,020,970</u>	<u>\$ 10,592,015</u>

- B. In 2017, the County Commission approved plans and awarded contracts for a jail expansion project, to be financed under a \$553,500 loan to the Andrew County Public Benefit Corporation by the USDA Rural Development Agency. The note bears interest at 3.375% and is scheduled to be repaid in 40 annual payments of \$25,423, ending January 2058. The schedule of payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	\$ 6,736	\$ 18,687	\$ 25,423
2020	6,965	18,459	25,424
2021	7,199	18,224	25,423
2022	7,442	17,981	25,423
2023	7,693	17,730	25,423
2024-2028	42,541	84,574	127,115
2029-2033	50,224	76,891	127,115
2034-2038	59,294	67,821	127,115
2039-2043	70,002	57,113	127,115
2044-2048	82,644	44,471	127,115
2049-2053	97,570	29,545	127,115
2054-2058	115,190	11,925	127,115
Totals	<u>553,500</u>	<u>463,421</u>	<u>\$ 1,016,921</u>

- C. On August 28, 2017, the County opened a bank line of credit for \$500,000 at a 3.95% fixed interest rate. On December 31, 2017, the balance was \$250,000 with a maturity date of February 24, 2018. The balance and accumulated interest was paid in full on January 29, 2018, totaling \$254,224.
- D. \$30,000 outstanding for the Gore Road Neighborhood Improvement District Bond, issued in September 2001 for \$121,000. The bond is scheduled to be paid in 19 annual payments with interest at 5.25%. The final payment is scheduled for 2020. Payments are made using tax monies collected for the NID in the prior year. The schedule of remaining payments and interest is listed below:

Payment Date	Principal	Interest	Total
3/1/2018	\$ 10,000	\$ 788	\$ 10,788
9/1/2018	-	525	525
3/1/2019	10,000	525	10,525
9/1/2019	-	263	263
3/1/2020	10,000	263	10,263
Totals	<u>\$ 30,000</u>	<u>\$ 2,364</u>	<u>\$ 32,364</u>

- E. \$90,000 outstanding for the Orchard Estates Neighborhood Improvement District Bond, issued in March 2013 for \$110,000. The bond is scheduled to be paid in 20 annual payments with interest at 4%. The final payment is scheduled for 2033. Payments are made using tax monies collected for the NID in the prior year. The schedule of remaining payments and interest is listed below:

<u>Payment Date</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
4/1/2018	\$ 5,000	\$ 1,800	\$ 6,800
10/1/2018	-	1,700	1,700
4/1/2019	5,000	1,700	6,700
10/1/2019	-	1,600	1,600
4/1/2020	5,000	1,600	6,600
10/1/2020	-	1,500	1,500
4/1/2021	5,000	1,500	6,500
10/1/2021	-	1,400	1,400
4/1/2022	5,000	1,400	6,400
10/1/2022	-	1,300	1,300
2023-2027	25,000	10,500	35,500
2028-2032	30,000	5,400	35,400
2033	10,000	200	10,200
Totals	<u>\$ 90,000</u>	<u>\$ 31,600</u>	<u>\$ 121,600</u>

- F. \$125,200 outstanding for the Eden Estates Neighborhood Improvement District Bond, issued in September 2016 for \$132,200. The bond is scheduled to be paid in 20 annual payments with interest at 2.75%. The final payment is scheduled for 2036. Payments are made using tax monies collected for the NID in the prior year. The schedule of remaining payments and interest is listed below:

<u>Payment Date</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
3/1/2018	\$ 5,100	\$ 3,443	\$ 8,543
3/1/2019	5,200	3,303	8,503
3/1/2020	5,400	3,160	8,560
3/1/2021	5,500	3,011	8,511
3/1/2022	5,700	2,860	8,560
2023-2027	30,800	11,869	42,669
2028-2032	35,500	7,384	42,884
2033-2036	32,000	2,227	34,227
Totals	<u>\$ 125,200</u>	<u>\$ 37,257</u>	<u>\$ 162,457</u>

- G. In December 2015, the County entered into a \$45,980, three-year capital lease for two 2014 Dodge Chargers for the Sheriff's Office. The first of four annual payments was made with the origination of the lease in the amount of \$12,668. On March 10, 2016, the County purchased two additional Chargers for \$45,980 and entered into a \$79,292, four-year capital lease for all four vehicles. The County was released from the previously existing lease agreement. The first of four annual payments of \$21,159 was made on March 1, 2017. Payments include interest of 2.65%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2018	\$ 19,556	\$ 1,603	\$ 21,159
2019	20,076	1,083	21,159
2020	20,611	548	21,159
Totals	<u>\$ 60,243</u>	<u>\$ 3,234</u>	<u>\$ 63,477</u>

H. On August 2, 2017, the County entered into an \$112,519, four-year capital lease to purchase three 2016 Dodge Chargers and a 2016 Ford Explorer for the Sheriff's Department, with four annual payments of \$30,401, including interest of 3.25%, beginning July 1, 2018.

Fiscal Year Ending December 31,	Principal	Interest	Total
2018	\$ 26,823	\$ 3,578	\$ 30,401
2019	27,676	2,725	30,401
2020	28,556	1,845	30,401
2021	29,464	937	30,401
Totals	<u>\$ 112,519</u>	<u>\$ 9,085</u>	<u>\$ 121,604</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2016:

Description	Balance 12/31/2015	Additions	Payments	Balance 12/31/2016	Interest Paid
2012 USDA Notes	\$ 5,710,608	\$ -	\$ (68,379)	\$ 5,642,229	\$ 234,250
Line of Credit	250,000	250,000	(250,000)	250,000	4,318
Gore Road NID	50,000	-	(10,000)	40,000	2,363

2016 Dodge Chargers	-	112,519	-	112,519	-

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 31, 2018, the date the financial statements were available to be issued.

On March 15, 2018, the County entered into a \$273,196 government obligation contract through Kansas State Bank for the purchase of two 2018 Mack Granite dump trucks for the Road and Bridge Department. The lease is to be paid in two payments of \$35,278 and a final payment in March 2020 of \$220,000.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Andrew County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Andrew County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Andrew County, Missouri's basic financial statements and have issued our report thereon dated July 31, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Andrew County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Andrew County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Andrew County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Andrew County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and recommendations as item 2017-001.

Andrew County, Missouri's Response to Finding

Andrew County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and recommendations. Andrew County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

ANDREW COUNTY, MISSOURI
FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

2017-001: Budgetary Compliance

Criteria: State statute prohibits the County from approving expenditures in excess of the budgeted amount for any County fund. This requirement ensures expenditures are subject to public scrutiny as provided by their inclusion in a budget adopted or amended at a public meeting. The County budgets and published financial statements should present a complete and accurate picture of the County's financial position.

Condition: Actual expenditures exceeded budgeted expenditures for the following funds: Senior Citizens Services in 2017, and Sheriff Revolving in 2016.

In addition, we noted discrepancies between fund balances reported on the County budget documents and the County's published financial statements for four funds in 2016 and six funds in 2017. There were also instances where the beginning fund balances on the budget documents did not agree to the ending cash balances from the previous year's budget. The 2018 budget misstated the beginning available cash balance of the Ford Farm Fund by \$80,320, the amount of a certificate of deposit held by the County for the benefit of Ford Farm.

Cause: Adjusting journal entries were backdated to prior years in the accounting system, which is used to prepare the budgets, which resulted in differences in reporting fund balances from one year to the next. The Clerk maintains off-book ledgers for the Ford Farm Fund outside the accounting system.

Effect: In order to ensure the integrity of the budgeting process, the budget documents must present a complete and accurate financial position for each County fund and the spending limits should be adhered to.

Recommendation: We recommend the County ensure compliance with state statutes by refraining from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to finance the current-year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission. Furthermore, we recommend the County adopt procedures to ensure the accuracy and completeness of fund balances in the budgets and published financial statements.

County Response: Any fund exceeding the budgeted expenditures is now flagged by our software company to alert us of this situation. This will be closely monitored by the County.

I spoke with the Treasurer for the Senior Citizens Board and they have assumed all responsibility for the overage in that fund. We will remain compliant in the future.

The County has designed procedures to correct adjusting journal entries and to make certain the fund balances are correct from one year to the next.

We acknowledge the error with the Ford Farm and have corrected the situation.

The County has adopted new procedures to ensure the correct fund balances in the budgets and for published financial statements.

Auditor's Evaluation: The response is appropriate to correct the concern.

ANDREW COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditor's follow-up on action taken by Andrew County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2015.

1. Actual expenditures exceeded budgeted expenditures for four funds.

Status: Repeated. See finding 2017-001.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Economic Development Advancement Fund

Lack of Transparency and Oversight	The Department of Economic Development (DED) provided more than \$5.9 million from the Economic Development Advancement Fund (EDAF) during the 3 fiscal years ending June 30, 2017, to the Hawthorn Foundation (HF) for business recruitment and marketing services without adequate transparency and oversight. Detailed expenditure information for payments made by the HF and the Missouri Partnership with EDAF funding are not available to the public. In addition, the DED circumvented the General Assembly in fiscal year 2017 by ensuring the HF received funding despite having no appropriation authority to support the payments.
Evaluation of Contract Provisions	The DED does not perform an adequate evaluation of the HF contract to ensure the amount paid is an efficient and effective use of EDAF funds, or that the HF complies with all contract provisions. The DED has not performed a cost-benefit analysis to justify the outsourcing of business recruitment and marketing services or to determine if outsourcing such services to a third party is an effective and efficient use of taxpayer monies. The DED did not require the HF to fulfill the matching funding contract requirements in fiscal year 2017 and had no basis for the significant increases to the per-job performance incentive paid to the HF in that year. The DED does not have adequate controls in place to detect when new announced jobs reported by the HF and the Missouri Partnership are incomplete or inaccurate. Since the number of new announced jobs is used to determine the amount of performance incentive compensation paid to the HF, there is less assurance the amount paid in performance incentives is accurate.
Expenditures	The DED does not have controls in place to ensure payments made using EDAF funds are in compliance with state law.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Mike Parson, Governor
and
Members of the General Assembly
and
Robert B. Dixon, Director
Department of Economic Development
and
Carol Comer, Director
Missouri Department of Natural Resources
Jefferson City, Missouri

We have audited the Economic Development Advancement Fund in fulfillment of our duties under Chapter 29, RSMo. The Scope of our audit included, but was not necessarily limited to, the 3 years ended June 30, 2017. The objectives of our audit were to:

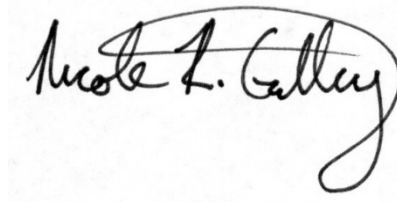

1. Evaluate internal controls over significant management and financial functions as they relate to the Economic Development Advancement Fund.
2. Evaluate compliance with certain legal provisions as they relate to the Economic Development Advancement Fund.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions, as they relate to the Economic Development Advancement Fund.

Citing past practices of not requiring vendors to provide source documentation, the Department of Economic Development did not permit us full access to the expenditures of the Hawthorn Foundation or the Missouri Partnership. As a result of this scope limitation, we could not audit certain information and could not evaluate the economy and efficiency of certain management practices and operations.

Except as discussed in the second paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) non-compliance with legal provisions, and (3) the need for improvement in management practices and procedures.

The accompanying Management Advisory Report presents our findings arising from our audit of the Economic Development Advancement Fund.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Economic Development Advancement Fund

Introduction

Background

The Economic Development Advancement Fund (EDAF) was established by Section 620.1900, RSMo. At least 50 percent of the fees and other monies deposited in the fund are to be appropriated for marketing, technical assistance, and training, contracts for specialized economic development services, and new initiatives and pilot programming to address economic trends.¹ The remaining monies may be appropriated toward the costs of staffing and operating expenses for the program activities of the Department of Economic Development (DED), and for accountability functions. State law authorizes the DED to charge a fee of up to 2.5 percent of the amount of certain tax credits issued by the department to the recipient of those tax credits.² The fee shall be paid by the recipient upon the issuance of the tax credits. However, no fee shall be charged for the tax credits issued under Section 135.460, Section 208.770, or Sections 32.100 to 32.125, RSMo, if issued for community services, crime prevention, education, job training, or physical revitalization. State law also authorizes fees or administrative charges from private activity bond allocations to be deposited in the EDAF.³ Figure 1 shows EDAF revenues for the 3 fiscal years ending June 30, 2017.⁴

Figure 1: EDAF revenue, fiscal years 2015 to 2017

Source: Prepared by the SAO using SAM II revenues.

¹ Section 620.1900.5, RSMo. All citations refer to provisions effective during the audit period. Section 620.1900, RSMo, was amended in August 2018.

² Section 620.1900.1, RSMo. Effective August 28, 2018, the fee is 4 percent for the Historical Structures Rehabilitation Tax Credits.

³ Section 620.1900.4, RSMo.

⁴ Fluctuations in revenues is mainly due to the fluctuations in number and amounts of tax credits issued by DED.

Economic Development Advancement Fund Introduction

Figure 2: EDAF expenditures,
fiscal years 2015 to 2017

Figure 2 depicts total expenditures by category,⁵ and the percentage of total expenditures for each expenditure type for the 3 fiscal years ending June 30, 2017.

Source: Prepared by SAO using SAM II expenditures.

Additional details on revenues and expenditures for these fiscal years are included in Appendixes A, B and C. As noted in Figure 2, 94 percent of the expenditures from the EDAF are for purposes of business recruitment and marketing, which primarily includes payments to a third-party vendor for marketing services. Approximately 86 percent of EDAF expenditures for the 3 years ended June 30, 2017 went to one vendor; the Hawthorn Foundation (HF).

Hawthorn Foundation

The DED entered into a contractual agreement with the HF for marketing services and financial support to enhance the business recruitment efforts of the state. The first contract with the foundation was executed in 2007 and has been renewed annually. The Office of Administration, Division of Purchasing and Materials Management has declared the HF a single feasible source provider. The HF was originally incorporated as a 501 (c) (6) not-for-profit (NFP) corporation under the Internal Revenue Code in May of 1981. The general purpose of the corporation included "the improvement of economic and business conditions within the State of Missouri, as well as the establishment and maintenance of the integrity of the state's commercial market." The DED director is an ex officio non-voting member of the HF Board of Directors.

⁵ Other expenditures include payroll costs at the Department of Natural Resources for historic preservation administration personnel, DED expense and equipment, the Main Street Program, and unemployment benefits.

Economic Development Advancement Fund Introduction

During the 3 fiscal years ending June 30, 2017, the HF received approximately 45 percent of its revenues from EDAF. Figure 3 depicts total HF revenues by category for that period.

Figure 3: Hawthorn Foundation revenues by category, fiscal years 2015 through 2017

Source: Prepared by SAO using the quarterly income and expense reports submitted to the DED by the HF.

Missouri Partnership

The HF entered into a contractual agreement with its subsidiary, the Missouri Partnership (the Partnership), and passed through 100 percent of the EDAF funding received. The Partnership was created in 2007 to serve as the state's leading business recruitment and marketing organization. According to the Partnership's website, it is the most important "front wheel" in business recruitment for the HF. An independent board of directors governs the Partnership, with leadership coming from HF members.

The Partnership receives the vast majority of its funding from the EDAF. Figure 4 depicts the Partnership total revenues by category for the 3 fiscal years ending June 30, 2017.

Figure 4: Partnership revenue by source, fiscal years 2015 through 2017

Source: Prepared by the SAO using quarterly income and expense reports submitted to the DED by the Partnership.

Economic Development Advancement Fund Introduction

Scope and Methodology

Our methodology included reviewing written policies and procedures, and interviewing various DED and Department of Natural Resources personnel. We obtained an understanding of the applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Due to the significance of the portion of EDAF funding going toward HF and Partnership activities, we reviewed the contractual agreement between the DED and the HF, as well as the agreement between the HF and the Partnership, to determine whether all contract terms were met during the audit period. In addition, we reviewed EDAF revenues and expenditures transactions to determine compliance with Section 620.1900, RSMo. We also verified compliance with the single feasible source requirements outlined in Section 34.044, RSMo.

In an effort to evaluate the appropriateness of EDAF expenditures as well as compliance with statutory requirements the SAO requested detailed information from the DED for the expenditures made by the Partnership. These requests were denied by the DED. According to DED personnel the department does not require the HF to provide such detail and declined to ask the vendor to provide it. According to DED personnel, while the DED Director is an ex officio non-voting member of the HF Board of Directors and receives high level cost reports, the DED Director does not have access to detailed Partnership expenditure information. Our ability to achieve the audit objective of evaluating the economy and efficiency of certain management practices and procedures was hindered by not having access to the requested detailed expenditure information.

Economic Advancement Development Fund

Management Advisory Report

State Auditor's Findings

1. Lack of Transparency and Oversight

The Department of Economic Development (DED) provided more than \$5.9 million from the Economic Development Advancement Fund (EDAF), during the 3 fiscal years ending June 30, 2017, to the Hawthorn Foundation (HF) for business recruitment and marketing services without adequate transparency and oversight. In addition, the DED took steps to ensure the HF received funding in fiscal year 2018 without an initial appropriation, making the payments less transparent.

Figure 1.1 shows the funding received by the HF from the EDAF during the 3 fiscal years ending June 30, 2017. This money was subsequently passed through to the Missouri Partnership (Partnership).

Figure 1.1: EDAF disbursements to the HF, fiscal years 2015 to 2017

Source: Prepared by the State Auditor's Office (SAO) using the SAM II data.

1.1 Expenditure information not available to the public or to the DED

Expenditure information for disbursements made by the HF and the Partnership with funding from the EDAF is not available to the public. While the Partnership publishes an annual summary of expenses on its website, such information is not maintained and made available to the public by the DED, and the contract with the HF does not allow the DED or the public access to detailed expenditure information.

The Partnership creates a budget of revenues and expenditures with the funding source noted by category. Those budgets are provided to the Partnership Board for review. The DED Director is a non-voting member on both the HF and the Partnership Boards. The DED provided us these budgets for the period audited; however, the budgets are not typically maintained by the DED and are not made public.

We obtained the quarterly income and expense reports submitted by the HF and the Partnership to the DED for the 3 years ended June 30, 2017. According to those reports, the Partnership spent in excess of \$4.3 million on payroll and performance incentive payments (approximately 60 percent of

Economic Development Advancement Fund Management Advisory Report - State Auditor's Findings

Partnership expenditures). However, no itemized salary information was provided or is available to the public. According to discussions with a DED official, outsourcing these services allows higher salaries to be paid to marketing employees than they could be paid if they were employees of the DED.

Figure 1.2 depicts the Partnership's total expenditures by category for 3 fiscal years ending June 30, 2017. See Appendix D for additional information related to Partnership expenditures.

Figure 1.2: Partnership expenditures, fiscal years 2015 through 2017

Source: Prepared by SAO using the quarterly income and expense reports prepared by the Partnership.

No oversight of procurement provisions

As part of the contract with the DED, the HF agrees to exercise "due diligence in procurement of any goods or services acquired with state funds provided under the agreement." DED personnel cannot monitor the HF's performance because the department does not have access to the detailed expenditure information.

Auditor's access denied

During the audit, we requested detailed expenditure information supporting the amounts reported by the Partnership in its financial reports. Our request was denied. DED officials responded:

DED will not compel our vendor to provide source documentation for each of the expenditures included in the financial documents produced under this audit. As a contract for service, we have never been compelled to ask any other vendor to produce that level of detail. The quarterly reports and annual audits for both Hawthorn and the Missouri Partnership are available for review.

Additional transparency of Partnership expenditures would provide the DED and the public assurance the EDAF provided funding was spent appropriately

Economic Development Advancement Fund
Management Advisory Report - State Auditor's Findings

and in accordance with state law and the contract provisions between the DED and the HF.

Conclusion

The DED essentially serves as the Partnership's only client and the expenditures and salaries paid by the Partnership are paid for with almost entirely state funds. The nature of the services being provided by the Partnership require additional transparency and oversight. By outsourcing important agency functions, such as those provided by the Partnership, transparency of public funds is easily reduced. Improved transparency and access to contractor expenditure records would help reduce the risk that state funds provided under the agreement are disbursed without due diligence or not in accordance with state statute. Additionally, without obtaining and properly reviewing adequate supporting documentation, the DED cannot determine the validity and propriety of the payments.

1.2 Hawthorn Foundation contract continued with no appropriation authority, reducing transparency

The DED circumvented the General Assembly by ensuring the HF received funding despite having no appropriation authority to support the payments. In addition, these payments occurred in a manner that reduced transparency to the public.

The agreement between the DED and the HF for the year ending June 30, 2018, required the Missouri Development Finance Board (MDFB), instead of the DED, to make the majority of the payments to the HF. The MDFB is not required to have appropriation authority to make disbursements.

Initial appropriations did not include funding for the HF

The appropriations bill passed by the General Assembly and approved by the Governor on June 30, 2017, did not contain funding for the HF contract. As a result, the DED could not make payments to the HF out of the agency's appropriation. To ensure the HF continued to receive state funding, the contract between the DED and the HF for fiscal year 2018 required the MDFB to pay the HF up to \$1.8 million of the \$2 million contract. Payments were made quarterly by the MDFB to the HF totaling \$1.8 million for the year ending June 30, 2018. On April 5, 2018, the Governor signed a supplemental appropriation bill with funding to allow DED to pay for the HF contract. The DED used this appropriation authority to reimburse the MDFB the \$1.8 million paid during the fiscal year to the HF.

The MDFB is an entity within the DED⁶ that primarily exists to structure and participate in the financing of Missouri business and public infrastructure, and is a component unit of the State of Missouri for financial reporting.⁷ It is unclear how the HF contract relates to the MDFB's mission.

⁶ Section 100.265, RSMo.

⁷ MDFB's Comprehensive Annual Financial Report for the 2 years ending June 30, 2017.

Economic Development Advancement Fund Management Advisory Report - State Auditor's Findings

Payments are less transparent to the public

Payments made by the MDFB are not recorded in SAM II and are not listed on the Missouri Accountability Portal.⁸ As a result, the \$1.8 million paid to the HF during the year ended June 30, 2018, is not disclosed to the public as it would have been if the DED paid the HF directly.⁹ In prior years, the HF is listed in the state's accounting system as a vendor and is shown receiving the full amount of the contract from the DED.

Ensuring payments made to vendors for state contracts is presented in a transparent manner is in the best interest of the EDAF and the public.

Recommendations

We recommend the DED:

- 1.1 Increase oversight and transparency of EDAF expenditures and obtain, and make available to the public, detailed expenditure supporting documentation from the Partnership.
- 1.2 Ensure payments made to vendors for state contracts are transparent.

Auditee's Response

The DED provided written responses. See Appendix E.

2. Evaluation of Contract Provisions

DED officials do not perform an adequate evaluation of the HF contract to ensure the amount paid is an efficient and effective use of EDAF monies, or that the HF complies with all contract provisions. They also could not provide a documented basis for the increase in cost per new announced job paid to HF and do not verify the number of new announced jobs.

2.1 No cost-benefit analysis

The DED has not performed a cost-benefit analysis to justify the outsourcing of business recruitment and marketing services or to determine if outsourcing such services to a third party is an effective and efficient use of taxpayer monies.

The DED entered into a contractual agreement with the HF to provide business recruitment, marketing services, and financial support. The DED currently has a business expansion and retention team comprised of state employees, and DED officials said business recruitment and marketing activities were performed internally prior to outsourcing those activities to the HF. DED officials indicated the HF has produced better results than what the department previously achieved. However, DED officials have not established performance goals for the HF or performed a cost-benefit analysis to support this determination.

⁸ The Missouri Accountability Portal provides information on state agency purchases and program disbursements and is accessible by the public at <https://mapyourtaxes.mo.gov/>.

⁹ MDFB expenditures are outside the scope of this audit, therefore we did not make inquiries to the MDFB regarding the source of the payments made to HF.

Economic Development Advancement Fund Management Advisory Report - State Auditor's Findings

Office of Management and Budget Circular A-76 states whenever commercial sector performance of a federal government operated commercial activity is permissible, a comparison of the cost of contracting and the cost of in-house performance shall be performed. Applying that standard to the DED's contract with the HF would require the agency to regularly perform a cost-benefit analysis of the costs of outsourcing marketing services. Completing such an analysis would help ensure payments to the HF for the services provided are in the best interest of taxpayers.

2.2 Contract non-compliance

The DED did not require the HF to fulfill the matching funding contract requirement. The contract requires the HF to spend at least \$300,000 over the course of each state fiscal year for the purposes outlined in the agreement. Our review of the quarterly income and expense reports identified that the HF only provided \$200,000 of the required \$300,000 match during the fiscal year ending June 30, 2017.

DED officials indicated that the HF could not meet the matching requirement that fiscal year, because the foundation did not generate enough revenues from sources other than the EDAF. The contract with the HF does not specify any recourse to be taken by the agency in the event the matching requirement is not met. No action has been taken by the DED to address this noncompliance. Based on our review of the fiscal year 2018 contract with the HF, no additional matching funding was required that year to make up the difference. In addition, the private sector matching requirement of the HF contract is listed by the DED as part of the rationale for awarding the contract as a single feasible source provider and not through a competitive selection process. The HF's failure to provide the required match diminishes the appropriateness of awarding the contract through a sole source designation.

2.3 No basis for contractual increases in performance incentive paid

The DED had no basis for the significant increases to the per-job performance incentive paid to the HF in fiscal year 2017. The contracted incentive increased from an average of \$340 per job in the fiscal year 2016 contract, to an average of \$475 per job in the fiscal year 2017 contract, a 40 percent increase. DED officials stated this increase was not based on a formal trend analysis, rather the increase was based on the, "expertise of DED staff for incentivizing growth throughout the state."

The DED paid the HF performance incentives totaling \$804,785, \$1,066,240, and \$966,240 during fiscal years 2015, 2016, and 2017; respectively. The contractual agreement between the DED and the HF states performance incentives will be paid based on the number of new jobs announced, by area, during the prior fiscal year. The contract sets the amount of the performance incentive and states the incentive will not change regardless of additional information that may subsequently become available.

Economic Development Advancement Fund Management Advisory Report - State Auditor's Findings

Table 2.3 shows that the per-job price used to determine the performance incentive for subsequent years increased for all areas during the 3 fiscal years ending June 30, 2017.

Table 2.3: Performance incentive paid per new announced job, fiscal years 2015 to 2017

	Year Ended June 30,		
	2015	2016	2017
Urban Area	\$255	\$270	\$425
Rural Area	\$355	\$375	\$500
Distressed Area	\$355	\$375	\$500

The significant increase in the per-job performance incentive rate in fiscal year 2017 corresponded with a significant drop in the number of jobs announced from fiscal year 2015 to fiscal year 2016 (see Table 2.4). Since the fiscal year 2017 incentive is based on jobs announced in fiscal year 2016, the significant increase in the fiscal year 2017 per-job rate was necessary to ensure the HF received a consistent amount of EDAF incentive funding even though fewer new jobs were announced.

When including performance incentives in a contract for services, incentives must correlate with results, and agencies should avoid rewarding contractors for simply meeting minimum standards of performance. The purpose of performance incentives in a service contract is to promote the effective implementation of the contract and to compensate the contractor accordingly when performance objectives are met. The DED bases the HF's incentive payment on past results and adjusts the rate in the current year contract to ensure the payments to the HF remain consistent. This contract methodology does not align performance with compensation, and therefore does not provide any additional incentive for the contractor to improve performance.

Establishing a per-job incentive rate amount that fairly compensates the contractor for performance, and consistently applying that rate over time, will help ensure performance is properly incentivized.

2.4 New jobs announced are not verified

The DED does not have adequate controls in place to detect when new announced jobs reported by the HF and the Partnership are incomplete or inaccurate. Since the number of new announced jobs is used to determine the amount of performance incentive compensation paid to the HF, there is less assurance the amount paid in performance incentives is accurate.

The HF uses three methods to report the number of new announced jobs to the DED. The HF files quarterly reports, annual reports, and tracks the number of new announced jobs on a software program (Blue Ocean) shared with the DED. However, DED personnel do not perform procedures to verify the information reported by the HF is accurate. We obtained and compared the number of new jobs announced from DED officials and from these three sources and identified large discrepancies between the various methods.

Economic Development Advancement Fund Management Advisory Report - State Auditor's Findings

Table 2.4 lists the number of new announced jobs reported by each source by year for the 3 years ended June 30, 2017.

Table 2.4: New announced jobs, fiscal years 2015 to 2017

Fiscal Year	Status Reports	Annual Report	Blue Ocean
2015	3,145	3,108	1,734
2016	1,489	1,431	1,082
2017	3,851	1,193	2,990

Tracking and verifying the accuracy of jobs announced will provide the DED with accurate information to establish future incentive payments and to effectively track the performance of the contractor.

Conclusion

The outsourcing of important agency functions, such as the business recruitment and marketing services provided by the HF, requires significant evaluation to ensure the expected services are being provided in an effective and efficient manner. By not properly ensuring the cost effectiveness of the contract, not properly incentivizing performance, not adequately verifying performance data, and not ensuring compliance with contract matching provisions the DED has less assurance the contract with the HF is an efficient and effective use of EDAF monies.

Recommendations

We recommend the DED:

- 2.1 Perform and maintain a cost-benefit analysis to determine the most cost effective method of obtaining marketing services.
- 2.2 Ensure all contractual terms are met through performing oversight and monitoring activities.
- 2.3 Prepare a cost study to determine the most reasonable performance incentive amount to be paid to the Hawthorn Foundation.
- 2.4 Formally verify the number of new announced jobs reported by the Hawthorn Foundation.

Auditee's Response

The DED provided written responses. See Appendix E.

3. Expenditures

The DED does not have controls in place to ensure payments made using EDAF funds are in compliance with state law. As a result, the DED approved payments for flights of Governor's Office personnel using the EDAF that were partially not related to economic development.

During the fiscal year ending June 30, 2016, the DED paid for all or part of 27 flight manifests at a cost of \$82,871, including costs not fully in compliance with state law. While flight records supporting each of the manifests paid by the DED indicated the flight purpose included economic

Economic Development Advancement Fund Management Advisory Report - State Auditor's Findings

development announcements or meetings, the flights also included additional purposes including announcements and meetings of other state agencies, disaster assessments and meetings, and attending national governors' meetings. It is unclear why the EDAF was used to pay for travel not related to economic development.

State law requires at least half of all fees and monies placed in the EDAF be appropriated for marketing, training, new initiatives, and other related areas for developing economic trends. The remaining monies in the fund are allowed to be used for the cost of staffing and operating expenses for the program activities and accountability functions of the DED.¹⁰

Recommendation

The DED should ensure expenditures approved by DED from the EDAF are for economic development purposes in compliance with state law.

Auditee's Response

The DED provided written responses. See Appendix E.

Appendix E
Economic Development Advancement Fund
Department of Economic Development Response

Michael L. Parson
Governor

Robert B. Dixon
Director

August 23, 2018

The Honorable Nicole R. Galloway, CPA
Missouri State Auditor
P.O. Box 809
Jefferson City, MO 65102

Dear Auditor Galloway:

We are providing this letter in response to the recommendations in the audit of the Economic Development Advancement Fund ("EDAF").

- 1.1 Increase oversight and transparency of EDAF expenditures and obtain, and make available to the public, detailed expenditure supporting documentation from the Partnership.

1.1 The Missouri Partnership and the Hawthorn Foundation are both audited annually by an independent third party accountancy firm. The independent auditor's annual report is publically available online for both entities. The Department of Economic Development ("DED") is working to amend the language in the contract with the Hawthorn Foundation to compel their independent auditor to include an audit of the detailed expenditures by fund source and to compel, by contract, the auditor of their contractor, the Missouri Partnership, to do the same.

- 1.2 Ensure payments made to vendors for state contracts are transparent.

1.2 DED's expenditure of EDAF funds for the FY2018 Hawthorn/Partnership contract was pursuant to duly-appropriated authority from the General Assembly and complied with all laws. DED followed the leadership of the Senate Appropriations Chairman and Committee members as they were quoted in Missouri publications (See St. Louis Public Radio, May 9, 2017 (updated May 15, 2017)) regarding their support of the funding for the Missouri Partnership by placing the funding in the Supplemental budget, which was approved by both the House Budget Committee and Senate Appropriations. DED worked with the Missouri Development Finance Board ("MDFB") to support the Missouri Partnership during the interim. The Amended and Restated Master Services Agreement between DED and MDFB is consistent with the statutory authority of the Board and was supported by a majority vote recorded in their minutes of the public June 20, 2017 meeting. The quarterly payments made by the MDFB for the services were included in

The Honorable Nicole R. Galloway
August 23, 2018

their financial statements and reviewed by the Board at their monthly public meetings. The Supplemental budget appropriation was paid by DED to MDFB and was recorded in the state's SAM II accounting system. DED will continue to ensure payments to vendors for state contracts are transparent.

- 2.1 Perform and maintain a cost analysis to determine the most cost effective method of obtaining marketing services.

2.1 DED does not currently employ any business recruitment personnel within the Department; instead, all personnel in the Business Development Unit are tasked with growing and retaining existing businesses within the state. There is no duplication of duties or effort between Hawthorn/Missouri Partnership and DED personnel.

DED has revised the performance budget measures in all line items in House Bill 2007 including the line item for services related to business recruitment and marketing. The program is measured on the effectiveness: number of projects recruited to the state; average wage; and amount of capital investment and it is measured on efficiency: the business recruitment and marketing investment per new job created.

- 2.2 Ensure all contractual terms are met through performing oversight and monitoring activities.

2.2 DED is committed to ensuring the contractual terms of our vendor agreements are met. The Hawthorn Foundation, the Missouri Partnership, and DED staff are in consistent contact with each other throughout the performance of the contract. A contract compliance checklist is being developed by DED to fully document that all contractual terms are met in a given a fiscal year.

- 2.3 Prepare a cost study to determine the most reasonable performance incentive amount to be paid to the Hawthorn Foundation.

2.3 The performance of the contract will be measured in the future by cost per job as an efficiency measure and the outputs of number of projects, wages, and investment as effectiveness and budgets will be awarded accordingly.

- 2.4 Formally verify the number of new announced jobs reported by the Hawthorn Foundation.

2.4 DED will, in cooperation with the Missouri Partnership and the Hawthorn Foundation, develop a form for completion by the Missouri Partnership with certification by the Hawthorn Foundation which lists the company name, the date of announcement or other verification if the company chooses not to publically announce, the number of jobs, the location of those jobs, and supporting documentation such as newspaper clippings. The form will be submitted with the quarterly reports and will verify the jobs using internal DED records.

The Honorable Nicole R. Galloway
August 23, 2018

3.0 The DED should ensure expenditures approved by DED from the EDAF are for economic development purposes in compliance with state law.

3.0 DED will ensure expenditures are for economic development purposes and will only pay for a pro-rated portion of any travel expense if such activity occurs in the future.

If you have any questions regarding DED's responses, please contact myself at 751-4770 or Ms. Stacey Hirst at 526-7863.

Sincerely,

A handwritten signature in cursive script, reading "Robert B. Dixon", is written over the typed name.

Department of Economic Development Response

Auditor's Comment

The DED's response to Recommendation 1.1 states the agency is working to amend the language in the contract to compel the Partnership's auditor to audit the detailed expenditures by fund source. However, including such language in the Hawthorn Foundation contract will not provide the public and the General Assembly access to detailed expenditure supporting information.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Gregory F. X. Daly, Collector of Revenue
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2009-62, *City of St. Louis, Office of Collector of Revenue*, issued in June 2009, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our upcoming audit of the Office of Collector of Revenue. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Office of Collector of Revenue that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Office of Collector of Revenue

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Bank Accounts

Finding Number: 1.A.

Finding: The Collector of Revenue's office did not competitively procure banking services on a periodic basis and had not executed written depositary agreements.

Recommendation: The Collector of Revenue periodically solicit competitive proposals for banking services and execute written agreements with depositary banks.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Immediately following our previous audit, we composed and submitted requests for proposals to three banks, but did not make any changes to our major banking service providers. We are currently exploring other options and are in the process of preparing and submitting requests for proposals to three area banking centers including Bank of America, U.S. Bank, and Commerce Bank.

Contact Person: Thomas Vollmer

Contact Phone Number: (314) 613-7357

City of St. Louis - Office of Collector of Revenue
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Bank Accounts

Finding Number: 1.B.

Finding: The Collector of Revenue's office did not monitor daily the collateral securities pledged by the banks to ensure pledged collateral was sufficient. Additionally, no collateral securities were pledged for three of the temporary accounts and, as a result, property tax collections were not secured by the Federal Deposit Insurance Corporation (FDIC) or collateral securities.

Recommendation: The Collector of Revenue establish procedures to actively monitor collateral securities and ensure bank accounts are adequately collateralized. In addition, the Collector of Revenue should require collateral securities be pledged for the temporary accounts or transfer balances from those accounts when FDIC coverage is exceeded.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Collector of Revenue's office actively monitors our collateral securities for all accounts including temporary accounts and transfer balances when FDIC coverage is exceeded. Collateral pledges are received on a daily, bi-weekly, and monthly basis depending on each individual account's activity.

Contact Person: Thomas Vollmer
Contact Phone Number: (314) 613-7357

City of St. Louis - Office of Collector of Revenue
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Bank Accounts

Finding Number: 1.C.

Finding: Efforts to contact taxpayers about unclaimed amounts in bank accounts were not always documented.

Recommendation: The Collector of Revenue document efforts to contact taxpayers about unclaimed duplicate payments and outstanding refund checks. If taxpayers cannot be located, the amounts should be turned over to the state's Unclaimed Property Division. Old outstanding checks and unidentified monies should be followed up on and resolved timely.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

When duplicate payments are made on accounts, we immediately notify the taxpayer. If letters are returned by the United States Postal Service, we make every effort to obtain new addresses. If overpayments have not been claimed about 90 days later, we resend notifications. Annually, we rigorously research outstanding checks in attempts to return the funds and transfer outstanding balances to our escheat account. Every two years, we reattempt to contact applicable taxpayers and refund outstanding overpayments, and what is left is turned over to the Missouri State Treasurer.

Contact Person: Thomas Vollmer
Contact Phone Number: (314) 613-7357

City of St. Louis - Office of Collector of Revenue
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Bank Accounts

Finding Number: 1.D.

Finding: The procedures for reconciling bank statements and signing checks were not properly segregated.

Recommendation: The Collector of Revenue properly segregate check preparation, signing, and bank reconciliation procedures or require independent reviews of canceled checks.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

A new process has been implemented, and we are pleased that no irregularities have occurred in this office. Each account is reconciled monthly by a designated finance department employee. The reconciliations are then submitted to and reviewed by the Assistant Collector of Revenue and Deputy Collector. At that time the Deputy Collector also reviews all canceled checks. Each individual signs and dates each reconciliation.

Contact Phone Number: (314) 613-7357

City of St. Louis - Office of Collector of Revenue
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Expenditures

Finding Number: 2.A.

Finding: The Collector of Revenue did not have a formal written procurement policy. As a result, the decision of whether to solicit competitive bids/proposals for a particular purchase was made on an item-by-item basis. Additionally, while the Collector of Revenue's office indicated bids or price quotes were received for some purchases, the documentation was not retained.

Recommendation: The Collector of Revenue establish formal written procurement policies and procedures, including documentation requirements regarding the bids or proposals received and justification for the vendor selected.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Collector's office has established procurement policies and procedures, requiring multiple bids for purchases over \$5,000 unless the item is included in a City of St. Louis or Western States Competitive Alliance contract.

Contact Person: Thomas Vollmer

Contact Phone Number: (314) 613-7357

City of St. Louis - Office of Collector of Revenue
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Expenditures

Finding Number: 2.B.

Finding: The Collector of Revenue's expenditure allocation percentages were not periodically evaluated for reasonableness and documentation supporting the development of the percentages was not maintained. Personnel of the Motor Vehicle and Drivers License Department, who represented about 6 percent of total personnel of the Collector of Revenue's office, were excluded in the development of the percentages because the office considered that department to be independent of the rest of the office and consequently the fees earned by that department were not allocated a portion of office-wide costs. However, it appeared that department also benefited from activities of the office's administrative personnel and certain professional service contracts and should have been allocated some of those costs.

Recommendation: The Collector of Revenue periodically recalculate the cost-allocation percentages, consider including the Motor Vehicle and Drivers License Department in the calculations, and maintain documentation of the calculations and supporting information.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Following our prior audit, we began allocating costs to the Motor Vehicle and Drivers License office. We annually review all percentages to ensure accuracy.

Contact Person: Thomas Vollmer
Contact Phone Number: (314) 613-7357

City of St. Louis - Office of Collector of Revenue
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Receipt Processing and Account Maintenance Procedures

Finding Number: 3.A.

Finding: Procedures to verify deposits of water bill collections and motor vehicle and drivers license fees were not documented.

Recommendation: The Collector of Revenue require deposit verification procedures be documented for water and motor vehicle and drivers license fee deposits.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The daily deposit for the water collections is prepared, reviewed, and confirmed by two individuals from the water department and three individuals from the finance department. Each individual initials the daily deposit voucher. The motor vehicle and drivers license collections are balanced to a system-provided total and deposits are prepared by the department Manager. The deposit is then physically verified by the Head Cashier with the Manager as a witness. Both individuals initial the deposit slip.

Contact Phone Number: (314) 613-7357

City of St. Louis - Office of Collector of Revenue
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Receipt Processing and Account Maintenance Procedures

Finding Number: 3.B.

Finding: Procedures for closing taxpayer accounts on the earnings tax system needed improvement. The duties of processing earnings tax returns and payments and closing taxpayer accounts were not segregated. Taxpayer accounts on the earnings tax system were closed without supervisory review and approval. The reasons for closing accounts were not always clearly indicated on the system.

Recommendation: The Collector of Revenue segregate the duties of closing earnings tax taxpayer accounts and processing earnings tax receipts. Additionally, supervisory approval of closed accounts and detailed descriptions of the closure reasons should be required and documented.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Collector's office segregates the duties of closing taxpayers accounts and processing earnings tax receipts in the earnings tax department. The Collector's office continues to have several checks and balances to ensure the integrity of the system. We have implemented formal supervisory approval of closed accounts, and descriptions of closure reasons are documented.

Contact Person: Thomas Vollmer
Contact Phone Number: (314) 613-7357

City of St. Louis - Office of Collector of Revenue
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Vehicle Policies and Records

Finding Number: 4.A.

Finding: The Collector of Revenue did not have written policies addressing the assignment of vehicles to individuals, personal use, or commuting. Officials and other employees with personal and commuting mileage estimated the number of such miles for reporting to the Internal Revenue Service as compensation on their W-2 forms. Additionally, the use of vehicles assigned to the compliance officers was relatively low.

Recommendation: The Collector of Revenue develop written policies addressing the assignment of vehicles to specific employees and periodically evaluate the proper size of the vehicle fleet. The policies should also prohibit personal use and address how commuting is to be documented and reported on W-2 forms.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Since the last audit the number of vehicles went from 7 to 3. The vehicle assigned to the Deputy Collector is a multiple-user vehicle for office business. Due to lack of overnight secure parking, the vehicle needs to be removed from city property each night and the related commuting mileage is reported on his W-2 form. The Deputy Collector owns other vehicles for personal use. Several years ago, the Collector gave up his city vehicle.

Contact Phone Number: (314) 613-7357

City of St. Louis - Office of Collector of Revenue
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Vehicle Policies and Records

Finding Number: 4.B.

Finding: Vehicle mileage logs were not maintained for the vehicles assigned to the Chief of Staff and Collector of Revenue, and the logs for the compliance vehicles indicated only the daily beginning and ending odometer readings.

Recommendation: The Collector of Revenue maintain vehicle usage logs with daily destinations, purpose, and odometer readings for all vehicles. The logs should be periodically reviewed and the use of the vehicles evaluated for reasonableness and propriety.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The compliance department has two vehicles that are exclusively driven by two employees. These vehicles are only driven between the hours of 8 a.m. and 5 p.m., Monday through Friday and for work-related stops in the field. Each vehicle has its own mileage log sheet that is filled out by the employees with the destination address. After a sheet is completed, it is sent to the manager for review and signature.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Kimberly M. Gardner, Circuit Attorney
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2010-17, *City of St. Louis, Office of Circuit Attorney*, issued in January 2010, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our upcoming audit of the Office of Circuit Attorney. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Office of Circuit Attorney that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Office of Circuit Attorney

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Evidence Records and Procedures

Finding Number: 1.A.

Finding: One complete list of all evidence on hand was not maintained and a periodic inventory of evidence on hand was not conducted.

Recommendation: The Circuit Attorney ensure a complete list is maintained of all evidence in the hands of the Circuit Attorney's office (CAO). Also, the CAO should perform a periodic inventory of evidence, compare it to an inventory list, and investigate any differences.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Due to the heavy volume of evidence, storage issues remain a major challenge and a humongous venture for the CAO to properly locate, compartmentalize, and when legally necessary, destroy evidence and records after decades of completed cases and the voluminous growth of real and documentary evidence arising from the handling of prosecuted cases. This office maintains evidence processes for both open and closed cases. The evidence tracking system utilized for open cases is coordinated among the CAO, the Sheriff's office, and the St. Louis Metropolitan Police Department (SLMPD). The evidence tracking system for closed cases is maintained between the CAO and SLMPD. In line with the recommendation made by the State Auditor's office in the original report, the CAO continues to work with various parties to track evidence in the custody of the SLMPD.

In addition to the improvements made by the previous administration, we have upgraded the Prosecutor By Karpel (PBK) case management system, and this should provide a greater opportunity to electronically locate and handle evidence and records used in criminal prosecutions. While there is still work to be done, the investment in this technology and our efforts to become a paperless office should enhance our evidence records and procedures significantly in the long term. Law enforcement and the CAO discuss and investigate any differences found on the inventory list. However, the CAO and law enforcement continue to research better ways to ensure critical evidence is documented and stored appropriately. Current processes do not put justice at risk.

Contact Person: Michael Warrick

Contact Phone Number: (314) 589-6175

City of St. Louis - Office of Circuit Attorney
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Evidence Records and Procedures

Finding Number: 1.B.

Finding: There were no written procedures to review or update disposal dates of case evidence held by the Circuit Attorney. Several cases listed on the Evidence Disposal Report showed case evidence located in the property rooms with old disposal dates or no disposal date.

Recommendation: The Circuit Attorney develop procedures to ensure evidence is disposed of timely or documentation is maintained to show the evidence was reviewed and the disposal date postponed.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Evidence storage issues remain a major challenge for the CAO to properly locate, compartmentalize, and, when legally necessary, destroy evidence and records after decades of completed cases and the voluminous growth of real and documentary evidence arising from the handling of prosecuted cases. The CAO works to ensure evidence is documented, reviewed, and disposed of in a manner consistent with case needs and the most recent retention and disposal of records laws. Currently the CAO has made good efforts to electronically input information related to the whereabouts of evidence in the updated PBK case management system. In addition, the CAO has developed a spreadsheet earmarking evidence subject to disposal. With a new administration at the CAO, we are reviewing our current protocols to determine if there are better procedures and processes (including a court order, as required by statute, that lists certain evidence that is subject to disposal) to implement the disposal in conjunction with evidence under the custody of the CAO and law enforcement. Current processes and plans for disposal of evidence continue to ensure that justice can be served through the proper accounting of evidence.

Contact Person: Michael Warrick

Contact Phone Number: (314) 589-6175

City of St. Louis - Office of Circuit Attorney
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Evidence Records and Procedures

Finding Number: 1.C.

Finding: The Circuit Attorney's office did not notify the city police or sheriff departments of evidence to be retained indefinitely in the property custody section.

Recommendation: The Circuit Attorney ensure all law enforcement agencies are formally notified when evidence will not be returned.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The general rule established by the SLMPD is that it does not take back evidence once it is checked out, so notification of intent to retain evidence is not necessary. The CAO has a notification-of-return system with the Sheriff's office that provides the type of evidence returned, the reason for return, and when the evidence was returned. The CAO is working with the SLMPD and Sheriff's office to establish a formal return policy using an electronic notification system.

Contact Person: Michael Warrick
Contact Phone Number: (314) 589-6175

City of St. Louis - Office of Circuit Attorney
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Bank Reconciliations

Finding Number: 2.A. and 2.B.

Finding: Formal bank reconciliations were not prepared timely by the Victim Services Unit for the Asset Forfeiture or Benefit Donations Accounts. In addition, differences between book and bank balances were not adequately investigated and any resulting adjustments were not approved. Bank reconciliations were not adequately documented by the White Collar Crime Unit for the Bad Check Account. In addition, the Bad Check Account had an unidentified balance which had been carried forward for several years.

Recommendation: The Circuit Attorney ensure monthly bank reconciliations are properly documented, differences between book and bank balances are investigated, and supporting documentation for adjustments and reconciliations are maintained. In addition, adjustments should be approved by someone independent of the accounting function and unidentified monies should be investigated and disposed of in accordance with state law.

Status of Finding: Partially Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The CAO has instituted procedures to ensure that formal bank reconciliations are properly documented by the Victim Services Unit for the Asset Forfeiture and Benefit Donations Accounts. The Asset Forfeiture Account has not received a deposit since 2014, and all existing funds have been utilized in accordance with federal and state law as of the beginning of this year (2018). All funding received through the Asset Forfeiture Account is subject to reconciliation reports that are produced through the QuickBooks accounting database. Unless additional funding is provided, no further activity is anticipated with this account. The Benefit Donations Account is an account of the Victim Witness Assistance Corporation. The Victim Witness Assistance Corporation is a 501(c)(3) corporation that is an independent entity not under the oversight nor subject to funding by the City of St. Louis. All funding received through the Benefit Donations Account is subject to reconciliation reports that are produced through the QuickBooks accounting database. In respect to the Benefit Donations Account, all bank reports are reviewed by the outside accounting firm that prepares our annual Form 990 tax filing.

The CAO agrees with the audit recommendations regarding the documentation and maintenance of bank reconciliations and differences between book and bank balances (if any exist) should be investigated. The CAO will institute monthly bank reconciliations of the Bad Check Account to determine any discrepancies. An outside accounting firm or entity will be sought to provide input and investigate the handling of monies to dispose of them in accordance with state law.

Contact Person: Michael Warrick

Contact Phone Number: (314) 589-6175

City of St. Louis - Office of Circuit Attorney
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Disbursements

Finding Number: 3.A.

Finding: The CAO did not solicit or retain bid/proposal documentation for the purchase of some services. Circuit Attorney personnel indicated the city's procurement policy was followed; however, it had not been formally adopted.

Recommendation: The Circuit Attorney formally adopt the city's procurement policy and ensure it is followed and complete documentation of the bidding process is maintained.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The CAO has formally adopted the city's procurement policy as the CAO's "Purchasing Procedures and Policies." The policies are modeled after the city's processes and procedures and incorporate or reference the city's policy (where appropriate). The CAO follows its purchasing and procurement procedures while making purchases and procurements (when applicable).

Contact Person: Michael Warrick
Contact Phone Number: (314) 589-6175

City of St. Louis - Office of Circuit Attorney
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Disbursements

Finding Number: 3.B.

Finding: The White Collar Crime Unit did not conduct a formal study to support the percentage of monies withheld from the bond and asset forfeiture monies transferred to the state.

Recommendation: The Circuit Attorney ensure formal cost studies are performed and documented for all costs incurred in managing the asset forfeiture and bond forfeiture accounts.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Recently, the White Collar and Fraud Unit has begun a formal study to examine the percentage of monies withheld from the bond and asset forfeiture monies transferred to the state. The study consists of a survey of Missouri case law in conjunction with an examination of the actual cost assessment of the resources expended by the CAO in collecting monies.

Contact Phone Number: (314) 589-6175

City of St. Louis - Office of Circuit Attorney
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Disbursements

Finding Number: 3.C.

Finding: Monitoring procedures for the CAO were not sufficient for fuel purchases.

Recommendation: The Circuit Attorney ensure all fuel charges are reconciled to the Board of Public Service Equipment Services Division fleet management report.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Chief Investigator of the CAO oversees a fuel policy that ensures all fuel purchased reconciles to the Board of Public Service Equipment Services Division (ESD) report. The CAO has implemented a fuel policy that requires a monthly fleet management report documenting all fuel purchases. The policy requires the identification of the staff person making the fuel purchases, and requires usage logs be maintained for each vehicle that show the date, beginning and ending odometer readings, and the reason for each trip. In addition, the CAO retains charge receipt slips and the receipt slips are reconciled to the fleet management report. The monthly fleet management report reconciles all fuel charges with a report that is forwarded to the ESD.

**City of St. Louis
Supply Division**

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of City of St. Louis - Supply Division

Emergency Purchases	City personnel made emergency purchases that did not meet the city's definition of "emergency" or include adequate documentation to justify the emergency nature of the purchase, in violation of the City Charter and City Code. City departments did not always obtain the required approvals prior to initiating an emergency purchase, or did not document that the purchases were made on a night or weekend, in violation of the Supply Division Procedures Manual. The Supply Division has not enforced current policies to ensure departments comply with competitive bidding requirements for emergency purchases exceeding \$500.
Contracting	A vendor contracted to supply automotive batteries refused to continue selling products at contracted prices. Instead of terminating and rebidding the contract, in August 2017, the Supply Division approved a price increase that violated the contractual terms and conditions, and was inconsistent with recommendations provided by other city departments. The Supply Division does not always retain information to allow division personnel to properly verify the invoice price agrees to the contract terms.
Advertising of Bid Solicitations	The division does not always follow advertising requirements for purchases valued above \$5,000.
Elected Official Bond	The Supply Commissioner did not obtain a bond as required by City Code for a period of more than 7 months after taking office, when we brought the issue to her attention.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Supply Commissioner
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Supply Division in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the years ended June 30, 2017, and June 30, 2018, respectively. To minimize duplication of effort, we reviewed the CPA firm's report for the fiscal year 2017 audit, since the fiscal year 2018 audit had not been completed. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2018. The objectives of our audit were to:

1. Evaluate the division's internal controls over significant management and financial functions.
2. Evaluate the division's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

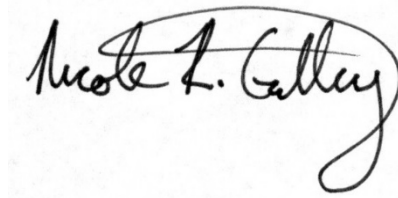

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Supply Division.

Additional audits of various officials and departments of the City of St. Louis are still in process, and any additional findings and recommendations will be included in subsequent reports.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

City of St. Louis - Supply Division

Management Advisory Report

State Auditor's Findings

1. Emergency Purchases

Controls and procedures over emergency purchases need improvement. The city allows personnel to bypass standard procurement procedures in emergency situations, such as when there is an environmental hazard or disruption to city services. However, we identified some purchases processed as emergencies that did not (1) meet the allowable definition, (2) follow required procedures, or (3) include adequate documentation. The Supply Division processed 129 and 241 emergency purchase requisitions during the fiscal years ended June 30, 2018 and June 30, 2017, respectively.

The Supply Division, Comptroller's Office, and the Board of Standardization each have a role in the city's procurement activities. The Comptroller is the Chief Fiscal Officer of the city and assists with the city's daily financial operations, including processing payments to vendors. The Board of Standardization (Board) consists of the Comptroller, Supply Commissioner, and President of the Board of Public Service. The Board assists with setting standards and specifications for supplies and materials purchased by the city, approves advertising waivers for bid solicitations that would otherwise require advertising, and approves all new contracts recommended by the Supply Division.

1.1 Improper emergency purchases

City personnel made emergency purchases that did not meet the city's definition of "emergency" or include adequate documentation to justify the emergency nature of the purchase, in violation of the City Charter and City Code.

We reviewed 18 emergency purchases made by various city departments that were processed through the Supply Division and approved by both the Supply Division and the Comptroller's Office. These 18 purchases were made during the 2 fiscal years ended June 30, 2018, and totaled approximately \$28,000. Of the 18 purchases reviewed, 2 totaling about \$10,100 did not meet the city's definition of an emergency based on documentation provided.

- The Equipment Services Division (ESD) purchased various parts totaling about \$8,800 to repair machines or machine attachments used for street paving projects. Documentation provided indicates at least some of the parts were requested for preventative maintenance, while others were needed to repair inoperable equipment. ESD personnel notified the Supply Division that they needed to get the parts installed before the next round of paving began, but did not provide any information on the dates of the next planned paving projects or how long the machines would take to repair.

While some parts were ordered and received in August 2017, additional parts were not ordered and received until November 2017. While discussing this purchase with the current Commissioner of the ESD, he indicated the employee who made the purchase intentionally split the

City of St. Louis - Supply Division
Management Advisory Report - State Auditor's Findings

order for unknown reasons, but he believes all parts purchased met the city's definition of an emergency.

- The St. Louis Metropolitan Police Department (SLMPD) purchased various office supplies totaling about \$1,300. In February 2017 the previous Supply Commissioner requested the invoices be paid as an emergency purchase, and documented that the emergency requisition was needed because one of the SLMPD's employees had failed to follow required purchasing procedures.

Some city departments may be using emergency purchases to circumvent normal city purchasing procedures. The Supply Division is responsible for ensuring that supplies, equipment, and materials are purchased in accordance with policies and standards established by the Board of Standardization. The Supply Division should not approve emergency purchases that do not meet the definition of an emergency. This would ensure purchases are reasonable and necessary and the city receives the best price for all purchases.

Emergency purchases are authorized by Article XV, Section 29 of the City Charter and Section 5.58.050 of the City Code. The city's Board of Standardization defines an emergency purchase as "when a condition or situation exists which may result in loss of life, limb, or property, eliminates an environmental hazard, addresses a condition which requires immediate attention in order to avoid further damage to a facility or additional costs to the City, affords the City the opportunity to use its resources in the most effective and efficient manner, or prevents the disruption or hindrance of normal delivery of City services."

In an effort to help reduce the abuse of emergency purchase provisions, the current Supply Commissioner indicated she has notified departments that emergency requisitions will be heavily scrutinized, held training classes for various departments making improper emergency purchases, and requested discipline for at least one city employee.

1.2 Prior approvals not obtained

City departments did not always obtain the required approvals prior to initiating an emergency purchase, or did not document that the purchases were made on a night or weekend, in violation of the Supply Division Procedures Manual. The departments or divisions responsible for the 2 purchases described in section 1.1 did not follow required procedures and failed to request and obtain proper approvals prior to ordering the parts and supplies.

Each of the purchases included invoices with order dates prior to the creation and approval of the related emergency requisition form, and did not include any documentation to indicate the purchase was made during non-business hours. Invoices were dated 7 days (ESD) and 167 days (SLMPD) prior to the

City of St. Louis - Supply Division
Management Advisory Report - State Auditor's Findings

first documented approval on the emergency requisition form. The emergency requisition form is required to be approved by the Supply Division's buyer, another representative of the Supply Commissioner's office, and the Comptroller's Office. Approval is also required from the Board of Standardization if the department requests a waiver of advertising for emergency purchases greater than \$5,000.

Section 3.d. of the Supply Division Procedures Manual requires departments to obtain a verbal approval from the Supply Division and Comptroller's Office before ordering an item on an emergency basis, unless the emergency occurs during non-business hours. City personnel are instructed to document who provided the verbal approvals when submitting the necessary documentation to pay the vendor. If the emergency occurs during non-business hours, the purchase must be approved by the department head at the lowest possible price.

1.3 Bidding requirements

The Supply Division has not enforced current policies to ensure departments comply with competitive bidding requirements for emergency purchases exceeding \$500.

For 16 of the 18 emergency purchases we reviewed (all exceeding \$500), the Supply Division could not provide any documentation to demonstrate personnel in the department purchasing the items solicited price quotes or obtained a bid waiver as required. Section 3.d of the Supply Division Procedures Manual requires departments to obtain 2 or 3 bids on vendor letterhead before initiating an emergency purchase (if possible), and requires the departments submit this documentation to the Supply Division unless the department requests a bid waiver and it is approved.

Supply Division personnel said city departments rarely submit documentation of bids or price quotes for emergency purchases, and the division does not enforce the policy. They indicated the division relies on each department head to ensure compliance with existing procurement policies. It is unreasonable to assume that city departments could never obtain bids because some emergencies occur during normal business hours.

Failure to obtain competitive price quotes can result in the city not receiving the best price for emergency purchases. In some cases, it may not be possible or practical to obtain price quotes or bids prior to purchase. In these cases, the reasons for not following applicable policies should be documented.

Similar conditions previously reported

Similar conditions were noted in our prior audit report. In the *Follow-Up Report on Audit Findings City of St. Louis Supply Division*, Report No. 2018-052, released in August 2018, the division stated these previous recommendations had been implemented; however, we found that corrective action taken was not always effective and problems continue to exist.

City of St. Louis - Supply Division
Management Advisory Report - State Auditor's Findings

Recommendations

The Supply Division work with the Comptroller's Office to:

- 1.1 Ensure emergency purchases meet the city's definition of an emergency and reject purchases that do not meet the definition or obtain additional written justification. In addition, the Supply Division should continue to work with the Mayor, Board of Aldermen, or individual departments to pursue disciplinary action against city departments or employees abusing emergency purchasing procedures.
- 1.2 Ensure city departments obtain approval for any emergency purchases prior to initiating the actual purchase, or clearly document the allowable reasons for initiating the purchase prior to approval.
- 1.3 Ensure vendor price quotes have been received for all emergency purchases prior to approving the purchase for payment. If there are valid reasons for not following applicable city policies for such purchases, these reasons should be fully documented.

Auditee's Response

- 1.1 *The Supply Division agrees with the audit finding, and had already begun to address this issue before auditors arrived. The Supply Division will continue to work with the Mayor's Office, Comptroller's Office, and the Board of Aldermen to ensure that city policies and procedures are followed. New procedures are also being created to reduce the issues significantly.*
 - *The number of emergencies has gone down considerably in the last 11 months, and the trend will continue. The Supply Division understands that the past practice of using the emergency process to correct errors was overused when no other option for purchases made in error existed. The lack of an error handling process could create false emergencies.*
 - *The city recently implemented a new Exception Requisition process for when items are purchased improperly or in error. Accountability and consequences are now required for employees misusing or not following correct city purchasing processes. It also provides the opportunity to find ways to improve and update our existing contracts or bidding processes.*
 - *The Supply Division continues to hold training classes for various departments and request discipline for those who abuse the processes intentionally or excessively.*

The new Exception Requisition Policy should correct the audit finding.

City of St. Louis - Supply Division
Management Advisory Report - State Auditor's Findings

- 1.2 *The new Exception Requisition process will eliminate this problem as well. The City Charter says that prior approval need not be obtained in a true emergency situation. More departments are now more aware of and following the rules about the definition of a true emergency and the Supply Division is actively providing training on the correct procedures to each department as well. The city does require prior phone or written approvals when feasible.*
- 1.3 *Not every department submits bids to the Supply Division every time they make an emergency purchase but, in a real emergency, they may not have time to go out and obtain 2-3 bids. Water main breaks, broken windows in the winter in the correctional facility, and office break ins require immediate remedies and often occur after hours. This situation has been aggressively addressed and from now on, per your suggestion, the Supply Division will require copies of the department's request for quotes, or documentation of why obtaining quotes was not feasible.*

2. Contracting

Controls and procedures over contracting activities need improvement. The Supply Division processed 2,391 contractual purchases during the fiscal year ended June 30, 2018, and currently manages approximately 200 contracts.

2.1 Unallowable price increase and vendor's refusal to comply

A vendor contracted to supply automotive batteries refused to continue selling products at contracted prices. Instead of terminating and rebidding the contract, in August 2017, the Supply Division approved a price increase that violated the contractual terms and conditions, and was inconsistent with recommendations provided by other city departments. The city paid this vendor about \$156,000 during the year ended June 30, 2018.

In January 2017, the Supply Division modified the contract after the vendor requested a price increase averaging about 5 percent for each battery. The previous Supply Commissioner approved this increase after considering comments and recommendations from departments who buy the majority of automotive batteries. This increase complied with the contract terms and conditions because it did not exceed 5 percent per year.

In July 2017, the vendor requested an additional price increase that averaged about 23 percent per battery. The vendor's correspondence with the Supply Division indicated the vendor was losing money on most batteries sold to the city due to the rising cost of lead and the city's desire to purchase a brand not specifically mentioned in the contract; however, the contract did not specify a brand. It is not clear why division officials approved the price increase. Both the Airport Fleet Maintenance Manager and Commissioner of the ESD had reported customer service concerns to the Supply Division and recommended the contract be rebid. The Supply Division did not retain any other documentation to justify why the division ignored the recommendations of

City of St. Louis - Supply Division
Management Advisory Report - State Auditor's Findings

other departments and approved the additional price increase that exceeded price escalation limits included in the original contract.

All city contracts managed by the Supply Division include a price escalation clause allowing for price increases in some situations, but limit the increase to no more than 5 percent in any year. Each contract also includes a termination clause allowing the city to cancel the contract for any reason by giving 30 days written notice to the vendor. As a result of this contract modification, the city may not be getting the best price. If a similar situation occurs in the future, the Supply Division should consider terminating and rebidding the contract. Competitive bidding helps ensure all parties are given an equal opportunity to participate in city business.

2.2 Price verification

The Supply Division does not always retain information allowing division personnel to properly verify the invoice price agrees to the contract terms. In some instances, the price list is an attachment to the contract or, for larger contracts, the vendor may offer a fixed percentage discount off the list price of items in its catalog. City accounting procedures require the Supply Division review invoices for items purchased on an existing contract to ensure the prices agree to the applicable contracts. If the prices agree, the Supply Division authorizes a purchase order in the accounting system allowing for the payment of the invoice. If the prices do not agree, division personnel are required to send the invoice back to the applicable city department to resolve any differences.

We reviewed 20 contractual purchases to test the Supply Division's compliance with required procedures for validating the propriety of invoiced prices. These purchases totaled approximately \$346,000 and occurred during the 2 fiscal years ended June 30, 2018. The division did not retain a price list, price catalog, or have access to agreed-upon pricing information for 3 of the 20 purchases. These purchases were for miscellaneous supplies for the ESD totaling approximately \$4,800. Even though she did not have the information needed to verify the accuracy of the pricing, the Account Clerk signed and approved each invoice for payment.

To ensure the city only pays the contractually negotiated prices and to help prevent over-billing, the Supply Division should follow city policy and ensure all prices correspond with contracted prices prior to authorizing the applicable purchase orders. It is imperative division personnel retain the necessary information to allow comparison of contract prices against invoiced prices.

Recommendations

The Supply Division:

- 2.1 Comply with existing contractual terms and conditions regarding price increases. If a vendor requests a price increase that does not comply with contract terms or significant concerns are reported to the

City of St. Louis - Supply Division
Management Advisory Report - State Auditor's Findings

Supply Division, the division should consider terminating and rebidding the contract.

- 2.2 Ensure invoice prices correspond to contract prices before processing purchase orders in the accounting system, and implement procedures to ensure adequate record retention for all active contracts.

Auditee's Response

- 2.1 *This situation occurred before the current Supply Commissioner was in place. The ESD Commissioner said that the automotive parts industry poses unique issues, as prices fluctuate periodically throughout the industry. In this case, even with the increase requested, the prices were still comparable to what other vendors were charging at the time. City taxpayers realized no additional costs. When that specific vendor came back to the city and asked for another price increase in December 2017, the current Supply Commissioner refused and gave the vendor the option to terminate their contract or wait until the contract price increase was due next time on the anniversary date for a 5 percent increase. Documentation for the justification would have to be provided. After meeting on January 3, 2018, the vendor chose not to terminate their contract and to supply the city with parts at the agreed upon contract price.*

The Supply Division completely agrees that competitive pricing is optimal. The city now solicits bids for more items, even if they are on state contract, so we can compare pricing and get the taxpayers the best possible price. New processes are in place to ensure contract pricing equals invoice pricing, and that no vendor can overcharge the city or receive excess price increases.

Under the current Supply Commissioner, the city has terminated several contracts due to lack of performance and/or billing inaccuracies. The Supply Division has also improved our contract model (bidding, terms, etc.) to reduce confusion and potential problems.

- 2.2 *When the auditors discovered that the Supply Division was not verifying pricing on 100 percent of contractual purchases, we immediately updated all of the price lists and began full verification. Note that the departments are also required to price check, so the Supply Division price check is actually a second level verification.*

The employee responsible has been reminded that everything must be checked thoroughly. Also note that the proposed new accounting system to be purchased in 2018/2019 will eliminate most of this concern, as will the addition of another Account Clerk I focused on ESD.

3. Advertising of Bid Solicitations

Division personnel do not always follow advertising requirements for purchases valued above \$5,000.

We reviewed 5 bid solicitations processed through the Supply Division that city policy required to be advertised. These solicitations resulted in purchases totaling about \$212,000 during the 2 fiscal years ended June 30, 2018. Of the 5 bid solicitations reviewed, 3 were not advertised in the City Journal for the full 21 days as required. The 3 solicitations totaled about \$33,000 and included purchases of supplies and chemicals, an all-terrain vehicle, and storage containers. An advertising waiver was not in the bid documentation to indicate the departments purchasing the items requested a shorter solicitation period.

In addition, we reviewed the City Journal for January 7, 2017 and September 5, 2017 and identified 8 other competitive bid solicitations that were only advertised for 14 days instead of the required 21 days. The following solicitations were processed on behalf of 4 different city departments:

- tulip bulbs (\$5,300)
- trailer (\$20,000)
- mower (\$26,000)
- van (\$58,000)
- gravel (\$22,700)
- storage containers (\$16,700)
- blower (\$19,400)
- expansion material (\$5,600)

Mayor's Executive Order No. 47 (effective April 30, 2013) extended previous Executive Order No. 28. Section 3.2(b)(i) of the order states the city will advertise every bid in the City Journal no less than 21 days before bids are due. Competitive bidding helps ensure all parties are given an equal opportunity to participate in city business. Limiting the period of advertising, may result in the exclusion of eligible bidders.

We also reviewed the City Journal for October and November 2017, after the current Supply Commissioner took office, and noted all competitive bid solicitations were advertised with a due date of 21 days from the date of publication as required.

Recommendation

The Supply Division ensure applicable purchases over \$5,000 are advertised for at least 21 days, as required by city policy, unless a waiver of advertising is properly requested and approved, or there are other documented and justified reasons to shorten the advertising period.

Auditee's Response

The Supply Division agrees with the audit finding and has already addressed this issue. Please note that the short advertisements all happened before the

City of St. Louis - Supply Division
Management Advisory Report - State Auditor's Findings

current Supply Commissioner was in place. Bid opportunities are now advertised in more locations than in the past. We now advertise not only in the City Journal, but also on our website (<https://www.stlouis-mo.gov/supply>), Twitter, and Facebook.

4. Elected Official Bond

The Supply Commissioner did not obtain a bond as required by City Code for a period of more than 7 months after taking office, when we brought the issue to her attention.

Section 5.56.030 of the City Code requires the Supply Commissioner to obtain a bond of \$20,000 that must be approved by the Comptroller. The bond must include the following conditions (1) the commissioner will honestly and faithfully execute and perform the duties of the office; (2) the commissioner will not have any interest in the sale of goods to the city; and (3) the commissioner will not receive any bribe, gift, or consideration from any person or vendor who has an interest in supplying goods to the city.

Failure to obtain a proper bond exposes the city to the risk of financial or other damages caused by potential errors, omissions, or improper actions of the Supply Commissioner.

Recommendation

The Supply Commissioner should obtain bond coverage upon appointment to the position and maintain coverage during the term of office.

Auditee's Response

The bond was obtained and is effective until April 27, 2021.

City of St. Louis - Supply Division

Organization and Statistical Information

The City of St. Louis Supply Division is responsible for the procurement of all supplies, equipment, and selected services for almost all city-wide departments, including police, fire, parks, and the airport, as well as providing printing and mail services for the city. The division operates under the direction of the Supply Commissioner.

The position of Supply Commissioner was vacant from approximately March 2017 through August 2017. During that time, the Deputy Supply Commissioner directed daily operations. Effective September 5, 2017, Pamela Kuehling was appointed Supply Commissioner and took office.

The division administers approximately 200 contracts and processes about 3,200 requisitions per year fulfilled by hundreds of vendors and employs 24 individuals in the procurement functions, Multigraph Section, and Mail Room Services Section.

Multigraph Section

The Multigraph Section provides copying, printing, and design/typesetting services to all city departments. Promotional and customized graphic design work is created according to customer specifications. In addition, the section provides production assistance and advice to city departments as needed. The section is currently taking over printing operations from the St. Louis Metropolitan Police Department as a cost savings measure. Linda Wessels, Printing & Duplicating Graphics Manager, oversees the operations of this section.

Mail Room Services Section

According to the Supply Division's website, the Mail Room Services Section delivers mail twice daily to 67 different city departments. Approximately 1 million pieces of outgoing first-class mail are processed by the section in an average year. The section also folds and inserts approximately 250,000 pieces of mail annually, and offers a courier service to city departments. Lynn Crawford, Procurement and Purchasing Manager, and Michael McKinney, Mailroom Supervisor, oversee the operations of this section.

Office of Missouri State Auditor
Nicole Galloway, CPA

Worth County

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Worth County

Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney has not adequately segregated accounting duties and does not perform a supervisory review of detailed accounting records. The Prosecuting Attorney's office does not always issue receipt slips for monies received. The Prosecuting Attorney's office does not always transmit court-ordered restitution to victims timely.
Brush Control	The amount charged for enforcement of brush control was not always calculated accurately, resulting in some taxpayers being overcharged for the service.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations of another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Information	

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Worth County

We have audited certain operations of Worth County in fulfillment of our duties under Section 29.230, RSMo. In addition, McBride, Lock & Associates, LLC, Certified Public Accountants, was engaged to audit the financial statements of Worth County for the 2 years ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017. The objectives of our audit were to:

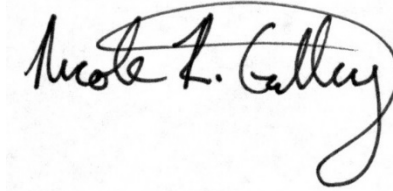

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Worth County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The signature is positioned above the printed name and title.

Worth County Management Advisory Report State Auditor's Findings

1. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected bad check restitution and fees, and court-ordered restitution and fees totaling approximately \$6,200 during the year ended December 31, 2017.

1.1 Segregation of duties

The Prosecuting Attorney has not adequately segregated accounting duties and does not perform a supervisory review of detailed accounting records. The Administrative Assistant receives, records, and transmits monies to victims and the County Treasurer. The Prosecuting Attorney does not review accounting records to ensure monies received are properly recorded and transmitted to the appropriate parties.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and transmitting monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting records are essential and should include comparing daily receipt activity to transmittals.

1.2 Receipting

The Prosecuting Attorney's office does not always issue receipt slips for monies received. The Administrative Assistant indicated receipt slips are issued for all monies received; however, when tracing October 2017 receipts to applicable case files, we identified 2 money orders, totaling \$120, that were not receipted.

Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of monies received will go undetected. Procedures should be established to ensure receipt slips are issued immediately for all monies received.

1.3 Transmittals

The Prosecuting Attorney's office does not always transmit court-ordered restitution to victims timely. A \$50 restitution payment received on June 15, 2017, was not disbursed until April 23, 2018. The Administrative Assistant indicated this payment was held because the payment was for an amount other than the scheduled payment amount, and it was later disbursed at the direction of the Prosecuting Attorney. In addition, 2 restitution payments, totaling \$120 (see section 1.2), received on September 15, 2017, and September 22, 2017, were not disbursed until October 6, 2017. The Administrative Assistant indicated these payments were held until the final payment was received on this case, although this is not the standard office procedure.

To ensure all receipts are accounted for properly and reduce the risk of loss, theft, or misuse of funds, court-ordered restitution monies received should be transmitted timely.

Worth County
Management Advisory Report - State Auditor's Findings

Recommendations

The Prosecuting Attorney:

- 1.1 Segregate accounting duties or ensure documented supervisory reviews of detailed accounting records are performed.
- 1.2 Issue receipt slips for all monies immediately upon receipt.
- 1.3 Transmit restitution monies timely.

Auditee's Response

I will implement a plan to adequately segregate the accounting duties of the office staff and will provide a more thorough review of these records to ensure that all monies taken in are properly recorded and receipted. A copy of the receipt slip will be immediately issued to the payor for all monies received, and all monies received will be disbursed to the proper party in a timely manner. The time frame for implementation is 30 days.

2. Brush Control

The amount charged for enforcement of brush control was not always calculated accurately, resulting in some taxpayers being overcharged for the service. Receipts for brush control totaled approximately \$10,000 during the year ended December 31, 2017.

County Ordinance 2010-01 was established in accordance with Section 263.245, RSMo, to enforce brush control adjacent to county roads. The County Clerk prepares a calculation of the total cost of eradicating brush for each parcel of land by calculating the total amount of labor and machine hours required for the brush removal, along with any additional costs incurred. The total cost calculated by the County Clerk is approved by the County Commission and assessed by the County Collector on the parcel of land as a special brush levy. A review of the County Clerk's cost calculation is not performed prior to the special brush levy assessment. Our review of the 3 parcels assessed special brush levies during 2017 noted errors in recording the number of hours worked to remove the brush for 2 of the 3 parcels. These errors resulted in taxpayer overcharges totaling \$127.

County Ordinance 2010-01 states "the county commission, or its agents, servants, or employees . . . shall keep an accurate account of the expenses incurred in eradicating the brush." To ensure an accurate account of expenses incurred is maintained and charged to the appropriate taxpayer, the County Commission should ensure the County Clerk's cost calculation is reviewed for accuracy.

Recommendation

The County Commission ensure the County Clerk's cost calculation for charging special brush levies is reviewed for accuracy.

Auditee's Response

We agree with the recommendation and will ensure future calculations are reviewed for accuracy.

Worth County

Organization and Statistical Information

Worth County is a county-organized, third-class county. The county seat is Grant City.

Worth County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 11 full-time employees and 8 part-time employees on December 31, 2017.

In addition, county operations include a Senior Citizen Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2018	2017
Ted Findley, Presiding Commissioner	\$	22,427
Regan Nonneman, Associate Commissioner		20,306
Tyler Paxson, Associate Commissioner		20,306
Barbara Foland, Recorder of Deeds		30,766
Roberta Owens, County Clerk		30,766
Brett Hurst, Prosecuting Attorney		39,603
Terry Sheddric, Sheriff		38,192
Linda L. Brown, County Treasurer		30,766
Sharon Supinger, County Coroner		8,487
Patsy A. Worthington, Public Administrator		8,955
Julie Tracy, County Collector, year ended February 28,	30,920

Domestic Violence Shelter Funding

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the Audit of the Domestic Violence Shelter Funding

Background	Domestic violence shelters exist throughout the state to provide assistance to victims of domestic violence in Missouri. The <i>Supplemental Domestic Violence Incident Report</i> for 2017 compiled by the Missouri State Highway Patrol indicated 45,253 incidents of domestic violence were reported that year. Currently, there are only two shelters to serve every three counties in the state. Domestic violence shelters may receive funding from statutory fees, various state and federal grant programs, state tax credit programs, interest income, local fund raisers, and contributions or donations. The Department of Social Services (DSS) administers the Domestic Violence Shelter Tax Credit as authorized by Section 135.550, RSMo. Funding is limited to \$2 million annually. The audit evaluated local government compliance with various state statutes.
Domestic Violence Shelter Funding Opportunities	Approximately \$698,000 in revenue for domestic violence shelters are forgone annually due to counties and cities electing not to collect all domestic violence fees allowed by state law.
Burdensome Statutes Hinder Distribution of Fees	State statutes regarding the distribution requirements for domestic violence fees collected are burdensome and unclear, resulting in a lack of compliance with requirements, and some county funds going undistributed. State law requires each county and city designated authority responsible for administering domestic violence funding to individually obtain and review domestic violence shelter funding requests, including determining if the shelter is eligible to receive funding. Only 43 of the 106 counties and the City of St. Louis (40 percent) responded that the requirements of Sections 455.215, 455.220 and 455.230, RSMo, were met. State law does not require the designated authorities to distribute funding and has not established a maximum amount that may be retained. Due to the decentralized manner in which domestic violence fees are currently distributed, funds are not being distributed where there is a demand for services.

Due to the nature of this report no rating is provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

We have audited certain operations of local government funding of domestic violence shelters as authorized by state law, in fulfillment of our duties under Chapter 29, RSMo. The scope of the audit included, but was not necessarily limited to the year ended December 31, 2017. The objectives of our audit were to:

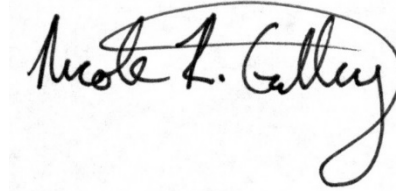

1. Evaluate compliance with certain legal provisions as they relate to funding for domestic violence shelters.
2. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions, as they relate to funding for domestic violence shelters.

Except as discussed in the following paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Government Auditing Standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Since there is no central agency charged with oversight of domestic violence shelter funding, we were unable to obtain views of responsible officials for the findings, conclusions, and recommendations outlined in the Management Advisory Report. The views of responsible county or city officials were obtained and included where appropriate.

The accompanying Appendixes are presented for informational purposes. This information was obtained from the management of these political subdivisions and the Missouri Coalition Against Domestic and Sexual Violence. The information was not subjected to the procedures applied in our audit of the Domestic Violence Shelter Funding.

For the areas audited, we identified (1) noncompliance with legal provisions and (2) the need for improvement in management practices and operations. The accompanying Management Advisory Report presents our findings arising from our audit of the Domestic Violence Shelters funding.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Domestic Violence Shelter Funding

Introduction

Background

Domestic violence shelters exist throughout the state to provide assistance to victims of domestic violence. The Missouri Coalition Against Domestic and Sexual Violence (MCADSV) is a non-profit membership organization comprised of community-based domestic violence programs throughout Missouri. These member programs, which provide services to domestic violence victims, represent nearly all of the domestic violence and sexual assault victim services providers in Missouri, as well as law enforcement agencies, prosecutors, courts and other allied victim service professionals. According to the MCADSV, there were 13 member residential service providers (shelters, safe houses, and motel placement) in 1985, 50 in 2000, and 77 as of March 30, 2018. Most, but not all, shelters receiving domestic violence funding are members of the coalition.

Domestic violence incidents

The *Supplemental Domestic Violence Incident Report* for 2017 compiled by the Missouri State Highway Patrol indicated 45,253 incidents of domestic violence were reported that year. Approximately 12 percent (5,654) of the incidents occurred in a county without a domestic violence shelter. These victims may have received shelter services in neighboring counties or even other states; however, this result cannot be determined. Appendix A lists the number of shelters and the domestic violence incidents per county.

An unmet need exists at local shelters

Currently, there are only two shelters to serve every three counties in the state. The MCADSV reported 28,182 unmet requests for shelter and other services in 2017. MCADSV officials indicated there would be some duplication within the number of individuals turned away since individuals in need of shelter services are referred from one shelter to another until available space is located. However, this duplication in counts emphasizes the problem of providing shelter when needed.

The state does not compile any statewide statistics on the number of people served by domestic violence shelters. However, the MCADSV collects and compiles service statistics on a contractual basis with the state. Service providers who receive funding through the Department of Social Services (DSS) or Victims of Crime Act are required to submit their Monthly Services Report (MSR) data online through MCADSV's web-based system. The MSRs are reviewed by MCADSV for any anomalies and are available to the DSS. According to MCADSV records, 6,303 women, 5,048 children and 83 men were provided shelter from domestic violence in 2017. The total number of bed nights provided was 323,102. The MCADSV also reported 28,182 unmet requests for shelter and other services due to a shelter lacking the resources to provide services. Appendix F provides a breakdown of services provided by region of the state.

When comparing domestic violence statistics in Missouri to five neighboring states, we determined Missouri ranks highest in the number of victims turned away from shelters per domestic violence incident. In addition, Missouri

Domestic Violence Shelter Funding Introduction

ranked second highest in number of services used per domestic violence incident. Table 1 shows the state comparisons for 2016.

Table 1: Domestic Violence State Comparison for 2016

	Domestic Violence Incidents	Services Used	Incidents per 10,000 people	Services Used per Incident	People Turned Away	People Turned Away per Incident
Missouri ¹	44,501	34,051	73	0.765	10,433	0.234
Arkansas ²	9,764	12,566	33	1.287	1,084	0.111

² State did not indicate whether counts of victims was duplicated.

Source: State domestic violence coalitions

Available funding

Domestic violence shelters may receive funding from statutory fees, various state and federal grant programs, state tax credit programs, interest income, local fund raisers, and contributions or donations. We estimated¹ 2017 statewide domestic violence shelter revenues of approximately \$74 million.

Approximately \$49 million (66 percent) in state and federal funding² in state fiscal year 2017 was awarded to domestic violence shelters. The domestic violence funding provided by the mandatory and optional domestic violence fees made up approximately 3 percent of funding. Figure 1 illustrates domestic violence shelter funding for 2017.

¹ We obtained financial data from 15 of the state's domestic violence shelters and estimated this data for the 77 shelters in the state.

² State and federal funding includes \$37 million of Victims of Crime Act (VOCA) grant monies, which include domestic violence services.

Domestic Violence Shelter Funding Introduction

Figure 1: 2017 Shelter
Funding by Source

Source: Survey responses submitted by counties, the MCADSV, and the Department of Social Services, Department of Public Safety and Department of Health and Senior Services.

Some domestic violence shelters also offer mental health, transitional housing, or job training programs. We excluded, when possible, these programs from total estimated shelter funding.

Tax credits

The DSS administers the Domestic Violence Shelter Tax Credit as authorized by Section 135.550, RSMo. Funding is limited to \$2 million annually. The tax credit program works as follows:

- Shelters wishing to participate in the tax credit program must apply to DSS annually. Each approved shelter receives an equal share of the tax credits available.
- Businesses or citizens donate money to an approved shelter and receive a tax credit. The contributor receives a 50 percent state tax credit for the contributions.
- Contributions must be at least \$100 and each contributor is limited to receiving \$50,000 in tax credits annually. The credits may be redeemed over the next 4 succeeding tax years until the full amount is claimed.
- If a shelter issues all available credits in a particular year, the shelter may contact the DSS to obtain additional credits. The DSS will contact shelters that do not appear to be in need of all assigned credits to receive authorization to transfer the unneeded credits.

The tax credit program is designed to generate up to \$4 million in donations to shelters annually. However, our analysis determined this source of funding is not used fully. The amount of tax credits granted in the last 3 fiscal years is shown in Table 2.

Domestic Violence Shelter Funding Introduction

Table 2: Tax Credits
Granted by Year

Fiscal Year	Tax Credits Granted	Percentage of Cap	Contributions to Shelters
2015	\$ 1,433,909	72%	\$ 2,867,818

Statutes

The audit evaluated local government compliance with various state statutes.

Section 451.151, RSMo, requires a fee be charged for the issuance of a marriage license, to include \$5 to provide financial assistance to shelters for victims of domestic violence. Section 488.607, RSMo, allows counties and cities to implement an optional surcharge of up to \$4 for each criminal case filed, including violations of any county or municipal ordinance. Section 488.445, RSMo, provides that the governing body of any county, or of any city not within a county, may impose a \$5 fee upon the issuance of a marriage license and may impose a \$2 surcharge upon any civil case filed in the circuit court.

Section 455.210, RSMo, provides that the governing body of the city or county shall designate an authority to administer the allocation and distribution of the funds to shelters for victims of domestic violence.

Section 455.215, RSMo, provides that a shelter for victims of domestic violence may apply to the designated authority for funds. All applications shall include the following:

- Evidence that the shelter is incorporated in Missouri as a nonprofit corporation.
- A list of the directors of the corporation, and a list of the trustees of the shelter if different.
- The proposed budget of the shelter for the following calendar year.
- A summary of the services proposed to be offered in the following calendar year.
- An estimate of the number of persons to be served during the following calendar year.

Domestic Violence Shelter Funding Introduction

Section 455.220, RSMo, provided that to qualify for the funds, a shelter shall meet the all of the following requirements:

- (1) Be incorporated in the state as a nonprofit corporation.
- (2) Have trustees who represent the racial, ethnic and socioeconomic diversity of the community to be served, at least one of whom must possess personal experience in confronting or mitigating the problems of domestic violence.
- (3) Receive at least 25 percent of its funds from sources other than funds distributed pursuant to Section 455.215, RSMo. These other sources may be public or private and may include contributions of goods or services, including materials, commodities, transportation, office space or other types of facilities or personal services.
- (4) Provide residential service or facilities for children when accompanied by a parent, guardian, or custodian who is a victim of domestic violence and who is receiving temporary residential service at the shelter.
- (5) Require persons employed by or volunteering services to the shelter to maintain the confidentiality of any information that would identify individuals served by the shelter and any information or records that are directly related to the advocacy services provided to such individuals.
- (6) Prior to providing any advocacy services, inform individuals served by the shelter of the nature and scope of the confidentiality requirement in subdivision (5) of this subsection.

Section 455.225, RSMo, provides guidance for allocation of funds if applications received exceed the amount of funds available.

Section 455.230, RSMo, requires shelters to file an annual report with the designated authority to include statistics on the number of persons served by the shelter, the relationship of the victim of domestic violence to the abuser, the number of referrals made for medical, psychological, financial, educational, vocational, child care, or legal services, and the results of an independent audit.

Scope and Methodology

The analysis focused on the funding available from counties and cities for domestic violence shelters. The scope of our audit included, but was not necessarily limited to, funding for domestic violence for the year ended December 31, 2017.

Domestic Violence Shelter Funding Introduction

Our methodology included interviewing various MCADSV and DSS personnel. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

To gain an understanding of what fees counties collected to fund domestic violence shelters and how these funds were disbursed to shelters, we surveyed the state's 114 counties and the City of St. Louis. The questionnaire asked these entities to:

- Identify which of the mandatory and optional fees were implemented. If an optional fee had not been authorized, an explanation was requested.
- Provide financial data for the fund(s) where these fees were placed.
- Provide information on compliance with various domestic violence funding statutory requirements.
- Report which domestic violence shelters received funding in 2017.

We received or obtained a response providing at least some of the requested information from most counties and the City of St. Louis. The counties of Camden, Clay, Crawford, Morgan, Ripley, and St. Charles did not reply to the survey. Responses received are summarized in Appendixes B and E.

To gain an understanding of what fees cities collected to fund domestic violence shelters, we surveyed the state's 10 largest cities that are within a county, by population. The survey asked the cities to identify if the optional fee was implemented. If the fee was implemented, the survey asked the fund balance at December 31, 2017. Responses are summarized in Appendix C.

We made additional inquiries to many county and city officials and sought additional clarification to the survey responses as deemed appropriate. We did not generally visit the political subdivisions or review supporting documentation of the revenues, expenditures, or balances of the special revenue fund used to manage this funding. We obtained financial information for some domestic violence shelters from counties that had provided funding to the shelters. These shelters appeared to be representative of the shelters in the state. We used this financial information to estimate the funding available to all shelters in the state. We did not visit any shelters for victims of domestic violence or perform any detailed review of shelter financial documentation or documentation supporting service statistics.

Domestic Violence Shelter Funding

Introduction

We obtained a summary of statistical data from MCADSV, an advocacy organization having the majority of domestic violence shelters in Missouri as members. We also obtained statistics on court activity from the 2017 Annual Report prepared by the Office of State Courts Administrator (OSCA) and the number of domestic violence incidents from the *Supplemental Domestic Violence Incident Report* for 2017 prepared by the Missouri State Highway Patrol. We obtained statistics on the number of marriages from the 2016 Annual Report issued by the Missouri Department of Health and Senior Services. The 2017 Annual Report was not available as of May 2018, so we projected data available at that time.

We obtained information on federal and state grant funding provided to domestic violence shelters through the DSS, the Department of Health and Senior Services, and the Department of Public Safety as well as tax credit programs managed by the DSS. We evaluated if the state was participating in applicable federal grant programs that could provide funding to domestic violence shelters. No concerns were noted regarding this issue.

To compare Missouri's funding for domestic violence shelters and domestic violence statistics to other states, we contacted officials in the eight surrounding states. We received responses from five states. We did not receive responses from Iowa, Kansas, or Nebraska.

We also obtained an understanding of the legal provisions that are significant within the context of our audit objectives. This work included, but were not limited to, reviews of Sections 455.200 to 455.230, 451.151, 488.445, 488.607, and 135.550, RSMo.

Domestic Violence Shelter Funding Management Advisory Report State Auditor's Findings

1. Domestic Violence Funding Opportunities

Approximately \$698,000 in revenue for domestic violence shelters are forgone annually due to counties and cities electing not to collect all domestic violence fees allowed by state law. As depicted in Table 1.1, Missouri statutes allow counties and cities the option to assess fees to fund shelters for victims of domestic violence. These fees are in addition to the mandatory \$5 fee required to be charged by counties for marriage licenses.

Table 1.1: Optional Fees to Fund Domestic Violence

Statute	Fee Description	Allowed Amount	Applies To
488.445	Issuance of a marriage license	\$5	Counties and the City of St. Louis
488.445	Filing of a civil case	\$2	Counties and the City of St. Louis
488.607	Filing of a criminal case	up to \$4	Counties and Cities

Due to these fees being optional, implementation has been sporadic across the state. We determined 17 counties did not impose any of the optional fees to fund shelters for victims of domestic violence, a significant improvement from 60 reported in a prior audit report issued in 2000.³ In the 17 counties that did not impose any of the optional fees, there were 2,007 domestic violence incidents, or 4 percent of the total 45,253 domestic violence incidents reported during 2017. In addition, 3 of the 10 largest cities in the state did not pass ordinances authorizing collection of the optional fee authorized under Section 488.607, RSMo.⁴ In 2017, 69 counties reported domestic violence fee revenue of less than \$1,000. Figure 1.1 illustrates the number of counties collecting the optional domestic violence fees. Appendix B includes the detailed optional fees authorized by each county.

Figure 1.1: Percentage of counties collecting optional fees, by fee type

Source: Survey responses submitted by counties

³ State Auditor's Office, *Audit of Collection and Distribution of Fees for Domestic Violence Shelters*, report number 2000-97.

⁴ The maximum fee allowed by section 488.607, RSMo, was updated in 2014 to allow an amount up to \$4. Prior to 2014, counties and cities could authorize a \$2 fee. Audit survey response indicated 43 counties imposed the maximum allowable fee.

Domestic Violence Shelter Funding Management Advisory Report - State Auditor's Findings

In response to our survey, officials cited the following reasons for not implementing optional fees:

- There are no domestic violence shelters within the county or city.
- The officials were not aware of the optional fees.
- One county collected all fees except the \$5 optional fee per Section 488.445, RSMo, because the official thought this fee was for homeless shelters only, and there are none within the county.

As shown in Table 1.2, an estimated \$698,000 would be available each year for domestic violence shelters if counties and the surveyed cities implemented the optional fees.

Table 1.2: Additional
Fees Available

Fee	Number of Cases ¹	Fee Amount	Total Available
Marriage	4,966	\$5	\$ 24,830
Civil Cases	24,732	\$2	49,464
Criminal Cases	99,850	Up to \$4	399,400
Criminal Fees less than \$4	69,868	Up to \$4	147,951
City Criminal Cases	19,082	Up to \$4	76,328
Total	218,498		\$ 697,973

¹ We based our estimate for marriages upon the number of marriages reported by the Missouri Department of Health and Senior Services in the department's 2016 Annual Report in counties that did not collect the fees. For civil and criminal cases, we used statistics reported in the Missouri Judicial Report and information supplied by surveyed cities.

Section 488.445, RSMo, does not restrict the adoption of optional fees to counties having a shelter. Section 488.607, RSMo, specifically allows adoption of the optional fee on criminal cases by "any county or municipality whose residents are victims of domestic violence and are admitted to such shelters...." Implementing all optional fees would allow shelters the maximum funds to provide domestic violence services.

Recommendation

The General Assembly evaluate statutory changes that would expand adoption of the optional fees to support domestic violence shelters.

Auditee's Response

Due to no state or local entity having oversight or management responsibilities over funding for domestic violence shelters on a statewide basis, no management response can be obtained. The views of any applicable county or city officials were obtained as appropriate and considered a part of our audit fieldwork.

Domestic Violence Shelter Funding Management Advisory Report - State Auditor's Findings

2. Burdensome Statutes Hinder Distribution of Fees

State statutes regarding the distribution requirements for domestic violence fees collected are burdensome and unclear, resulting in a lack of compliance with requirements, and some county funds going undistributed. Survey results indicated many county governments do not require shelters to submit annual funding requests or provide an annual report of services provided as required by law. As a result of the burdensome statutory requirements, domestic violence fees were not distributed and attempts were not made to send idle funds to areas in the most need for the funds. A more centralized approach to distribution of fees could help ensure funds are used more effectively. Victims were turned away at some shelters and may not have received needed services as a result.

Statute requires duplication of effort

State law requires each county and city designated authority responsible for administering the allocation and distribution of domestic violence funds to shelters to individually obtain and review domestic violence shelter funding requests, including determining if the shelter is eligible to receive funding. If a shelter is requesting funding from multiple counties or cities, the shelter must submit the same paperwork and that paperwork must be reviewed and evaluated by multiple local officials.

Section 455.215, RSMo, requires the applications submitted to contain evidence the shelter is incorporated, the directors of the corporation, a proposed budget, a summary of services offered, and an estimate of the number of people to be served. Our survey results indicated 54 counties and the City of St. Louis received funding requests from shelters that properly included the items required under this statute.

Shelters already apply for and receive state and federal grant funding through programs administered by the Department of Social Services and other state agencies. These programs generally involve application processes to determine eligibility as well as post-expenditure reporting requirements. With mechanisms already in place to evaluate shelter eligibility and for shelters to report program results, having hundreds of county and city designated authorities receive funding requests, determine eligibility, and receive program result reports is redundant and inefficient. Having a state agency designate which shelters are eligible to receive local domestic violence funding would simplify this process. Local governments could access this centralized data to determine a shelter's current eligibility status as well as its compliance status. A simplified or consolidated process would reduce the administrative burden at the local level and improve the ease of distribution to the shelters.

Statutory requirements for distribution are not being met

Only 43 of the 106 counties and the City of St. Louis (40 percent) responded that the requirements of Sections 455.215, 455.220 and 455.230, RSMo, were met. In addition, only 37 of the 89 counties providing funding to shelters in 2017 indicated the required financial, statistical, and audit results were provided in compliance with statutory requirements.

Domestic Violence Shelter Funding Management Advisory Report - State Auditor's Findings

Section 455.220, RSMo, requires shelters to be incorporated in the state as a nonprofit corporation, have trustees who represent the racial, ethnic and socioeconomic diversity of the community to be served, receive at least 25 percent of funds from sources other than funds distributed pursuant to Section 455.215, RSMo, and provide residential services or facilities for children when accompanied by a parent or guardian who is a victim of domestic violence. Fifty-three counties and the City of St. Louis indicated the shelters making funding requests met the eligibility requirements of Section 455.220, RSMo. One county (Callaway) indicated the only funding request received did not meet the requirements but funding was provided anyway. Six counties (Adair, Clark, Daviess, Dunklin, Reynolds, and Scotland) indicated the requesting shelter complied with the requirements and the shelter was eligible for funding, but no distribution occurred.

Section 455.230, RSMo, requires annual statistical reporting for shelters receiving domestic violence fee funding. The statute requires the designated authority administering the allocation of funding to more than one shelter to compile the reported statistics from shelters; however, the statute does not explain what is to be done with the compiled data. Our survey results indicated 45 counties received annual reports from shelters that complied with Section 455.230, RSMo.

Local domestic violence fees not being distributed

State law does not require the designated authorities administering domestic violence funding to make distributions and has not established a maximum amount that may be retained. Eighteen counties did not distribute domestic violence fees in 2017 and, collectively, were holding \$254,000 at December 31, 2017. In these 18 counties, there were 2,679 domestic violence incidents, or 6 percent of the total 45,253 domestic violence incidents reported during 2017. An additional 6 counties distributed some funds throughout the year, but held more than a year's worth of revenue, totaling approximately \$50,000, at the end of the year. The detailed list of counties and amounts is available at Appendix D. According to officials in these counties, the funds were being held because no requests for funds were received, or there is no shelter in the county. As detailed at Appendix C, all of the cities surveyed that collected domestic violence fees distributed funds during 2017.

A centralized distribution model could improve effectiveness

Due to the decentralized manner in which domestic violence fees are currently distributed, funds are not being distributed where there is a demand for services. Counties are holding funds if no requests for funds are made by any shelters. Additionally, some counties do not contact shelter officials in other counties to ensure victims are served. At least three surrounding states (Kentucky, Tennessee, and Arkansas) require fees collected at the local level be remitted to a centralized state agency. The state agency then oversees the distribution of those fees to the shelters throughout the state.

A centralized registration and reporting system for shelters requesting domestic violence funds, such as used in Kentucky, Tennessee, and Arkansas,

Domestic Violence Shelter Funding Management Advisory Report - State Auditor's Findings

would enable more consistent reporting and better oversight of domestic violence funds. Such a system could determine which shelters are eligible for funding and receive and compile the required financial and statistical reports. Having a centralized agency administer the distribution of fees would also allow fees to be more strategically distributed based on need.

Recommendation

The General Assembly revise Sections 455.200 to 455.230, RSMo, to reduce the administrative burden placed upon political subdivision and shelters, and require local entities collecting domestic violence fees to distribute them at least annually. The General Assembly should also consider establishing a centralized shelter registration and data collection process and authorizing centralized collection and distribution of domestic violence fees. These functions could be handled by one of the state agencies already administering domestic violence programs.

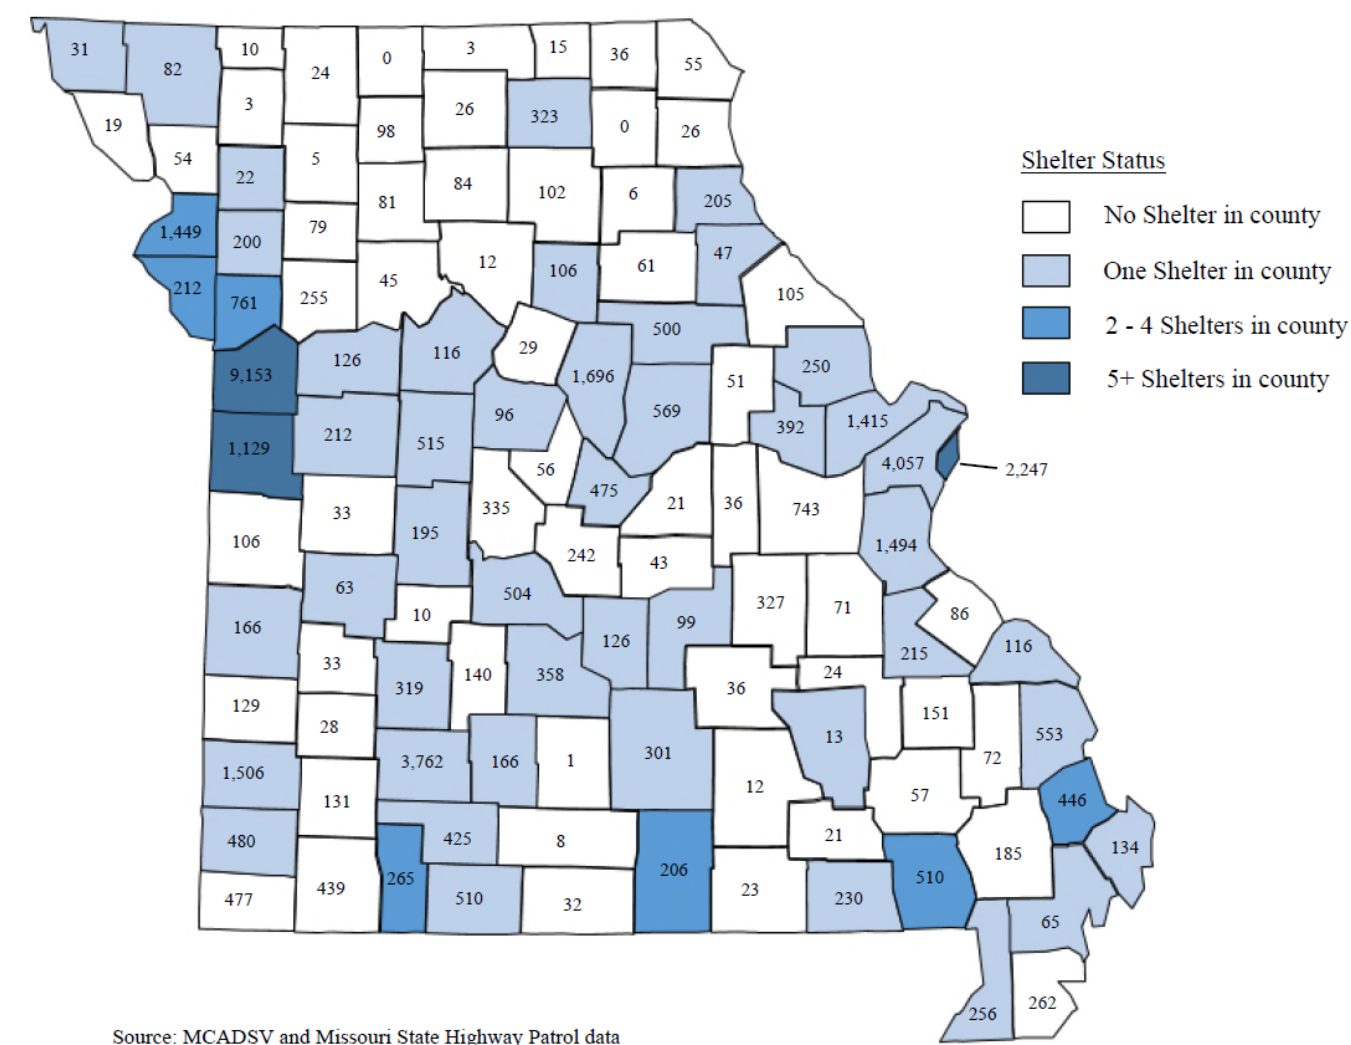

Auditee's Response

Due to no state or local entity having oversight or management responsibilities over funding for domestic violence shelters on a statewide basis, no management response can be obtained. The views of any applicable county or city officials were obtained as appropriate and considered a part of our audit fieldwork.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Laclede County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Laclede County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Laclede County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Laclede County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Comparative Schedules of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Laclede County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Laclede County, Missouri, as of December 31, 2017 and 2016, or the changes in financial position, or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Laclede County, Missouri, as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated July 10, 2018, on our consideration of Laclede County, Missouri’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County’s internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of these statements.

LACLEDE COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Laclede County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, County Clerk, Collector, Recorder, Coroner, Prosecuting Attorney, Public Administrator, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Laclede County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

Certain elected County officials, particularly the Collector and Treasurer, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.
 2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
 3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
 4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
 5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
 6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
 7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
 8. Budgets are prepared and adopted on the cash basis of accounting.
 9. Adoption of a formal budget is required by law.
 10. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the Inmate Security Fund in 2016.
- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation were:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 299,591,040	\$ 293,737,970
Personal Property	110,677,243	105,623,327
Railroad and Utilities	<u>21,041,720</u>	<u>21,087,005</u>
Total	<u>\$ 431,310,003</u>	<u>\$ 420,448,302</u>

For calendar years 2017 and 2016, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	<u>2017</u>	<u>2016</u>
General Revenue	\$ 0.1291	\$ 0.1134
Senate Bill 40 Board	0.0676	0.0676

Receipts classified as property taxes in the Special Road & Bridge Fund were collected from a surtax on commercial property.

F. Cash Deposits

Deposits are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash" caption. Cash includes demand deposit accounts with local banks.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017 and 2016, the carrying amounts of the County's deposits were \$7,626,387 and \$9,447,164, respectively, and the bank balances were \$8,113,521 and \$10,042,408, respectively. Of the bank balances, \$250,000 for December 31, 2017 and 2016 were covered by federal depository insurance. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2017 and 2016, the carrying amounts and bank balances of the Senate Bill 40 Board's deposits were \$77,183 and \$66,249, respectively. The bank balances were entirely covered by federal depository insurance.

At December 31, 2017 and 2016, the County Collector held, in addition to the cash listed above, cash representing collections of property taxes on behalf of various taxing districts in the County. Tax collections on deposit amounted to \$12,796,877 and \$13,128,702 at December 31, 2017 and 2016, respectively. The County Collector's deposits were covered by federal depository insurance of \$250,000 as of December 31, 2017 and 2016. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT FUND

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. The County has elected not to make contributions on behalf of employees. During 2017 and 2016, the County collected and remitted to CERF employee withholdings and fees collected of \$178,374 and \$167,596, respectively, for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 and \$7,752, respectively, for the years ended December 31, 2017 and 2016.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with 3.5 or 4 hours of sick leave per month depending on number of hours worked, up to a maximum of 30 days. Upon termination, employees are not compensated for unused sick leave. Vacation time is accrued for every full-time employee, and accrues at the rate of 35 hours per year up to 120 hours per year depending on length of employment. Vacation time cannot be carried over and must be used by December 31st of each calendar year. Employees leaving County service due to resignation, death or termination are compensated for unused vacation leave accrued.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

On February 1, 1997, the County issued \$78,000 in Laclede County Limited General Obligation Bonds Series 1997 for the Lake Shores Estates Neighborhood Improvement District. The bonds were paid in varying annual payments ranging from \$2,000 to \$7,000, with interest at 6.5%. The final payment was made on February 8, 2017.

On September 7, 2012 the County borrowed \$134,340 from the Missouri Department of Natural Resources to upgrade the courthouse with energy efficient lighting and other items. The loan was paid in varying annual payments ranging from \$6,012 to \$18,143, with interest at 0%. The final payment was made on June 10, 2016.

On August 22, 2011, the County entered into a \$33,180 promissory note with Joseph W. Souza for the Harrill Lane Road Neighborhood Improvement District. The note was paid in annual payments of \$6,636, with interest at 6.75%. The final payment was made on February 10, 2016.

In January 2012, the County entered into a \$3,100,000 capital lease for energy improvements for the County. The lease was paid in semi-annual payments of \$133,881, with interest at 3.01%. The lease was originally scheduled to expire on November 1, 2026, however, the County paid off the balance of the loan on June 28, 2017 with a payment of \$2,271,496, of which \$1,171,496 came from the Capital Improvement Fund and \$1.1 million came from the County Development Tax Fund.

The following schedule shows changes in long-term debt during the year ended December 31, 2016:

Description	Balance 12/31/2015	Additions	Payments	Balance 12/31/2016	Interest Paid
Lake Shore Estates NID	\$ 13,000	\$ -	\$ (6,000)	\$ 7,000	\$ 845
DNR Energy Loan	24,155	-	(24,155)	-	-
Harrill Lane Road NID	6,636	-	(6,636)	-	-
US Bank Energy Lease	2,489,099	-	(193,825)	2,295,274	73,937

The following schedule shows changes in long-term debt during the year ended December 31, 2017:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid
Lake Shore Estates NID	\$ 7,000	\$ -	\$ (7,000)	\$ -	\$ 455
US Bank Energy Lease	2,295,274	-	(2,295,274)	-	110,102

8. OPERATING LEASES

The County leases several pieces of Road & Bridge equipment for three years at a time under operating leases through Caterpillar Financial Services. As of December 31, 2017, the County had the following commitments under operating leases:

- A. 48 month lease for Grader #45, with semi-annual payments of \$12,903 through August 1, 2018;
- B. 36 month lease for Grader #46, with annual payments of \$27,789 through March 11, 2018;
- C. 36 month lease for Grader #47, with annual payments of \$30,922 through September 4, 2018;
- D. 36 month lease for Grader #48, with annual payments of \$21,798 through October 26, 2018;
- E. 36 month lease for a backhoe, with annual payments of \$16,508 through December 21, 2018;
- F. 36 month lease for Grader #31, with annual payments of \$27,838 through June 15, 2019;
- G. 36 month lease for Grader #32, with annual payments of \$27,672 through June 15, 2019;
- H. 36 month lease for Grader #42, with annual payments of \$29,500 through June 2, 2020;
- I. 36 month lease for Grader #43, with annual payments of \$29,500 through June 2, 2020.

The following schedule represents future payments under operating leases:

<u>Year</u>	<u>Amount</u>
2018	\$ 237,334
2019	114,510
2020	59,000

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 10, 2018, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Laclede County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Laclede County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Laclede County, Missouri's basic financial statements and have issued our report thereon dated July 10, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Laclede County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Laclede County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Laclede County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Laclede County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

OTHER MATTERS

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Comparative Schedules of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, we considered Laclede County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated July 10, 2018. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Recorder Cash Receipts

As part of our audit, we examined cash receipts that were turned over to the County Treasurer by the Recorder's office. As part of our testing, we noted that the Recorder's office uses an electronic receipting system that automatically generates sequentially numbered receipts. For each day that was selected for testing, we examined the listing of receipt or "Invoice" numbers for that day to ensure that receipt numbers issued throughout the day were in sequential order and all number were accounted for. However, we noted three receipt numbers out of the 12 days that were selected for testing that could not be accounted for. The Recorder's office speculated that in these instances someone may have begun recording a receipt in the system and canceled it before it was completed. The receipting system would not leave a trail of this happening. We recommend that the Recorder's office ensure that all receipt or "Invoice" numbers are accounted for each day to ensure that deposits into the bank and amounts turned over to the County Treasurer are complete.

LACLEDE COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the follow-up on action taken by Laclede County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2015 and 2014.

2015-001: Documentation of the County's internal controls has not been prepared.

Status: This finding is considered to be resolved.

2015-002: There is no formal fraud risk assessment in place.

Status: This finding is considered to be resolved.

2015-003: The bank account was not properly reconciled for the Sheriff's inmate account.

Status: This finding is considered to be resolved.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Worth County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Worth County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Worth County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Worth County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Comparative Schedules of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Worth County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Worth County, Missouri, as of December 31, 2017 and 2016, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Worth County, Missouri, as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 3, 2018, on our consideration of Worth County, Missouri’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County’s internal control over financial reporting and compliance.

WORTH COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Worth County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Recorder, Prosecuting Attorney, Public Administrator, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Worth County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity.

Certain elected County officials, particularly the Collector and Treasurer, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2017	2016
Special Road & Bridge	✓	N/A
Assessment	✓	✓

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation were:

	2017	2016
Real Estate	\$ 17,529,410	\$ 17,224,880
Personal Property	10,161,220	10,448,200
Railroad and Utilities	4,124,141	4,353,100
Total	<u>\$ 31,814,771</u>	<u>\$ 32,026,180</u>

For calendar years 2017 and 2016, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2017	2016
General Revenue	\$ 1.2000	\$ 1.1941
Special Road & Bridge	0.8540	0.8452
Senior Citizen Services	0.0500	0.0495

In addition, the County assesses a Special Gravel Tax in the amount of \$1 per agricultural acre. The assessed valuation of agricultural land in the County was \$162,745 and \$162,752 for the years December 31, 2017 and 2016, respectively.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017 and 2016, the carrying amounts of the County's deposits were \$916,375 and \$938,838, respectively, and the bank balances were \$941,630 and \$1,008,355, respectively. Of the bank balances, \$250,000 was covered by federal depository insurance at both December 31, 2017 and December 31, 2016. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2017 and 2016, the County Collector held, in addition to the cash and investments listed above, cash representing collections of property taxes on behalf of various taxing districts in the County. Tax collections on deposit amounted to \$1,366,688 and \$1,453,221 at December 31, 2017 and 2016, respectively. The County Collector's deposits were covered by federal depository

insurance of \$250,000 as of December 31, 2017 and 2016. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2017 and 2016, the County collected and remitted to CERF employee withholdings and fees collected of \$35,135 and \$32,536, respectively, for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 and \$2,618, respectively, for the years ended December 31, 2017 and 2016.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with an unlimited amount of sick time, to accrue at one day per complete calendar month of employment. Upon termination, an employee is not compensated for any unused accrued sick time. Vacation time is accrued for full and part time employees depending on length of employment. Vacation time accrues as follows: less than three years of service – one week per year; three through seven years of service – two weeks per year; eight or more years of service – three weeks per year. Employees may not carry over unused vacation days from one year to the next. Upon termination, no more than ten days of unused vacation shall be paid to employee.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

On November 16, 2012, the County entered into a five year equipment lease purchase agreement with Kansas State Bank in the amount of \$180,888 for the lease purchase of a 2012 Case motor grader. The lease is to be paid in five annual installments of \$39,614, which includes interest of 3.103%. The final payment was made during 2017.

On February 1, 2016, the County entered into a ten year promissory note with the Missouri Department of Natural Resources State Historic Preservation Office in the amount of \$214,158 for the purpose of replacing the courthouse roof. The note is to be paid in annual payments of \$23,000, which includes interest of 1.25%. The County made two payments during 2016, accelerating the final payment date to February 1, 2024.

On August 10, 2016, the County entered into a ten year equipment lease purchase agreement with Caterpillar Financial Services in the amount of \$284,669 for the lease purchase of a Caterpillar 12M3 AWD grader. The lease is to be paid in nine annual payments of \$36,681, which includes interest of 3.9%, with the final payment scheduled on March 25, 2025.

On March 20, 2017, the County entered into a five year equipment lease purchase agreement with Caterpillar Financial Services in the amount of \$87,691 for the lease purchase of a Caterpillar D5K2 tractor. The lease is to be paid in five annual payments of \$19,642, which includes interest of 3.9%, with the final payment scheduled on March 20, 2022.

The following schedule shows changes in long-term debt outstanding during the year ended December 31, 2016:

Description	Balance 12/31/2015	Additions	Payments	Balance 12/31/2016	Interest Paid
2012 Case Motor Grader	\$ 75,687	\$ -	\$ (37,265)	\$ 38,422	\$2,349
DNR Courthouse Roof	-	214,158	(43,611)	170,547	2,389
Caterpillar AWD Grader	-	284,669	(36,681)	247,988	-

The following schedule shows changes in long-term debt outstanding during the year ended December 31, 2017:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid
2012 Case Motor Grader	\$ 38,422	\$ -	\$(38,422)	\$ -	\$1,192

Caterpillar AWD Grader	247,988	-	(27,010)	220,978	9,671
Caterpillar Tractor	-	87,691	-	87,691	-

The following schedule represents future payments under long-term debt obligations:

Year	Principal	Interest	Total
2018	\$ 65,414	\$13,909	\$ 79,323
2019	67,406	11,917	79,323
2020	69,467	9,856	79,323
2021	71,603	7,720	79,323
2022	73,814	5,509	79,323
2023-2025	110,644	4,832	115,476
Totals	<u>\$458,348</u>	<u>\$53,743</u>	<u>\$512,091</u>

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 3, 2018, the date the financial statements were available to be issued. Based on this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

COMPLIANCE SECTION

McBride, Lock & Associates, LLC

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Worth County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Worth County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Worth County, Missouri's basic financial statements and have issued our report thereon dated August 3, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Worth County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Worth County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Worth County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control described in the accompanying schedule of findings and recommendations as 2017-001 and 2017-002 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Worth County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and recommendations as 2017-003.

Worth County, Missouri's Responses to Findings

Worth County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and recommendations. Worth County, Missouri's responses were not subjected to the auditing procedures applied to the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

WORTH COUNTY, MISSOURI
FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2017-001: Pay Rate Authorizations

Criteria: A proper system of internal controls requires adequate documentation of approval for employee pay rates and pay increases.

Condition: The County does not maintain documentation to support the approval of pay rates for hourly employees. Salaries for elected officials and their deputies are approved through the annual budget documents, however, the hourly rates for non-salaried employees are not formally approved by the County Commission. Additionally, the County does not maintain documentation to support the approval of cost of living pay increases. Cost of living increases are not noted in the Commission minutes or documented in personnel files. Currently the County Clerk maintains an informal list of salaries and wage levels at her desk to use as a reference during payroll processing.

Cause: The County has not implemented procedures to ensure pay rate and pay increase approvals are properly documented.

Effect: Without adequate documentation of approved pay rates and pay increases, payroll expenditures cannot be properly supported.

Recommendation: We recommend the County maintain documentation to support the approval of pay rates and pay increases for all employees within the County.

County's Response: The County Clerk's office will provide a list to the County Commissioners which includes current and previous pay rates for each employee for approval each pay period.

Auditor's Response: The response is appropriate to correct the concern.

2017-002: Disbursement Controls

Criteria: A proper system of internal controls requires adequate review of all County expenditures prior to approval and payment and procedures for properly cancelling invoices after payment.

Condition: Review of the disbursement process noted payment vouchers and checks are reviewed and signed by the Commissioners, Treasurer and County Clerk, however, supporting documents such as invoices and receipts for reimbursement are not reviewed by elected officials before payments are approved and checks are signed. Additionally, invoices are not properly cancelled to prevent duplicate payment.

Review of credit card purchases noted several instances in which original receipts are not attached to the correct monthly credit card statement resulting in a payment amount different from the statement balance and one instance in which the original receipt for an online purchase was not received prior to making the payment. Additionally, credit card statements and supporting receipts are not properly cancelled to prevent duplicate payment. In one instance a training travel expense for \$398 was paid twice due to lack of proper cancellation on the invoice.

Cause: The County has not implemented proper procedures to ensure expenditures are adequately reviewed prior to approval of the payment and invoices and statements are properly cancelled.

Effect: Without an adequate review process there is an increased risk of payment for unauthorized expenditures. Additionally, there is an increased risk of duplicate payment when invoices are not properly cancelled.

Recommendation: We recommend the County implement procedures to ensure expenditures, including credit card expenditures, are adequately reviewed prior to approval and payment. Additionally, we recommend credit card statement activity is reconciled to original receipts to ensure proper amount is paid on each monthly credit card statement. Furthermore, we recommend invoices should be marked as "Paid" to prevent duplicate payment of expenditures.

County's Response: The County will implement a process to ensure that, along with vouchers and checks, invoices and supporting documentation are provided to the Commissioners as part of the approval process. Additionally, the County Clerk's office will ensure original receipts are provided and maintained with the correct monthly credit card statement. Furthermore, invoices and statements will be stamped paid by the County Commissioners during the approval process.

Auditor's Response: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

2017-003: Budgetary Controls

Criteria: RSMo 50.740 prohibits expenditures in excess of the approved budgets.

Condition: Actual expenditures exceeded budgeted expenditures for ten funds in both 2016 and 2017. The detailed list of funds can be found in Note 1.D.10 to the financial statements.

Cause: The County failed to adequately review and amend budgeted expenditures for each fund to ensure actual expenditures do not exceed the budget. Additionally, the County approved expenditures in excess of budgeted amounts.

Recommendation: We recommend the County strictly adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget.

County's Response: The County will work to improve the budget process and will not approve expenditures in excess of budgeted amounts.

Auditor's Response: The response is appropriate to correct the concern.

WORTH COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Worth County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2013 and 2012.

1. The County does not maintain documentation to support the approval of pay rates for hourly employees. Salaries for elected officials and their deputies are approved through the annual budget documents, however, the hourly rates for non-salaried employees are not formally approved by the County Commission and/or the employee's supervisor.

Status: Not resolved. See Finding 2017-001.

2. The County Road & Bridge department is not adequately monitoring fuel usage by employees using fuel from the County's bulk fuel tanks.

Status: Resolved.

3. Actual expenditures exceeded budgeted amounts for seven funds in 2012 and two funds in 2013.

Status: Not resolved. See Finding 2017-003.

4. The financial statements of the County as presented in the annual budget document present transfers between funds, however, the transfers reported in both 2012 and 2013 did not balance, in that transfers to other funds were not in agreement with transfers from other funds.

Status: Resolved.

5. The County had adopted an investment policy on October 31, 2000, however, the policy was not sufficient to meet the requirements of state statutes.

Status: Resolved.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Atchison County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Atchison County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Atchison County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Atchison County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Comparative Schedules of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Atchison County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

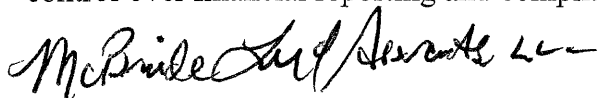

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Atchison County, Missouri, as of December 31, 2017 and 2016, or the changes in financial position, or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Atchison County, Missouri, as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated July 18, 2018, on our consideration of Atchison County, Missouri’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County’s internal control over financial reporting and compliance.

ATCHISON COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Atchison County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Atchison County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

Certain elected County officials, particularly the Collector and Treasurer, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.
 2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
 3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
 4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
 5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
 6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
 7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
 8. Budgets are prepared and adopted on the cash basis of accounting.
 9. Adoption of a formal budget is required by law.
 10. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.
- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation were:

	2017	2016
Real Estate	\$ 79,047,867	\$ 79,002,167
Personal Property	33,231,322	33,238,228
Railroad and Utilities	21,178,162	21,767,124
Total	<u>\$ 133,457,351</u>	<u>\$ 134,007,519</u>

For calendar years 2017 and 2016, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2017	2016
General Revenue	\$ 0.4927	\$ 0.4887
Road & Bridge	0.4927	0.4887
Senate Bill 40 Board	0.0986	0.0978
Senior Citizens Service Board	0.0492	0.0488
Special Road & Bridge	0.3500	0.3500

In addition to the levies above, the County assesses a \$0.50 levy to every agricultural acre in Atchison County to be used solely for rock. The property tax revenues of the Special Road & Bridge Fund consist of 69% of the collections from the Road & Bridge and Special Road & Bridge levies.

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalents balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents includes deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017 and 2016, the carrying amounts of the County's deposits were \$3,512,502 and \$2,594,895, respectively, and the bank balances were \$3,638,007 and \$2,742,114, respectively. Of the bank balances, \$500,000 for both December 31, 2017 and December 31, 2016, were covered by federal depository insurance. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2017 and 2016, the County Collector held, in addition to the cash and cash equivalents listed above, cash representing collections of property taxes on behalf of various taxing districts in the County. Tax collections on deposit amounted to \$5,727,168 and \$5,486,814 at December 31, 2017 and 2016, respectively. The County Collector's deposits were covered by federal depository insurance of \$250,000 as of December 31, 2017 and 2016. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Atchison County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Atchison County do not contribute to the pension plan. The June 30th statutorily required contribution rates were 11.0% and 10.9% (General), and 7.4% and 8.4% (Police) of annual covered payroll for 2017 and 2016 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2017 and 2016, the County contributed \$165,339 and \$162,063 to LAGERS.

4) Funding Status

As of February 28, 2017, the accrued liabilities exceeded the actuarial value of assets of the plan by \$257,489 for the General division and the actuarial value of assets exceeded the accrued liabilities by \$157,221 for the Police division. As of February 29, 2016, the accrued liabilities exceeded the actuarial value of assets of the plan by \$320,939 for the General division and the actuarial value of assets exceeded the accrued liabilities by \$127,791 for the Police division. These net pension assets and liabilities are not recognized in the cash basis financial statements of the County.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2017 and 2016, the County collected and remitted to CERF employee withholding and fees collected of \$111,881 and \$84,441, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,086 and \$2,525, respectively, for the years ended December 31, 2017 and 2016.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with up to 180 days of sick time, to accrue at one day per complete calendar month of employment. Upon termination, employees are compensated for up to 173 hours of accrued sick time. Vacation time is accrued for every full-time employee, and accrues at the rate of 48 hours per year up to 216 hours per year depending on length of employment. However, employees may only carry over a maximum of two years' worth of vacation hours from one year to the next. Any days accrued in excess of two years will be forfeited as they are earned. Upon termination, employees are compensated for up to 173 hours of unused vacation time.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Landfill

The County owns a solid waste disposal area and is obligated in the amount of \$389,628 to the Missouri Department of Natural Resources upon failure to close and/or provide post-closure care of the solid waste disposal area. At December 31, 2017, the County is not aware of any current obligation, however, any future obligations or liabilities related to the solid waste disposal area are unknown.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. CAPITAL LEASES

On May 7, 2015, the County Commission entered into a \$196,650 capital lease with John Deere Financial for the lease purchase of a 2015 John Deere 672G Motor Grader at a nominal interest rate of 3.0%. The lease term is effective from May 13, 2015 to May 13, 2020, with five annual lease payments of \$42,995.

The following schedule shows changes in long-term debt outstanding during the year ended December 31, 2016:

Description	Balance	Additions	Payments	Balance	Interest
	12/31/2015			12/31/2016	Paid
Motor Grader	\$ 196,670	\$ -	\$ 34,198	\$ 162,472	\$ 8,797

The following schedule shows changes in long-term debt outstanding during the year ended December 31, 2017:

Description	Balance	Additions	Payments	Balance	Interest
	12/31/2016			12/31/2017	Paid
Motor Grader	\$ 162,472	\$ -	\$ 38,811	\$ 123,661	\$ 4,184

The following schedule represents future payments under capital lease obligations:

Year	Principal	Interest	Total
2018	\$ 39,992	\$ 3,003	\$ 42,995
2019	41,208	1,787	42,995
2020	42,461	534	42,995
Totals	<u>\$ 123,661</u>	<u>\$ 5,324</u>	<u>\$ 128,985</u>

8. INTERFUND LOAN

In May 2013, the County purchased an excavator for the Road & Bridge department in the amount of \$126,655 out of the Mitigation Fund, with the Special Road & Bridge Fund reimbursing the Mitigation Fund over five years. The agreement called for five annual payments of \$26,871, including interest at 2%. The final payment is due in June 2018. These payments are reflected as transfers between the funds in the financial statements.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 18, 2018, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Atchison County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Atchison County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Atchison County, Missouri's basic financial statements and have issued our report thereon dated July 18, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Atchison County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Atchison County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Atchison County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Atchison County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

ATCHISON COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Atchison County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2013 and 2012.

1. The County did not prepare a budget for the Multi-Purpose Election fund for 2013 and 2012.

Status: Resolved.

2. The County did not perform a formal fraud risk assessment.

Status: Resolved.

3. The County printed and signed checks in the accounting software in order to initiate transfers between funds. The checks were signed by all authorized signatories for formal approval of interfund transfers, however, they remained in County possession and were never submitted to the bank for processing.

Status: Resolved.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Hickory County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Hickory County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Hickory County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Hickory County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Comparative Schedules of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Hickory County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Hickory County, Missouri, as of December 31, 2017 and 2016, or the changes in financial position, or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Hickory County, Missouri, as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated July 31, 2018, on our consideration of Hickory County, Missouri’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County’s internal control over financial reporting and compliance.

HICKORY COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Hickory County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Hickory County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

Certain elected County officials, particularly the Collector and Treasurer, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.
 2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
 3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
 4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
 5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
 6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
 7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
 8. Budgets are prepared and adopted on the cash basis of accounting.
 9. Adoption of a formal budget is required by law.
 10. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets. The County did not have any funds which had actual expenditures exceed budgeted amounts.
- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation were:

	2017	2016
Real Estate	\$ 85,422,400	\$ 84,057,940
Personal Property	31,317,212	31,449,068
Railroad and Utilities	7,781,986	7,975,466
Total	<u>\$ 124,521,598</u>	<u>\$ 123,482,474</u>

For calendar years 2017 and 2016, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2017	2016
General Revenue	\$ 0.1790	\$ 0.1577
Special Road & Bridge	\$ 0.2405	\$ 0.2402

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017 and 2016, the carrying amounts of the County's deposits were \$1,954,902 and \$1,794,589, respectively, and the bank balances were \$2,186,134 and \$1,889,249, respectively. Of the bank balances, \$312,896 and \$312,419 for December 31, 2017 and 2016, respectively, were covered by federal depository insurance. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2017 and 2016, the County Collector held, in addition to the cash and investments listed above, cash representing collections of property taxes on behalf of various taxing districts in the County. Tax collections on deposit amounted to \$2,752,463 and \$2,650,270 at December 31, 2017 and 2016, respectively. The County Collector's deposits were covered by federal depository insurance of \$250,000 as of December 31, 2017 and 2016. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior

plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2017 and 2016, the County collected and remitted to CERF employee withholding and fees collected of \$110,598 and \$103,519, respectively, for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. During 2017 and 2016, the County contributed \$3,366 and \$2,618, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

Regular full-time employees accumulate sick leave at the rate of one day for each month of employment. Part-time employees accumulate four hours of sick leave each month. Sick leave may be carried over from one year to the next. Unused sick leave will be forfeited upon resignation, retirement, dismissal or death. No compensation shall be paid for unused sick leave.

Employees are entitled to five days of vacation leave after one full year of employment, ten days after two full years of employment, and fifteen days after ten full years of employment.

Vacation leave cannot be carried over from one year to the next. Years are based on the employee's anniversary date for leave purposes.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. CAPITAL LEASE

On October 15, 2015, the County Commission entered into a \$837,676 capital lease with John Deere Financial for the lease purchase of four 2015 John Deere 670GP motor graders at a nominal interest rate of 2.50%. The lease term is effective from October 15, 2015, through October 15, 2021, with monthly interest payments and six annual lease payments. The outstanding debt as of December 31, 2017, is as follows:

Year	Principal	Interest	Total
2018	\$ 61,272	\$ 18,242	\$ 79,514
2019	62,825	16,689	79,514
2020	64,417	15,097	79,514
2021	531,176	13,501	544,677
Totals	<u>\$ 719,690</u>	<u>\$ 63,529</u>	<u>\$ 783,219</u>

8. OPERATING LEASE

In April, 2017, the County entered into a 60 month operating lease for a Hewlett Packard Design Jet Plotter and support contract for the Assessor's Department. The lease is to be paid in monthly payments of \$209, which includes support of \$10 per month, with the final payment scheduled on August 15, 2022.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 31, 2018, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Hickory County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Hickory County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Hickory County, Missouri's basic financial statements and have issued our report thereon dated July 31, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Hickory County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hickory County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Hickory County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control described in the accompanying schedule of findings and recommendations as 2017-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hickory County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Hickory County, Missouri's Response to Findings

Hickory County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and recommendations. Hickory County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

HICKORY COUNTY, MISSOURI
FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2017-001: Treasurer's Account Bank Reconciliation

Criteria: The Treasurer is charged with maintaining accountability over funds in the county treasury. A proper system of internal controls dictates that bank reconciliations be performed on a timely basis to ensure that cash balances per the accounting records agree to the cash balances held in the bank.

Condition: At both December 31, 2017 and December 31, 2016, the Treasurer's Annual Settlement did not agree to the respective reconciled bank account balances for the Treasurer's main checking account. At December 31, 2017, the Treasurer's Annual Settlement had a stated cash balance of \$1,954,799, however, the bank reconciliations for December 31, 2017 showed a reconciled bank balance of \$1,952,694, a difference of \$2,105. At December 31, 2016, the Treasurer's Annual Settlement had a stated cash balance of \$1,773,821, however, the bank reconciliation for December 31, 2016 showed a reconciled bank balance of \$1,771,729, a difference of \$2,092. A variance was noted each month during the audit period between the Treasurer's Settlement and reconciled bank balances. Additionally, it was noted the Treasurer did not maintain a copy of the January 2016 bank reconciliation for the Treasurer's main checking account.

Cause: The variance could not be explained by the County Treasurer.

Effect: Without timely, accurate bank reconciliations, the risk of material misstatement of the County's cash balances due to error or misappropriation is heightened.

Recommendation: We recommend the Treasurer implement the necessary procedures to ensure the bank balances reconcile to the book balance of the County's funds when performing the bank reconciliations on a monthly basis.

County's Response: The County will follow-up with the Treasurer to ensure the monthly reconciled bank account balances are agreed to the Treasurer's Settlement so that variances are followed-up on and corrected in a timely manner.

Auditor's Response: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

None

HICKORY COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Hickory County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2015 and 2014.

There were no applicable findings in the prior audit report to follow-up on.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Shannon County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Shannon County, Missouri, as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Shannon County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Shannon County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Shannon County, Missouri as of December 31, 2017 and 2016, or changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Shannon County, Missouri as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Shannon County, Missouri's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 29, 2018 on our consideration of Shannon County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over

financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Shannon County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Shannon County, Missouri's internal control over financial reporting and compliance.

Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 1 - Summary of Significant Accounting Policies

The County of Shannon, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1841 and named for George Shannon of the Lewis and Clark Expedition. In addition to the three Commissioners, there are nine elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk and *ex officio* Recorder, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County, the Senior Citizens Service Board, and the Senate Bill 40 Board.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and recreation services.

The financial statements referred to above include only the primary government of the County, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. The Senior Citizens Service Board and the Senate Bill 40 Board are controlled by separate boards and are also included under the control of the County.

Certain elected County officials, such as the County Collector and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements and are unaudited.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of the County and the comparisons of such information with the corresponding budgeted information for all funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**The County of Shannon
Eminence, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute RSMo. Chapter 50. The following funds had actual expenditures which exceeded the budgeted expenditures in 2017: Special Road and Bridge Fund, Assessment Fund, Sheriff Civil Fee Fund, Law Enforcement Training P.O.S.T. Fund, and the Senior Citizens Service Board Fund. The following funds had actual expenditures which exceeded the budgeted expenditures in 2016: General Revenue Fund and Special Road and Bridge Fund. The following funds did not have a budget prepared for 2017: Prosecuting Attorney Administrative Handling Cost Fund, Community Development Block Grant Fund, and National Forest Fund. The following funds did not have a budget prepared for 2016: Community Development Block Grant Fund and National Forest Fund.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for the purposes of taxation was:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 50,066,510	\$ 48,668,640
Personal Property	26,573,921	26,008,361
Railroad and Utilities	1,448,048	1,618,239
	<u>\$ 78,088,479</u>	<u>\$ 76,295,240</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2017 and 2016, respectively, for the purpose of County taxation, was as follows:

	<u>2017</u>	<u>2016</u>
General Revenue Fund	\$ 0.1798	\$ 0.1450
Special Road and Bridge Fund	0.2421	0.2421
Senior Citizens Service Board Fund	0.0499	0.0499
Senate Bill 40 Board Fund	0.0971	0.0971

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

The County of Shannon
Eminence, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents".

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2017, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 1,290,131	\$ 1,579,281
Investments	<u>12,203</u>	<u>12,203</u>
Total Deposits and Investments as of December 31, 2017	<u>\$ 1,302,334</u>	<u>\$ 1,591,484</u>

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2016, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 1,369,605	\$ 1,720,259
Investments	<u>12,160</u>	<u>12,160</u>
Total Deposits and Investments as of December 31, 2016	<u>\$ 1,381,765</u>	<u>\$ 1,732,419</u>

Note: Bank balances are inclusive of all funds of Shannon County, and as such, include balances of unaudited funds which are not included in the scope of this report.

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2017 and 2016, 100% of the County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

**The County of Shannon
Eminence, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Shannon County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	2017 Balance	% of Portfolio	2016 Balance	% of Portfolio
Security Bank of the Ozarks	Cert. of Deposit	\$ 12,203	100.00%	\$ 12,160	100.00%

Note 3 - Capital Leases

In 2012, the County entered into a capital lease financing agreement with Caterpillar Financial Services Corporation for a 2012 motor grader for \$112,039. The lease expires October 11, 2017, with a nominal annual rate of 3.200%. Combined interest and principal payments are paid annually in the amount of \$31,000.

In 2013, the County entered into a capital lease financing agreement with John Deere for a 6412 Utility Cab Tractor for \$30,270. The lease expires on April 29, 2016, with a nominal annual rate of 3.952%. Combined interest and principal payments are paid annually in the amount of \$10,898.

In 2015, the County entered into a capital lease financing agreement with Security Bank of the Ozarks for a computerized temperature control system for \$74,556. The lease expires on December 15, 2014, with a nominal annual rate of 5.000%. Combined interest and principal payments are paid monthly in the amount of \$791.

The County of Shannon
Eminence, Missouri
Notes to the Financial Statements

Note 3 - Capital Leases (continued)

In 2016, the County entered into a capital lease financing agreement with Caterpillar Financial Services Corporation for a motor grader for \$173,475. The lease expires on December 20, 2020, with a nominal annual rate of 3.200%. Combined principal and interest payments are paid annually in the amount of \$36,914.

In 2017, the County entered into a capital lease financing agreement with Caterpillar Financial Services Corporation for a motor grader for \$71,655. The lease expires on July 5, 2022, with a nominal annual rate of 3.700%. Combined principal and interest payments are paid annually in the amount of \$15,960.

In 2017, the County entered into a capital lease financing agreement with John Deere financial for a tractor for \$83,741. The lease expires on December 20, 2019, with a nominal annual rate of 3.640%. Combined principal and interest payments are made in accordance with irregular payment schedule.

Note 5 - Local Government Employees Retirement System (LAGERS)

Plan Description

The County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, RSMo. Sections 70.600-70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publically available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri, 65102, by calling (800) 447-4334, or by visiting the LAGERS website at www.molagers.org.

**The County of Shannon
Eminence, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 5 - Local Government Employees Retirement System (LAGERS) (continued)

Benefits Provided

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police) and early retirement age is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and the amount of credited service time.

Contributions

Full-time employees of the County contribute 4% to the pension plan. The January 1st statutorily required employer contribution rates were .2% (General) and .4% (Police) of annual covered payroll for the year ended December 31, 2017, and .2% (General) and .2% (Police) of annual covered payroll for the year ended December 31, 2016. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2017 and 2016, the County contributed \$2,138 and \$1,975 to LAGERS.

Note 6 - State of Missouri County Employees Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under RSMo. Sections 56.800 to 56.840, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under RSMo. Sections 57.949 to 57.997, and certain personnel not defined as an employee per RSMo. Section 50.1000(8). The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

**The County of Shannon
Eminence, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 6 - State of Missouri County Employees Retirement Fund (CERF) (continued)

Contributions

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to CERF. All participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. During 2017 and 2016, the County collected and remitted to CERF employee contributions of \$28,780 and \$27,639, respectively, for the years ended.

Note 7 - Prosecuting Attorney Retirement Fund

In accordance with state statute RSMo. Section 56.807, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366 and \$2,618, respectively, for the years ended December 31, 2017 and 2016.

Note 8 - Post Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County is not involved in pending litigation as of the audit report date.

Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is reimbursed for unused vacation leave. Vacation days not used by the end of the year are forfeited.

The County provides employees with four hours of paid sick leave per month. Sick leave may not accumulate from year to year. Upon termination from county employment, an employee is not reimbursed for unused sick leave.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

**The County of Shannon
Eminence, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through June 29, 2018, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

To the County Commission and
Officeholders of Shannon County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Shannon County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Shannon County, Missouri's basic financial statements, and have issued our report thereon dated June 29, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Shannon County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Shannon County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Shannon County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies as items 2017-002, 2017-003, and 2017-004.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Shannon County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and which are described in the accompanying schedule of findings and questioned costs as items 2017-001 and 2017-005.

Shannon County, Missouri's Response to Findings

Shannon County, Missouri's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Shannon County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in dark ink, appearing to read "Stopp & VanHoy", with a stylized flourish at the end.

Creve Coeur, Missouri
June 29, 2018

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL
PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Shannon County, Missouri

Report on Compliance for the Major Federal Program

We have audited Shannon County, Missouri's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on Shannon County, Missouri's major federal program for the years ended December 31, 2017 and 2016. Shannon County, Missouri's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for Shannon County, Missouri's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program occurred. An audit includes examining, on a test basis, evidence about Shannon County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of Shannon County, Missouri's compliance.

Opinion on the Major Federal Program

In our opinion, Shannon County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the years ended December 31, 2017 and 2016.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2017-006. Our opinion on the major federal program is not modified with respect to this matter.

Shannon County, Missouri's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Shannon County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of Shannon County, Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Shannon County, Missouri's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Shannon County, Missouri's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2017-006, that we consider to be a significant deficiency.

Shannon County, Missouri's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Shannon County, Missouri's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in black ink, appearing to read "Stopp & VanHoy". The signature is written in a cursive, flowing style.

Notes to the Schedule of Expenditures of Federal Awards
For the years ended December 31, 2017 & 2016**

Note 1 - Summary of Significant Accounting Policies

Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This Uniform Guidance requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA number is not available.

This schedule includes all federal awards administered by Shannon County, Missouri.

Basis of Presentation

The *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Because the Schedule presents only a selected portion of the operations of Shannon County, Missouri, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Shannon County, Missouri.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement.

Shannon County, Missouri has not elected to use the 10% de minimis indirect cost rate.

Eminence, Missouri
Schedule of Findings and Questioned Costs
For the years ended December 31, 2017 & 2016**

Section 2 - Financial Statement Findings

2017-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget and funds are not to be budgeted at a deficit.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute RSMo. Chapter 50. The following funds had actual expenditures which exceeded the budgeted expenditures in 2017: Special Road and Bridge Fund, Assessment Fund, Sheriff Civil Fee Fund, Law Enforcement Training P.O.S.T. Fund, and the Senior Citizens Service Board Fund. The following funds had actual expenditures which exceeded the budgeted expenditures in 2016: General Revenue Fund and Special Road and Bridge Fund. The following funds did not have a budget prepared for 2017: Prosecuting Attorney Administrative Handling Cost Fund, Community Development Block Grant Fund, and National Forest Fund. The following funds did not have a budget prepared for 2016: Community Development Block Grant Fund and National Forest Fund.

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds and not prepared budgets for certain funds.

Cause: Oversight

Recommendation: We recommend that the County adopt a budget for all funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2018. The phone number for the Clerk's office is (573) 226-3414.

2017-002 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Management has not prepared documentation of internal controls.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County will work to prepare internal control documentation. The expected completion date is December 31, 2018. The phone number for the Clerk's office is (573) 226-3414.

**The County of Shannon
Eminence, Missouri
Schedule of Findings and Questioned Costs
For the years ended December 31, 2017 & 2016**

Section 2 - Financial Statement Findings (Continued)

2017-003 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2018. The phone number for the Clerk's office is (573) 226-3414.

2017-004 **Criteria:** Strong internal controls over payroll expense require that there be a formal approval process over the approval of payroll processing and disbursement of payroll expense.

Condition: During our audit, we noted payroll reports were not being approved by management prior to the disbursement of cash related to payroll expense.

Effect: Without a formal approval process over payroll processing and disbursement of payroll expense, improper cash disbursements related to payroll could be processed and disbursed either due to error or fraud.

Cause: The County has not developed and implemented formal controls over payroll processing and disbursement of payroll expense.

Recommendation: We recommend that the County develop and implement a process to ensure payroll reports are being reviewed and approved prior to the disbursement of cash related to payroll.

Management's Response: The County will develop and implement a process in writing to ensure payroll reports are being reviewed by management prior to the cash being disbursed. The expected completion date is December 31, 2018. The phone number for the Clerk's office is (573) 226-3414.

**The County of Shannon
Eminence, Missouri
Schedule of Findings and Questioned Costs
For the years ended December 31, 2017 & 2016**

Section 2 - Financial Statement Findings (Continued)

2017-005 **Criteria:** Section 139.160, RSMo, requires the County Collector to annually settle with the County Commission the accounts of all monies received from taxes and other sources.

Condition: During our audit, we noted the Collector has not prepared an annual settlement for the tax years ended February 28, 2018, February 28, 2017, or February 29, 2016.

Effect: By not preparing timely annual settlements, the County Collector has not provided the County Commission or the taxpayers with a complete accounting of property tax transactions.

Cause: The County Collector had not prepared annual settlements of property taxes.

Recommendation: We recommend that the County Collector prepare and file annual settlements as required by state law.

Management's Response: The Collector will work to prepare a Collector's annual settlement for the tax year-ended February 28, 2019. The expected completion date is March 31, 2019. The phone number for the Collectors's office is (573) 226-3416.

Section 3 - Federal Award Findings and Questioned Costs

2017-006 Federal Grantor: All Programs
Pass-Through Grantor: All Programs
Federal CFDA Number: All Programs
Program Title: All Programs

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200 requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended. CFDA title and number, award number, name of the Federal agency, and name of pass-through entity.

Condition: Management has not implemented internal controls related to the preparation of the Schedule of Expenditures of Federal Awards (SEFA). During our audit we noted the SEFA contained errors.

Effect: Federal expenditures reported in the SEFA were incorrect.

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Recommendation: We recommend management develop internal controls over reporting and consult with outside accounts, if possible, to ensure an accurate SEFA is prepared.

Management's Response: Title 2 U.S. *Code of Federal Regulations* Part 200 is being reviewed and training sessions will be initiated by the County Clerk's office. The County Clerk is working towards capturing grant transactions in a manner sufficient to readily report the necessary information required on the SEFA by the next audit period. The expected completion date is December 31, 2018. The County Clerk's office phone number is (573) 226-3414.

**The County of Shannon
Eminence, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2017 & 2016**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Shannon County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2013.

Prior Year Financial Statement Findings

FS 13/12-01 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Clerk's (Shelly McAfee) office has informed us that the County will attempt to prepare the SAS 112 documentation of internal control for the next audit period. The Clerk's office phone number is 573-226-3414.

Status: Management has not corrected this issue and the finding is repeated as finding 2017-002 in the current year. This finding initially occurred in the 2013 and 2012 fiscal years.

FS 13/12-02 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the County's walkthroughs, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

**The County of Shannon
Eminence, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2017 & 2016**

Prior Year Financial Statement Findings (continued)

FS 13/12-02 **Cause:** Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County Clerk's (Shelly McAfee) office has informed us that the County will attempt to prepare the SAS 122 documentation of fraud risk for the next audit period. The Clerk's office phone number is 573-226-3414.

Status: Management has not corrected this issue and the finding is repeated as finding 2017-003 in the current year. This finding initially occurred in the 2013 and 2012 fiscal years.

FS 13/12-03 **Criteria:** Bank reconciliations must be prepared monthly on a timely basis by the Prosecuting Attorney's office.

Condition: We noted that there were no bank reconciliations for the Prosecuting Attorney's office.

Context: The deficiency became apparent through our testing of the Prosecuting Attorney's cash accounts and the related reconciliations.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate recommendations.

Recommendation: We recommend that the Prosecuting Attorney's office prepare monthly bank reconciliations and adjustments to the cash accounts.

Views of responsible officials and planned corrective actions: The Prosecuting Attorney's (Jodie Brumble) office will consider the auditor's recommendation and attempt to begin reconciling bank statements in a timely manner in the 2014 fiscal year. The Prosecuting Attorney's office phone number is 573-226-3714.

Status: This issue has been corrected. This finding initially occurred in the 2013 and 2012 fiscal years.

FS 13/12-04 **Criteria:** During our review of the QuickBooks, we were unable to tie the Clerk's QuickBooks to the Treasurer's settlement statement in 2012.

Condition: The QuickBooks general ledger is not accurately reflecting the County's financial position.

Context: During testing of cash the general ledger within QuickBooks was not matching the Treasurer's settlement sheet.

Effect: The County is not properly recording cash receipts and disbursements within the financial statements which could lead to incorrectly stated financial statements.

**The County of Shannon
Eminence, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2017 & 2016**

Prior Year Financial Statement Findings (continued)

FS 13/12-04 **Cause:** The County is not properly recording financial data within the QuickBooks General Ledger.
(cont.)

Recommendation: We recommend that the County's QuickBooks be reconciled and maintained in such a way that the settlement statement, budget and QuickBooks reports all reconcile.

Views of Responsible Officials and Planned Corrective Actions: The County Clerk's (Shelly McAfee) office has informed us that they will seek outside help and training in order to get the QuickBooks general ledger to match the settlement statement and budgets. The Clerk's office phone number is 573-226-3414.

Status: This issue has been corrected. This finding initially occurred in the 2013 and 2012 fiscal years.

Office of Missouri State Auditor
Nicole Galloway, CPA

Andrew County

CITIZENS SUMMARY

Findings in the audit of Andrew County

Financial Condition and Sales Tax Rollback	The Law Enforcement Fund is in poor financial condition and the General Revenue Fund is in a weakened condition as a result of supporting the Law Enforcement Fund. In addition, property tax reductions were not sufficient to offset 50 percent of sales tax monies received.
Architectural Services	The Andrew County Public Benefit Corporation Board (which consists of the 3 County Commissioners, the Sheriff, and the County Treasurer) contracted with an architectural firm in May 2017 for the design of a 20 bed jail expansion without soliciting requests for qualifications of at least 2 other firms as required by state law.
Sheriff's Controls and Procedures	The Sheriff's office does not prepare a monthly list of liabilities for the fee account or the commissary account, and consequently, liabilities are not agreed to the reconciled bank balances. The Sheriff's office does not remit net proceeds from commissary sales timely to the county Inmate Prisoner Detainee Security Fund as required by state law. The Sheriff's office charges a \$15 flat fee for mileage when serving civil papers, which is not in accordance with state law.
County Assessor's Receipting, Recording, and Transmitting	The County Assessor has not established proper controls or procedures for receipting, recording, and transmitting monies.
Electronic Data Security	The Recorder of Deeds and Public Administrator have not established adequate password controls to reduce the risk of unauthorized access to computers and data. The County Assessor, County Clerk, Recorder of Deeds, Public Administrator and the County Collector do not have security controls in place to lock computers after a certain period of inactivity.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations of another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Andrew County

We have audited certain operations of Andrew County in fulfillment of our duties under Section 29.230, RSMo. In addition, McBride, Lock & Associates, LLC, Certified Public Accountants, has been engaged to audit the financial statements of Andrew County for the 2 years ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017. The objectives of our audit were to:

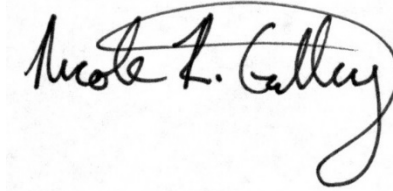

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Andrew County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Andrew County

Management Advisory Report

State Auditor's Findings

1. Financial Condition and Sales Tax Rollback

The Law Enforcement Fund (LEF) is in poor financial condition and the General Revenue Fund (GRF) is in a weakened condition as a result of supporting the LEF. In addition, property tax reductions were not sufficient to offset 50 percent of sales tax monies received.

1.1 Financial condition

The LEF is in poor financial condition and the GRF is in a weakened condition as a result of supporting the LEF.

The following tables reflect the budgeted receipts, disbursements, and beginning and ending cash balances for the year ended December 31, 2018; and actual receipts, disbursements, and beginning and ending cash balances, for the 4 years ended December 31, 2017, of the LEF and GRF as reported in the county budgets:

Law Enforcement Fund:

		Year Ended December 31,				
		2018	2017	2016	2015	2014
Beginning cash balance	\$	818	4,333	954	413	16,366
Receipts		1,272,500	1,136,013	941,912	960,333	782,901
Transfers in:						
From General Revenue Fund		668,000	489,000	575,000	471,000	570,000
Disbursements		1,940,066	1,628,528	1,513,533	1,430,792	1,368,854
Ending Cash Balance	\$	1,252	818	4,333	954	413

General Revenue Fund:

		Year Ended December 31,				
		2018	2017	2016	2015	2014
Beginning cash balance	\$	434,220	314,123	508,712	480,403	223,373
Receipts		2,553,602	2,344,097	2,316,198	2,271,551	2,079,222
Transfers in:						
From Special Road and Bridge Fund		116,864	116,686	135,162	115,577	144,464
From Capital Improvement Fund		134,457	130,309	106,169	12,676	8,716
From Administrative Handling Cost Fund		31,352	0	15,676	15,676	12,787
Disbursements*		2,330,702	1,981,995	2,192,794	1,916,171	1,418,159
Transfers out:						
To Law Enforcement Fund		668,000	489,000	575,000	471,000	570,000
Ending Cash Balance	\$	271,793	434,220	314,123	508,712	480,403

* Includes the jail lease payment for 2015-2017 and appropriated for 2018. This payment was made from the Capital Improvement Fund in 2014.

Andrew County Management Advisory Report - State Auditor's Findings

The cash balance of the LEF is low and while receipts have increased between 2015 and 2017, yearly receipts are significantly less than yearly disbursements and disbursements have increased faster than receipts. The LEF cannot continue to operate as it is currently operating. Disbursements would have been higher if the county had not borrowed \$79,292 in March 2016 for 4 Sheriff's office vehicles and \$112,519 in August 2017 to purchase 4 more vehicles for that office. At December 31, 2017, the total amount of principal and interest outstanding on these loans was approximately \$185,000. The obligations on these loans for 2018 total \$51,559.

In addition, the LEF was supported by \$2,105,000 in transfers from the GRF between 2014 and 2017. If the GRF continues to make these large transfers to the LEF each year, the fund may not have enough monies in reserve to address budget shortfalls in the event of an economic downturn or other significant financial emergency.

The GRF is experiencing cash flow problems as a result of supporting the LEF and the county has borrowed \$250,000 yearly on a bank line of credit from 2014 to 2017 to help pay the annual jail lease payment. For 2017, this payment totaled \$337,892. The county has repaid these amounts borrowed each year by February 2, and as of January 28, 2018, all amounts have been repaid.

The tables above do not take into account significant liabilities of the GRF including \$240,726 as a result of the county's sales tax rollback methodology.

- The County Commission will need to develop a plan to correct for the accumulation of prior years' over collection of property taxes (see section 1.2) which will further reduce general property tax revenues and the ending cash balance in future years.
- In January 2018, the county entered into an additional lease contract for improvements to the jail (see MAR finding number 2). The new lease requires an additional payment of \$30,509 each January beginning in 2019. Payments will come from the GRF.

It is essential the County Commission address the financial condition of the GRF and the LEF both in the immediate and long-term future. To ensure the financial condition of both funds is improved, the County Commission should reduce spending as much as possible, evaluate controls and management practices to ensure efficient use of county resources, and attempt to maximize all sources of revenue.

1.2 Reduction of property tax levy

The county has not sufficiently reduced the property tax levy to offset 50 percent of sales tax monies received. The County Clerk incorrectly calculated the adjustment for the prior year's sales tax calculations. As a result, \$270,217

Andrew County Management Advisory Report - State Auditor's Findings

in excess property taxes were collected for the years 2014 through 2017. At December 31, 2017, the cumulative total insufficient property tax reduction was \$240,726.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Andrew County voters enacted a one-half of 1 percent general sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levy to meet the 50 percent reduction requirement based on estimated sales tax collections of the current year, and in the following year calculate any excess property taxes collected based upon actual sales taxes collected. Any excess should be included as an adjustment in the next year's property tax levy calculation to ensure property taxes are reduced in the subsequent year by the amount of the excess collection.

Recommendations

The County Commission:

- 1.1 Closely monitor the county's financial condition and perform a study of the county's current level of expenditures and determine whether normal operations and other financial commitments have expanded to the point where they cannot be sustained by operating revenues. If so, expenditures should be reduced where possible without eliminating necessary services. In addition, a long-range budget should be prepared and used in planning for future years' operations.
- 1.2 And the County Clerk properly calculate property tax rate reductions, adequately reduce the property tax levy for 50 percent of sales tax revenue, and develop a plan to correct for the accumulation of prior years' over collection of property taxes.

Auditee's Response

- 1.1 *The new 20 bed jail expansion began housing prisoners at the end of June 2018. We anticipate operating the jail and the 20 bed jail expansion at maximum capacity. While at maximum capacity, approximately \$292,000 annually in additional revenue should be generated while only incurring \$120,000 in additional expenditures including the new lease payment on the 20 bed jail expansion. Therefore, the 20 bed jail expansion will help reduce transfers to the LEF from the GRF annually. In addition, we will continue to monitor county operations to maximize revenues and limit expenditures for both the LEF and GRF.*
- 1.2 *We have developed a four-year plan to correct the over collection of property taxes and we anticipate this plan to be completed in 2021. We recognize where these errors occurred and are adjusting the process to try to ensure that they are not repeated in the future.*

Andrew County
Management Advisory Report - State Auditor's Findings

2. Architectural Services

The Andrew County Public Benefit Corporation (ACPBC) Board (which consists of the 3 County Commissioners, the Sheriff, and the County Treasurer) contracted with an architectural firm in May 2017 for the design of a 20 bed jail expansion without soliciting requests for qualifications of at least 2 other firms as required by state law.

The ACPBC is a not-for-profit organization formed by the county in September 2011 for the purpose of providing funding for the construction of a Sheriff's office and jail facility, which was completed in November 2012. The county leases the facility and the expansion from the ACPBC for payments equal to the amounts due to retire the ACPBC's debt. Information on the ACPBC financing arrangements is discussed in the Organization and Statistical Information section.

The expansion was completed in June 2018 at a cost of approximately \$585,900 including \$41,500 paid to the architect. The County Commission indicated the architect selected for the jail expansion was the same firm used for the original construction of the jail.

Section 8.291, RSMo, requires political subdivisions to consider the qualifications of at least three firms when negotiating contracts for architectural services. Complete documentation should be maintained of the selection process.

Recommendation

The County Commission comply with state law when procuring architectural services and document the reasons for selecting the winning firm.

Auditee's Response

In the future, we will clearly document the reasons and criteria used to make our selection of architectural services and record the reason for our selection in the County Commission minutes.

3. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office are in need of improvement. Office personnel deposited approximately \$160,000 collected for civil and criminal process fees, bonds, boarding and transporting prisoners, inmate monies, and other miscellaneous fees into the fee and commissary accounts during the year ended December 31, 2017.

3.1 Liabilities

The Sheriff's office does not prepare a monthly list of liabilities for the fee account or the commissary account, and consequently, liabilities are not agreed to the reconciled bank balances.

For the fee account, identified liabilities totaled \$10,432 at February 28, 2018. The reconciled bank balance was \$6,438, resulting in a shortage of \$3,994. For the commissary account, we requested a list of liabilities as of March 31, 2018. The list totaled \$14,135, which agreed with the total of the reconciled bank balance of \$13,289 and cash of \$846 deposited in a kiosk per the kiosk's trial balance.

Andrew County
Management Advisory Report - State Auditor's Findings

Monthly lists of liabilities should be prepared and reconciled to the available cash balance to ensure sufficient cash is available for the payments of amounts due and all monies in the bank can be identified. Prompt follow up on discrepancies is necessary to resolve errors. Various statutory provisions provide for the disposition of unidentified monies.

A similar condition was noted in our 2 prior audit reports.

3.2 Commissary net proceeds

The Sheriff's office does not remit net proceeds from commissary sales timely to the county Inmate Prisoner Detainee Security Fund as required by state law. During 2017, commissary net proceeds were only disbursed twice to the County Treasurer and totaled \$25,794.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer. In addition, Section 50.370, RSMo, requires county officials to turn over all fees to the County Treasurer monthly.

3.3 Civil paper service fees

The Sheriff's office charges a \$15 flat fee for mileage when serving civil papers, which is not in accordance with state law. The Sheriff's office collected approximately \$17,500 for civil paper service fees, including mileage, during the year ended December 31, 2017.

Section 57.280, RSMo, provides that the Sheriff be reimbursed for each mile actually traveled to serve any summons, writ, subpoena, or other order of the court. Charging a per-mile reimbursement for service will bring the Sheriff into compliance with state law.

Recommendations

The Sheriff:

- 3.1 Prepare monthly lists of liabilities and reconcile the list to the available cash balances. Any differences should be promptly investigated and resolved. Any unidentified monies should be disposed of in accordance with state law.
- 3.2 Disburse timely net proceeds not necessary to meet cash flow needs or current operating expenses to the County Treasurer for deposit in the Inmate Prisoner Detainee Security Fund.
- 3.3 Ensure civil paper service fees are charged in accordance with state law.

Andrew County
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 3.1 *I have worked with the County Treasurer and identified the differences, which have been corrected. I have implemented a procedure to prepare a monthly list of liabilities and will reconcile it to the available cash balances for both the fee and commissary bank accounts on a monthly basis.*
- 3.2 *This recommendation has been implemented.*
- 3.3 *I am aware of the state law, however for simplification of accounting I charge a \$15 flat fee for mileage when serving civil papers. The flat fee was enacted because it was requested by local attorneys. However I will take this recommendation under advisement.*

4. County Assessor's Receipting, Recording, and Transmitting

The County Assessor has not established proper controls or procedures for receipting, recording, and transmitting monies. We could not determine the amount of monies received by the County Assessor's office during the year ended December 31, 2017. Between January 2016 and December 2017, the office prepared an unnumbered form for monies received. This form was given to the County Treasurer upon transmittal and not retained and no other documentation was maintained of monies collected or transmitted to the County Treasurer.

The County Assessor's office began issuing receipt slips in January 2018. The County Assessor does not perform a review of receipt slips to ensure all monies received have been transmitted. We reviewed monies received during January and February 2018, and identified various concerns:

- The method of payment was not indicated on 40 percent (8 of 20) of receipts slips issued in January 2018. At our recommendation the office began recording the method of payment on all receipt slips in February 2018.
- Some receipt slips did not accurately record the method of payment or amount received. For example, we reviewed 2 receipt slips each issued for \$2 (cash) in January 2018; however, the County Treasurer's 2 receipt slips written to the County Assessor for those 2 receipts indicate these payments occurred by check for \$200 each. The County Assessor indicated the receipt slips were written for the wrong type of receipt and therefore indicated the incorrect amounts.

Failure to implement adequate receipting, recording, and transmitting procedures increases the risk of loss, theft, or misuse of monies received will go undetected.

Recommendation

The County Assessor issue prenumbered receipt slips for all monies received, indicate the method of payment on all receipt slips, and record all receipts on a receipts log. In addition, the numerical sequence of receipt slips should be

Andrew County
Management Advisory Report - State Auditor's Findings

accounted for and the composition of receipts should be reconciled to the composition of amounts transmitted.

Auditee's Response

We have started using a prenumbered receipt slip book to keep track of the money we collect. The method of payment is indicated on all receipt slips. We also keep a receipt log to make sure all monies collected are turned over to the County Treasurer. The log is also used to account for the numerical sequence of receipt slips and reconcile the composition of receipts to the composition of monies turned over. We also get a receipt slip back from the County Treasurer so we can balance with each other. We will continue this until the property tax system is programmed to allow the County Collector's office to receipt our monies; this change is expected to take place by the end of 2018.

5. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

5.1 Passwords

The Recorder of Deeds and Public Administrator have not established adequate password controls to reduce the risk of unauthorized access to computers and data. The Recorder of Deeds and the Deputy Recorder of Deeds use the same password to access the office's computer and are not required to change the password. In addition, the password is not required to have a minimum number of characters. Also, the Public Administrator's computer password is not required to be changed.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not kept confidential or contain a minimum number of characters in one office and do not have to be periodically changed in two offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be confidential, contain a minimum number of characters, and be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

5.2 Security controls

The County Assessor, County Clerk, Recorder of Deeds, Public Administrator and the County Collector do not have security controls in place to lock computers after a certain period of inactivity.

Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Andrew County
Management Advisory Report - State Auditor's Findings

Similar conditions
previously reported

Similar conditions were noted in our prior audit report.

Recommendations

The County Commission work with other county officials to:

- 5.1 Require employees maintain confidential passwords with a minimum number of characters that must be periodically changed.
- 5.2 Ensure county computers have security controls in place to lock each computer after a specified period of inactivity.

Auditee's Response

- 5.1 *This recommendation has been implemented.*
- 5.2 *This recommendation has been implemented.*

Andrew County

Organization and Statistical Information

Andrew County is a county-organized, third-class county. The county seat is Savannah.

Andrew County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 55 full-time employees and 18 part-time employees on December 31, 2017.

In addition, county operations include the Senate Bill 40 Board, the Senior Citizens Services Board, the Johnson Grass Board, and 3 neighborhood improvement districts.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2018	2017
Bob Caldwell, Presiding Commissioner	\$	29,540
Fritz Hegeman, Associate Commissioner		28,860
Gary Baumann, Associate Commissioner		28,860
Rosa Lea Lancey, Recorder of Deeds		41,980
Sarah Miller, County Clerk		41,980
Steven Stevenson, Prosecuting Attorney		51,480
Bryan Atkins, Sheriff		48,480
Cindy Esely, County Treasurer		41,980
Doug Johnson, County Coroner		15,480
Janet Rosenauer, Public Administrator		25,000
Phil Rogers, County Collector (1), year ended February 28 (29),	47,321	
Paul Garrison, County Assessor, year ended August 31,		41,442
F. Shane Terhune, County Surveyor (2)		

(1) Includes \$5,405 of commissions earned for collecting city property taxes.

(2) Compensation on a fee basis.

Financing Arrangements

The county entered into lease contracts with the Andrew County Public Benefit Corporation (ACPBC) in January 2011 and January 2018.

Andrew County Organization and Statistical Information

The terms of the January 2011 contract call for the ACPBC to provide funding for the construction of a Sheriff's office and jail facility and for the county to lease the facility from the ACPBC for lease payments equal to the amount due to retire the ACPBC's indebtedness and administrative costs. To fund construction, the ACPBC obtained 2 loans from the United States Department of Agriculture (USDA) totaling \$5.9 million in September 2011. Construction was completed in November 2012. Both loans are scheduled to be paid off in September 2051. The remaining principal outstanding at December 31, 2017, was \$5,571,045. Interest remaining to be paid over the life of the agreement totals \$5,020,970.

The terms of the January 2018 contract call for the ACPBC to construct a storage shed and complete renovations and additions to the jail and for the county to lease these improvements from the ACPBC for lease payments equal to the amount due to retire the ACPBC's indebtedness and administrative costs. To fund the construction, the ACPBC obtained a loan from the USDA totaling \$553,500 in January 2018. Construction began in January 2018 and was completed in June 2018. The first principal payment is scheduled for January 2019 and the loan is scheduled to be paid off in January 2058. Interest remaining to be paid over the life of the agreement totals \$386,500.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Director of Parks, Recreation, and Forestry
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2008-96, *City of St. Louis, Department of Parks, Recreation, and Forestry*, issued in December 2008, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our upcoming audit of the Department of Parks, Recreation, and Forestry. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Department of Parks, Recreation, and Forestry that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in June 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Department of Parks, Recreation, and Forestry

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Forestry Division

Finding Number: 1.A.

Finding: The Forestry Division computer system billing rates for mowing vacant lots were not set at the correct amount. The division did not submit some billing information to the collection agency in a timely manner and did not submit the entire outstanding amount to the collection agency for some accounts. The Forestry Division billing system did not provide some information necessary to efficiently operate the division.

Recommendation: The Department of Parks, Recreation, and Forestry evaluate the need for a new billing system to provide the necessary information for the Forestry Division. The division should ensure the correct billing rates have been entered into the system. In addition, the division should ensure accounts over 90 days old are submitted to the collection agency in a timely manner and the entire outstanding account is submitted to the collection agency.

Status of Finding: Partially Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Dataflex billing system remains in place with corrections and minor improvements. A new billing system has not yet been implemented. The contracted collection agency is notified monthly of all accounts over 90 days old.

City of St. Louis - Department of Parks, Recreation, and Forestry
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Forestry Division

Finding Number: 1.B.

Finding: The Forestry Division was not adequately documenting adjustments and write-offs made in the billing system. The division was unable to produce a report from the billing system showing the amount and number of adjustments and write-offs. In addition, the employee who authorized and the employee who posted the adjustment or write-off was not identified and the reason and supporting documentation for the adjustment or write-off was not maintained.

Recommendation: The Department of Parks, Recreation, and Forestry ensure the authorization and reasons for any billing adjustments or write-offs are adequately documented by the Forestry Division. In addition, the periodic review and approval of all such billing adjustments and write-offs by an appropriate management official should be documented.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Practices are in place requiring all customer service representatives to make a notation for any and all adjustments including the date and reason. A report is produced periodically and reviewed by the Executive Assistant, and any concerns are submitted to the Director.

Contact Person: Vicki Wakeland
Contact Phone Number: (314) 613-7200

City of St. Louis - Department of Parks, Recreation, and Forestry
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Forestry Division

Finding Number: 1.C.

Finding: The Forestry Division had not documented how the administrative fee charged for handling billings for the Department of Public Safety, Building Division was established or determined.

Recommendation: The Department of Parks, Recreation, and Forestry review and document the costs of administering the Department of Public Safety, Building Division's billing service and establish the administrative fee to recover those costs.

Status of Finding: No Longer Applicable

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Forestry Division no longer handles billing for the Department of Public Safety, Building Division.

Contact Person: Vicki Wakeland

Contact Phone Number: (314) 613-7200

City of St. Louis - Department of Parks, Recreation, and Forestry
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Forestry Division

Finding Number: 1.D.1.

Finding: Accounting duties were not adequately segregated and there was no independent oversight related to the Forestry Division receipts.

Recommendation: The Department of Parks, Recreation, and Forestry segregate the accounting duties of the Forestry Division to the extent possible. If proper segregation of duties cannot be achieved, timely supervision or independent review of the work performed and investigation into unusual items and variances is necessary.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Invoices are prepared and mailed by the last Tuesday of each month. Data needed to prepare invoices is entered by a customer service representative (CSR). We have two CSRs during our peak season of March to October. The Executive Assistant coordinates with the Labor Supervisor and Foreman to ensure all work orders and ward rotation sheets are submitted for billing in a timely manner. Ward rotation sheets are generated from the billing system and given to the field staff supervisor before the field crew enters into a particular ward to perform grass maintenance services (vacant buildings or vacant lots).

Payments (checks/money orders) are processed only by the Secretary to the Commissioner of Forestry (Secretary). Receipts are recorded in a spreadsheet maintained by the Secretary, and then posted in the billing system by the Secretary. After posting in the billing system, payments are forwarded to the Director's office to be processed for transmittal to the Comptroller's office. Employees are restricted from making adjustments over \$200 without approval of the Executive Assistant. All adjustments are initiated by the CSRs.

Finding Title: Forestry Division

Finding Number: 1.D.2.

Finding: Some monies received by the Forestry Division were not recorded in the billing system or the receipt spreadsheet in a timely manner.

Recommendation: The Department of Parks, Recreation, and Forestry ensure all receipts are promptly recorded on the spreadsheet.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Receipts are recorded within 24 to 48 hours. The Executive Assistant reviews the spreadsheet (receipt of payments) for accuracy and compares that to the payment information entered in the billing system.

Contact Person: Vicki Wakeland

Contact Phone Number: (314) 613-7200

City of St. Louis - Department of Parks, Recreation, and Forestry
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Forestry Division

Finding Number: 1.D.3.

Finding: The Forestry Division did not generate a report of daily receipts posted to the billing system which could then be reconciled with the receipt spreadsheet and transmittals to the Director's office.

Recommendation: The Department of Parks, Recreation, and Forestry ensure the division reconciles receipts per the spreadsheet to the billing system and to amounts transmitted.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Forestry Division's billing system cannot generate a report of payments received by account. Therefore, as described in the response to finding 1.D.2., the division checks the accuracy of system entries by comparing the spreadsheet of receipts to the payment information in the billing system.

Status of Findings

Finding Title: Forestry Division

Finding Number: 1.D.4.

Finding: Some monies received by the Forestry Division were not transmitted to the Director's office in a timely manner. In addition, checks and money orders received were not restrictively endorsed immediately upon receipt.

Recommendation: The Department of Parks, Recreation, and Forestry ensure all receipts are deposited intact on a timely basis. In addition, all checks should be restrictively endorsed immediately upon receipt.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Upon receipt, all checks/money orders are restrictively endorsed by the Secretary. Payments received are transmitted to the Director's office for processing within 24 to 48 hours, not including weekends.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Board of Parks and Recreation

Finding Number: 2.

Finding: The Board of Parks and Recreation was inactive.

Recommendation: The Department of Parks, Recreation, and Forestry ensure it is in compliance with the city charter and work with the Mayor's office to reestablish the Board of Parks and Recreation or to determine if a change to the city charter is necessary.

Status of Finding: Not Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The city charter did not change and the Board of Parks and Recreation has not been in existence for approximately 35 years. The Parks Division sets internal policies and meets with the Board of Aldermen annually on all proposed capital projects in the division's parks. The Board of Aldermen also has an established Parks Committee that Parks Division staff meet with on any related matters.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Written Agreements

Finding Number: 3.A.

Finding: The Forestry Division had not entered into a written agreement for services performed on property owned by the Land Reutilization Authority (LRA).

Recommendation: The Department of Parks, Recreation, and Forestry enter into formal written contracts for services rendered or obtained.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Forestry Division has an agreement with the LRA to maintain properties, and sends the LRA an annual letter after each fiscal year which lists the total costs of maintaining the properties. The Forestry Division has no control over funds that may be received from the LRA and included in the Forestry Division's General Revenue Fund budget.

Contact Phone Number: (314) 289-5339

City of St. Louis - Department of Parks, Recreation, and Forestry
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Written Agreements

Finding Number: 3.C.

Finding: The Department of Parks, Recreation, and Forestry had not conducted a review of the accounting records of the catering company that operated the boathouse under a lease agreement with the city. The lease agreement called for a monthly rent payment of which a portion was based on the gross revenues of the catering company. In addition, the lease agreement required the catering company to keep complete and accurate records of revenues for three years which were to be open to the city for inspection. The Department of Parks, Recreation, and Forestry had not conducted a review of the accounting records nor had it requested the Internal Audit Section of the Comptroller's office to conduct a review to ensure the accuracy of the gross revenues reported to the department. There were also other resources available to the department that could have been used to help independently verify some of the information submitted by the catering company.

Recommendation: The Department of Parks, Recreation, and Forestry ensure a periodic review is conducted of the boathouse accounting records to ensure accounting records and rent payment calculations are accurate. In addition, the department should verify information received with other city government offices.

Status of Finding: Not Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Comptroller's office is responsible for performing internal audit services.

Contact Person: Kathy Sullivan

City of St. Louis - Department of Parks, Recreation, and Forestry
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Emergency Purchases

Finding Number: 4.

Finding: Some emergency purchases did not appear to meet the city's definition of "emergency." In addition, the department did not have one individual responsible for approving emergency purchases.

Recommendation: The Department of Parks, Recreation, and Forestry ensure emergency purchases meet the definition of an emergency and centralize the approval process for emergency purchases through one individual.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

No policies were amended. The Director and three Commissioners are the only individuals authorized to request emergency purchases. Concerted effort is being made to limit these requests which must involve both the Comptroller's office and the Supply Division.

Contact Person: Vanessa Carter
Contact Phone Number: (314) 289-5372

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Parks Division Receipts

Finding Number: 5.

Finding: The numerical sequence of receipt slips was not accounted for properly and voided receipt slips were not properly defaced and retained in the Parks Division.

Recommendation: The Department of Parks, Recreation, and Forestry, Parks Division, require the numerical sequence of receipt slips be accounted for properly, voided receipts be properly defaced, and all copies of voided receipt slips be retained.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

All staff have been instructed that voided receipt slips are to remain in the receipt book with a detailed message written on the receipt slip documenting the reason for the void. Periodic checks of receipt slips are conducted by the Permit Section Manager to ensure all receipt slips are accounted for and all monies have been received and deposited.

City of St. Louis - Department of Parks, Recreation, and Forestry
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Soulard Market

Finding Number: 6.A.

Finding: The Soulard Market petty cash fund was short \$80 because the Market Manager deposited a petty cash reimbursement check into a personal account. In addition, a petty cash ledger supporting the petty cash fund's activity did not adequately document receipts, disbursements, and the balance of the petty cash fund.

Recommendation: The Department of Parks, Recreation, and Forestry ensure the petty cash funds are repaid by the Market Manager. In addition, the ledger should properly account for the receipts, disbursements, and balance of the petty cash fund.

Status of Finding: No Longer Applicable

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The practice of keeping petty cash has not been allowed since the prior audit.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Soulard Market

Finding Number: 6.B.

Finding: The method of payment (cash or check) was not indicated on some receipt slips issued.

Recommendation: The Department of Parks, Recreation, and Forestry ensure the method of payment is recorded on receipt slips and the composition of receipt slips is reconciled to transmittals.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The method of payment notation on receipt slips is confirmed when deposits are processed.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Chief Medical Examiner
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2010-42, *City of St. Louis, Office of Mayor and Other City Offices*, issued in April 2010, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our upcoming audit of the Office of Mayor and Other City Offices. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Offices of Mayor and Medical Examiner that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Office of Mayor and Other City Offices

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Contractual Services

Finding Number: 1.A. and 1.B.

Finding: The Mayor's office had not periodically solicited proposals for lobbying services. The city's Public Facilities Protection Corporation (PFPC) had not periodically solicited proposals for administration of city refuse vehicle damage claims.

Recommendation: The Mayor's office periodically solicit proposals for lobbying services and work with the PFPC to periodically solicit proposals for administration of city refuse vehicle damage claims, in accordance with city procurement policies.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

We have one contract for lobbying services, which was effective January 19, 2018, using a request for proposal process.

The contract for administration of city refuse vehicle damage claims ended on February 18, 2010, and we have since performed this operation in house with city staff.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Medical Examiner's Office

Finding Number: 2.A.1.

Finding: The duties of processing and approving expenditures were not adequately segregated. There was no formal expenditure approval process by the Chief Medical Examiner or another employee independent of the expenditure processing duties.

Recommendation: The Medical Examiner's office adequately segregate expenditure processing and approval duties, and ensure all expenditures are reviewed and approved by the Chief Medical Examiner or another employee independent of expenditure processing duties.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

All expenditures are reviewed and approved by the Chief Medical Examiner. All payment vouchers sent to the Comptroller's office are reviewed by the Executive Secretary to the Chief Medical Examiner and signed by the Chief Medical Examiner.

City of St. Louis - Office of Mayor and Other City Offices
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Medical Examiner's Office

Finding Number: 2.B.1.

Finding: The Medical Examiner's office had not adequately documented the minimum work requirements for full-time employment. Our review of payroll records noted at least 2 employees recorded less than 80 hours on their timesheets during the 2-week pay period ended June 20, 2009 (70 and 73 hours, respectively). In addition, the employees' timesheets did not agree to the time report submitted to the Comptroller's office which listed these employees as each working 80 hours for the 2-week period.

Recommendation: The Medical Examiner's office review current personnel policies and practices regarding required work hours for full-time employees to ensure compliance with city ordinance, and ensure all applicable policies are fully documented in writing. In addition, time records submitted to the Comptroller's office should reflect actual time worked by all employees.

Status of Finding: Partially Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

We have taken steps to ensure all employees' time is monitored and documented to reflect hours worked. We will recommend a reference to the required minimum work hours for full-time employees is reflected in our pay ordinance.

City of St. Louis - Office of Mayor and Other City Offices
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Medical Examiner's Office

Finding Number: 2.B.2.

Finding: Immediate supervisors did not always sign off on employee timesheets to indicate their review and approval. In addition, one employee recorded overtime earned on his/her timesheet; however, there was no overtime approval form filled out and approved by the employee's supervisor as required by office policy.

Recommendation: The Medical Examiner's office ensure all timesheets and overtime approval forms are signed by the employees and approved by the employees' supervisors attesting to the accuracy of the time reported.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Timesheets and overtime approval forms are signed by the employee and approved by the employee's supervisor. All employees have been informed of the overtime request policy and procedure. Monitoring of these requests has been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Airport Director
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2009-121, *City of St. Louis, Lambert-St. Louis International Airport*, issued in November 2009, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our upcoming audit of the St. Louis Lambert International Airport. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the St. Louis Lambert International Airport that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

State Auditor

City of St. Louis - St. Louis Lambert International Airport

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Operational Costs

Finding Number: 1.A.

Finding: The airport was incurring unnecessary costs by continuing to fund the operations of the south firehouse at the airport. The airport had received confirmation from the Federal Aviation Administration (FAA) that the south firehouse was not necessary to meet FAA regulations for emergency response times. A cost analysis performed by the airport estimated the potential cost savings of closing the south firehouse would be approximately \$1.8 million per year. Because the airport operations were accounted for as an enterprise fund of the city, the costs associated with the south firehouse were charged to the airport. However, the airport did not have the authority to close the south firehouse or reassign the firefighters stationed there. The City of St. Louis Fire Department was in control of all firehouse operations and would be responsible for making the decision to close the south firehouse. Based on discussions with Fire Department officials, they felt the south firehouse was still necessary, but did not provide any specific information to support this position.

Recommendation: The Airport Director work with the St. Louis Fire Department to conduct additional analysis regarding the feasibility of closing the south firehouse.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The south firehouse at the airport closed during fiscal year 2011 and several other cost-cutting measures undertaken by airport management have contributed to a 26 percent decrease in the landing fee rate from fiscal year 2011 to fiscal year 2018.

Contact Phone Number: (314) 426-8026

City of St. Louis - St. Louis Lambert International Airport
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Operational Costs

Finding Number: 1.B.

Finding: Airport management had not performed a cost analysis to determine if janitorial services should be performed by city employees or outsourced.

Recommendation: The Airport Director perform a cost analysis to determine the most cost effective method of providing janitorial services.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Cost-cutting measures initiated at the airport during the spring of 2010 resulted in a competitive bidding process for cleaning services. Airport janitorial staffing has decreased 59.5 percent from fiscal year 2009 to fiscal year 2018.

Contact Person: Antonio Strong

Contact Phone Number: (314) 426-8026

City of St. Louis - St. Louis Lambert International Airport
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Contract Monitoring

Finding Number: 2.A.1.

Finding: Landing and fuel flowage fees charged to users of fixed based operator facilities, also called general aviation traffic, had not been updated for approximately 10 years, and the airport had no documentation of how the fees were determined.

Recommendation: The Airport Director review and document the costs of fixed based operators and establish the fee to recover those costs.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

During fiscal year 2017, the airport analyzed and documented the costs associated with the use of its landing field and passenger terminal facilities for activity that is not expressly covered in the airport Use and Lease Agreement or Operating Agreement.

The "Schedule of Fees and Charges" became effective February 1, 2017, and the schedule was distributed to fixed based operators and ground handlers.

Contact Person: Antonio Strong

Contact Phone Number: (314) 426-8026

City of St. Louis - St. Louis Lambert International Airport
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Contract Monitoring

Finding Number: 2.A.2.

Finding: Fees charged to the various food vendors, car rental companies, and miscellaneous shops at the airport terminals were not subject to a competitive process and had not been updated for approximately 10 years. Each vendor contract required the vendor to pay a minimum annual guarantee, or a fixed percent of gross revenues, whichever was larger. Historically, the majority of vendors paid the fixed percent fee. While the bid process for concession vendors allowed the vendors to state their annual minimum guarantee, the fixed percent fee remained the same for all vendors and was not subject to a competitive process or negotiated.

Recommendation: The Airport Director subject the fee portion of concession contracts to a competitive process.

Status of Finding: Not Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Our response to the audit finding remains the same. Per the city charter, we use a solicitation for bid process and changing this process would require a change to the city charter. The airport has always taken advantage of a competitive bid process for its concessions. The concessions are awarded based on a bid of the highest Minimum Annual Guarantee (MAG). A MAG is the minimum dollar amount the concession operator promises to pay the airport each year of the agreement. In addition to the MAG, concession agreements have financial terms that call for payment of the greater of the MAG or a specific percentage specified to bidders, in advance, by the airport. This percentage becomes payable if the concession operator's total gross sales percentage surpasses the MAG. For example, a concession operator with a MAG of \$100,000 and a percentage of 10 percent would begin paying 10 percent of all gross sales over \$1 million. It is true that the airport only bids the amount of the MAG and sets the percentage fee for concession agreements. This policy allows the airport to conduct a clear, unbiased solicitation process, wherein, a single bid item is evaluated transparently.

City of St. Louis - St. Louis Lambert International Airport
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Contract Monitoring

Finding Number: 2.B.

Finding: The airport had not adequately monitored the cash receipt operations of the parking contractor. The airport's agreement with the parking contractor provided the airport the right to audit and examine the accounting records of the management company at any time; however, the airport had not performed a review of parking cash collections or receipt transmittal operations since 2007. The parking contractor had performed its own internal audits, which had been critical of parking operations; however, the airport had not requested copies of such reports be submitted for review. The parking contractor also had financial statement audits performed and copies were not submitted to the airport for review.

Recommendation: The Airport Director ensure a periodic review is conducted of the parking facility management cash collection and transmittal procedures. In addition, the agreement with the contractor should require copies of audit reports related to the parking facilities be submitted, and those audit reports should be reviewed by airport management.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

An Accounting Coordinator in our Finance and Accounting department performs a monthly reconciliation for the parking operations and receives quarterly internal audit reports from our current parking operator, ABM. The city's Internal Audit Section performed a comprehensive internal audit of the parking operator during 2011 for the period July 1, 2007, through January 31, 2010.

Annual financial statement audits of the parking operator are performed by independent audit firm, KPMG LLP (KPMG), and reports are available on the parking operator's website (<http://investor.abm.com/download-library>).

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Contract Monitoring

Finding Number: 2.C.

Finding: The airport had not adequately reviewed audit reports of passenger facility charge (PFC) revenues. While the airport received an audit of its PFC Fund expenditures with no issues noted, the airport had not requested copies of the airlines' PFC audits for verification of revenues or general review.

Recommendation: The Airport Director request and review all PFC account audit reports to ensure amounts received are correct.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Independent audit firm, KPMG, performs an annual audit of the airport PFC Fund. Also, the airport receives and reviews PFC independent audit reports from our airline operators with more than 50,000 annual passengers.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Airport Accounting Controls and Procedures

Finding Number: 3.A.

Finding: Accounting duties were not adequately segregated and there was minimal independent oversight related to receipts.

Recommendation: The Airport Director segregate the accounting duties of the Finance and Accounting Division to the extent possible. If proper segregation of duties cannot be achieved, timely supervision or independent review of the work performed and investigation into unusual items and variances is necessary.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Finance and Accounting Division has independent oversight and duties segregated between the Account Clerk I, Accountant I, and Accountant II. Processes performed are reviewed and approved by the Accounting Coordinator or Accounting Manager I.

City of St. Louis - St. Louis Lambert International Airport
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Vehicles and Fueling Procedures

Finding Number: 4.A.

Finding: Monitoring procedures for the airport's vehicles were not sufficient. The airport did not require usage logs be maintained for its vehicles. In addition, no documentation was provided to show the airport regularly monitored the fleet to ensure vehicles are used efficiently and effectively.

Recommendation: The Airport Director require the preparation of usage logs for all vehicles and ensure these logs are properly reviewed.

Status of Finding: Partially Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The airport's response remains similar to the previous response. The airport said it did not agree with the finding and recommendation. The airport believes daily reports would be time consuming and not cost effective. The airport recently purchased a new computerized fuel dispensing system that is tied into a badge holders individual ID badge so the time, date, and person requesting fuel is recorded. Further, a new computerized preventative maintenance system integrates with the fuel system and provides for monthly reports that detail the efficient and effective usage of vehicles, and are reviewed by both the Fleet Maintenance Manager and the Assistant Director of Operations and Maintenance. Vehicle usage is reviewed annually, at a minimum, by the Fleet Manager and Assistant Director of Operations and Maintenance to ensure an adequate vehicle replacement schedule is created during the budget preparation season. Vehicle usage for the year is examined at this time.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title:	Vehicles and Fueling Procedures
Finding Number:	4.C.
Finding:	The airport did not reconcile fuel purchased to fuel used.
Recommendation:	The Airport Director require reconciliation of fuel purchased to fuel used, and require follow-up procedures on significant differences. In addition, the reconciliation and follow-up procedures should be properly documented.
Status of Finding:	Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The airport's procedures for delivery, dispensing, and review of fuel reports are as follows:

Delivery:

The fuel level is checked on Veeder-Root (electronic tank gauging system).

Fuel is ordered by the Autoshop Foreman or Lead man.

The fuel delivery receipt is sent to Materials Management and a copy is retained by the Shop Secretary.

Dispensing:

We are now using a 2-card system and fuel cannot be dispensed unless the following criteria are met:

Card 1 is the employee activating the fuel system (airport issued employee ID).

Card 2 is the fob assigned to the specific vehicle.

Fuel system activation process:

Employee places ID next to fuel reader.

Employee places fob next to fuel reader.

Employee enters mileage or hours for specific vehicle.

Employee enters which pump to activate.

Employee dispenses fuel into vehicle.

Reporting:

Typically during the first week of the following month, 2 reports are generated:

The Operators Dispensing Fuel report includes the following information: date, time, transaction number, site, card 2 title, short name, account, odometer, product, pump number, price, quantity (gallons), and dollar amount.

The Vehicles Receiving Fuel report includes the following information: date, time, transaction number, site, card 1 title, account, product, pump number, odometer, quantity (gallons), and dollar amount.

These 2 reports are retained electronically on the Shop Manager's computer and forwarded electronically to the Airport Administrator.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Asset Controls and Procedures

Finding Number: 5.D.

Finding: The property records maintained did not include all necessary information. The capital asset records for items over \$10,000 contained some descriptions which were not accurate. The asset record for items between \$1,000 to \$10,000 did not include some information such as acquisition costs, tag numbers, complete descriptions of the asset, and date and method of disposal.

Recommendation: The Airport Director ensure asset records contain all necessary information such as accurate descriptions, acquisition costs, tag numbers, and the date and method of disposal.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Non-capital assets (under \$10,000) procedures are in place to ensure asset records contain information by department, brand, model, serial number, part number (if applicable), tag number, cost, date received, date disposed, and date audited.

Capital assets (\$10,000 and over) procedures are in place to ensure asset records contain information by department, department description, asset number, asset year, manufacturer, model, asset description, vehicle identification number (if applicable), asset verification, date in service/acquired, serial number, disposal method, disposal date, asset account number, contract number (if applicable), ordinance number (if applicable), professional service agreement number (if applicable), vendor name (if applicable), and purchase order number (if applicable).

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Asset Controls and Procedures

Finding Number: 5.E.

Finding: The airport police department maintained an additional property list that duplicated the records maintained by the Finance and Accounting Division. In addition, the police department list contained small items (minimum value of \$20) that may not have needed to be tracked. The only documentation of police department property disposal was an approval of the Supply Officer.

Recommendation: The Airport Director require the police department to discontinue the practice of tracking all police assets and track only sensitive items, such as badges and weapons. In addition, disposal of police department property should be authorized by an appropriate level of the department and reported to the Finance and Accounting Division.

Status of Finding: Not Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The current Interim Airport Chief of Police believes the Airport Police Department (APD) has an obligation to ensure the safekeeping of all property purchased using airport funds, particularly items that are law enforcement related. Tracking items such as badges and weapons only is not sufficient to fulfill our obligation to safeguard airport property.

The APD maintains inventory lists of furniture and equipment assigned to the department. The APD tracks assignment of 800 MHz radios, desktop computers, laptops, cell phones, office furniture, hazmat equipment, ballistic vests, and police uniform items (including such things as weapons, badges, batons, handcuffs, etc). The inventory lists include the description, serial number (if applicable), person, and/or room number/location of the item. Adjustments to the inventory lists occur when reassigning equipment within the APD or when a "Request for Surplus Material Disposal" form is completed for submittal to Materials Management.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Chief Information Officer/Director
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2009-37, *City of St. Louis, Information Technology Services Agency*, issued in April 2009, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our ongoing audit of the Information Technology Services Agency. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Information Technology Services Agency that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Information Technology Services Agency

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Network Services Contract

Finding Number: 1.A.

Finding: The Information Technology Services Agency (ITSA) did not retain adequate documentation regarding the award of the United Forensics consulting contract in 2005. As a result, the exact value of the approved contract amount was not clear.

Recommendation: The ITSA ensure it fully complies with documentation retention requirements for professional service contracts in accordance with city rules and regulations. In addition, the ITSA should ensure documentation clearly indicates the value of contracts approved by the contract selection committee.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The ITSA follows the Board of Public Service rules regarding professional service contractor selection, documentation of the selection process, and record retention. All contracts, requisitions, purchase orders, vouchers, and invoices are on file and kept for 10 years.

Contact Person: Cindy Riordan

Contact Phone Number: (314) 622-3653

City of St. Louis - Information Technology Services Agency
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Network Services Contract

Finding Number: 1.B.

Finding: The ITSA and the city approved annual contract extensions with United Forensics that significantly increased the total value of the contract and the hourly rates to be paid by the city; however, these contract extensions were approved without considering proposals from other vendors. The original contract approved for fiscal year 2006 did not include any language regarding contract extensions; however, the ITSA approved a contract extension for fiscal year 2007, and this contract extension included language allowing unlimited annual contract extensions.

Recommendation: The ITSA discontinue approving contract extensions that significantly increase the value of the contract unless the increases are approved by competitive negotiations. If the ITSA considers contract extensions to be desirable, the original contract should include language that allows contract extensions and caps on increased rates paid for services and the total value of the contract.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Contract extensions that significantly increase the value of the contract or change the scope of the original contract are not granted.

Contact Person: Cindy Riordan
Contact Phone Number: (314) 622-3653

City of St. Louis - Information Technology Services Agency
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Network Services Contract

Finding Number: 1.C.

Finding: During the first quarter of 2008, one of the owners of United Forensics created a company called Access Forensics. The ITSA began utilizing the services of Access Forensics and discontinued utilizing the services of United Forensics. The former ITSA director notified the Comptroller's office by letter to pay Access Forensics even though the city had not negotiated a contract with Access Forensics. The ITSA did not adequately document the reasons for discontinuing the services of United Forensics, and the city may have made payments to Access Forensics without a valid written contract.

Recommendation: The ITSA adequately document the circumstances when there is a change in ownership of a service provider, or negotiate a new contract if necessary.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Should a service provider experience a change in ownership, we would consult with the City Counselor to determine if existing contracts can be honored/amended with the new company name, or if a new selection process needs to be initiated.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title:	Network Services Contract
Finding Number:	1.D.
Finding:	The ITSA approved payments to United Forensics for services that appeared unreasonable or were not specifically allowed by the contract.
Recommendation:	The ITSA ensure all contractual costs billed are reasonable and necessary and are specifically allowed under the contract and review billings received from and payments made to United Forensics and Access Forensics to determine any amounts owed and if the city should seek reimbursement for any improper payments. In addition, prior to entering into contracts for professional services, the ITSA should evaluate whether it would be more cost efficient to hire additional staff to provide the services.
Status of Finding:	Implemented
Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:	<p>An ITSA manager compares the invoice to both the contract pricing and to services rendered and only authorizes payments on invoices deemed correct and accurate.</p> <p>An ITSA manager assigns work to be done under a professional services contract and ensures the reasonableness and necessity of the services. In the particular case of United Forensics, the ITSA determined that network services could be performed by hiring city staff. Other contracts are reviewed on a case-by-case basis to determine the effectiveness of hiring staff versus continuing to contract services.</p> <p>Regarding reimbursement of possible improper payments identified in the prior audit, our City Counselor's office represented the city in a lawsuit regarding the United Forensics/Access Forensics contract. The case was settled to the satisfaction of the courts, though I do not have details regarding the settlement.</p>

Contact Phone Number:	(314) 622-3653

City of St. Louis - Information Technology Services Agency
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Other Contracts and Software Agreements

Finding Number: 2.A.

Finding: The ITSA renewed contracts for internet services and mainframe support services without considering proposals from other vendors. In addition, the mainframe support services contract was for a sole proprietor who spent significant time working for the city and was paid \$75 per hour. During the 2 years ended June 30, 2008, this person billed the city an average of 140 to 160 hours per month.

Recommendation: The ITSA periodically solicit proposals for all professional service contracts as required by city ordinance. In addition, the ITSA should evaluate the mainframe support services contract and determine if the contractor should be considered a city employee under Internal Revenue Service rules and whether these services could be provided by city employees.

Status of Finding: Partially Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The ITSA solicits proposals prior to the expiration of a contract and exhaustion of any renewal options approved in the contract, under guidance from the City Counselor. The most recent selection process for mainframe services is underway (as of April 2018).

The status of this finding is stated as Partially Implemented because I could not verify if proposals were solicited at each contract renewal period since 2009.

Contact Phone Number: (314) 622-3653

City of St. Louis - Information Technology Services Agency
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Other Contracts and Software Agreements

Finding Number: 2.B.

Finding: Invoices submitted by the mainframe support services vendor did not contain sufficient detail. Invoices were submitted monthly and only included the total hours worked each month. Information regarding the specific days worked, hours worked each day, and specific tasks performed were not provided. Some invoices provided by the internet services vendor included charges for services that were not defined in the contract.

Recommendation: The ITSA require vendors provide detailed invoices of services provided that include dates of service and specific tasks performed. In addition, all billable services should be defined in the applicable contract.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The ITSA managers require contractors to provide detailed invoices so that amounts billed can be verified against contract pricing and services delivered.

Contact Person: Cindy Riordan
Contact Phone Number: (314) 622-3653

City of St. Louis - Information Technology Services Agency
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Other Contracts and Software Agreements

Finding Number: 2.C.

Finding: The ITSA routinely renewed software agreements without evaluating the benefits or effectiveness of the software.

Recommendation: The ITSA periodically re-evaluate all software agreements prior to their renewal.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The ITSA reviews software agreements, at the time of renewal, for continued applicability of the software in meeting our business needs, assessing the cost-benefit of the software for our customers, and ensuring the licensing level is accurate based on our usage level.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Adair, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Adair ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2017, and 2016, or changes in financial position or cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2017, and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 13, 2018, on our consideration of the County of Adair’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Adair’s internal control over financial reporting and compliance.

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Adair, Missouri (“the County”), which is governed by a three-member board of commissioners, was established in 1841 by an Act of the Missouri Territory. In addition to the three Commissioners, there are eleven elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator, Prosecuting Attorney and County Surveyor.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County’s operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, and social and human services.

The financial statements referred to above include only the primary government of the County of Adair, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County’s legal entity. The Adair County Senate Bill 40 Board has issued separate reporting entity financial statements. For more information of this component unit, please contact them at 660-627-6291 (or write to 1107 County Club Drive, Kirksville, MO 63501).

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation, was:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 193,772,060	\$ 190,528,420
Personal Property	66,162,461	63,955,789
Railroad and Utilities	30,563,956	29,347,562
	<u>\$ 290,498,477</u>	<u>\$ 283,831,771</u>

During 2017 and 2016, the County Commission approved a \$0.2766 and \$0.2764, respectively, tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	<u>2017</u>	<u>2016</u>
General Revenue Fund	\$ 0.0000	\$ 0.0000
Special Road and Bridge Fund	<u>0.2766</u>	<u>0.2764</u>
	<u>\$ 0.2766</u>	<u>\$ 0.2764</u>

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on a weighted average of cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash and Equivalents" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017, and 2016, the carrying amount of the County's deposits was \$4,761,746.46 and \$4,974,430.59, the bank balance was \$13,621,847.51 and \$13,582,925.44, respectively. As of December 31, 2017, and 2016, 100% of the County's cash and cash equivalents were guaranteed by the U. S. Government and securities set aside in the name of the County by the financial institutions.

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

II. DEPOSITS AND INVESTMENTS (concluded)

The carrying values of deposits shown above are included in the financial statements at December 31, 2016, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes
in Cash Balances -

Deposits	\$ 4,974,430.59
Total Governmental Funds	4,974,430.59

Statement of Assets and Liabilities Arising From Cash
Transactions – Agency Funds:

Deposits	11,776,532.19
Total Agency Funds	11,776,532.19

Total Deposits as of December 31, 2016	\$ <u>16,750,962.78</u>
--	-------------------------

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ending December 31, 2017, and 2016.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has a policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ending December 31, 2017, and 2016.

KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

III. LONG-TERM DEBT

During June of 2000, the County entered into a lease purchase agreement in the amount of \$1,900,000 for a term of 20 years with an interest rate of 6.245%. This was for the purpose of constructing a juvenile justice center. The annual lease payment was \$168,960.46. In June of 2011, the County amended the lease purchase agreement to obtain a lower interest rate of 3.900%. This amended lease purchase is for a term of nine years with an annual lease payment of \$151,084.84.

As of December 31, 2017, the unpaid principal balance of the lease purchase was \$420,057.35. The future payments for the lease purchase agreement of the juvenile justice center are as follows:

<u>Balance</u> <u>12/31/2016</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance</u> <u>12/31/2017</u>	<u>Interest</u> <u>Paid</u>
<u>\$549,703.74</u>	<u>\$ -</u>	<u>\$129,646.39</u>	<u>\$420,057.35</u>	<u>\$21,438.45</u>

<u>Year Ending</u> <u>December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 134,702.60	\$ 16,382.24	\$ 151,084.84

2020	145,398.75	5,686.09	151,084.84
	<u>\$ 420,057.35</u>	<u>\$ 33,197.17</u>	<u>\$ 453,254.52</u>

As of December 31, 2016, the unpaid principal balance of the lease purchase was \$549,703.74. The future payments for the lease purchase agreement of the juvenile justice center are as follows.

<u>Balance</u> <u>12/31/2015</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance</u> <u>12/31/2016</u>	<u>Interest</u> <u>Paid</u>
<u>\$674,414.36</u>	<u>\$ -</u>	<u>\$124,710.62</u>	<u>\$549,703.74</u>	<u>\$26,374.22</u>

<u>Year Ending</u> <u>December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 129,646.39	\$ 21,438.45	\$ 151,084.84
2018	134,702.60	16,382.24	151,084.84
2019	139,956.00	11,128.84	151,084.84
2020	145,398.75	5,686.09	151,084.84
	<u>\$ 549,703.74</u>	<u>\$ 54,635.62</u>	<u>\$ 604,339.36</u>

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

IV. OPERATING LEASES

In June 2010, the County entered into an operating lease for the Public Defender's office. In August 2014, the County amended the lease agreement. This lease is effective from August 21, 2014, through May 31, 2020, with quarterly payments of \$2,920.07. During the 2017 and 2016 years, the County made payments totaling \$11,680.28 and \$11,680.28, respectively.

2017 Future Minimum Payments for Operating Leases:

Year Ending December 31	Amount
2018	\$ 11,680.28
2019	11,680.28
2020	5,840.14
	<u>\$ 29,200.70</u>

2016 Future Minimum Payments for Operating Leases:

Year Ending December 31	Amount
2017	\$ 11,680.28
2018	11,680.28
2019	11,680.28
2020	5,840.14
	<u>\$ 40,880.98</u>

V. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2017, and 2016 are as follows:

	2017		2016	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	\$ -	\$ -	\$ -	\$ 85,000.00
Assessment Fund	-	-	85,000.00	-
Law Enforcement Services Fund	-	800,000.00	-	506,907.00
Law Enforcement General Fund	<u>800,000.00</u>	<u>-</u>	<u>506,907.00</u>	<u>-</u>
TOTAL	<u>\$ 800,000.00</u>	<u>\$ 800,000.00</u>	<u>\$ 591,907.00</u>	<u>\$ 591,907.00</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2017, and 2016 were \$109,959.32 and \$94,269.17, respectively.

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Adair County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Adair County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with Sections 70.600-70.755 RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance. The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

	<u>2017 Valuation</u>
Benefit Multiplier:	2.00%
Final Average Salary:	5 Years
Member Contributions:	4.00%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2017, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>
Inactive employees or beneficiaries currently receiving benefits	53	11
Inactive employees entitled to but not yet receiving benefits	30	10
Active employees	56	11
	<u>139</u>	<u>32</u>

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4.0% of their gross pay to the pension plan. Employer contribution rates are 15.1% (General) and 18.4% (Police) of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2017.

Actuarial Assumptions

The total pension liability in the February 28, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%

Mortality rates were based on the 1994 Group Annuity Mortality Table set back 0 years for both males and females.

The actuarial assumptions used in the February 28, 2017, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Equity	43.00%	5.29%
Fixed Income	26.00%	2.23%
Real Assets	21.00%	3.31%
Strategic Assets	10.00%	5.73%

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Changes in the Net Pension Liability

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2017, the employer recognized pension expense of \$908,287 for general and \$239,608 for police. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	General		Police	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 15,390	\$ (32,336)	\$ 9,870	\$ (28,371)
Changes in assumptions	76,965	-	9,221	-
Net difference between projected and actual earnings on pension plan investments	165,014	(69,064)	42,307	(17,745)
Employer contributions subsequent to the measurement date	-	-	-	-
Total	<u>\$ 257,369</u>	<u>\$ (101,400)</u>	<u>\$ 61,398</u>	<u>\$ (46,116)</u>

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending June 30, 2017.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2018	\$ 155,969	\$ 5,412
2019	157,159	349
2020	12,684	2,332
2021	(69,063)	(17,747)
2022	-	-
Thereafter	-	-
Total	<u>\$ 256,749</u>	<u>\$ (9,654)</u>

VIII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$11,628.00 and \$9,044.00, respectively, for the years ended December 31, 2017, and 2016.

IX. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had no COBRA participants at December 31, 2017, and December 31, 2016.

THE COUNTY OF ADAIR
KIRKSVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

X. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is reimbursed for unused vacation and overtime, if applicable but not sick time. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as not appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

XI. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XII. SUBSEQUENT EVENTS

There are no subsequent events to report as of the audit report date.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Adair, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Adair ("County") Missouri which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 13, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

DRAFT

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

July 13, 2018

To the County Commissioners
The County of Adair, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Adair (the "County") as of and for the years ended December 31, 2017, and 2016, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our comments concerning internal control and other significant matters are presented as follows:

I. Information Required by Professional Standards

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

I. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 15, 2018. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2017 and 2016 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 13, 2018.

I. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the County’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Dent County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Dent County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Dent County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Dent County, Missouri, as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Dent County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Dent County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Dent County, Missouri as of December 31, 2017 and 2016, or changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Dent County, Missouri as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 25, 2018 on our consideration of Dent County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Dent County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Dent County, Missouri's internal control over financial reporting and compliance.

The County of Dent
Salem, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016

Note 1 - Summary of Significant Accounting Policies

Organized in 1851, the county of Dent was named after state representative and pioneer settler, Lewis Dent, and is home to a large area of the Mark Twain National Forest. Dent County is a county-organized, third-class county. The county seat is Salem. Dent County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Dent County, Missouri, the Dent County Senate Bill 40 Board, and the Dent County Senior Citizens Services Board.

The County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Dent County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise Dent County's legal entity. The Dent County Senate Bill 40 Board and Senior Citizens Services Board are controlled by separate boards and are also included under the control of the County.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements and are unaudited.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Dent County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the County's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**The County of Dent
Salem, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

Budgets are prepared and adopted on the cash basis of accounting.

During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures that exceeded the budgeted expenditures in 2017: Recorder User Fee Fund, Senate Bill 40 Board Fund, and Senior Citizens Services Board Fund. The following fund had actual expenditures that exceeded the budgeted expenditures in 2016: Senate Bill 40 Board Fund.

The County of Dent
Salem, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, respectively, for the purposes of County taxation was as follows:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 122,002,536	\$ 115,277,537
Personal Property	40,965,090	38,282,370
Railroad and Utilities	4,415,804	4,725,192
	<u>\$ 167,383,430</u>	<u>\$ 158,285,099</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2017 and 2016, respectively, for the purpose of County taxation, was as follows:

	<u>2017</u>	<u>2016</u>
General Revenue	\$ 0.0350	\$ 0.0350
Special Road and Bridge	0.2527	0.2550
Senate Bill 40 Board	0.1338	0.1350
Senior Citizens Services Board	0.0476	0.0480

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

**The County of Dent
Salem, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents".

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The bank balances and carrying values of deposits and investments shown below are included in the financial statements at December 31, 2017, as follows:

	<u>Carrying Value</u>	<u>Bank Balances</u>
Deposits	\$ 2,689,142	\$ 2,973,681
Investments	<u>613,358</u>	<u>613,358</u>
Total Deposits and Investments as of December 31, 2017	<u>\$ 3,302,500</u>	<u>\$ 3,587,039</u>

The bank balances and carrying values of deposits and investments shown below are included in the financial statements at December 31, 2016, as follows:

	<u>Carrying Value</u>	<u>Bank Balances</u>
Deposits	\$ 2,368,994	\$ 2,634,049
Investments	<u>611,368</u>	<u>611,368</u>
Total Deposits and Investments as of December 31, 2016	<u>\$ 2,980,362</u>	<u>\$ 3,245,417</u>

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2017 and 2016, 100% of the County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

**The County of Dent
Salem, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets of a specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	2017 Balance	% of Portfolio	2016 Balance	% of Portfolio
The Bank of Salem	Cert. of Deposit	<u>\$ 613,358</u>	100%	<u>\$ 611,368</u>	100%

Note 3 - Interfund Transfers

Transfers between funds for the years ended December 31, 2017 and 2016 are as follows:

Fund	2017		2016	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue	\$ 5,000	\$ 39,000	\$ 5,000	\$ 39,000

Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 4 - Long-Term Debt

In 2011, the County entered into a cancelable lease purchase agreement to finance the purchase of a Backhoe at a cost of \$87,668. The agreement requires annual payments of \$19,227 ending in 2016, which includes interest of 3.15%. This lease was paid off in 2016.

In 2011, the County entered into a cancelable lease purchase agreement to finance the purchase of a Grader at a cost of \$120,187. The Agreement requires annual payments of \$26,359 ending in 2016, which includes interest of 3.15%. This lease was paid off in 2016.

In 2011, the County entered into a cancelable lease purchase agreement to finance the purchase of a Grader at a cost of \$120,187. The Agreement requires annual payments of \$26,359 ending in 2016, which includes interest of 3.15%. This lease was paid off in 2016.

In 2013, the County entered into a cancelable lease purchase agreement to finance the purchase of two Caterpillar Graders at a cost of \$190,156. The agreement requires annual payments of \$40,860 ending in 2018, which includes interest of 2.44%.

In 2014, the County entered into a cancelable lease purchase agreement to finance the purchase of a 2014 Ford Explorer and 2014 Ford Taurus Police Interceptor at a total cost of \$55,947. The agreement requires annual payments of \$19,045 ending in 2016, which includes interest of 2.12%. This lease was paid off in 2016.

In 2014, the County entered into a cancelable lease purchase agreement to finance the purchase of a John Deere Cab Tractor and a Tiger Boom Mower at a total cost of \$90,398. The agreement requires annual payments of \$23,954, ending in 2018, which includes interest of 2.37%.

In 2015, the County entered into a cancelable lease purchase agreement to finance the purchase of a 2015 Ford Explorer Interceptor at a cost of \$28,425. The agreement requires annual payments of \$9,616 ending in 2017, which includes interest of 1.49%. This lease was paid off in 2017.

In 2015, the County entered into a cancelable lease purchase agreement to finance the purchase of a 2013 Ford Utility Police Vehicle at a cost of \$25,107. The agreement requires a one time payment of \$7,240 at signing and subsequent annual payments of \$9,133 ending in 2017, which includes interest of 1.48%. This lease was paid off in 2017.

In 2016, the County entered into a cancelable lease purchase agreement to finance the purchase of two 2016 Mack Dump Trucks at a total cost of \$327,661. The agreement requires a one time payment of \$65,532 at signing and subsequent annual payments of \$68,425 ending in 2020, which includes interest of 1.75%.

In 2017, the County entered into a cancelable lease purchase agreement to finance the purchase of two Dodge Charger Police Sedans at a total cost of \$58,705. The agreement requires annual payments of \$19,981 ending in 2019, which includes interest of 2.09%.

In 2017, the County entered into a cancelable lease purchase agreement to finance the purchase of two Fabick Cat Motor Graders at a total cost of \$263,980. The agreement requires annual payments of \$56,282 ending in 2022, which includes interest of 2.17%.

**The County of Dent
Salem, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 4 - Long-Term Debt (continued)

Although the agreements provide cancellation of the leases if the County should fail to appropriate funds at the annual renewal dates, the County does not foresee exercising its option to cancel.

The following is the changes in long-term debt for the year ended December 31, 2017:

Capital Lease Obligations	Balance January 1	Additions	Retirements	Balance December 31	Interest Paid
2013 120M2 AWD Graders	\$ 78,823	\$ -	\$ 38,937	\$ 39,886	\$ 1,923

Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 5 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under RSMo. Sections 56.800 to 56.840, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under RSMo. Sections 57.949 to 57.997, and certain personnel not defined as an employee per RSMo. Section 50.1000(8). The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

In accordance with state statutes, the plan is funded through various fees collected by counties and remitted to the CERF. Eligible employees hired before February 2002 are required to contribute 2% of their annual salary, while employees hired after February 2002 are required to contribute 6% of their annual salary in order to participate in CERF. During 2017 and 2016, the County collected and remitted to CERF, employee contributions of \$76,616 and \$73,193, respectively, for the years then ended.

**The County of Dent
Salem, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, Dent County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. Dent County has contributed \$11,628 and \$10,336, respectively, for the years ended December 31, 2017 and 2016.

Note 7 - Other Retirement Plan

Dent County have voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which is paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2017 and 2016 for the 457 plan were \$46,176 and \$39,281, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2017 and 2016 for the 401(a) plan were \$11,184 and \$10,937, respectively.

Note 8 - Post-Employment Benefits

Dent County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by Dent County.

Note 9 - Claims, Commitments and Contingencies

Litigation

The County is subject to various claims and legal proceeding covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is reimbursed for unused compensatory time. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

**The County of Dent
Salem, Missouri
Notes to the Financial Statements
For the years ended December 31, 2017 & 2016**

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through July 25, 2018, the date the financial statements were available to be issued.

The County plans to issue up to \$12,000,000 in lease certificates of participation in 2018 and 2019 to fund a new jail with administrative space for the sheriff. The County has received approval from the voters for two separate ½ cent sales tax proposals at the April 4, 2017 election for the project.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

To the County Commission and
Officeholders of Dent County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Dent County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Dent County, Missouri's basic financial statements, and have issued our report thereon dated July 25, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Dent County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Dent County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Dent County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies as items 2017-002, 2017-003.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dent County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the accompanying schedule of findings and responses as item 2017-001.

Dent County, Missouri's Responses to Findings

Dent County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Dent County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in dark ink, appearing to read "Stopp & VanHoy", with a stylized flourish at the end.

July 25, 2018

**The County of Dent
Salem, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2017 & 2016**

Financial Statement Findings

2017-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Actual expenditures are not to exceed the budget.

Condition: During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures that exceeded the budgeted expenditures in 2017: Recorder User Fee Fund, Senate Bill 40 Board Fund, and Senior Citizens Services Board Fund. The following fund had actual expenditures that exceeded the budgeted expenditures in 2016: Senate Bill 40 Board Fund.

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds.

Cause: Oversight

Recommendation: We recommend that the County adopt a budget for all funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Commission, County Treasurer and County Clerk will review all funds throughout the year and make all necessary budget amendments as necessary in accordance with the Mo Revised Statutes. The phone number for the County Commission is (573) 729-3044.

2017-002 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Management has not prepared documentation of internal controls.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County will work to prepare internal control documentation. The expected completion date is December 31, 2018. The phone number for the County Commission is (573) 729-3044.

**The County of Dent
Salem, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2017 & 2016**

2017-003 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2018. The phone number for the County Commission is (573) 729-3044.

**The County of Dent
Salem, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2017 & 2016**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Dent County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2013 & 2012.

Prior Year Financial Statement Findings

13/12-001 **Condition:** During our audit, we noted one fund with actual expenditures that exceeded the budgeted expenditures.

Effect: Missouri statutes requires Counties to prepare an annual budget and expenditures are not to exceed the budget. Due to exceeding budget in certain funds the County is in violation of Missouri Revised Statutes.

Cause: Oversight

Recommendation: We recommend that the County adopt a budget for all funds, and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Commission, County Treasurer and County Clerk will review all funds throughout the year and make all necessary budget amendments as necessary in accordance with the Mo Revised Statutes.

Status: This finding is repeated in the current year as finding 2017-001.

13/12-002 **Condition:** Documentation of the County's internal controls has not been prepared.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Management has not prepared documentation of internal controls.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County Commission and County Clerk will attempt to document the County's internal controls as recommended.

Status: This finding is repeated in the current year as finding 2017-002.

**The County of Dent
Salem, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2017 & 2016**

Prior Year Financial Statement Findings (continued)

13/12-003 **Condition:** During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate audit risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County Commission and County Clerk will attempt to develop and implement formal fraud risk assessment procedures.

Status: This finding is repeated in the current year as finding 2017-003.

Prior Year Federal Award Findings

13/12-004 Federal Grantor: All Programs
Pass-Through Grantor: All Programs
Federal CFDA Number: All Programs
Program Title: All Programs

Condition: The Schedule of Expenditures of Federal Awards (SEFA) contained errors.

Criteria: OMB Circular A-133 requires auditees to prepare an accurate SEFA containing awards expended, CFDA title and number, award number, name of the Federal agency, and name of the pass-through entity.

Cause: Management was unaware of the reporting requirements related to the Schedule of Expenditures of Federal Awards.

Effect: Federal expenditures reported on the SEFA were incorrect.

Recommendation: We recommend that management develop internal controls over reporting and consult with outside accountants when needed to ensure an accurate SEFA is prepared.

Management's Response: The County Clerk prepares the SEFA and will prepare each year in compliance with *OMB Circular A-133*.

Status: This finding is no longer applicable.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Iron County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Iron County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Iron, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Iron ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles (concluded)

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2017, and 2016, or changes in financial position or cash flows thereof for the year then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2017, and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 24, 2018, on our consideration of the County of Iron’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Iron’s internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this financial statement.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Iron, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1857 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of the County of Iron, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements, and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation, was:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 122,149,670	\$ 126,328,650
Personal Property	44,395,650	42,762,060
Railroad and Utilities	<u>41,805,042</u>	<u>40,921,981</u>
	<u>\$ 208,350,362</u>	<u>\$ 210,012,691</u>

During 2017 and 2016, the County Commission approved a \$0.6503 and \$0.6485, respectively, tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	<u>2017</u>	<u>2016</u>
General Revenue Fund	\$.2813	\$.2813
Special Road and Bridge Fund	.2771	.2771
Senate Bill 40 Fund	<u>.0919</u>	<u>.0901</u>
	<u>\$.6503</u>	<u>\$.6485</u>

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash is separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017, and 2016, the carrying amounts of the County's deposits was \$944,505.21 and \$712,843.88, and the bank balances were \$4,782,501.09 and \$5,783,240.58, respectively. The total bank balances as of December 31, 2017, and December 31, 2016, were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

Carrying values of deposits shown above are included in the financial statements at December 31, 2017, as follows:

--	-------------------------------

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

II. CASH (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2017, and 2016.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2017, and 2016.

III. LONG-TERM DEBT

Capital Leases

In 2013, the County entered into a capital lease agreement with John Deere for two Motor Graders for \$250,168. The lease expires January 2019 with a nominal annual rate of 1.884%. Combined interest and principal payments are paid annually in the amount of \$52,949.92.

In 2013, the County entered into a capital lease agreement with Diversified Lending Inc. for accounting software for \$39,738. The lease expires February 2016 with an interest rate of 6.316%. Combined interest and principal payments are paid annually in the amount of \$10,704.79.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

III. LONG-TERM DEBT (continued)

Capital Leases (continued)

In 2015, the County entered into a capital lease agreement with FS Leasing for 3 Ford Explorers for \$64,378. The lease expires on October 2018 with an interest rate of 2.95%. Combined interest and principal payments are paid annually in the amount of \$22,757.44.

In 2016, the County entered into a capital lease agreement with FS Leasing for 1 Ford Explorer for \$22,790. The lease expires on April 2019 with an interest rate of 2.95%. Combined interest and principal payments are paid annually in the amount of \$7,938.13.

The change in capital leases for the year ended December 31, 2017, is as follows:

	Balance at December 31, 2016	Amount Borrowed	Amount Repaid	Balance at December 31, 2017	Interest Paid During Year
2 Motor Graders	\$ 102,955.09	\$ -	\$ 50,992.90	\$ 51,962.19	\$ 1,957.02
3 Ford Explorers	43,551.36	-	21,454.83	22,096.53	1,302.61
1 Ford Explorer	22,490.00	-	7,298.64	15,191.36	639.50
Totals	<u>\$ 168,996.45</u>	<u>\$ -</u>	<u>\$ 79,746.37</u>	<u>\$ 89,250.08</u>	<u>\$ 3,899.13</u>

The schedule of future payments of capital leases of the County as of December 31, 2017, is as follows:

Fiscal Year Ending December 31,	Principal	Interest	Total
2018	\$ 81,542.48	\$ 2,103.01	\$ 83,645.49
2019	7,707.60	230.53	7,938.13

III. LONG-TERM DEBT (continued)

Capital Leases (concluded)

The schedule of future payments of capital leases of the County as of December 31, 2016, is as follows:

Fiscal Year Ending December 31,	Principal	Interest	Total
2017	\$ 79,746.37	\$ 3,899.13	\$ 83,645.50
2018	81,542.48	2,103.01	83,645.49
2019	7,707.60	230.53	7,938.13
TOTALS	\$ 168,996.45	\$ 6,232.67	\$ 175,229.12

Loans

Line of Credit – This line of credit can be used for whatever purpose the County sees fit. Currently, the line of credit is used to fund a portion of the General Revenue Fund expenditures until the tax revenue is received in the following January. The Line of Credit matures annually, but the line is renewed each year. The interest rate is variable according to the prime rate published in the Wall Street Journal. There is no future payment schedule required for this debt.

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2017, and 2016 are as follows:

	2017		2016	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	\$ -	\$ 8,000.00	\$ 48,000.00	\$ 12,412.00
Special Road and Bridge Fund	-	-	-	48,000.00
Assessment Fund	8,000.00	-	12,412.00	-
TOTAL	\$ 8,000.00	\$ 8,000.00	\$ 60,412.00	\$ 60,412.00

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of 11 members, 9 of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the State of Missouri, except any City not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55.

Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member receives upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system. The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2017, and 2016, were \$57,237.47 and \$55,334.90.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 and \$2,618, respectively, for the years ended December 31, 2017, and 2016.

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Iron County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Iron County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance. The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

2017 Valuation

Benefit Multiplier:	1.50%
Final Average Salary:	5 Years
Member Contributions:	4%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Employees Covered By Benefit Terms

At June 30, 2017, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>
Inactive employees or beneficiaries currently receiving benefits	23	7
Inactive employees entitled to but not yet receiving benefits	4	5
Active employees	<u>38</u>	<u>12</u>
	<u>65</u>	<u>24</u>

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 0.3% (General) and 2.1% (Police) of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2017.

Actuarial Assumptions

The total pension liability in the February 28, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Mortality rates were based on the 1994 Group Annuity Mortality Table set back 0 years for both males and females.

The actuarial assumptions used in the February 28, 2017, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Equity	43.00%	5.29%
Fixed Income	26.00%	2.23%
Real Assets	21.00%	3.31%
Strategic Assets	10.00%	5.73%

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending June 30, 2017.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2018	\$ 42,545	\$ 16,913
2019	43,890	16,531
2020	(700)	4,923
2021	(67,753)	(7,179)
2022	-	-
Thereafter	-	-
Total	<u>\$ 17,982</u>	<u>\$ 31,188</u>

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There were four participants for COBRA at December 31, 2017, paying premiums of \$14,313.36, and one participant paying premiums of \$7,087.28 during December 31, 2016.

IX. CLAIMS, COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not currently involved in pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with annual leave. Each employee is entitled to five days annual leave after one year of employment, is entitled to ten days annual leave after two years of employment and fifteen days after six years of employment. Annual leave may not be accumulated in excess of 30 days. Sick time is accrued at 1¼ day for each full month employed, which may accumulate up to 60 days. An employee is not reimbursed for unused sick time upon termination of employment. Employees are entitled up to three days leave for a death in the immediate family. These have not been subjected to auditing procedures.

THE COUNTY OF IRON
IRONTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

IX. CLAIMS, COMMITMENTS AND CONTINGENCIES (concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

There are no subsequent events to report as of the date of the audit report.

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Iron, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Iron ("County"), Missouri which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 24, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To the County Commissioners
The County of Iron, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Iron (the "County") as of and for the years ended December 31, 2017, and 2016, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Information Required by Professional Standards
- II. Management Comments

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

I. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 21, 2018. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2017 and 2016 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 24, 2018.

I. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the County’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

II. MANAGEMENT COMMENTS

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Perry County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Perry County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name. The signature is fluid and cursive, with a large loop at the end.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Perry, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Perry ("County), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash and investment balances-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2017, and 2016, or changes in financial position or cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2017, and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 10, 2018, on our consideration of the County of Perry’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Perry’s internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Perry, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1820 by an Act of the Missouri Territory. In addition to the three Commissioners, there are eleven elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder, Public Administrator, County Surveyor, and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Perry County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting (concluded)

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes (concluded)

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2017 and 2016, for purposes of taxation, was:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 238,153,314	\$ 227,690,411
Personal Property	90,399,481	90,324,277
Railroad and Utilities	<u>17,135,125</u>	<u>17,060,265</u>
	<u>\$ 345,687,920</u>	<u>\$ 335,074,953</u>

During 2017 and 2016, the County Commission approved a \$0.7160 and \$0.7040, respectively, tax levy per \$100 of assessed valuation of tangible taxable property for purposes of County taxation, as follows:

	<u>2017</u>	<u>2016</u>
General Revenue Fund	\$ 0.2257	\$ 0.2179
Special Road and Bridge Fund	0.3063	0.3037
Mental Health Fund	0.0920	0.0912
Senate Bill 40 Fund	<u>0.0920</u>	<u>0.0912</u>
	<u>\$ 0.7160</u>	<u>\$ 0.7040</u>

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017, and 2016, the carrying amount of the County's deposits and investments was \$5,301,372.88 and \$5,256,999.24, and the bank balance was \$17,486,772.72 and \$15,504,560.70, respectively. The total bank balance as of December 31, 2016, was insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions. The total bank balance as of December 31, 2017, was not fully insured through the Federal Deposit Insurance Corporation and securities by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2017, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash and Investment Balances</u>	
Deposits and cash equivalents	\$ 5,097,977.19
Investments	203,395.69
Total Governmental Funds	<u>5,301,372.88</u>
<u>Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:</u>	
Deposits	<u>12,073,870.38</u>
Total Agency Funds	<u>12,073,870.38</u>
Total Deposits and Investments as of December 31, 2017	<u>\$ 17,375,243.26</u>

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

II. DEPOSITS AND INVESTMENTS (concluded)

The carrying values of deposits shown above are included in the financial statements at December 31, 2016, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash and Investment Balances</u>	
Deposits and cash equivalents	\$ 5,106,172.84
Investments	<u>150,826.40</u>
Total Governmental Funds	5,256,999.24
<u>Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:</u>	
Deposits	<u>12,965,943.14</u>
Total Agency Funds	<u>12,965,943.14</u>
Total Deposits and Investments as of December 31, 2016	\$ <u>18,222,942.38</u>

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2016. The County's deposits were exposed to custodial credit risk for the year ended December 31, 2017.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. The County's investments were not exposed to custodial credit risk for the years ended December 31, 2017, and 2016.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the years ended December 31, 2017, and 2016.

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

III. LONG-TERM DEBT

On May 1, 2014, the County entered into \$2,565,000 Lease Refunding Certificates of Participation, Series 2014, which refunded Series 2005 Leasehold Refunding Revenue Bonds, due in 3 annual varying principal installments ranging from \$845,000 to \$865,000, maturing on May 1, 2017. Interest rate is variable from 0.750% to 1.250%.

On March 15, 2017, the County entered into a Series 2017 Lease Certificates of Participation in the amount of \$3,345,000, which matures on October 15, 2034, due in varying annual principal installments ranging from \$175,000 to \$260,000. Interest rate is variable from 2.500% to 3.500%.

TOTAL	<u>\$ 440,000</u>	<u>\$ 440,000</u>	<u>\$ 442,500</u>	<u>\$ 442,500</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2017, and 2016 were \$47,399.94 and \$40,642.85, respectively.

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Perry County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Perry County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance. The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

2017 Valuation

Benefit Multiplier:	1.75%
Final Average Salary:	3 Years
Member Contributions:	0.00%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2017, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>
Inactive employees or beneficiaries currently receiving benefits	40	10
Inactive employees entitled to but not yet receiving benefits	17	19
Active employees	66	22
	<u>123</u>	<u>51</u>

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of Perry County do not contribute to the pension plan. Employer contribution rates are 10.2% (General) and 11.4% (Police) of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2017.

Actuarial Assumptions

The total pension liability in the February 29, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%

Mortality rates were based on the RP-2014 Healthy Annuitant mortality tables, for males and females.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Equity	43.00%	5.29%
Fixed Income	26.00%	2.23%
Real Assets	21.00%	3.31%
Strategic Assets	10.00%	5.73%

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Schedule of Changes in Net Pension Liability and Related Ratios

	General Division	Police Division
A. Total Pension Liability		
1 Service Cost	\$ 216,106	\$ 86,346
2 Interest on Total Pension Liability	699,532	209,449

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2017, the employer would have recognized pension expense of \$500,477 for general and \$101,947 for police. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	General		Police
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources
Difference between expected and actual experience	\$ 21,949	\$ (40,785)	\$ -
Changes in assumptions	65,267	-	19,741
Net difference between projected and actual earnings on pension plan investments	224,934	(83,149)	71,680
Employer contributions subsequent to the measurement date	-	-	-
Total	<u>\$ 312,150</u>	<u>\$ (123,934)</u>	<u>\$ 91,421</u>

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending June 30, 2017.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2018	\$ 188,216	\$ 16,758
2019	188,214	20,100
2020	107,254	(4,937)
2021	(68,305)	(28,239)
2022	(1,072)	-
Thereafter	-	-
Total	<u>\$ 414,307</u>	<u>\$ 3,682</u>

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366 and \$2,805, respectively, for the years ended December 31, 2017, and 2016.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There were three participants in COBRA at December 31, 2017, and one at December 31, 2016, paying respective premiums of \$11,637.12 and \$2,978.88.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

IX. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

B. Compensated Absences (Vacation and Sick Time)

The County provides employees with up to 25 days of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is reimbursed for unused vacation leave. Vacation days not used by the end of the year are forfeited. Employees in the County earn 8 hours of sick pay for each month worked. Upon termination from county employment, the employee is not compensated for unused sick time.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

There are no subsequent events to report as of the audit report date.

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Perry, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Perry ("County"), Missouri which comprise cash and unencumbered cash for each fund as of and for the years ended December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash and investment balances-budget and actual for the years then ended, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 10, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. (2017-001, 2017-002 and 2017-003)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Responses to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

ARNOLD, MISSOURI

August 10, 2018

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2017 AND 2016

I. FINANCIAL STATEMENT FINDINGS

2017-001 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Clerk's (Jared Kutz) office is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The expected completion date is the next audit period. The phone number for the Clerk's office is 573-547-4242.

2017-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2017 AND 2016

I. FINANCIAL STATEMENT FINDINGS (concluded)

2017-002 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County Clerk's (Jared Kutz) office is in the process of preparing the required risk assessment documentation. The expected completion date is the next audit period. The phone number for the Clerk's office is 573-547-7367.

2017-003 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance Corporation (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the County's accounts were under-pledged for the year ended December 31, 2017.

Context: The County's bank accounts with a financial institution were under collateralized by \$631,942.54 at December 31, 2017.

Effect: There is a risk that the County's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: We recommend that the County periodically review all account balances to ensure they are fully secured.

Views of responsible officials and planned corrective actions: The County will review account balances with the financial institution to ensure that they are collateralized on a regular basis. The Treasurer is Kathy Schumer (573-547-4502) and the Collector of Revenue Rodney Richardet (573-547-4422).

THE COUNTY OF PERRY
PERRYVILLE, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2017 AND 2016

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There was no audit performed for the fiscal year ending December 31, 2015, therefore we have no prior year audit findings to report.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

August 10, 2018

To the County Commissioners
The County of Perry, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Perry (the "County") as of and for the years ended December 31, 2017, and 2016, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiencies Considered to be Significant
- II. Information Required by Professional Standards

The County's management has provided a written response to the findings in this report that were identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Concluded)

- 2017-002 Views of responsible officials and planned corrective actions: The County Clerk's (Jared Kutz) office is in the process of preparing the required risk assessment documentation. The expected completion date is the next audit period. The phone number for the Clerk's office is 573-547-7367.
- 2017-003 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance Corporation (FDIC) or securities pledged by the financial institution.
- Condition: During our testing of cash and pledged securities, it was noted that the County's accounts were under-pledged for the year ended December 31, 2017.
- Context: The County's bank accounts with a financial institution were under collateralized by \$631,942.54 at December 31, 2017.
- Effect: There is a risk that the County's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.
- Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.
- Recommendation: We recommend that the County periodically review all account balances to ensure they are fully secured.
- Views of responsible officials and planned corrective actions: The County will review account balances with the financial institution to ensure that they are collateralized on a regular basis. The Treasurer is Kathy Schumer (573-547-4502) and the Collector of Revenue Rodney Richardet (573-547-4422).

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and Government Auditing Standards

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 14, 2018. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2017 and 2016 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 10, 2018.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Comptroller
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2008-95, *City of St. Louis, Office of the Comptroller*, issued in December 2008, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our upcoming audit of the Office of the Comptroller. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Office of the Comptroller that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Office of the Comptroller

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Accounting Controls and Procedures

Finding Number: 1.A.

Finding: The financial computer system utilized by the Comptroller's office did not provide the information necessary to efficiently operate the city. Several city offices maintained additional separate financial records and the system did not always provide information needed by city offices.

Recommendation: The Comptroller evaluate the need for a new financial computer system that will provide the necessary information for all city offices.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The city attempted to purchase and implement a new accounting system. After a three year implementation process, the vendor providing the system was bought out by another company, and the system ultimately did not meet the city's needs. Currently a new effort is underway and a committee has begun meeting regarding how to proceed in the future to implement a new system. The system is contingent on funding.

Contact Person: Beverly Fitzsimmons

Contact Phone Number: (314) 589-6035

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Accounting Controls and Procedures

Finding Number: 1.B.

Finding: The city's financial computer system did not have controls in place to prevent splitting purchases to avoid the city's bidding requirements. Although the Comptroller's office personnel attempted to ensure purchases were not included on multiple invoices that were processed on the same day, there were no built in controls in the financial computer system to detect such payments.

Recommendation: The Comptroller modify the city's financial computer system to monitor purchases to ensure the established purchasing limits are not circumvented.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The current system does not have the capability to monitor this. As we begin a search for a new system and its capabilities, this control will be implemented.

Contact Person: Beverly Fitzsimmons

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Accounting Controls and Procedures

Finding Number: 1.C.1.

Finding: There was no documented review and approval of transfer and journal entries by an independent person.

Recommendation: The Comptroller establish procedures to ensure transfers and journal entry transactions are adequately reviewed and approved.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Most transfers are driven by either budget ordinance or by Board of Estimate and Apportionment approval. The transfer is done by journal entry. A proposed journal entry is reviewed either by a member of the same section or by the General Ledger Section before it is keyed into the system.

Contact Person: Beverly Fitzsimmons

Contact Phone Number: (314) 589-6035

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Accounting Controls and Procedures

Finding Number: 1.C.2.

Finding: Transfers and journal entry requests received from city offices were not recorded on a log immediately upon receipt. In addition, some entries were not recorded in the general ledger in a timely manner.

Recommendation: The Comptroller ensure all transfers and journal entry requests received are immediately recorded in a log and recorded in the general ledger on a timely basis. In addition, the log and general ledger should be reconciled.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Most transfers authorized by the budget ordinance are initiated by the Financial Reporting Section and completed by year end when the funds are available. Transfers of appropriations are handled by the General Ledger Section after the Board of Estimate and Apportionment approves the transfer list. If board approval is not needed (as in the case when a transfer of accounts is within the same family of accounts) then the Budget Division sends the request to the General Ledger Section for processing. No formal log is kept and the Comptroller's office depends on the department to ensure the transaction it requested is completed. The log is being considered for receipt of journal entries from other sections. However, journal entries are entered timely upon receipt.

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Payroll Controls and Procedures

Finding Number: 2.A.

Finding: The payroll computer system utilized by the Comptroller's office did not provide the information necessary to efficiently operate the city and is heavily reliant on manual processes. The payroll computer system was a separate system from the city's financial computer system. As a result, the Comptroller's office had to manually enter summarized payroll transactions into the city's financial computer system. Payroll transaction data was not readily available. The payroll computer system did not track payroll costs by project or grant. The payroll computer system did not include adequate information about payroll adjustments which included incentive pay, sick or vacation leave paid upon termination, and back pay.

Recommendation: The Comptroller evaluate the need for a new payroll computer system that will provide the necessary controls and information for all city offices.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The city attempted to purchase and implement a new payroll system along with the accounting system. After a three year implementation process, the vendor providing the system was bought out by another company, and the system ultimately did not meet the city's needs. Currently a new effort is underway and a committee has begun meeting regarding how to proceed in the future to implement a new system. The system is contingent on funding.

Contact Phone Number: (314) 589-6035

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Payroll Controls and Procedures

Finding Number: 2.B.

Finding: The Comptroller's office did not have adequate procedures to verify payroll data and, as a result, did not have assurance transactions were processed accurately. For city offices that submitted payroll data electronically, the payroll data was printed and certified by an official in the respective city office. However, the Comptroller's office did not ensure the electronic payroll data agreed with the certified payroll data. The Comptroller's office did not require city offices to certify the accuracy of the processed payroll data.

Recommendation: The Comptroller ensure the electronic payroll data agrees with the certified payroll data. The Comptroller's office should also ensure the city offices certify the accuracy of the final processed payroll data.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Once the information is entered into the system, payroll is officially certified by the individual payroll clerks. The payroll clerks complete an error confirmation form stating that they either had no errors to be corrected or that all corrections were made. The Comptroller's office retains the forms.

Status of Findings

Finding Title: Contracts

Finding Number: 3.

Finding: The Comptroller's office sometimes did not enter into contracts when appropriate.

Recommendation: The Comptroller enter into contracts when appropriate and ensure contracts contain adequate details and protections for the city.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

It is the Comptroller office's belief that contracts are entered into when appropriate.

Contact Person: Beverly Fitzsimmons

Contact Phone Number: (314) 589-6035

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Receipt Controls and Procedures

Finding Number: 4.A.

Finding: Numerous employees in the Comptroller's office collected or received checks and money orders. These non-federal monies were transmitted to other employees for additional processing prior to being recorded and transmitted to the Treasurer.

Recommendation: The Comptroller limit the number of employees who can receive or process monies prior to recording and transmitting monies.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

A procedure has been enacted to ensure separation of duties are in place for proper internal controls for receipt of checks, cash, or money orders. Any checks received by the office through the mail or interoffice mail are immediately given to the clerk to be restrictively endorsed and logged in. The checks for the day are given to the Account Clerk in the Financial Reporting Section to prepare and submit the deposit to the Treasurer. Once a month, at a minimum, the log is checked against the receipt coding forms to ensure all checks have been deposited.

Contact Person: Beverly Fitzsimmons

Contact Phone Number: (314) 589-6035

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Receipt Controls and Procedures

Finding Number: 4.B.

Finding: Checks and money orders were not always recorded on either official prenumbered receipt slips or a log immediately upon receipt. These non-federal monies were also not transmitted in a timely manner. In addition, checks and money orders were not restrictively endorsed immediately upon receipt.

Recommendation: The Comptroller ensure all checks and money orders received are immediately recorded on an official prenumbered receipt slip or collections log which is reconciled to the transmittal to the Treasurer by someone independent of the receipting and collection functions. The Comptroller should also transmit all monies on a timely basis and restrictively endorse checks and money orders immediately upon receipt.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The first step of the receipting process is for one person to receive the checks, restrictively endorse the checks, and log them on an Excel spreadsheet. This includes cash and money orders. Receiving cash or money orders directly in the Comptroller's office is rare and no prenumbered receipt slips are used. If a receipt slip is required, a copy of the check or backup is made and signed. Once a day, at a minimum, a transmittal is made to the Treasurer's office. It may be more often depending on checks received and their amounts.

Contact Phone Number: (314) 589-6035

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Revenue Maximization

Finding Number: 5.

Finding: The Comptroller had not established city-wide procedures to ensure reimbursement requests for federal grants were submitted timely.

Recommendation: The Comptroller should develop procedures to ensure grant reimbursement requests are submitted in a timely manner.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The City of St. Louis receives and expends millions of dollars in grant funds annually. Many of the grant funds are received on a reimbursement basis, where the city must incur the program allowable expenditures first and then request a drawdown of the awarded funds. Generally, grant awards and revenues are processed and managed by the Federal Grants Section (FGS) of the Comptroller's office. However, there are departments that manage their own expenditures and/or drawdown activity, such as the Community Development Administration, Board of Public Service, Police Department, Airport, St. Louis Agency on Training and Employment, and the Courts.

Steps implemented:

1. Drawdown Frequency: Drawdowns are done on a weekly, bi-weekly, monthly, and/or quarterly basis. For grants that funds are not readily available for drawdown purposes at the start of the grant year (Community Development Block Grant, Housing Opportunities for Persons With AIDS, Emergency Solutions Grants, etc.), the initial drawdown must be done as soon as funding becomes available and must follow the recommended frequency after.
2. Reconciliations: The FGS recently implemented a process to make sure all new grants are current when it comes to revenue collections. The FGS accountants prepare a monthly account monitoring report based on what is posted in the general ledger. These reports are reviewed and analyzed. Notifications and/or reminders are sent to responsible individuals and/or departments for grants not current in their drawdowns and/or deposits.

Contact Phone Number: (314) 622-4912

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Capital Asset Controls and Procedures

Finding Number: 6.A.

Finding: Some city offices did not perform annual physical inventories. In addition, the Comptroller's office did not require city offices to submit annual physical inventory reports.

Recommendation: The Comptroller require annual inventories be submitted by each city office to the Comptroller's office.

Status of Finding: Not Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Fixed Asset manual reads: "the City will conduct an annual physical inventory . . ." The Comptroller's office believes the method in which it conducts the inventory is more efficient than simply having the department submit the inventory; therefore, we do not require such documentation. The current procedure works better because it holds the department more accountable. When a physical inventory audit of the department's assets is performed, the departments are required to provide proof that the asset is physically available and present. Simply requiring the department to submit an annual inventory report without physically overseeing that the asset is actually in their possession does not validate the existence of the asset. As a result, this procedure could cause inaccuracies in the actual assets carried in the city's financial records.

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Capital Asset Controls and Procedures

Finding Number: 6.B.

Finding: Property purchases were not reconciled to additions recorded in the property records.

Recommendation: The Comptroller ensure capital asset purchases are periodically reconciled to additions.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

When property purchases are added to the property records, reports are sent to the city offices for verification to ensure the asset is correctly added. Upon receipt of the report, the city office should reconcile property purchases to its property records.

Contact Person: Lillie Green

Finding Title: Vehicles

Finding Number: 7.A.

Finding: The Comptroller used a city-owned vehicle for commuting purposes and did not report commuting mileage to the Internal Revenue Service (IRS) as compensation.

Recommendation: The Comptroller ensure commuting mileage is reported in compliance with IRS requirements.

Status of Finding: No Longer Applicable

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Comptroller no longer has a city-owned vehicle.

Contact Person: Beverly Fitzsimmons

Contact Phone Number: (314) 589-6035

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Vehicles

Finding Number: 7.B.

Finding: Records and monitoring procedures for the Comptroller's office pool vehicles and assigned vehicles were not sufficient. The Comptroller's office did not require vehicle usage logs to be maintained for the vehicles. Although a check out log was maintained for each of the pool vehicles, the beginning and ending odometer readings, destination, and purpose were not documented on the log.

Recommendation: The Comptroller require the preparation of usage logs for all vehicles and ensure these logs are properly reviewed.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

All municipal garage staff ensure all logs are filled out completely. The Clerk Typist checks logs on a daily basis to ensure they are complete. As a double check, the Account Clerk verifies all log sheets are complete when processing the mileage report at the beginning of each month for the previous month.

Contact Person: Judy Armstrong
Contact Phone Number: (314) 657-3409

City of St. Louis - Office of the Comptroller
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Vehicles

Finding Number: 7.C.

Finding: Vehicles may not have been used efficiently and effectively. One of the pool vehicles was driven only 2,283 miles during calendar year 2007. The vehicles assigned to the municipal garage manager and lead parking garage attendant were driven 5,143 and 3,734 miles, respectively, during calendar year 2007.

Recommendation: The Comptroller review pool vehicle usage and permanent assignment of vehicles to ensure vehicles are justified and necessary.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Currently no garage staff take vehicles home on a regular basis. The Clerk Typist II will verify that all vehicles are rotated on usage, to evenly distribute the miles. The Account Clerk will verify the mileage used on a monthly basis to determine that all vehicles are being used evenly. There are eight vehicles used for out of town travel, so they may not have as much usage, but they can have more/less mileage. These vehicles are also rotated to distribute the usage.

Missouri State Auditor

Honorable Jill Hanley, Public Administrator
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2010-14, *City of St. Louis, Office of Public Administrator*, issued in January 2010, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our upcoming audit of the Office of Public Administrator. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Office of Public Administrator that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Office of Public Administrator

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Public Administrator's Salary and Employee Benefits

Finding Number: 1.A. and 1.B.

Finding: It appeared the Public Administrator's salary and employees' benefits had not been established in accordance with state law. Although the Public Administrator had requested to be paid on a salary basis as allowed by law, the city had not complied with his request. Employees of the Public Administrator's office were not considered city employees and did not receive city benefits (retirement, health insurance, life insurance, employee accidental death and dismemberment insurance, dental, vision, and a 457 plan) as required by state law.

Recommendation: The Public Administrator continue to work with the city to ensure his salary and employee benefits are handled in accordance with state law.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The Public Administrator and staff are now being paid salary and wages by the city and receiving city benefits.

Contact Person: Jill M. Hanley
Contact Phone Number: (314) 622-4989

City of St. Louis - Office of Public Administrator
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Bond Coverage

Finding Number: 2.

Finding: The Public Administrator did not file a statement of assets annually, resulting in inadequate bond coverage. The Probate Court reviewed bond coverage for individual cases and the Public Administrator's blanket bond coverage when a statement of assets was filed. The Public Administrator indicated a statement of assets had not been filed since September 2006, when it was requested by the Probate Judge.

Recommendation: The Public Administrator work with the Probate Court to ensure a statement of assets is filed annually as required by state law. The Public Administrator should also obtain adequate bond coverage for all wards and estates.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The current Public Administrator was appointed on April 3, 2017. She is preparing an asset report and obtaining all of the new bonds and additional bonds necessary to cover all ward assets. She will work with the Probate Court to make sure this report is filed annually.

Contact Person: Jill M. Hanley
Contact Phone Number: (314) 622-4989

City of St. Louis - Office of Public Administrator
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Collateral Securities

Finding Number: 3.

Finding: The Public Administrator did not ensure adequate collateral securities were pledged by depositary banks for two cases.

Recommendation: The Public Administrator ensure adequate collateral securities are pledged for all funds on deposit in excess of Federal Deposit Insurance Corporation (FDIC) coverage.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The two cases that were found that did not ensure adequate collateral securities were pledged by depositary banks have been closed and monies were distributed.

The current Public Administrator has reviewed all cash assets held and has confirmed that all cash assets held in accounts are within the insured limits of the FDIC, National Credit Union Administration, or Securities Investor Protection Corporation.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Director of the Department of Human Services
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2009-61, *City of St. Louis, Department of Human Services*, issued in June 2009, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our upcoming audit of the Department of Human Services. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Department of Human Services that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Department of Human Services

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Grant Administration

Finding Number: 1.A.

Finding: The Department of Human Services (DHS) did not routinely advertise for proposals for subgrantees of the Homeless Veterans Reintegration Project (HVRP), Utility Assistance Program, Federal and Missouri Emergency Shelter grants or Homeless Challenge Program. While the DHS had policies and procedures to advertise for proposals, only one subgrantee had been consistently used for each of the HVRP and Utility Assistance Program and sole source justification was not documented for these subgrantees.

Recommendation: The DHS periodically solicit proposals for all subgrantee awards and document reasons for sole source procurement situations.

Status of Finding: No Longer Applicable

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

- Utility Assistance Program: The DHS no longer receives allocations for, nor administers the Equitable Relief from Utility Tax Funds program, effective 2013.
- HVRP: The DHS no longer receives HVRP dollars and does not have a contract with the United States Department of Labor (DOL) for this or any other programs.

When the DHS did apply in the past, in response to the Notice of Fund Availability (NOFA) for the DOL funded HVRP, the NOFA indicated that it was a competitive grant application, favoring collaborations. The DHS does not provide direct services; therefore, the DHS submitted a collaborative application, indicating we would be partnering with a local employment and housing placement provider who had proven experience working with homeless veterans and other hard to serve populations. It was based on this pre-identified provider's expertise and the added value of their partnership with the city, that the DOL funded the applications.

- Missouri Emergency Shelter grants/Homeless Challenge Program: The DHS no longer receives funding from either of these grants.

Contact Phone Number: (314) 657-1651

City of St. Louis - Department of Human Services
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Grant Administration

Finding Number: 1.B.

Finding: The DHS did not sufficiently document reasons for the amount of funding awarded to some subgrantees for the St. Louis Area Agency on Aging (SLAAA).

Recommendation: The DHS maintain written documentation of decisions made for the amount of funding awarded to SLAAA subgrantees.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable.

The decisions regarding the level of funding to be awarded are maintained on file in the SLAAA office. The decisions are dependent upon the responses received to the request for proposals (bids received), a provider's previous performance, and the levels of services needed in the geographic areas that a potential provider wants to service. Any subsequent reductions in funding to SLAAA subgrantees are usually the result of underutilization of services to be rendered or cuts in federal or state funding. Discussions are held with all subgrantees prior to any reductions or additions to contract funding.

All documents regarding the above are maintained in the DHS SLAAA office.

City of St. Louis - Department of Human Services
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Grant Administration

Finding Number: 1.C.

Finding: The DHS did not conduct annual fiscal monitoring reviews required by DHS policy for some subgrantees, and as a result, it appeared the DHS did not detect some misspent grant funds on a timely basis. Additionally, required program monitoring was not completed for one SLAAA subgrantee.

Recommendation: The DHS ensure all subgrantees are subject to annual fiscal and program monitoring as required by department policy.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable.

The DHS has added auditors to our organization. The auditors were previously employed in the Comptroller's Internal Audit division. They are responsible for completing fiscal monitoring for subgrantees of SLAAA, Homeless Services, and some special grants administered by the DHS. Contract Compliance Officers and relevant program staff within the various divisions handle programmatic monitoring. The DHS initially employed three auditors; however, two have resigned. One auditor remains on staff. It is anticipated that funding will be allocated allowing the DHS to hire one additional auditor during the 2018-2019 program year.

Based upon the audit finding, changes to the SLAAA monitoring procedures were implemented to ensure that programmatic monitoring is conducted on all subgrantees. Records of programmatic monitoring and follow up for each subgrantee are kept at the SLAAA office.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Grant Administration

Finding Number: 1.D.

Finding: The DHS did not perform adequate follow up or take disciplinary action for serious deficiencies noted with two SLAAA subgrantees.

Recommendation: The DHS promptly follow up on all monitoring findings and consider taking disciplinary action when serious deficiencies are not corrected in a timely manner.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable.

Based upon the audit finding, changes to the SLAAA monitoring procedures were immediately implemented to ensure that follow up on all monitoring deficiencies was performed.

Contact Phone Number: (314) 657-1681

City of St. Louis - Department of Human Services
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Expenditures

Finding Number: 2.A.

Finding: Our review of reimbursement payments to subgrantees noted some unallowable costs paid from the HVRP and Supportive Housing Program (SHP) grants.

Recommendation: The DHS implement procedures to ensure only allowable costs are paid with grant funds.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The DHS no longer administers HVRP or SHP grant funds. To ensure that the DHS complies with the regulations and to ensure only allowable costs are paid with grant funds, the Homeless Services Division developed and implemented a Grant Administration and Internal Control Manual for the Emergency Solutions Grant and Continuum of Care funds. Homeless Services staff are trained in the procedures outlined in the manual and they provide a first round review and approval of expenses eligible for reimbursement. DHS fiscal staff provide the secondary review of reimbursement requests to ensure that only allowable costs are reimbursed. The manual undergoes annual review to ensure it is updated with appropriate federal regulations.

Contact Phone Number: (314) 657-1718

City of St. Louis - Department of Human Services
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Expenditures

Finding Number: 2.B.

Finding: Our review noted proper approval of expenditures was not always documented in accordance with city and DHS purchasing procedures. DHS personnel indicated their department purchasing manual and forms included out-of-date information, and as a result, the required forms were not always used. This may have contributed to the lack of proper approval on some expenditures.

Recommendation: Ensure expenditures are approved in accordance with city and department policy and retain documentation of the approval. In addition, the department should update its purchasing manuals and forms to reflect current policies and procedures.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The DHS follows the City of St. Louis, Supply Division Procedures Manual, which specifies the procedures to be followed when making purchases of supplies, materials, equipment, etc. In addition, the DHS Fiscal Division has designed for internal use, an Internal Purchase Requisition form that is completed by the DHS division wishing to initiate a purchase. This form must be signed by the relevant DHS Division Manager and then signed by the DHS Director or Deputy Director for proper approval of purchases.

City of St. Louis - Department of Human Services
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: St. Louis Area Agency on Aging (SLAAA) Compliance Issues

Finding Number: 3.B.

Finding: The SLAAA did not have an advisory council as required by the Older Americans Act and the Missouri Code of State Regulations 15-4.110.

Recommendation: The DHS and the SLAAA re-establish an advisory council to comply with applicable federal and state regulations.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Based on the audit finding, changes to the city charter regarding the advisory council were made in 2011. The reconstituted advisory council was convened on January 12, 2012. The advisory council has met on a quarterly basis since that time. Meeting agendas and minutes are maintained on file in the SLAAA office.

CITIZENS SUMMARY

Findings in the review of the City of Winona

Missing Monies	The audit identified at least \$42,546 recorded utility and miscellaneous receipts that were not deposited between January 1, 2015, and March 29, 2017. Recorded cash receipts totaling at least \$34,689 and recorded check payments totaling at least \$7,245 were not deposited between January 1, 2015, and March 21, 2017, and our March 28, 2017, cash count and review of the subsequent deposits identified additional cash shortages of \$612. A review of April 2017 deposits identified questionable cash deposits and utility account postings occurring 10 days after the cash count.
Oversight, Segregation of Duties, and Annual Audits	The Board of Aldermen have not provided adequate oversight of the City Clerk and the Utility Clerk positions or obtained required annual audits.
Cash Handling Procedures and Bank Accounts	Significant weaknesses exist with the city's cash handling procedures and bank accounts. The city's procedures for receipting, recording, and depositing monies are poor. The City Clerk and Utility Clerk improperly recorded vendor payments and third party checks to customer utility accounts, and the Utility Clerk does not deposit receipts intact or timely or reconcile the composition of receipts to the composition of deposits. Checks for utility payments were held at the request of customers; the clerks cashed checks totaling over \$168,000 for city employees, family members, and utility customers; unrecorded checks were substituted into deposits for missing recorded cash receipts; and utility payments for the Mayor and Board of Aldermen were improperly recorded in the utility system. The city maintains an excessive number of bank accounts, and it is unclear whether the city had the legal authority to maintain an annuity. Non-sufficient fund checks are improperly handled and recorded, the city change fund is not maintained at a constant amount, and procedures regarding the city's Shop With a Cop program need improvement.
Restricted Funds, Allocations, and Excess Sales Tax	The city has not established adequate procedures to ensure restricted revenues are credited to the appropriate fund or to ensure restricted monies are used only for intended purposes. The city has imposed 2 general sales taxes, totaling 1.5 percent, which exceeds the statutory maximum allowed for general sales taxes by 1/2 percent.
Utility System Controls and Procedures	Utility system controls and procedures need improvement. Current water, sewer, electric, and trash rates are not supported by a cost study or other documentation showing how the rates were determined. City personnel do not prepare proper reconciliations related to utility services. The Utility Clerk posted adjustments to customer accounts without obtaining independent approvals or maintaining adequate documentation to support the reason for many adjustments. The City Clerk did not reconcile the list of refundable utility deposits to the balance of the utility deposit bank account. Some customers were allowed to pay a monthly flat fee for utility services without the Board's approval. City procedures do not comply with city ordinances when assessing penalties, discontinuing services, and calculating usage. City personnel were not proactive in following up on inactive utility account balances.
Payroll and Related Matters	Significant improvement is needed with timesheets and leave records, and

some employees may have been overpaid. The city's personnel policy does not adequately address compensatory time, holidays, overtime, or the employment and supervision of related employees, and city employees have not always followed established policies. The city inappropriately claims an overtime exemption for police department employees, and as a result, did not pay police officers for overtime. Improvement is needed in the city's handling of employee benefits, additional compensation, and the withholding and reporting of compensation.

Disbursements	The city's disbursement review and documentation procedures need improvement. The city made several unreasonable and/or unnecessary purchases. The city does not have a formal bidding policy and has not established policies for the selection of vendors providing professional services. The city does not reconcile fuel usage to fuel purchases.
Budgets and Financial Reporting	The city does not prepare complete and accurate annual budgets, publish accurate semiannual financial statements, and file annual financial reports timely.
Park Board	We noted significant weaknesses in the Park Board's controls, policies, and procedures. Park Board members indicated board meetings have not been held for a considerable period of time. The Park Board does not have current bylaws and does not operate in accordance with bylaws, city ordinance, or the operating agreement between the Park Board and the city. Various Park Board members collect park monies and do not always issue receipt slips or maintain records of monies received. Adequate supporting documentation was not retained for approximately \$3,300 of the \$9,400 spent by the Park Board during 2016.
Sunshine Law and Ordinances	City officials did not always ensure compliance with the Sunshine Law regarding closed sessions and city ordinances need improvement.
Electronic Data Security	Controls over some city computers are not sufficient to prevent unauthorized access, and sufficient plans and processes are not in place for recovering systems and data.
Capital Assets	The city does not maintain records of its capital assets including buildings, utility system infrastructure, vehicles, equipment, and other property. City personnel do not tag, number, or otherwise identify assets or perform annual physical inventories.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Winona, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Winona. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2016. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.
4. Determine the amount of missing monies to the extent possible.

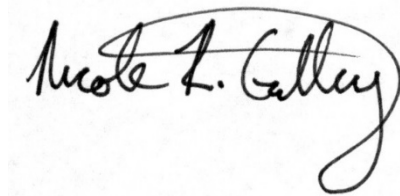

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) missing monies totaling at least \$42,546. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Winona.

An additional report, No. 2018-28, *Thirty-Seventh Judicial Circuit, City of Winona Municipal Division*, was issued in May 2018.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

	Joy Stevens, CFE
	Stephanie M. Kroner

City of Winona

Management Advisory Report

State Auditor's Findings

1. Missing Monies

The audit identified at least \$42,546¹ recorded utility and miscellaneous receipts that were not deposited between January 1, 2015, and March 29, 2017. Based on the timing and amounts of monies missing during 2015, it is likely additional monies are missing in periods prior to January 2015.

The State Auditor's Office (SAO) conducted a cash count on March 28, 2017, that identified discrepancies between monies on hand and recorded receipts, and we determined monies were missing. A comparison of recorded receipts and amounts deposited from October 2016 through March 2017, identified additional discrepancies and monies missing. The SAO notified the Missouri State Highway Patrol (MSHP) of possible missing monies on August 24, 2017.² MSHP investigators questioned the City Clerk and Utility Clerk on September 1, 2017. On September 5, 2017, the Board of Aldermen terminated the City Clerk's employment. The city had employed the City Clerk since July 1994. A new City Clerk was hired part-time in September 2017 and that person became the full-time City Clerk in October 2017. The former City Clerk is referred to as City Clerk throughout this report. The Utility Clerk is still employed by the city and has served in that position since April 2013.

As stated in the State Auditor's Report, the scope of our audit included, but was not necessarily limited to the year ended December 31, 2016. After identification of missing monies and the method used to perpetrate and conceal the theft, we applied limited procedures to receipts for the period January 2015 through December 2015 and the period January 2017 through March 2017 for the purpose of identifying and quantifying additional missing monies.

The City Clerk and Utility Clerk recorded payments to multiple different records (computerized utility system, manual receipt slips, and payment stubs) and did not ensure payments were consistently and properly recorded to all appropriate records. A comparison of payments recorded to deposits identified the undeposited receipts.

The City Clerk and Utility Clerk changed procedures for recording and depositing receipts shortly after the discrepancies were identified in the March 2017 cash count, and those discrepancies along with various record-keeping and depositing problems were discussed with the clerks by the SAO. We reviewed receipt and deposit records for July 2017 and confirmed the

¹ Amounts presented in the report findings are rounded to the nearest dollar, whereas amounts presented in the report appendixes B and C are exact. Also, \$41,934 of this total pertains to deposits made between January 1, 2015, and March 21, 2017; and \$612 pertains to a cash shortage identified during a March 28, 2017, cash count.

² City officials had previously contacted the MSHP regarding concerns unrelated to these missing monies.

City of Winona
Management Advisory Report - State Auditor's Findings

clerks had changed procedures and were properly accounting for and depositing monies collected.

Undeposited cash receipts

Recorded cash receipts totaling at least \$34,689 were not deposited between January 1, 2015, and March 21, 2017. Some of these cash receipts were included on deposit reports, which always agreed in total to the amounts deposited by the Utility Clerk. However, in some instances the total cash deposited was less than the cash recorded in the receipt records while the total amount of checks and money orders deposited was more than the checks and money orders recorded in the receipt records. Unrecorded checks totaling \$31,601 not associated with the recorded receipts were substituted into these deposits for the recorded cash receipts not deposited. Most of the unrecorded checks were city checks issued by the City Clerk for the transfer of monies from one bank account to another. In addition, manual receipt slips were issued for some monies received that were not included in the deposit reports and were not deposited totaling \$3,088. (See Appendix B).

Large differences between recorded cash receipts and cash deposited on Appendix B were caused by undeposited cash receipts, the clerks cashing checks as identified on Appendix C, timing differences, and small over/(under) payments and adjustments.

Undeposited check payments

Utility receipts totaling at least \$7,245 were recorded as check payments from January 1, 2015, through March 21, 2017, but these checks could not be traced to a deposit. We contacted some of these utility account holders and they could not provide canceled checks or other documentation as proof the checks were issued or negotiated. The City Clerk and Utility Clerk may have recorded these payments in the computerized utility system and on manual receipt slips for their friends and family members while not requiring payments from those persons. (See Appendix B).

All deposits (excluding direct deposits, non-utility related transfers, and deposits into the municipal court and police department bank accounts) are presented in Appendix B. Those with missing monies are identified with amounts in the total undeposited column.

Cash count and subsequent deposit

Our March 28, 2017, cash count and review of the subsequent deposits identified cash shortages of \$612.

The cash count identified \$2,478 of cash and \$3,962 of checks (\$6,440 in total) was on hand, while receipt records showed \$2,871 of cash and \$2,459 of checks (\$5,330 in total) had been collected since the last deposit made on March 21, 2017. In following up on these discrepancies, we determined there were unrecorded checks included in the cash count, a portion of the change fund had been used to reimburse the bank for a non-sufficient funds check, and some of the counted monies were not properly deposited in subsequent deposits; and ultimately determined there was a cash shortage.

City of Winona
Management Advisory Report - State Auditor's Findings

Questionable utility
transactions

A review of April 2017 deposits identified questionable cash deposits and utility account postings occurring 10 days after the cash count. Two separate cash deposits totaling \$7,703 (one containing cash totaling \$4,726 and another containing cash totaling \$2,977) were made on April 7, 2017. The cash payments were recorded on April 5 and 6, 2017, to 17 old inactive utility accounts with balances due. This cash was not on hand at the time of our cash count on March 28, 2017, and it is unlikely these customers all paid on the same days. Also, many of these accounts showed no previous payment activity for many months/years, and it is questionable the account holders actually made payments on these accounts. No past due billings or collection letters were sent or issued to support the unusual nature and timing of these payments. The Utility Clerk subsequently prepared a list of the individual amounts and the utility accounts to which these payments were recorded, which totaled \$7,650, with the remaining \$53 being collected for recycle bags and copies. According to city officials, some of these accounts may be friends and family of the City Clerk.

Overall conclusion

The lack of segregation of duties, inadequate controls, and the absence of oversight by the Board of Aldermen, as discussed in the remainder of the report, resulted in the missing receipts going undetected, poor handling of city monies, and noncompliance with various city ordinances.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding prosecution of the missing monies and take the necessary actions to seek restitution for amounts missing.

Auditee's Response

We will continue to work with law enforcement officials regarding prosecution of missing monies and take the necessary actions to seek restitution for amounts missing.

2. Oversight, Segregation of Duties, and Annual Audits

The Board of Aldermen have not provided adequate oversight of the City Clerk and the Utility Clerk positions or obtained annual audits as required by state law.

2.1 Oversight and segregation of duties

The Board has not established adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the City Clerk and the Utility Clerk. Weaknesses identified throughout this report are significant and demonstrate a lack of segregation of duties and proper oversight by the Board. There is little assurance city monies have been handled and accounted for properly.

With the exception of some utility functions, the City Clerk position is responsible for most record-keeping duties of the city including posting

City of Winona Management Advisory Report - State Auditor's Findings

transactions into the accounting system, preparing invoices for payment, maintaining payroll records, preparing and distributing payroll and accounts payable checks, preparing monthly bank reconciliations, transferring monies between bank accounts, preparing financial reports for board meetings, and preparing budgets and financial statements.

The Utility Clerk position is primarily responsible for utility functions including, receiving, recording, and depositing receipts; preparing and distributing monthly billings; and preparing and generating monthly reports. The Utility Clerk is also responsible for receipting and depositing other types of monies received at city hall.

The City Clerk and the Utility Clerk both have access to the cash drawer and the safe, where receipts of all types are stored. The Mayor and the Board do not perform a documented supervisory review of the accounting and bank records to ensure all monies received are properly recorded and deposited.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent review of the work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the Board.

2.2 Annual audits

The city does not obtain annual audits as required. The last audit of the city finances occurred for the year ended December 31, 2010. Section 250.150, RSMo, requires the city to obtain annual audits of the combined waterworks and sewerage system, and the cost of the audit is to be paid from the revenues received from the system. The city is also required to obtain annual audits as a condition of bond covenants.

Conclusion

The lack of adequate controls and the absence of proper oversight by the Board allowed undeposited receipts to go undetected for a significant period of time. Had proper controls and oversight procedures been in place and annual audits obtained, it is likely some of the problems noted in this report may have been detected more timely and/or prevented.

Recommendations

The Board of Aldermen:

- 2.1 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.
- 2.2 Obtain annual audits of the waterworks and sewerage system as required by state law.

City of Winona
Management Advisory Report - State Auditor's Findings

Auditee's Response

2.1 *We have implemented the following procedures to help segregate accounting duties:*

- a. *Deposits are prepared by a different individual than the one that has receipted the money. Then another individual verifies the deposit. The individuals that prepare the deposit and verify the deposit, date and sign the deposit documentation to denote completion of the process.*
- b. *The Board receives a list of the accounts payable and the related bills for its review at each meeting.*
- c. *Reports detailing balances and budgets are taken directly from the accounting software for all the city bank accounts and distributed to the Board members for their review.*
- d. *The Utility Clerk prints a report from the utility billing account and compares it to the report she distributes to the City Clerk. The City Clerk then compares the report from the Utility Clerk to the deposits made into the accounts.*
- e. *The bank statements and reconciliation reports are available for the Board's review at each meeting. The Mayor or another Board member will initial the bank statements and reconciliation reports monthly to denote completion of the review.*
- f. *We will obtain annual audits of all bank accounts.*

2.2 *We will obtain annual audits.*

3. Cash Handling Procedures and Bank Accounts

Significant weaknesses exist with the city's cash handling procedures and bank accounts. The city's clerks received monies at city hall for utilities (\$1.61 million), utility deposits (\$17,300), merchant licenses (\$2,490), utility reconnection and bad check fees (\$2,080), and other miscellaneous items (\$3,307) totaling approximately \$1.64 million during the year ended December 31, 2016. These monies were deposited into the General, Water, Sewer, Electric, Solid Waste, and Utility Deposit Funds.

Payments for monthly utility billings are recorded in the utility system. There are no official receipt records for other payments such as reconnection fees, bad check fees, recycle bag sales, material sales, and other miscellaneous items. However, if a customer requests a receipt slip, a manual receipt slip is issued for the payment. In instances where a utility payment stub is not remitted with monies received, the Utility Clerk prepares unofficial unnumbered payment stubs for the monies received, and payment stubs (utility and unofficial) are filed by deposit date.

3.1 Receipting, recording, and depositing

The city's procedures for receipting, recording, and depositing monies are poor.

City of Winona
Management Advisory Report - State Auditor's Findings

Receipting

The Utility Clerk does not issue official prenumbered receipt slips for some monies received, account for the numerical sequence of manual receipt slips or electronic receipt numbers, and reconcile manual receipt slips issued to the utility system or monies deposited. Also, the top copy of 12 receipt slips voided during the period January 1, 2015, through March 21, 2017, was not retained.

Recording

The City Clerk and Utility Clerk improperly recorded vendor payments and third party checks to customer utility accounts.

- Rather than paying a local tire vendor directly for services rendered, the City Clerk issued checks made payable to the city for amounts owed to the vendor and used those checks to pay the vendor's utility balance. During the year ended December 31, 2016, the City Clerk issued 8 such checks totaling \$667 for payment of tire services received. The Utility Clerk posted the payments to the vendor's utility account and deposited the city checks with other utility payments. Proper handling would require the city to pay the vendor directly for services provided and billed; and for the vendor to pay the city separately for utility services.
- The Utility Clerk sometimes accepts third-party checks from customers as payment for utility bills. For example, during the period January 2015 through March 2017, a local gas station owner brought in 57 third-party checks received from various customers for purchases made at his gas station totaling \$10,755 to be applied to his utility accounts. The Utility Clerk often recorded these receipts as cash payments instead of checks, creating differences in composition (see the Depositing section). By accepting third-party checks, the city is incurring an increased risk that these checks would be uncollectible, if returned for non-sufficient funds.

Depositing

The Utility Clerk does not deposit receipts intact or timely or reconcile the composition of receipts to the composition of deposits.

The Utility Clerk prepared deposits by including all checks on hand (except those intentionally being held as discussed later) plus cash needed from the drawer to agree to the total deposit amount reported on the deposit summary. The deposit summary supports the deposit of all monies received at city hall, with the exception of police department and municipal court monies that are separately deposited. The deposit summary included a payment report generated from the utility system with other miscellaneous receipts (not recorded in the utility system) manually denoted on the report by the Utility Clerk. For each deposit the Utility Clerk prepared multiple deposit slips to allocate monies to the appropriate bank accounts. We noted the total of each deposit agreed to the total deposit amount reported on the deposit summary. However, for various reasons the composition of the receipts generally did not agree to the composition of the deposits.

City of Winona
Management Advisory Report - State Auditor's Findings

- The Utility Clerk sometimes held checks at the request of customers. The clerk indicated this occurred when customers did not have sufficient funds at the time a utility payment was due, but wanted to avoid late charges or being disconnected. She said these checks were typically held a week to a month before being deposited.
- The City Clerk and Utility Clerk cashed checks totaling \$168,074 for city employees, family members, and utility customers from January 2015 through July 2016 (see Appendix C). The clerks allowed city employees (including themselves) to cash 329 payroll checks totaling \$132,690 and 176 personal checks totaling \$26,654, and customers to cash 38 personal checks totaling \$8,730 during this period. Checks were cashed using monies maintained in the cash drawer. In addition, the City Clerk cashed 15 city disbursement checks totaling \$3,216 from January 2015 through October 2016 to pay vendors. The Mayor discontinued the practice of paying vendors with cash in July 2016; however, a \$95 check was cashed appropriately in October 2016 (see Appendix C).

The Utility Clerk substituted city checks into deposits for missing recorded cash receipts. These city checks were issued to transfer monies from one bank account to another. City checks totaling \$30,616 were included in utility deposits during the period of January 1, 2015, through February 28, 2017. The Utility Clerk also substituted other checks totaling \$985 into deposits for missing cash receipts. These checks included checks written by individuals to the Park Board (\$565), and checks received from a utility assistance program (\$312) and city customers (\$108). The Utility Clerk indicated the City Clerk was responsible for recording Park Board monies. None of these checks were recorded on the utility deposit reports. As a result, deposits included more checks and less cash than recorded.

- The Utility Clerk improperly recorded utility payments for the Mayor and Board of Aldermen, resulting in records not reflecting actual transactions as they occurred and causing discrepancies in deposits.

The Mayor and each Alderman receive a \$100 reduction in their monthly utility bills as compensation. At the end of each month, the City Clerk issued a General Fund check payable to the city to be applied to the Mayor and each Alderman's utility accounts. However, the Mayor and Aldermen paid their portion of their utility bills on varying dates throughout the month, and the Utility Clerk recorded the \$100 city payments in the utility system at the time of these payments rather than at the end of the month when the city payment actually occurred. For example, one Alderman paid \$49 of his \$149 utility bill on December 5, 2016, and the Utility Clerk recorded a \$149 payment in the utility system on December 5, 2016, using other monies on hand to cover the \$100 difference in that

City of Winona Management Advisory Report - State Auditor's Findings

week's deposit. On December 27, 2016, the City Clerk issued a General Fund check that included this Alderman's compensation and the Utility Clerk substituted this city check for other recorded monies in that week's deposit.

The City Clerk failed to properly report the Mayor and Aldermen's compensation or make proper withholdings (see MAR finding number 6.5) and their compensation was not established by ordinance (see MAR finding number 10.2).

- The clerks indicated they used cash on hand to reimburse the bank for non-sufficient funds (NSF) checks received (see section 3.3).
- The Utility Clerk does not deposit receipts timely. Deposits are performed approximately once a week regardless of the amount of monies collected. There were 12 deposits during the period January through March 31, 2017, which ranged from \$25,493 to \$70,955, and averaged \$38,619; 61 deposits during 2016, which ranged from \$2,158 to \$72,482, and averaged \$26,784; and 49 deposits during 2015, which ranged from \$6,773 to \$64,520, and averaged \$34,370. Cash included in deposits averaged \$8,229, \$5,062, and \$5,047 for these time periods in 2017, 2016, and 2015, respectively.

Conclusion

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of monies will occur and go undetected. To reduce this risk, procedures should be established to ensure all monies received are properly receipted, recorded, and deposited. These poor receipting, recording, and depositing procedures helped conceal the theft that occurred.

3.2 Bank accounts

The city maintains an excessive number of bank accounts, resulting in cumbersome record keeping, and it is unclear whether the city had the legal authority to maintain an annuity. The city maintained 15 bank accounts, 3 certificates of deposits, and an annuity. One bank account had no activity since 2015. Several city checks were issued for transfers between accounts to ensure restricted utility collections were held in the appropriate account, and these checks were substituted for recorded cash receipts and helped conceal the undeposited utility receipts.

An annuity was opened in September 2012 and listed the City Clerk as the annuitant. The balance of the annuity was \$107,245 as of December 31, 2016. In addition, the City Clerk incorrectly presented the annuity as a savings account on the city's financial statements and as a result, the Board was not aware the city had an annuity. The Board subsequently closed the annuity and deposited the monies into a checking account.

City of Winona
Management Advisory Report - State Auditor's Findings

The city may benefit from combining some city bank accounts. A large number of bank accounts require additional record keeping and increases the likelihood that errors will occur in the handling of monies.

3.3 Non-sufficient fund checks

The clerks indicated they used cash on hand to reimburse the bank for non-sufficient fund (NSF) checks, and they do not typically reverse NSF checks in the utility system to show the customer's check was returned and payment is still due from the customer; thus improperly giving the customer credit for the payment.

Without adequate procedures for the collection and recording of NSF checks, the city cannot ensure amounts due from customers are properly tracked and monies are properly distributed. Because restitution for NSF checks may not be received for a significant period after initial receipt and, in some instances, restitution may never be received, it is necessary for the city to maintain records of NSF checks and adjust accounting records accordingly.

3.4 Change fund

The city change fund is not maintained at a constant amount. The City Clerk and Utility Clerk indicated a change fund of \$250 is maintained; however, no records are maintained to support this amount. In addition, periodic reconciliations to the authorized balance are not performed. To safeguard against possible loss, theft, or misuse of funds, change funds should be maintained at a constant amount and the funds should be periodically counted and reconciled to the authorized balance.

3.5 Shop With a Cop program

Procedures regarding the city's Shop With a Cop program need improvement. The police department collects donations throughout the year that allow needy children to go shopping with police officers before Christmas.

Official prenumbered receipt slips were not issued for all monies received, and the Police Chief opened a bank account outside the city treasury in December 2016 for the deposit of these donations. The city spent \$4,411 in December 2016 for this program.

To adequately account for all Shop With a Cop receipts and ensure city funds are spent appropriately, receipt slips should be issued for all monies received and all Shop With a Cop donations should be remitted to the city treasury in the same manner other fees collected are remitted. All purchases should be made within the city's established disbursement system.

Recommendations

The Board of Aldermen:

- 3.1 Ensure receipt slips are issued for all monies received; all copies of voided receipt slips are retained; the numerical sequence of receipt slips and electronic receipt numbers is accounted for; the composition of receipts is reconciled to the composition of deposits; and monies

City of Winona
Management Advisory Report - State Auditor's Findings

are deposited timely and intact. The Board should also ensure payments are properly recorded for vendors and the Mayor and Aldermen's compensation. In addition, the Board should discontinue the practice of accepting third-party checks, cashing personal checks, and using cash receipts to reimburse the bank for NSF checks.

- 3.2 Consider reducing the number of bank accounts.
- 3.3 Establish procedures for proper follow-up and handling of NSF checks in the accounting records.
- 3.4 Maintain the change fund at a constant amount, and reconcile the change fund to the authorized balance with each deposit.
- 3.5 Work with the police department to ensure official prenumbered receipt slips are issued for all monies received and all monies are remitted to the city treasury.

Auditee's Response

- 3.1 *We are in the process of purchasing a new program that will print receipts for customers and this program will provide a numerical sequence of receipts. The composition of receipts is being reconciled to the composition of deposits. At this time, the Utility Clerk is receipting the monies using stubs or the city side of the bill, and reconciling the amounts on this stub to the amounts placed in the computer program daily. In addition the Utility Clerk is reconciling the composition of deposits to the stubs or city side of the bill daily.*

We have implemented daily deposits.

We have stopped accepting third-party checks, cashing personal checks, and using cash receipts to reimburse the bank for NSF checks.

We have stopped the Mayor and Board from receiving a \$100 deduction in their monthly utility bills.

- 3.2 *We are in the process of reducing the number of bank accounts.*
- 3.3 *We have established the following procedures for NSF checks:*
 - a. *NSF checks are withheld by the bank from the General bank account deposits.*
 - b. *The city contacts the individual by a personally hand delivered notice and advises the person of the NSF check. Within this notice it states that the individual has one business day to come and pick up the check and reimburse the city for the check and the NSF*

City of Winona
Management Advisory Report - State Auditor's Findings

fee of \$30. The individual is also to sign a copy of the notice and the city keeps it on file.

- c. The city places the individual on a bad check list and after having 2 NSF checks withheld the individual is no longer allowed to use a check for any city business.*
- d. Once the individual reimburses the city, the money is deposited into the General bank account from which the money was withheld.*

3.4 *We have started to maintain a change fund of a constant amount of \$250. The Utility Clerk reconciles the change fund to the authorized balance daily. The change fund will be checked morning and evening by 2 individuals. These individuals will sign stating that they checked the change fund.*

3.5 *We will work with the police department to ensure that official prenumbered receipt slips are issued for all monies received and all monies are remitted to the city treasury. The police department has stamped all their receipts with the police department name and address and when turning them into the city, they give a copy of the receipt with the monies turned in.*

4. Restricted Funds, Allocations, and Excess Sales Tax

The city has not established adequate procedures to ensure restricted revenues are credited to the appropriate fund or to ensure these monies are used only for intended purposes. In addition, the city has imposed general sales taxes that exceed the statutory maximum allowed.

4.1 Restricted revenues

The city has not established procedures to properly track and record various statutorily restricted monies.

- Monies collected for trash services were deposited into the city's General Fund, while disbursements related to these services were paid out of the Solid Waste Fund. Revenues received from a general sales tax were incorrectly deposited into the Solid Waste Fund and used to pay the cost of trash services.
- The city received utility reconnection fees totaling \$1,840 during the year ended December 31, 2016. These fees were incorrectly deposited and recorded in the General Fund rather than the Water or Sewer Funds. Section 250.150, RSMo, restricts the use of water and sewer monies for operating the systems, payments of bonds, establishment of a reserve, fulfillment of any agreements contained in ordinances, and payment of costs of improvements of such systems.

City of Winona
Management Advisory Report - State Auditor's Findings

- The city received state motor vehicle-related tax revenues totaling \$52,804 during the year ended December 31, 2016. These tax monies were incorrectly deposited into the Capital Improvement Fund rather than the Street Fund. These revenues were commingled with capital improvement sales tax monies and city officials do not know what has been spent or the remaining balance, and cannot demonstrate that these monies were used for statutorily intended purposes.

In addition, the Board inappropriately purchased a police vehicle costing \$26,650 in May 2016 with monies from the Capital Improvements Fund.

Missouri Constitution, Article IV, Section 30(a) and 30(b), requires motor vehicle-related revenues apportioned by the state of Missouri be expended for road purposes only. In addition, City Ordinance 303 restricts the use of capital improvement sales tax monies to make debt payments and fund capital improvements.

- During the year ended December 31, 2016, the City Clerk allocated all fuel, oil, parts, and repairs/maintenance costs (totaling \$14,192) associated with city maintenance vehicles to the Street Fund. Employees use city vehicles and equipment for all city utility and street maintenance services, so costs should be allocated between various funds. Section 94.700, RSMo, and City Ordinance 302, requires transportation sales tax funds to be used for the construction, reconstruction, repair, and maintenance of streets, roads, and bridges within the municipality.

To ensure restricted monies are used for the intended purpose, monies received should be credited to the appropriate fund, and disbursements should be paid from the appropriate funds.

4.2 Allocation of salaries and fringe benefits

Several city employees perform tasks related to multiple city functions, but the city has no documentation to justify the allocation of salaries and fringe benefit expenses to various funds. City officials have not established allocation percentages and did not maintain documentation to support how allocations were determined. The City Clerk indicated she processed payroll with monies from various funds based on the availability of monies and not the employees' job duties. During the year ended December 31, 2016, the city paid payroll and fringe benefits totaling \$575,245 from the following funds:

City of Winona
Management Advisory Report - State Auditor's Findings

Fund	Amount
Electric	\$ 220,830
Water	116,798
Municipal Court	66,000
General	56,174
Sewer	56,113
Transportation	34,500
Heritage	21,830
Police	3,000
Total	\$ 575,245

The proper allocation of expenses is necessary for the city to accurately determine the results of operations of specific activities, thus enabling the city to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure restricted funds are used for intended purposes, the allocation of expenditures to city funds should be based on specific criteria, such as the number of hours worked by each employee, if possible, or by determining a reasonable basis to allocate costs for employees.

4.3 Excess general sales tax

The city has imposed 2 sales taxes, totaling 1.5 percent, which exceeds the statutory maximum allowed for general sales taxes per Section 94.510, RSMo, by 1/2 percent.

In April 2016, voters approved a 1/2 percent city sales tax for law enforcement purposes under Section 94.510, RSMo. As a result of the passage of this new sales tax, the city exceeded the statutory maximum allowed. The city began receiving revenue from this sales tax in November 2016. The Police Fund received sales tax revenues totaling \$59,185 during November and December 2016 and the year ended December 31, 2017. The sales tax does not have an expiration date.

Voters had previously approved a 1 percent city sales tax for general purposes under Section 94.510, RSMo, in July 1975. This sales tax is used by the city to help fund trash services to citizens and the tax does not have an expiration date. The Solid Waste Fund received sales tax revenues totaling \$139,751 during November and December 2016 and the year ended December 31, 2017.

Section 94.510, RSMo, allows cities to impose a rate of 1/2, 7/8, or 1 percent. There is no provision that prevents the city from having two sales taxes under this section. For periods before August 28, 2017, however, there was no provision authorizing the city to exceed a total tax of 1 percent. Attorney General Opinion 61-1989 (March 22, 1989) and Attorney General Opinion 97-1999 (June 4, 1999), state that without specific authorization the maximum sales tax cannot exceed the limits of the statute, interpreting similar language authorizing county sales taxes under Section 67.548, RSMo, and

City of Winona
Management Advisory Report - State Auditor's Findings

taxes for capital improvements under Section 67.700, RSMo. The additional general sales tax passed in April 2016 caused the city to exceed the statutorily-imposed maximum. Prior to submitting any future sales taxes to voters for approval, the city should review the current sales taxes imposed, research the statutory requirements for current sales taxes, and determine an allowable sales tax statute to ensure statutory limits are not exceeded.

Recommendations

The Board of Aldermen:

- 4.1 Deposit restricted monies in the appropriate fund, establish procedures to ensure restricted monies are used only for allowable purposes, and ensure shared costs are properly allocated to the applicable city funds and allocations are supported by adequate documentation.
- 4.2 Allocate salary and fringe benefit expenses to city funds based on specific criteria and retain documentation to support the allocation.
- 4.3 Consult with legal counsel to review the sales taxes levied and determine the disposition of any invalid sales taxes collected. In addition, prior to submitting any future sales taxes to voters for approval, the Board should ensure an adequate legal analysis is conducted.

Auditee's Response

- 4.1 *We have stopped depositing the monies collected for the trash services into the General account and are placing them in the Solid Waste account. We will work with the Department of Revenue (DOR) to change the direct deposit account numbers to enable the restricted monies to be placed into the appropriate account.*

We have stopped depositing the reconnection fees into the General account. The funds for 2016, 2017, and the beginning of 2018 will be calculated and placed into the Sewer and Water accounts.

We will work with the DOR to change the direct deposit account numbers to enable the restricted monies to be placed into the appropriate account. In addition, we will remove the amounts for the motor vehicle related tax from the Capital Improvement account and place those monies into the Street account.

The police department is reimbursing the money borrowed to purchase the police vehicle at \$500 a month.

We now allocate fuel, oil, parts, and repairs/maintenance costs associated with vehicles and equipment used for maintenance of streets and roads to appropriate funds.

City of Winona
Management Advisory Report - State Auditor's Findings

- 4.2 *We have implemented a process to determine the specific criteria and are retaining the documentation to support the allocation of the salary and fringe benefit expenses.*
- 4.3 *We will consult with legal counsel to review the sales tax levied and determine the disposition of any invalid sales taxes collected. We will ensure an adequate legal analysis is conducted before submitting any future sales taxes to voters for approval.*

5. Utility System Controls and Procedures

Utility system controls and procedures need improvement. According to the city's accounting records, the city collected approximately \$1.6 million for water, sewer, electric, and trash services; utility reconnection fees; and utility deposits during the year ended December 31, 2016.

5.1 Utility rates

Current water, sewer, electric, and trash rates are not supported by a cost study or other documentation showing how the rates were determined. The Board increased rates for sewer, water, electric, and commercial electric services in January 2010, January 2015, August 2016, and December 2016, respectively. Additionally, the city collected \$90,563 and disbursed \$134,179 for trash services during the year ended December 31, 2016, resulting in disbursements exceeding receipts by \$43,616. Without current cost studies for utilities, it is unclear whether the rates assessed for these services are set at an appropriate level.

Section 67.042, RSMo, provides that fees may be increased if supported by a cost study showing the increase is necessary to cover costs of providing the service. The city should periodically conduct cost studies that consider expenses such as debt service costs, the need for the extension of the system, equipment repairs and replacement, depreciation, enlargement of plant, capital improvements, and operating and incidental expenses. The preparation of a comprehensive cost study would allow the city to determine the rates necessary to support current and future operations and provide documentation to customers of the rationale behind the rates.

5.2 Utility reconciliations.

City personnel do not prepare proper reconciliations related to utility services.

- The Maintenance Supervisor did not perform monthly reconciliations of total gallons of water billed to gallons of water pumped.

Using city records, we compared the total gallons billed during December 2016 to the gallons of water pumped during that month and identified a discrepancy of 31 percent. City officials were unable to provide specific reasons for the difference. Monthly reconciliations of gallons of water billed to gallons of water pumped are necessary to help detect significant water loss or other problems and ensure all water use is properly billed.

City of Winona
Management Advisory Report - State Auditor's Findings

- The Utility Clerk did not perform monthly reconciliations of amounts billed, payments received, and amounts unpaid for utility services. Monthly reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are detected timely.

5.3 Adjustments

The Utility Clerk posted adjustments to customer accounts, including writing off charges caused by water leaks or incorrect meter readings, without obtaining independent approval or maintaining adequate documentation to support the reason for many adjustments. Because the Utility Clerk is responsible for all utility functions, the ability to make adjustments without independent approval represents a significant control weakness. During the year ended December 31, 2016, the Utility Clerk made 100 customer account adjustments totaling \$11,446 (\$4,082 positive, \$7,364 negative).

Requiring someone independent of receipting and recording functions to review and approve adjustments, and requiring proper supporting documentation for such adjustments would help ensure adjustments are valid.

5.4 Utility deposits

The City Clerk did not reconcile the list of refundable utility deposits to the balance of the utility deposit bank account.

New residential customers are required to pay a \$250 refundable deposit (\$200 electric, \$25 water, and \$25 sewer) and new commercial customers are required to pay a \$350 refundable deposit (\$300 electric, \$25 water, and \$25 sewer).

The city's list of refundable utility deposits totaled \$75,973 as of December 31, 2016; however, the utility deposit bank account balance was \$54,279, resulting in a shortage of \$21,694.

To ensure all customer utility deposits received are accounted for properly, the City Clerk should compare utility deposit records and bank account balances for accuracy.

5.5 Flat fees

The City Clerk and Utility Clerk allowed some customers to pay a monthly flat fee for utility services without the Board's approval. The Board has not established a policy or ordinance addressing the use of flat fee payments.

The flat fee is determined based on the customer's average of the prior year's monthly charges. The customer pays the set monthly rate throughout the year and at the end of the year the Utility Clerk calculates the difference between payments made and the actual charges during the year. The customer then pays any remaining balance due or the city will issue a refund check for any overpayment.

City of Winona Management Advisory Report - State Auditor's Findings

Some customers did not make monthly payments every month, and some payments were for less than the calculated flat fee. These customers were not charged penalties and their service was not shut off. Some of these customers were city employees.

The Board should review the use and necessity of flat rates and consider discontinuing the practice or establish an ordinance authorizing it. In addition, the Board should ensure ordinances and policies are followed and all exceptions are approved and properly documented.

5.6 Penalties, shut off procedures, and usage calculations

City procedures do not comply with city ordinances when assessing penalties, discontinuing services, and calculating usage. The Utility Clerk prints and mails billings at the end of each month. Payment is due by the 10th of the following month.

- Penalties for late payments are assessed on the 15th of each month, which is not in compliance with city ordinances. In addition, the 5 percent penalty is assessed on the amount of current utility charges rather than the full amount due, which includes user fees and previously incurred penalties. City Ordinances 187 and 188 state residential service bills not paid on or before the 10th of the following month will have a 5 percent delinquent charge added.
- The Utility Clerk prints delinquent notices on the 16th and shut-offs are completed on the 17th. The Utility Clerk indicated extensions were granted upon request of the utility customer. These requests are not documented and are not submitted to the Board for approval. City Ordinances 187 and 188 state failure to pay a residential bill by the 15th of each month shall result in disconnection of the service.

Penalties and shut off procedures were also not followed for utility check payments held at customers' requests as discussed in MAR finding number 3.1.

- Sewer usage charges are not calculated on actual monthly usage in accordance with city ordinance. The Utility Clerk calculates sewer user charges based on the average of water usage for the months of November, December, and January of each year. City Ordinance 347 states sewer charges are to be calculated based on monthly usage.

Failure to enforce city ordinances results in inconsistent application of penalties and shut off procedures, incorrect calculation of usage, and reduces the incentive for customers to make timely payments.

5.7 Inactive accounts

City personnel were not proactive in following up on inactive utility account balances. As of December 31, 2016, the city had inactive utility account

City of Winona
Management Advisory Report - State Auditor's Findings

balances totaling \$169,212. The account listing included some balances dating back to 1994, and showed 46 account holders as deceased with balances totaling \$13,431. The city contracted with a collection agency in August 2016, and provided accounts with unpaid balances totaling \$100,972 to the agency for collection efforts; however, some delinquent accounts were not submitted to the collection agency. City officials indicated some of the accounts not submitted for collection were those of friends and family of the City Clerk and Utility Clerk.

Good business practices require adequate collection procedures be established to ensure accounts are collected timely and bad debts are kept to a minimum.

Recommendations

The Board of Aldermen:

- 5.1 Ensure a statement of costs is prepared to support utility rate increases and document formal reviews of utility rates periodically to ensure revenues are sufficient to cover all costs of providing these services.
- 5.2 Ensure monthly reconciliations of water usage and amounts billed to amounts collected and delinquent accounts are performed.
- 5.3 Ensure all adjustments are independently approved and supporting documentation is retained.
- 5.4 Periodically reconcile customer deposits per accounting records to the available cash balance and promptly investigate any differences.
- 5.5 Review the use and necessity of flat rates and adopt an ordinance authorizing its use, if the practice is continued.
- 5.6 Ensure compliance with utility ordinances.
- 5.7 Ensure sufficient procedures are developed to collect accounts receivable and all past due accounts are submitted to the collection agency.

Auditee's Response

- 5.1 *We will provide a statement of costs to support utility rate increases and document formal reviews of utility rates periodically to ensure revenues are sufficient to cover all costs of providing these services. The city is considering conducting a rate study.*
- 5.2 *The Utility Clerk prepares a monthly reconciliation of water usage and this report is provided to the City Maintenance Supervisor and the Board. The city is investigating the significant water losses*

City of Winona
Management Advisory Report - State Auditor's Findings

reported. The Utility Clerk prepares a monthly reconciliation of amounts billed, collected, and delinquent accounts.

5.3 *We now only allow adjustments when the Mayor or the Board approve. The supporting documents are reviewed by the Mayor or Board and attached to a printout of the individual adjustment made to the utility system. The Mayor or Board will sign off on the individual adjustment. The Utility Clerk will print an adjustment report every month, showing all adjustments made during the month, and the Mayor and Board will review and sign the report.*

5.4 *The City Clerk and Utility Clerk will work together to ensure the utility deposits received are accounted for properly and utility deposit records and the related bank account balances match.*

5.5 *We have discontinued the use of flat rate fees.*

5.6 *We will ensure that the 5 percent penalty is assessed on the amount of current utility charges and that they are applied on the 10th of every month.*

We will ensure that the shut-offs are in compliance with the city ordinances and there will be no extensions for the utility customers.

We have stopped prorating the sewer usage charges and are now in compliance with City Ordinance 347.

5.7 *We have enacted a procedure for collecting unpaid balances. We are unable to turn over collections of some accounts due to the lack of information on individuals that is required by the collection agency. The city now turns over unpaid balances to the collection agency quarterly. The Board will review the list quarterly and sign off on them. The Board will look at the accounts that have not been turned over due to lack of information and determine what to do with them.*

6. Payroll and Related Matters

Controls and procedures over payroll and related matters need improvement. The city disbursed \$424,182 in wages during the year ended December 31, 2016.

6.1 Timesheets, leave records, and questionable payments

Significant improvement is needed with timesheets and leave records, and some employees may have been overpaid.

City of Winona
Management Advisory Report - State Auditor's Findings

Timesheets

Timesheets were not always signed by the employee or his/her supervisor to document approval of time worked and leave used. In addition, overtime hours worked are not consistently documented on timesheets and punch cards for some employees. City maintenance employees use punch cards and manual timesheets to record hours worked, but sometimes record overtime hours only on the punch cards, while other times record overtime hours only on the manual timesheets.

Leave records

Leave records maintained are inaccurate and do not adequately track the number of hours of vacation and sick leave earned, used, and any remaining balances. The report generated from the city's accounting system does not show leave accruals or uses for some employees. In addition, employee leave balances from the report do not agree to leave balances recorded on payroll check stubs. The City Clerk indicated she manually changed the available leave balances in the accounting system when employees used leave. However, it is unclear why leave balances recorded on payroll check stubs differ from leave balances recorded in the accounting system, and no efforts have been made to determine the correct balances.

Questionable payments

The city compensates full-time police officers for 40 hour work weeks (weekly salary) even when they do not work 40 hours or take leave for unworked hours. For example, employee timesheets indicate one officer worked an average of 34 hours a week, with only 12 hours in one week, during the 5 week period December 5, 2016, through January 6, 2017. However, the officer was compensated for a full 40 hours each week for the 5 weeks reviewed and no vacation or sick leave was used.

Also, some overtime appears questionable. December 2016 timesheets for some city maintenance employees indicate overtime hours were paid for "turn-ons." Turning on and shutting off utilities is part of the maintenance employees normal daily job duties, and it is not clear from the timesheets that any additional hours were worked.

Conclusion

Without adequate timesheets or a record of leave taken, the city cannot ensure hours worked and leave earned and taken by employees are properly documented. To ensure the accuracy of the hours worked and leave taken, timesheets should be signed by the employees and reviewed and approved by the supervisor. Leave records also aid in determining final compensation for employees leaving city employment. In addition, the Fair Labor Standards Act (FLSA) requires employers maintain accurate records of actual time worked by employees.

6.2 Personnel policies

The city's personnel policy does not adequately address compensatory time, holiday pay, overtime, or the employment and supervision of related employees, and city employees have not always followed established policies.

City of Winona
Management Advisory Report - State Auditor's Findings

Compensatory time

City hall and city maintenance employees accrue and use compensatory time without Board review and approval. The city has not established a formal policy allowing the accrual and use of compensatory time.

Holidays

The city's personnel policy does not adequately address holiday pay. Some city employees work three 12-hour days, while others work five 8-hour days per week. Employees who work 12-hour days receive 12 hours of holiday pay per holiday, while those who work 8-hour days receive 8 hours of holiday pay. As a result, those employees who work 12-hour days received more hours of holiday pay than other city employees. City policy provides for all full-time employees to receive the same number of holidays each year, but does not address the number of hours received per holiday.

In addition, some employees inappropriately received both double-pay for working on a holiday and for working the separate day on which it was observed (the weekday designated for observance of a weekend holiday). City policy states full-time employees required to work on holidays shall be paid at a rate of 2 times their regular hourly rate. In 2 instances, 2 dispatchers in the police department received double-pay for working on both the day of observance and the actual holiday. By allowing these employees to receive double-pay on the day of observance, the employees received more benefits than permitted by policy. Also, the city does not pay full-time police officers for holidays in compliance with policy.

Vacation

Vacation leave is not accrued in compliance with city policy. For example, the Maintenance Supervisor accrued vacation leave one month prior to his anniversary date, and as a result, he used 24 hours of unearned vacation leave. In addition, the City Clerk's vacation leave balance carried from one year to the next in both 2016 and 2017 in violation of city policy. As a result, the City Clerk's vacation leave balance of 249.5 hours as of her termination date was overstated by 109.5 hours.

Vacation leave was not accurately and timely paid out at the end of employment for an employee as required by city policy. A police department employee accrued 40 hours of vacation leave in September 2016 (his anniversary date) and according to city records, used no vacation leave prior to his resignation in January 2017. However, the City Clerk did not compensate the employee for these hours until March 2017. In addition, the City Clerk paid the employee for 42.5 vacation hours, when only 40 hours was due.

City policy provides for vacation leave to be accrued annually on employment anniversary dates, requires vacation leave to be taken the year following its accumulation, and does not allow for carryover from one year to the next. Also, city policy provides for employees to be compensated for accrued vacation leave upon termination.

City of Winona
Management Advisory Report - State Auditor's Findings

Overtime

Nonworking time (vacation, sick leave, and holidays) is included in total hours worked when determining the amount of overtime earned by employees, which is not required by the FLSA. As a result, the city has been paying more overtime to employees than required. The city does not have a policy addressing the hours (nonworking time) to be considered when calculating overtime.

Related employees

The Maintenance Supervisor directly supervises his nephew. The supervision of related employees can compromise a supervisor's objectivity when assigning duties, tracking leave, approving payroll, or evaluating employee performance.

Written personnel policies and strict compliance with those policies is necessary to ensure equitable treatment of employees, prevent misunderstandings, and ensure employees are properly compensated.

6.3 Overtime exemption

The city inappropriately claims an overtime exemption for police department employees, and as a result, did not pay police officers for overtime.

Section 13(b)(20) of the FLSA provides an overtime exemption to law enforcement employees of a public agency that employs less than five employees during the workweek in law enforcement activities. The exemption applies on a workweek basis.

City officials do not include reserve officers in the determination of the number of officers the city employs and concluded the city was exempt of the FLSA overtime requirements. 29 CFR 553.200 indicates no distinction is made between full-time and part-time employees and all such categories must be counted in determining whether the exemption applies. Payroll records indicate the city employed 5 or more full-time and reserve officers every month during 2016. Due to the city not meeting the exemption requirement, the city likely underpaid some officers during this period.

The city's personnel policy requires all full-time employees of the city be paid at a rate of one and one-half times their regular hourly wage for any hours over 40 hours per week. The FLSA provides the city the option of computing overtime for law enforcement employees based on a work period of 7 to 28 days, and overtime pay is required when the number of hours worked exceeds 171 hours in a 28-day period, or similar proportion for shorter work periods (e.g., 86 hours in a 14-day period or 43 hours in a 7-day period).

6.4 Employee benefits

Improvement is needed in the cities handling of employee benefits.

Retirement contributions

The City Clerk did not always comply with the requirements of the Missouri Local Government Employees' Retirement System (LAGERS) for employee contributions and employee hire dates.

City of Winona
Management Advisory Report - State Auditor's Findings

The City Clerk incorrectly withheld contributions totaling \$2,564 from 9 city employees during the employees' first 6 months of employment. LAGERS does not require contributions from employees during the first 6 months of employment; and as a result, the withholdings were retained by the city.

In addition, the City Clerk incorrectly reported hire dates to LAGERS for some employees. The city's personnel policy requires a 3-month probationary period for full-time employees. The City Clerk incorrectly reported to LAGERS the ending date of the probationary period as the hire date for 3 city employees.

To ensure the equitable treatment of employees and compliance with LAGERS reporting requirements, the city should report accurate hire dates for new employees to LAGERS.

Health insurance

The City Clerk inappropriately withheld health insurance premiums for an employee who resigned from full-time employment on June 20, 2016, but continued to work part-time. City policy only provides for health insurance coverage for full-time employment. From June 26, 2016, until October 2016, the City Clerk improperly withheld health insurance premiums totaling \$363 from the employee's wages. The City Clerk also failed to remove the employee from the city's coverage until mid-July 2016 and the city was billed for coverage through August.

To ensure proper withholdings are made, the city should develop procedures to ensure employees are removed from city health insurance policies as soon as their full-time employment ends.

6.5 Additional compensation
and withholding and
reporting of
compensation

Improvement is needed in the city's handling of additional compensation and the withholding and reporting of compensation.

- Additional compensation totaling \$4,800 and \$2,400 was paid to the City Clerk and Utility Clerk, respectively, during the year ended December 31, 2016. The clerks indicated this additional compensation was for serving as the Court Clerk and Assistant Court Clerk; however, timesheets or other supporting documentation was not retained to support the compensation. In addition, these payments were not included on the employees' W-2 forms and were not subjected to payroll tax withholdings. Also, it is unclear how the work performed was not within the normal job duties of these employees. The clerks perform these court duties during regular city business hours and received compensation for those hours worked through regular payroll checks.
- The Mayor and Aldermen receive a \$100 reduction in their monthly utility bills as compensation; however, these amounts were not reported on their W-2 forms and were not subjected to payroll tax withholdings.

City of Winona
Management Advisory Report - State Auditor's Findings

The Internal Revenue Service requires employers to report compensation on W-2 forms and withhold and remit income and payroll taxes. The failure to withhold and properly report payroll and income taxes makes the city potentially subject to additional tax liabilities along with penalties and interest.

Recommendations

The Board of Aldermen:

- 6.1 Ensure timesheets are adequately prepared, and properly signed and approved; employee leave balances are properly tracked and monitored; and ensure reviews of timesheets are performed to ensure the propriety of payroll payments.
- 6.2 Review and update the personnel policy, as necessary, and ensure compliance with the policy.
- 6.3 Review overtime hours worked by police officers and pay any amounts due, and ensure compliance with the FLSA and city policy regarding overtime.
- 6.4 Ensure retirement withholdings are recalculated for current and past employees and disburse amounts owed. The Board should also ensure contributions are properly deducted and reported to LAGERS, along with accurate hire dates. In addition, the Board should disburse amounts owed to the employee for health insurance premiums withheld improperly and ensure employees are properly removed from city coverage upon termination from employment.
- 6.5 Review the additional compensation, and ensure additional time worked, if any, is reported on employee timesheets and compensated properly. In addition, the Board should ensure previous years' W-2 forms are amended, as appropriate, and compensation is properly reported and subjected to proper withholdings.

Auditee's Response

- 6.1 *We have now developed procedures that require all employees to sign their timesheets and their supervisor reviews, approves, and signs the timesheet as well. In addition, the City Clerk or the Utility Clerk check the timesheets before payroll is recorded in the accounting system. The handwritten timesheets are compared to the biometric time clock sheets and any discrepancies are noted and resolved. We have also purchased biometric time clocks and the police department employees, city hall employees, and city maintenance employees use daily.*

The City Clerk has made adjustments to the accounting system and it now automatically accounts for leave time. The employees now fill

City of Winona
Management Advisory Report - State Auditor's Findings

out leave slips if they are taking any leave and turn the slips in to their supervisor, who approves the leave. The leave slips are turned in with their timesheet and placed into their personnel files.

We have implemented a flextime schedule for all city employees.

6.2 *We have established a new personnel manual that addresses holidays, overtime, and related employees. We have stopped the use of compensatory time.*

6.3 *We have started implementing the FLSA requirements for police department employees.*

6.4 *We are going to disburse amounts owed to the employees for health insurance premiums and the retirement withholdings. We are now reporting accurate hire dates and contribution amounts to LAGERS. We will ensure employees are properly removed from city coverage upon termination from employment.*

6.5 *We are ensuring that additional time worked, if any, is being reported on employee timesheets and compensated properly. We have stopped the additional compensation for the City Clerk and Utility Clerk being Court Clerk and Assistant Court Clerk. The Board and Mayor compensation is now being paid through payroll thus enabling taxes to be withheld. They will receive a W-2 form at the end of the year. The former Court Clerk and Assistant Court Clerk received a form 1099 for the additional compensation during the year ended December 31, 2016, and in other prior years. We do not plan to amend prior year W-2 forms for the clerks or the Board and Mayor compensation.*

7. Disbursements

Controls and procedures over disbursements need improvement.

7.1 Disbursement review and documentation

The city's disbursement review and documentation procedures need improvement.

List of bills

The list of bills provided to the Board for review and approval were not compared to invoices and actual checks written and did not include payroll disbursements totaling approximately \$424,000 during the year ended December 31, 2016.

Approval of invoices

The City Clerk did not require department heads to document their review and approval of invoices and did not require documentation acknowledging receipt of goods or services.

City of Winona
Management Advisory Report - State Auditor's Findings

Supporting documentation

The City Clerk did not maintain adequately detailed supporting documentation for 14 of 116 disbursements reviewed totaling \$4,588 in 2016. These disbursements included purchases of automotive supplies (\$2,073), fiber-optic repair services (\$1,467), grocery items (\$500), and other small miscellaneous purchases. Payments were often made from summary statements, and detailed invoices documenting quantity, prices, and items purchased were not retained.

To safeguard against possible loss or misuse of funds, the Board should approve all disbursements and review supporting documentation, bank information, and canceled checks. Board approval of disbursements should be documented by signing or initialing the monthly list of bills. Requiring the receipt of goods and services prior to payment helps ensure the city actually received all items. To ensure obligations were actually incurred and amounts paid were proper, all disbursements should be supported by paid receipts, itemized vendor invoices or other detailed documentation with payment information clearly indicated.

7.2 Unnecessary
disbursements

The city made several unreasonable and/or unnecessary purchases.

- The city held a holiday party and catered meals for 60 guests totaling \$570 in December 2016. The City Clerk indicated the meals were for city employees and their families. A list of attendees was not maintained.
- The city paid \$1,200 for 24 gift certificates to a local grocery. The City Clerk indicated the gift certificates were given to employees as holiday gifts.
- The city's January 2016 credit card statement shows a \$96 purchase at a local liquor store in December 2015. An itemized receipt was not maintained to support the purchase.
- The city purchased items at a local grocery store totaling \$206. The items were charged to the city's account in December 2015 and paid for in January 2016. In addition, the signature on some of the invoices was the Maintenance Supervisor's wife, who is not a city employee.
- The city incurred travel costs for the family of the City Clerk to travel with her while she attended a training conference at the Lake of the Ozarks in April 2016. The hotel invoice indicates the room reservation was for 2 adults and 2 children totaling \$542. In addition, the credit card statement shows one restaurant charge totaling \$69; however, a detailed invoice was not retained to indicate how many meals were purchased.

The Missouri Constitution prohibits the use of public money or property to benefit any private individual, associations, or corporations except as

City of Winona Management Advisory Report - State Auditor's Findings

provided in the constitution. Public funds should be spent only on items necessary and beneficial to the city. Citizens have placed a fiduciary trust in their public officials to spend city monies in a prudent and necessary manner.

7.3 Procurement procedures and contracts

The city does not have a formal bidding policy and has not established policies for the selection of vendors providing professional services.

The city did not solicit proposals for professional services including engineering services (\$4,085) and wastewater treatment services (\$6,625). Additionally, the city did not obtain a contract for the engineering services; and the wastewater treatment contract did not clearly document each party's duties and responsibilities, and did not cover services performed during the period of September 1, 2016, through March 9, 2017.

Formal bidding procedures for major purchases or services provide a framework for economic management of city resources and help ensure the city receives fair value by contracting with the lowest or best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in city business.

Soliciting proposals for professional services is a good business practice, helps provide a range of possible choices, and allows the city to make better-informed decisions to ensure necessary services are obtained from the best qualified provider after taking expertise, experience, and cost into consideration. Sections 8.289 and 8.291, RSMo, provide requirements for the selection of engineering services.

Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.

7.4 Fuel usage

The city does not reconcile fuel usage to fuel purchases. The city maintains a bulk fuel tank for the city maintenance department and another for the police department. Both departments maintain fuel logs showing the date, amount of fuel purchased, mileage, and the vehicle or equipment obtaining the fuel. However, no comparison is performed between total gallons pumped, gallons purchased, and gallons on hand. As a result there is less assurance fuel usage is accounted for, invoices for fuel purchased are correct, and misuse would be detected promptly. The city purchased \$14,700 in fuel during the year ended December 31, 2016.

Procedures for reviewing fuel used and reconciling use to fuel purchases are necessary to ensure the reasonableness and propriety of fuel use and disbursements.

City of Winona
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Aldermen:

- 7.1 Ensure all payments made are included in the listing of bills presented for approval, approval of the list of bills is documented, and the approved list of bills is compared to invoices and checks written. In addition, the Board should ensure invoices are adequately reviewed and require documentation of receipt of goods and/or services prior to payment of invoices. The Board should also maintain adequate supporting documentation for all disbursements.
- 7.2 Ensure all disbursements are necessary and prudent uses of public funds.
- 7.3 Establish formal bidding policies and procedures, periodically solicit proposals for professional services, and enter into clearly written agreements for those services.
- 7.4 Ensure a documented periodic reconciliation of fuel purchased to fuel used is performed with any significant differences investigated.

Auditee's Response

- 7.1 *The City Clerk provides a list of bills that includes all expenses paid and pending to the Board monthly. The Mayor and one of the Aldermen will initial the list of bills. The invoices are matched up with billing statements and the checks written, then the Mayor and the Mayor Pro-tem sign the checks. All bills that are paid have supporting documentation attached to the check stubs.*
- 7.2 *We will ensure that all disbursements are necessary and prudent uses of public funds.*
- 7.3 *We will establish formal bidding policies and procedures and will enter into clearly written agreements for the services.*
- 7.4 *We will perform a monthly reconciliation of fuel purchases to fuel used and any significant differences will be investigated.*

8. Budgets and Financial Reporting

The city does not prepare complete and accurate annual budgets, publish accurate semiannual financial statements, and file annual financial reports timely.

8.1 Budgets

The Board does not have adequate procedures to prepare or monitor budgets.

Preparation

The city's budgets do not contain all statutorily required elements. The 2016 and 2017 budgets did not include a budget message or budget summary. In

City of Winona Management Advisory Report - State Auditor's Findings

addition, the actual beginning available resources and estimated ending available resources were not included, but are needed to present a complete financial plan for city finances. Also, city officials did not prepare budgets for the Park Board or Sewer Rehabilitation Funds, and the financial activity and balances of the cities certificates of deposit and annuity were not reflected in the budgets.

Section 67.010, RSMo, requires the budget to present a complete financial plan for the ensuing budget year and outlines the various information to be included in the budget. A complete budget should include the beginning available resources and a reasonable estimate of the ending available resources. A complete and well-planned budget, in addition to meeting statutory requirements, serves as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in providing information to the public about city operations and current finances.

Monitoring

The Board does not adequately monitor budget-to-actual receipts and disbursements. Actual disbursements of the General Fund, Sewer Fund, and Heritage Fund for the year ended December 31, 2016, exceeded budgeted amounts by \$60,032, \$7,920, and \$21,831, respectively.

Section 67.040, RSMo, requires political subdivisions to keep disbursements within amounts budgeted, but allows for budget increases if the governing body officially adopts a resolution setting forth the facts and reasons. In addition, Section 67.080, RSMo, provides that no disbursement of public monies should be made unless it is authorized in the budget. Proper monitoring and amending prior to disbursing funds is necessary for the budget to be an effective management tool and comply with state law.

8.2 Published financial statements

The City Clerk did not prepare and publish complete and accurate financial statements as required by state law. The City Clerk did not include various fund disbursements totaling \$33,237 shown in the accounting system for the 2 semiannual settlements published for year ended December 31, 2016. In addition, the financial activity of the Park Board Fund was not included in the published financial statement for the semiannual period ended December 31, 2016.

Section 79.160, RSMo, requires the Board to prepare and publish semiannual financial statements that include a full and detailed account of the receipts, disbursements, and indebtedness of the city. To ensure compliance with this statute, the Board should require timely preparation of financial statements and review the statements for accuracy prior to publication.

8.3 Filing of financial reports

The City Clerk did not file timely or accurate annual financial reports with the SAO as required by state law. The city's financial report for the year ended

City of Winona
Management Advisory Report - State Auditor's Findings

December 31, 2016, due by June 30, 2017, was not filed until July 25, 2017, and the financial report for the year ended December 31, 2017, due by June 30, 2018, was not filed until July 16, 2018. In addition, the report submitted for the year ended December 31, 2016, did not include financial information for the first 6 months of 2016. Section 105.145, RSMo, requires each political subdivision to file annual reports of its financial transactions with the State Auditor's Office.

Recommendations

The Board of Aldermen:

- 8.1 Prepare accurate annual budgets that contain all information required by state law, and ensure the budgets are adequately monitored.
- 8.2 Ensure accurate publication of the city's semiannual financial statements as required by state law.
- 8.3 Submit annual financial reports to the State Auditor's Office as required by state law.

Auditee's Response

- 8.1 *We will prepare accurate annual budgets that contain all information required by state law. The City Clerk provides budget to actual reports to the Board monthly. The City Clerk provides budget increase resolutions, if needed.*
- 8.2 *We will ensure the accurate publication of the city's semiannual financial statement.*
- 8.3 *We will submit annual financial reports to the State Auditor's Office as required by law.*

9. Park Board

We noted significant weaknesses in the Park Board's controls, policies, and procedures.

The Park Board is required to be governed by a seven-member board, which is appointed by the Mayor with the consent of the Board of Aldermen, and has control of disbursements for the improvement, care, and custody of city parks. The city holds the Park Board bank account and makes disbursements at the Park Board's request. City records indicate the Park Board collected \$8,714 and disbursed \$9,403 during the year ended December 31, 2016.

9.1 Board meetings

Park Board members indicated Board meetings have not been held for a considerable period of time. While there are no legal requirements stipulating the frequency of Board meetings and the Board has not adopted a policy on the frequency of Board meetings, periodic or at a minimum, annual Board meetings are necessary for the Board to properly fulfill its duties as required by state law and Board bylaws. Sections 67.010 to 67.040, RSMo, include

City of Winona
Management Advisory Report - State Auditor's Findings

provisions regarding preparation of annual budgets and Park Board bylaws include provisions for the approval of disbursements (see section 9.2).

9.2 Bylaws and agreements

The Park Board does not have current bylaws and does not operate in accordance with bylaws, city ordinance, or the operating agreement between the Board and the city.

- The Park Board did not update its bylaws to reflect changes made by city ordinance in 1983 and 1986, or a 1990 operating agreement with the city establishing the responsibility and authority for city parks.
- The Park Board does not operate with the required number of board members and does not appoint new members in compliance with city ordinance. The Park Board consisted of three members during the year ended December 31, 2016. Two of the three members resigned in March 2017, and volunteers filled the vacated positions without being appointed by the Mayor. City ordinance states the Board of Park Directors shall consist of seven members appointed for a two-year term. The Mayor with approval of the Board of Aldermen shall reappoint the members for additional 2-year terms or appoint new members.
- The Park Board does not prepare and file an annual report with the Board of Aldermen in accordance with city ordinance.
- The Park Board Treasurer did not obtain a written report from the City Clerk regarding the activity and status of the Park Board Fund, and present the report to the Park Board in accordance with the bylaws.
- The Park Board did not maintain a record of all business transactions including donations, profits, and costs in accordance with the operating agreement with the city.
- The Park Board President did not sign all checks in accordance with the Board's bylaws. The City Clerk was the only signer on Park Board checks.
- The Park Board did not review and approve disbursements in excess of \$25 by a 2/3 majority in accordance with its bylaws.
- The Park Board incorrectly reimbursed the city \$450 for utilities during the year ended December 31, 2016. The operating agreement states the city will absorb the costs of electric, water and sewer usage for Park Board activities.

Bylaws can be used as a management tool for establishing Park Board policies and procedures. To increase the usefulness of the bylaws, they should be

City of Winona
Management Advisory Report - State Auditor's Findings

updated on a regular basis. Adherence to Park Board bylaws, city ordinance, and the terms of written agreements is necessary to ensure the Park Board is operating as intended and all parties have met their contractual obligations.

9.3 Receipts

Various Park Board members collect park monies and do not always issue receipt slips or maintain records of monies received. The Park Board collects donations, sports fees, concessions revenue, and admission fees for various events. The Park Board bylaws indicate the Park Board Treasurer shall be responsible for the collection of monies. In addition, the Park Board does not reconcile the composition of monies collected to the composition of monies transmitted and deposited. As a result, there is little assurance that all monies collected are properly transmitted and deposited.

Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of funds will go undetected.

9.4 Supporting documentation

Adequate supporting documentation was not retained for approximately \$3,300 of the \$9,403 spent by the Park Board during 2016. All disbursements should include proper supporting documentation to ensure the obligation was actually incurred and the disbursement represents an appropriate use of public funds.

Recommendations

The Board of Aldermen in conjunction with the Park Board:

- 9.1 Ensure periodic Park Board meetings are held to properly fulfill the Board's duties, including approving disbursements and adopting budgets annually as required by the Board's bylaws and state law.
- 9.2 Review and update Park Board bylaws, city ordinances, and agreements periodically, and ensure compliance with the terms of the bylaws, ordinances, and agreements.
- 9.3 Require preparation of prenumbered receipt slips or receipt records for monies received and reconciliation of the composition of receipts to the composition of monies transmitted and deposited.
- 9.4 Require adequate supporting documentation be retained for all disbursements.

Auditee's Response

- 9.1 *The Board of Aldermen and the Park Board will ensure periodic meetings are held. The Board of Aldermen and the Park Board will adopt budgets annually and the disbursements will be approved by the Board of Aldermen.*
- 9.2 *The Board of Aldermen and the Park Board will review and update the Park Board bylaws, city ordinances, and agreements periodically*

City of Winona
Management Advisory Report - State Auditor's Findings

and ensure compliance with the terms of the bylaws, ordinances, and agreements.

9.3 *The Park Board will issue prenumbered receipt slips for monies received. The monies received will be reconciled to the receipts, which will in turn be reconciled to the deposits.*

9.4 *The Park Board will provide supporting documentation for all disbursements.*

10. Sunshine Law and Ordinances

City officials did not always ensure compliance with the Sunshine Law and city ordinances need improvement.

10.1 Sunshine Law

The Board did not always comply with the Sunshine Law regarding closed sessions.

Reasons for closed meetings

Open meeting minutes did not document the specific reasons or section of law allowing the meeting to be closed for 11 of 32 closed sessions held between January 1, 2016, and March 8, 2018. Section 610.022, RSMo, requires public bodies announce the specific reasons allowed by law for going into a closed session and to enter the vote and reason into the minutes. The section also limits discussion topics and actions in closed meetings to only those specifically announced prior to closure.

Allowable topics

Some topics discussed and voted on in 27 of 32 closed sessions held between January 1, 2016, and March 8, 2018, were not allowable under the Sunshine Law. For example, closed meeting minutes indicated the Board discussed employee salaries and benefits, concerns with financial records, holiday pay for police department employees, employee awards, city street light usage, and other miscellaneous topics. Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings should be limited to only those specifically allowed by law.

10.2 Ordinances

Ordinances are not comprehensive or maintained in an organized manner; one ordinance could not be located; and the city has not always established ordinances as appropriate.

- Ordinances are poorly maintained. The City Clerk maintains multiple ordinance books, ordinances are not maintained in numeric order, and many ordinances are old and not updated. In addition, an index of all ordinances passed and rescinded by the city is not maintained, making it difficult for city personnel to determine which ordinances remain in effect and which have been rescinded.

City of Winona
Management Advisory Report - State Auditor's Findings

- City officials could not locate an ordinance or ballot to support the passage of a general city sales tax. We obtained a copy of the ordinance with the ballot language from the Department of Revenue.
- The city has not adopted an ordinance to establish the current trash rates.
- The city does not have ordinances establishing the compensation of city officials and employees.

Because ordinances passed by the Board to govern the city and its residents have the force and effect of law, it is important ordinances be complete and organized. In addition, ordinances documenting approved salary amounts help ensure equitable treatment and prevent misunderstandings. Section 79.270, RSMo, authorizes the Board to fix the compensation of city officials and employees by ordinance.

Recommendations

The Board of Aldermen:

- 10.1 Ensure specific reasons for closing a meeting are documented in the open minutes, and ensure only topics allowed by state law are discussed in closed Board meetings.
- 10.2 Ensure ordinances are maintained in a complete and well-organized manner, establish an index of all ordinances passed and rescinded, retain copies of ballots or signed ordinances for all sales taxes, and establish trash rates and the compensation of city officials and employees by ordinance.

Auditee's Response

- 10.1 *We will specify the reasons for closing the meeting and will ensure only topics allowed by state law are discussed in closed Board meetings.*
- 10.2 *We will maintain the ordinances in a complete and well-organized manner and establish an index of all ordinances passed and rescinded. We will establish an ordinance for trash rates and an ordinance for the compensation of all city officials and employees.*

11. Electronic Data Security

Controls over some city computers are not sufficient to prevent unauthorized access, and sufficient plans and processes are not in place for recovering systems and data. As a result, city records are not adequately protected and are susceptible to unauthorized access, and the city faces an increased risk of not being able to resume normal business operations timely.

11.1 Passwords

The city has not established adequate password controls to reduce the risk of unauthorized access to computers and data. The City Clerk, Utility Clerk, and employees in the police department are not required to change passwords

City of Winona Management Advisory Report - State Auditor's Findings

periodically. The City Clerk and the Utility Clerk share the same user identification and password to access the utility system, and passwords for the utility system are not required to contain a minimum number of characters.

Passwords are required to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential and requiring users to enter their password when switching users. However, since passwords do not have to be periodically changed, are shared between employees, and are not required to contain a minimum number of characters, there is less assurance passwords are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique, confidential, contain a minimum number of characters, and be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

11.2 Security controls

Security controls are not in place to lock computers after a specified number of incorrect logon attempts or after a certain period of inactivity. Logon attempt controls lock the capability to access a computer after a specified number of consecutive unsuccessful logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

11.3 Contingency plan and backup data

The city has not developed a formal, written contingency plan for resuming normal business operations and recovering computer systems and data in the event of a disaster or other extraordinary situations. In addition, the city does not periodically test backup data to ensure essential data can be restored, and does not always store backup files at a secure off-site location.

A formal, written contingency plan should be prepared, and periodically tested and updated as needed to address actions for restoring computer systems should a disaster or other extraordinary situation occur. In addition, completing regular data backups and periodically testing the backup data helps ensure current data is available to be restored and is complete and reliable. Storing backup files in a secure off-site location provides increased assurance city electronic records could be restored if necessary.

Recommendations

The Board of Aldermen:

- 11.1 Require confidential passwords for each employee that are periodically changed to prevent unauthorized access to the city's

City of Winona
Management Advisory Report - State Auditor's Findings

computers and data. Passwords should contain a minimum number of characters.

- 11.2 Require each city computer to have security controls in place to lock it after a specified number of incorrect logon attempts and after a certain period of inactivity.
- 11.3 Develop a formal, written contingency plan that is periodically tested, evaluated, and updated as needed. The Board should also require city personnel test restoration of backup data on a periodic basis and store backup files in a secure off-site location.

Auditee's Response

- 11.1 *We will require confidential passwords for each employee that are periodically changed to prevent unauthorized access to the city's computers and data. The passwords will contain a minimum number of characters.*
- 11.2 *We will have security controls in place to lock computers after a specified number of incorrect logon attempts and after a certain period of inactivity.*
- 11.3 *We will develop a formal written contingency plan that is periodically tested, evaluated, and updated as needed. The Board will also require backups be tested on a periodic basis and stored in a secure off-site location.*

12. Capital Assets

The city does not maintain records of its capital assets including buildings, utility system infrastructure, vehicles, equipment, and other property. Additionally, city personnel do not tag, number, or otherwise identify assets or perform annual physical inventories.

Adequate capital asset records and procedures are necessary to provide controls over city property; safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage.

Recommendation

The Board of Aldermen ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location and subsequent disposition. The Board should also ensure city personnel properly tag, number, or otherwise identify all applicable city property and conduct and document an annual inventory.

Auditee's Response

We will ensure complete and detailed capital asset records are maintained.

City of Winona

Organization and Statistical Information

The City of Winona is located in Shannon County. The city was incorporated in 1888 and is currently a fourth-class city. The city employed 15 full-time employees and 6 part-time employees on December 31, 2016.

City operations include utility services (water, sewer, electric, and trash), police, maintenance of streets, and parks and recreation.

Mayor and Board of Aldermen

The city government consists of a mayor and 6-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at December 31, 2016, are identified below. The Mayor and Board of Aldermen received \$100 reductions in their monthly utility bills as compensation. The compensation of these officials is not established by ordinance.

Brenda Barkman, Mayor
Bob Needels, Alderman
Allen Phillips, Alderman
Tommy Farris, Alderman
Charles Points, Alderman
Mark Simpson, Alderman
Peggy Jones, Alderwoman

Other Principal Officials

The City Clerk and Utility Clerk are appointed positions. The city's principal officials at December 31, 2016, are identified below:

Terri Denton, City Clerk ¹
Elisha Pierce, Utility Clerk

¹ Terri Denton served as the City Clerk until she was terminated in September 2017. Mandy Brown was subsequently hired in October 2017.

Financial Activity and Supporting Documentation

Appendix A is a summary of the city's financial activity for the year ended December 31, 2016. Appendix B and C provide supporting documentation for undeposited receipts and a summary of checks cashed.

Appendix A

(1) Represents receipts recorded in the utility system, on payment stubs, and/or on manual receipt slips and included in the deposit summary.

(2) Represents deposited checks unrelated to recorded utility receipts.

(3) Represents recorded manual receipts that could not be traced to a deposit. Method of payment was not recorded on some of the manual receipt slips or payment stubs. Therefore, the method of payment was presumed to be cash based on the contents of deposits that included these receipts.

(1) City checks were cashed to pay vendors or for police department drug buys.

(2) Checks cashed by city employees and their family members.

(3) City cashed checks for various citizens and businesses.

(4) The Mayor discontinued the practice of cashing personal checks (including payroll) and third-party checks in July 2016. The \$95 check cashed in October 2016 was an appropriate use of funds.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 10 political subdivisions required to file a financial report by July 31, 2018, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in July 2018, after their filing deadline. The filing status for these 259 entities is presented in summary on page 3 and by individual entity in Appendix B-F.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name of the State Auditor.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

July 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the State Auditor an annual report of financial transactions.

15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 10 political subdivisions, other than cities, towns, and villages, with a fiscal year end of January 31, 2018. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 10 political subdivisions, 7 filed an annual financial report by July 31, 2018.

This report also includes the filing status for 259 political subdivisions, other than cities, towns, and villages, that filed their financial report in July 2018, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the city required to file a financial report by July 31, 2018, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the city is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in July 2018, after their filing deadline. The filing status for these 58 cities, 1 town, and 24 villages is presented in summary on pages 3-4 and by individual entity in Appendixes B to E.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

July 2018

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, effective August 28, 2017, requires the State Auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities operating a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that operates a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the city with a fiscal year end of January 31, 2018, whose financial report was due by July 31, 2018. That city filed its financial report timely. The city was not required to file an addendum or a certification.

This report includes the filing status for 58 cities, 1 town, and 24 villages that filed at least one of the items (financial report, addendum, or certification) in

Monthly Report on Municipal Court and Revenue Filings

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Scott County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Scott County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Scott, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Scott ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2017, and 2016, or changes in financial position or cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2017, and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 24, 2018, on our consideration of the County of Scott’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Scott’s internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Scott, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1821 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: County Clerk, Treasurer, Collector of Revenue, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the County of Scott County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2017 and 2016, for purposes of taxation, was:

	2017	2016
Real Estate	\$ 281,499,370	\$ 275,353,780
Personal Property	145,156,290	144,609,950
Railroad and Utilities	46,196,692	45,623,362
	<u>\$ 472,852,352</u>	<u>\$ 465,587,092</u>

During 2017 and 2016, the County Commission approved a \$0.3514 and \$0.3514 tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2017	2016
General Revenue Fund	\$ 0.0000	\$ 0.0000
Special Road and Bridge Fund	0.3012	0.3012
Johnson Grass Fund	0.0100	0.0100
Senate Bill 40 Fund	0.0402	0.0402
	<u>\$ 0.3514</u>	<u>\$ 0.3514</u>

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017, and 2016, the carrying amount of the County's deposits was \$1,953,325.16 and \$1,978,078.19, respectively, and the bank balance was \$7,191,469.48 and \$11,371,773.44, respectively. The total bank balances as of December 31, 2017, and 2016 were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2017, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash</u>	
Deposits and cash equivalents	\$ 1,953,325.16
Total Governmental Funds	<u>1,953,325.16</u>
<u>Statement of Assets and Liabilities Arising from Cash</u>	
<u>Transactions – Agency Funds:</u>	
Deposits	<u>6,439,508.29</u>
Total Agency Funds	<u>6,439,508.29</u>
Total Deposits as of December 31, 2017	<u>\$ 8,392,833.45</u>

The carrying values of deposits shown above are included in the financial statements at December 31, 2016, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash</u>	
Deposits and cash equivalents	\$ 1,978,078.19
Total Governmental Funds	<u>1,978,078.19</u>
<u>Statement of Assets and Liabilities Arising from Cash</u>	
<u>Transactions – Agency Funds:</u>	
Deposits	<u>5,703,181.15</u>
Total Agency Funds	<u>5,703,181.15</u>
Total Deposits as of December 31, 2016	<u>\$ 7,681,259.34</u>

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

II. DEPOSITS AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2017, and 2016.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2017, and 2016.

III. LONG-TERM DEBT

On April 9, 2015, the County entered into a lease agreement for \$130,095 with First State Bank and Trust Company for the purchase of a Motor Grader. The County is required to make one payment of \$130,095. The lease carries an interest rate of 4.0% and was paid off during 2016.

On December 28, 2015, the County entered into a lease agreement for \$87,000 with Kansas State Bank for the purchase of 18 Motorola Radios. The County is required to make three annual payments of \$31,887.30. The lease agreement carries an interest rate of 9.0%.

On June 30, 2016, the County entered into a lease agreement for \$250,095 with First State Bank and Trust Company for the purchase of a Paver. The County is required to make two varying annual payments of \$132,338.40 and \$128,847.85. The lease agreement carries an interest rate of 3.0%.

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

III. LONG-TERM DEBT (concluded)

As of December 31, 2017, the unpaid principal balances of the lease purchases agreements were \$155,492.81.

Description	12/31/2016	Additions	Payments	12/31/2017	Current Year
Paver	\$ 250,095.00	\$ -	\$ 125,000.00	\$ 125,095.00	\$ 7,338.40

Sheriff's Special Fund	-	163.12	-	23,600.00
TIF Special Allocation Fund	43,632.00	-	46,395.00	-
Collector's Maintenance Fund	-	30,000.00	-	20,000.00
Reserve Fund	29,700.20	146,871.47	-	-
D.A.R.E. Fund	163.12	-	-	-
TOTAL	\$ 2,667,288.92	\$ 2,667,288.92	\$ 2,713,207.06	\$ 2,713,207.06

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of

THE COUNTY OF SCOTT

A. Plan Description (concluded)

circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement.

Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system. The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2017, and 2016, were \$107,154.23 and \$101,454.83, respectively.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Scott County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Scott County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits to employees of participating political subdivisions. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance. The LAGERS Board of Trustees establishes the benefit plans and provisions that are available for adoption. The political subdivision's governing body adopts all benefits of the plan.

	<u>2017 Valuation</u>
Benefit Multiplier:	1.50%
Final Average Salary:	3 Years
Member Contributions:	4%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2017, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>
Inactive employees or beneficiaries currently receiving benefits	47	25
Inactive employees entitled to but not yet receiving benefits	60	30
Active employees	65	23
	<u>172</u>	<u>78</u>

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 6.2% (General) and 9.3% (Police) of annual covered payroll.

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2017.

Actuarial Assumptions

The total pension liability in the February 28, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%

Mortality rates were based on the 1994 Group Annuity Mortality Table set back 0 years for both males and females.

The actuarial assumptions used in the February 28, 2017, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Equity	43.00%	5.29%
Fixed Income	26.00%	2.23%
Real Assets	21.00%	3.31%
Strategic Assets	10.00%	5.73%

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Total	<u>\$ 251,044</u>	<u>\$ 194,123</u>

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366 and \$2,618, respectively, for the years ended December 31, 2017, and 2016.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had no COBRA participants at December 31, 2017, and December 31, 2016.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Employees receive one week of vacation after the first year of service, two weeks of vacation per year after two years of employment, three weeks of vacation per year after twelve years of employment, and four weeks of vacation per year after twenty years of employment. Vacation days do not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue four hours of sick leave per month for a total of six days for the year. The County allows employees to carry forward any and all unused sick leave up to 560 hours. However, upon termination, employees do not get reimbursed for sick leave. These have not been subjected to auditing procedures.

THE COUNTY OF SCOTT
BENTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

IX. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

There are no subsequent events to report as of the date of the audit report.

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Scott, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Scott ("County"), Missouri which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 24, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

July 24, 2018

To the County Commissioners
The County of Scott, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Scott (the "County") as of and for the years ended December 31, 2017, and 2016, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our comments concerning internal control and other significant matters are presented as follows:

I. Information Required by Professional Standards

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

I. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 6, 2018. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2017 and 2016 fiscal years. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 24, 2018.

I. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the County’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Washington County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Washington County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Washington, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Washington ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash and investment balances-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2017, and 2016, or changes in financial position or cash flows thereof for the year then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2017, and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Washington’s basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 12, 2018, on our consideration of the County of Washington's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Washington's internal control over financial reporting and compliance.

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Washington, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1813 by an Act of the Missouri Territory. In addition to the three Commissioners, there are eleven elected Constitutional Officers: Assessor, County Clerk, Treasurer, Collector, Circuit Clerk, Sheriff, Coroner, Surveyor, Public Administrator, Recorder and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present the County's financial accountability.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of Washington County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation, was:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 126,146,820	\$ 125,420,030
Personal Property	54,760,560	47,991,588
Railroad and Utilities	<u>77,661,741</u>	<u>77,732,288</u>
	<u>\$ 258,569,121</u>	<u>\$ 251,143,906</u>

During 2017 and 2016, the County Commission approved a \$0.6926 and \$0.6739, respectively, tax levy per \$100 of assessed valuation of tangible taxable property for purposes of County taxation, as follows:

	<u>2017</u>	<u>2016</u>
General Revenue Fund	\$ 0.1993	\$ 0.1806
Special Road and Bridge Fund	0.2580	0.2580
Senior Citizen Services Fund	0.0470	0.0470
Senate Bill 40 Fund	<u>0.1883</u>	<u>0.1883</u>
	<u>\$ 0.6926</u>	<u>\$ 0.6739</u>

F. Cash and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017, and 2016, the carrying amount of the County's deposits and investments were \$7,769,710.60 and \$7,589,491.84, and the bank balance was \$13,349,548.64 and \$13,211,938.38, respectively. The total bank balances as of December 31, 2017, and 2016 were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2017, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash and Investment Balances</u>	
Deposits and cash equivalents	\$ 7,174,215.01
Investments	595,495.59
Total Governmental Funds	\$ 7,769,710.60
<u>Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:</u>	
Deposits	\$ 11,180,045.16
Investments	-
Total Agency Funds	11,180,045.16
Total Deposits and Investments as of December 31, 2017	\$ 18,949,755.76

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

II. CASH AND INVESTMENTS (concluded)

The carrying values of deposits and investments at December 31, 2016, are as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash and Investment Balances</u>	
Deposits and cash equivalents	\$ 6,995,914.24
Investments	593,577.60
Total Governmental Funds	\$ 7,589,491.84
<u>Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:</u>	
Deposits	\$ 10,705,511.89
Investments	-
Total Agency Funds	10,705,511.89
Total Deposits and Investments as of December 31, 2016	\$ 18,295,003.73

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2017, and 2016.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2017, and 2016.

V. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2017, and 2016, are as follows:

	2017		2016	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	\$ 150,416.52	\$ 392,765.27	\$ 472,146.80	\$ 317,582.00
Special Road and Bridge Fund	-	116,700.00	-	127,492.00
Assessment Fund	23,935.00	-	23,519.00	-
Sheriff L.E.F. Fund	298,733.00	-	294,063.00	-
Sheriff's Civil Fund	-	60,000.00	-	-
Airport Fund	-	33,716.52	-	10,077.00
Building Fund	158,097.27	-	30,000.00	334,577.80
Sheriff Revolving Fund	-	28,000.00	-	30,000.00
TOTAL	\$ 631,181.79	\$ 631,181.79	\$ 819,728.80	\$ 819,728.80

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of 11 members, 9 of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the city of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2017, and 2016 were \$217,899.08 and \$146,537.49, respectively.

VII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had 2 COBRA participants at December 31, 2017, paying premiums totaling \$1,802.36, and had 0 COBRA participants at December 31, 2016.

VIII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$11,628 and \$9,044, respectively, for the years ended December 31, 2017, and 2016.

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with annual leave. Each employee earns leave based upon his or her term of service with the County earning 72 hours after the first year, 120 hours per year for 2-5 years of service, 144 hours per year for 6-10 years of service, 168 hours per year for 11-15 years of service, 192 hours per year for 16-20 years of service, 216 hours per year for 21-25 years of service, and 240 hours per year after 26 years of service. Annual leave must be used in the year it is earned. Any unused leave time will be forfeited at the end of the calendar year. Any employee with benefits, who has worked for one full year, leaving the County service due to resignation, death or termination, shall be compensated for vacation credit unused to the date of termination.

Employees in the County earn 8 days of sick leave per year and this can be accrued to an unlimited number. It is not paid to the employee upon separation of employment of the County.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

X. RISK MANAGEMENT (concluded)

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

On March 16, 2018, the County entered into an operating lease for a copier. The term of the lease is 60 months with a payment due of \$102.82 per month.

On March 22, 2018, the Recorder of Deeds entered into an operating lease for a copier. The term of the lease is 60 months with a payment due of \$100.11 per month.

XII. RESTATEMENT

The Shelter Fund and Surtax Fund have been reclassified to agency funds since that is a better representation of what they are and the money that flows through them is not retained within the County. The results of this reclassification decrease the beginning cash and investment balances by \$6,642.61. Details of this difference are represented below:

Cash and Investment Balances - as previously reported	\$ 7,326,266.03
Surtax balance reclassified	(6,642.61)
Shelter balance reclassified	(-)
Cash and Investment Balances - Restated	<u><u>\$ 7,319,623.42</u></u>

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Washington, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Washington ("County"), Missouri which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash and investment balances-budget and actual for the years then ended, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 12, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. [2017-001, 2017-002]

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Responses to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To The County Commission
The County of Washington, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Washington's ("County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2017, and 2016. The County's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the County's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2017, and 2016.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2017 AND 2016

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the “Schedule”) includes the federal award activity of the County of Washington under programs of the federal government for the years ended December 31, 2017, and 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Washington, it is not intended to and does not present the financial position, changes in net assets, or cash flows, of the County of Washington.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The County has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 – SUB-RECIPIENTS

The County provided federal awards to sub-recipients during the years ended December 31, 2017, and 2016. The sub-recipients are as follows:

<u>Program Title</u>	<u>Subrecipient</u>	<u>Federal</u> <u>CFDA</u> <u>Number</u>		<u>Amount</u> <u>Provided to</u> <u>Subrecipient</u>
Schools and Roads - Grants to States	Bourbon CR-1	10.665	2017	\$ 19,205.75
			2016	38,490.69
Schools and Roads - Grants to States	Valley R-6	10.665	2017	\$ 53,640.37
			2016	107,501.87
Schools and Roads – Grants to States	Potosi R-3	10.665	2017	\$ 41,405.22
			2016	82,981.15
	Total Provided to Subrecipients			<u>\$ 343,225.05</u>

6. Auditee qualified as low-risk auditee? 2017 Yes X No

2016 Yes X No

II. FINANCIAL STATEMENT FINDINGS

2017-001 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Sheriff's office.

Condition: We noted that bank reconciliations for the Sheriff's office were not being performed on all of the accounts. If they were being reconciled for the year ended December 31, 2016, they could not be found by the current Sheriff's administration.

Context: This deficiency became apparent through our testing of the Sheriff's cash accounts and the related reconciliations during the December 31, 2016 year.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Previous Management did not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Sheriff's office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.

Views of Responsible Officials and Planned Corrective Actions: The current Sheriff's (Zach Jacobsen) office has implemented reconciliations on all accounts and has ensured that all bank statements and reconciliations are kept for future reference. The completion date of this corrective action was already completed in early 2017. The phone number for the Sheriff's office is 573-438-5478.

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2017 AND 2016

II. FINANCIAL STATEMENT FINDINGS (Concluded)

2017-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit we noted that the Sheriff's office held a debit card for some time during the audit period for the auxiliary account without internal controls in place to review these transactions. The current Sheriff has subsequently destroyed this debit card.

Context: During discussions with management, we noted there was a debit card for the Sheriff's auxiliary bank account that was not monitored by the Commission or Treasurer's office. This was a practice of the previous Sheriff, and the current Sheriff removed the debit card as soon as he was aware of its existence.

Effect: Lack of internal control systems over this account could result in fraudulent purchases and bank overdrafts.

Cause: Previous Management had not implemented an internal control system over the Sheriff's auxiliary bank account and accompanying debit card.

Recommendation: We recommend that the County switch from a debit card to a credit card and place internal controls over the purchases the Sheriff makes through this auxiliary account.

Views of responsible officials and planned corrective actions: The current Sheriff's (Zach Jacobsen) office has implemented internal controls on this account and has eliminated the debit card. The completion date of this corrective action was already completed in early 2017. The phone number for the Sheriff's office is 573-438-5478.

Reporting, Special
Tests and Provisions

Significant Deficiency Federal Grantor: U.S. Department of Agriculture
Pass-Through Grantor: Office of Administration
Federal CFDA Number: 10.665
Program Title: School and Roads – Grants to States

Information on the federal program: The reporting and special tests and provisions requirements have not been met.

Criteria: OMB Circular A-133 requires the County to submit an annual certification of Title III expenditures and unobligated funds, to publish in any publication of local record a proposal that describes the proposed use of the county's funds, and to submit the proposal to any resource advisory committee for the participating county.

Condition: Through discussions with the County Clerk and County Treasurer, the road and bridge department submits cleanup detail to the County Treasurer; however, no one is submitting the annual certification information or publishing the proposed use of the County's funds.

Questioned Costs: Not applicable

Context: Through discussions with the County Clerk and County Treasurer, we discovered that the annual certification is not being submitted nor is the County's proposal published that describes the proposed use of the County's funds.

Effect: No controls over monitoring or federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: The County was not aware of these requirements.

Recommendation: We recommend that the Commission, Clerk and Treasurer review the A-133 compliance supplement along with grant agreements to ensure compliance with federal requirements.

Views of responsible officials and planned corrective actions: On March 7, 2016, the Washington County Commission met to discuss the single audit finding related to Washington County's election to receive Forest Service Secure Rural Schools Act Title III Funding. The Commission voted to continue to receive the Title III funding and to use the 2016 Forest Service Title III Funding for wildfire mitigation to the property of rural Washington County citizens by grading roads, trimming and removing brush located on the right-of-way county roads with graders, brush hogs, and hand crews. The Commission has corrected this finding and scheduled a public hearing related to the use of these funds and will publish a Public Notice to inform Washington County citizens of the same.

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

July 12, 2018

To the County Commissioners
The County of Washington, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Washington (the "County") as of and for the years ended December 31, 2017, and 2016, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiencies Considered to be Significant
- II. Information Required by Professional Standards
- III. Management Comments

The County's management has provided a written response to the findings in this report that were identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2017-001 Criteria: Bank reconciliations must be prepared monthly on a timely basis by the Sheriff's office.

Condition: We noted that bank reconciliations for the Sheriff's office were not being performed on all of the accounts. If they were being reconciled for the year ended December 31, 2016, they could not be found by the current Sheriff's administration.

Context: This deficiency became apparent through our testing of the Sheriff's cash accounts and the related reconciliations during the December 31, 2016 year.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Previous Management did not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Sheriff's office prepare monthly bank reconciliations and adjustments to the cash accounts at month end.

Views of Responsible Officials and Planned Corrective Actions: The current Sheriff's (Zach Jacobsen) office has implemented reconciliations on all accounts and has ensured that all bank statements and reconciliations are kept for future reference. The completion date of this corrective action was already completed in early 2017. The phone number for the Sheriff's office is 573-438-5478.

2017-002 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit we noted that the Sheriff's office held a debit card for some time during the audit period for the auxiliary account without internal controls in place to review these transactions. The current Sheriff has subsequently destroyed this debit card.

Context: During discussions with management, we noted there was a debit card for the Sheriff's auxiliary bank account that was not monitored by the Commission or Treasurer's office. This was a practice of the previous Sheriff and the current Sheriff removed the debit card as soon as he was aware of its existence.

Effect: Lack of internal control systems over this account could result in fraudulent purchases and bank overdrafts.

Cause: Previous Management had not implemented an internal control system over the Sheriff's auxiliary bank account and accompanying debit card.

Recommendation: We recommend that the County switch from a debit card to a credit card and place internal controls over the purchases the Sheriff makes through this auxiliary account.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Concluded)

2017-002 Views of responsible officials and planned corrective actions: The current Sheriff's (Zach Jacobsen) office has implemented internal controls on this account and has eliminated the debit card. The completion date of this corrective action was already completed in early 2017. The phone number for the Sheriff's office is 573-438-5478.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and Government Auditing Standards

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards and the Uniform Guidance*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 30, 2018. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2017 fiscal year. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 12, 2018.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the County’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report the schedule of expenditure of federal awards, which accompanies the financial statements but is not RSI (required supplementary information). With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

Nicole Galloway, CPA

**Crime Victims' Compensation System
Data Security**

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the Audit of Crime Victims' Compensation System Data Security

Data Governance	The Department of Public Safety (DPS) has not established a comprehensive data governance program for the Crime Victims' Compensation (CVC) system. The DPS has not (1) formally established an information technology steering committee to oversee the operations of the CVC system; (2) documented certain existing policies and procedures; (3) fully established a security plan on which department-wide security policies, standards, and procedures can be formulated, implemented, or monitored; (4) completed and documented a formal risk assessment for the CVC system, and (5) established a formal security and privacy awareness training program specifically designed for the CVC system. In addition, the DPS does not have sufficient controls in place to ensure integrity of data and information within the CVC system and to prevent multiple users from editing a single record concurrently.
User Account Management	DPS management has not fully established controls for the creation and maintenance of user accounts for accessing the CVC system. The DPS has not formally documented policies and procedures for requesting, establishing, and maintaining user access to data and other system resources. As of January 2018, one active system account used to convert data from legacy systems into the CVC system remained active when access was no longer required. DPS management has not adequately segregated incompatible functions within the CVC system and has not established controls to limit or detect concurrent access to the CVC system.
System Controls	The DPS does not have adequate controls and procedures to ensure all program activity is properly recorded in the CVC system. The CVC system does not have sufficient logging functionality. The DPS has not established effective controls to ensure system output is complete, accurate, and distributed properly.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Charles A. (Drew) Juden, Director
Department of Public Safety
Jefferson City, Missouri

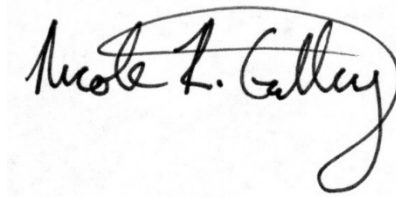

We have audited certain internal controls, including security controls, designed to protect data and information maintained by the Department of Public Safety, Crime Victims' Compensation system. This audit was conducted in fulfillment of our duties under Chapter 29, RSMo. The objectives of our audit were to:

1. Evaluate the system's internal controls over significant management and financial functions.
2. Evaluate compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and information system control activities.
4. Evaluate the security and privacy controls designed to ensure the confidentiality, integrity, and availability of data and information maintained in the system.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, (3) the need for improvement in management practices and information control activities, and (4) the need to fully establish certain security and privacy controls. The accompanying Management Advisory Report presents our findings arising from our audit of Crime Victims' Compensation System Data Security.

An additional audit of Crime Victims' Compensation System Data Analytics is still in process, and any additional findings and recommendations will be included in that report.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The initials "R." are written in a smaller, more compact script between the first and last names.

Audit Staff:	Kent Aaron Dauderman, M.Acct., CPA

Crime Victims' Compensation System Data Security

Introduction

Background

The Missouri Crime Victims' Compensation (CVC) Program is designed to financially assist victims who have sustained bodily or psychological injury in paying for reasonable medical expenses, counseling expenses, funeral expenses, and lost wages or loss of support incurred as a result of being a victim of a crime. The CVC Program is a payor of last resort that pays for financial losses not covered by other sources, such as insurance, worker's compensation, or restitution from the offender.

The CVC Program was established in 1981 under the administration of the Department of Labor and Industrial Relations, Division of Worker's Compensation. By Executive Order 07-07, the program was transferred to the control of the Department of Public Safety (DPS), effective August 28, 2007. The CVC Program is in the DPS Office of the Director.

The current CVC computer system was custom-developed for the state by a third-party contractor and replaced legacy computer systems supporting the program. The department placed the current system into operation in April 2016. Ongoing technical support for the CVC system, including security guidance, the operating environment, and other services is provided by the Office of Administration - Information Technology Services Division (ITSD). In addition to the CVC Program, the computer system also supports the operations of the Sexual Assault Forensic Examination (SAFE) Program and the Child Physical Abuse Forensic Examination (CPAFE) Program.

The Government Accountability Office (GAO) has included the security of information systems, including the protection of Personally Identifiable Information (PII), in the office's High-Risk List since 1997.¹ Technological advances, such as lower data storage costs and increasing interconnectivity, have allowed both government and private sector agencies to collect and process extensive amounts of PII more effectively. Risks to PII can originate from unintentional and intentional threats. These risks include insider threats from careless, disgruntled, or improperly trained employees and contractors; the ease of obtaining and using hacking tools; and the emergence of more destructive attacks and data thefts.

Technology advances, combined with the increasing sophistication of individuals or groups with malicious intent, have increased the risk of PII being compromised and exposed. Correspondingly, the number of reported security incidents involving PII in both the private and public sectors has increased dramatically in recent years. At the same time, state agencies are increasingly reliant on technology and information sharing to interact with

¹ Report GAO-17-317 *Report to Congressional Committees, High Risk Series: Progress on Many High-Risk Areas, While Substantial Efforts Needed on Others*, February 2017, is available at <<http://www.gao.gov/assets/690/682765.pdf>>.

Crime Victims' Compensation System Data Security Introduction

citizens and to deliver essential services. As a result, the need to protect information, including PII, against cybersecurity attacks is increasingly important.

According to accepted standards, security controls are the management, operational, and technical safeguards or countermeasures prescribed for an information system to protect the confidentiality, integrity, and availability of the system and its information. Confidentiality refers to preserving authorized restrictions on information access and disclosure, including the means for protecting personal privacy and proprietary information. Integrity relates to guarding against improper information modification or destruction, and availability ensures timely and reliable access to and use of information. Effective privacy controls depend on the safeguards employed within the information system that is processing, storing, and transmitting PII and the environment in which the system operates. Organizations cannot have effective privacy without a basic foundation of information security. Without proper safeguards and controls, information systems and confidential data are vulnerable to individuals with malicious intentions who can use access to obtain sensitive data or disrupt operations.

The National Institute of Standards and Technology (NIST) defines cybersecurity as the process of protecting information by preventing, detecting, and responding to attacks² while ISACA³ states cybersecurity encompasses all that protects enterprises and individuals from intentional attacks, breaches, and incidents as well as the consequences.⁴ Cybersecurity should be aligned with all other aspects of information security, including governance, management, and assurance. The state of being secure requires maintenance and continuous improvement to meet the needs of stakeholders and the demands of emerging cyber threats.

Program funding

The CVC system processes claims for program expenditures from the following funds:

- The Crime Victims' Compensation Federal Fund was established to account for federal monies maintained in the state treasury for the use of the CVC Program. These funds may be received in advance, when related expenditures are made, or after related expenditures are made. Appropriations from this fund authorize disbursements for crime victims' payments.

² National Institute of Standards and Technology, *Framework for Improving Critical Infrastructure Cybersecurity*, Version 1.1, April 2018, is available at <https://nvlpubs.nist.gov/nistpubs/CSWP/NIST.CSWP.04162018.pdf>, page 45.

³ Previously known as the Information Systems Audit and Control Association.

⁴ ISACA, *Transforming Cybersecurity: Using COBIT 5*, 2013, page 11.

Crime Victims' Compensation System Data Security Introduction

- The Crime Victims' Compensation Fund was established to award compensation to, or on behalf of, victims of crimes. Appropriations from this fund authorize payments directly to the provider of services for medical or funeral expenses, or expenses for other services as allowed as a payor of last resort for the victim. Other appropriations from this fund pay expenses of the SAFE Program, the statewide crime victim notification system, court automation, and the Office for Victims of Crime. These appropriations are not part of the CVC Program.
- The General Revenue Fund is used for expenditures of the CPAFE Program and other expenditures of the SAFE Program.

Victims may file a claim for payment from the CVC Program for up to 2 years after the date of the crime. The CVC Program reimburses a maximum of \$25,000 per claim for crime-related expenses. Some benefit categories have lower limits, which are also included in the \$25,000 maximum payout,⁵ as follows:

- \$400 per week for lost wages
- \$5,000 for funeral expenses
- \$2,500 for counseling expenses
- \$250 for personal property (such as clothing or bedding) seized by law enforcement as evidence of the crime
- Attorney's fees, up to 15 percent of the total award

The primary funding source for the CVC Program is a surcharge of \$7.50 assessed as costs on all criminal cases. For all courts, except municipal courts, the fee is collected and the entire amount is remitted to the Department of Revenue (DOR). The first \$250,000 collected each fiscal year is deposited to the State Forensic Laboratory Fund. Next, funds are allocated for payments associated with the administrative and operational costs of the Office for Victims of Crime and for the operation of the statewide automated crime victim notification system. Remaining funds are deposited equally to the Crime Victims' Compensation Fund and the Services to Victims Fund. Only the funds deposited to the Crime Victims' Compensation Fund are available to pay the expenses of the CVC Program. Receipts deposited to other funds are used for the purposes of the respective funds.

For surcharges assessed against municipal court cases, the municipality is allowed to retain 5 percent of the collections. The remaining 95 percent of collections is remitted to the DOR, where it is deposited equally between the Crime Victims' Compensation Fund and the Services to Victims Fund.⁶

⁵ Sections 595.025 and 595.030, RSMo.

⁶ Section 595.045, RSMo.

Crime Victims' Compensation System Data Security Introduction

In addition, except in cases of certain specified crimes, each case in which a plea of guilty or a finding of guilt is made, a judgement must be entered against the defendant in the amount of \$68 (for a class A or B felony), \$46 (for a class C or D felony), or \$10 (for a misdemeanor), to be deposited into the Crime Victims' Compensation Fund.

The Crime Victims' Compensation Fund is also allowed to retain interest earnings on the monies in the fund and to receive gifts and contributions for the benefit of victims.

Program payments

Total claims processed through the CVC computer system from the Crime Victims' Compensation Federal Fund and the Crime Victims' Compensation Fund related to the CVC Program during state fiscal years 2013 through 2018 are presented in Figure 1.

Figure 1: CVC Claims Paid by Fiscal Year

Source: Data from the state's accounting system (SAM II).

Crime Victims' Compensation System Data Security Introduction

Total claims processed through the CVC computer system from the Crime Victims' Compensation Federal Fund and the General Revenue Fund related to the SAFE Program during state fiscal years 2013 through 2018 are presented in Figure 2.

Figure 2: SAFE Claims Paid by Fiscal Year

Source: Data from the state's accounting system (SAM II).

Crime Victims' Compensation System Data Security Introduction

Total claims processed through the CVC computer system from the General Revenue Fund related to the CPAFE Program during state fiscal years 2013 through 2018 are presented in Figure 3. The CPAFE Program was created in fiscal year 2015, with the first expenditures occurring in fiscal year 2016.

Figure 3: CPAFE Expenditures by Fiscal Year

Source: Data from the state's accounting system (SAM II).

Scope and Methodology

The scope of our audit included DPS management's approach to and management of the CVC system, including information security, privacy, and other relevant internal controls; policies and procedures; and other management functions and compliance issues in place during the period April 2016 (when the system was implemented) to June 2018.

Our methodology included reviewing written policies and procedures, and interviewing various DPS personnel. We obtained an understanding of the data governance approach and applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Crime Victims' Compensation System Data Security Introduction

We obtained the employment records of all state employees for fiscal years 2001 to 2018 from the statewide accounting system for human resources. We matched these records to the CVC user account records to determine if any terminated employees had active accounts. We identified no terminated state employees with active accounts. Although we used computer-processed data from the human resources system for our audit work, we did not rely on the results of any processes performed by this system in arriving at our conclusions. Our conclusions were based on our review of the issues specific to the audit objectives.

We based our evaluation on accepted state, federal, and international standards and best practices related to information technology security and privacy controls from the following sources:

- Office of Administration - Information Technology Services Division (ITSD)
- National Institute of Standards and Technology (NIST)
- U. S. Government Accountability Office (GAO)
- ISACA (previously known as the Information Systems Audit and Control Association)

Crime Victims' Compensation System Data Security

Management Advisory Report

State Auditor's Findings

1. Data Governance

The Department of Public Safety (DPS) has not established a comprehensive data governance program for the Crime Victims' Compensation (CVC) system. As a result, there is less assurance the data management and protection procedures in place are effective in reducing data privacy and security risks due to unauthorized access or misuse of data.

Data governance is defined as an organizational approach to data and information management that is formalized as a set of policies and procedures encompassing the full life cycle of data, from acquisition to use to disposal. It includes establishing policies, procedures, and standards regarding data security and privacy protection, data inventories, content and records management, data quality control, data access, data security and risk management, and data sharing and dissemination, as well as ongoing compliance monitoring of all the above-mentioned activities. By clearly establishing policies, standard procedures, responsibilities, and controls for data activities, a data governance program helps ensure the confidentiality, integrity, and availability of the CVC system.

The responsibility for data governance is shared between the DPS, the system owner; and the Office of Administration - Information Technology Services Division (ITSD), who provides technical support. As system owner, the DPS is responsible for ensuring the system is operating in a secure manner.

1.1 Steering committee

The DPS has not formally established an information technology (IT) steering committee to oversee the operations of the CVC system.

According to the National Institute of Standards and Technology (NIST), it is imperative that leaders and managers at all levels understand their responsibilities and are held accountable for managing information security risk—that is, the risk associated with the operation and use of information systems that support the missions and business functions of their organizations.

In order to carry out this objective, entities should establish an IT steering committee composed of executive, business, and IT management to determine prioritization of IT related projects in line with the enterprise's business strategy and priorities; track status of projects and resolve resource conflicts; and monitor service levels and service improvements, according to accepted standards.

An IT steering committee would take on responsibility for many of the additional tasks discussed throughout this finding. According to management, the DPS has relied on an informal group of CVC system users to fulfill limited steering committee responsibilities.

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

Without an effective IT steering committee, there is decreased assurance DPS management is effectively designing, implementing, and monitoring controls over the CVC system.

1.2 Policies and procedures

The DPS has not documented certain existing policies and procedures, including those to:

- Formalize ownership of and responsibility for the CVC system.
- Ensure claims are input and processed by the CVC system completely and correctly, including corrections to data as necessary, and that system output accurately reflects such processing.
- Formally establish frameworks necessary to guide and support system security, such as data definitions and classifications, control architecture, periodic reviews of controls, and monitoring procedures.
- Describe procedures to grant, monitor, and remove user accounts, including system, super-user, and emergency accounts.
- Ensure department personnel are aware of expectations and system requirements and that personnel are adequately trained and supervised.

We confirmed the existence of these informal policies and procedures through discussions held with DPS management, who indicated they did not realize the need to formalize these items.

According to accepted standards, documentation of all aspects of computer support and operations is important to ensure continuity and consistency. Formalizing operational practices and procedures with sufficient detail helps to eliminate security lapses and oversights, gives new personnel sufficiently detailed instructions, and provides a quality assurance function to help ensure that operations will be performed correctly and efficiently.

Without documented and approved policies and procedures, management may not have assurance that control activities are appropriate and properly applied.

1.3 Security plan

The DPS had not fully established a security plan on which department-wide security policies, standards, and procedures can be formulated, implemented, or monitored.

An entity-wide information security plan is the foundation of a security control structure and a reflection of senior management's commitment to addressing security risks. The security plan should establish a framework and continuous cycle of activity for assessing risk, developing and implementing effective security procedures, and monitoring the effectiveness of these procedures. Implementing an information security plan is essential to ensuring controls over information and information systems work effectively

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

on a continuing basis, according to the Government Accountability Office (GAO).

DPS management indicated they were unaware of the need to complete a security plan and thought the ITSD was responsible for this task. While the ITSD has made available the Missouri Adaptive Enterprise Architecture (MAEA) for consolidated agencies to use as guidance when developing a security plan, the MAEA does not constitute an actual plan for agencies to implement.

Specific plan components missing from the informal CVC security plan include:

- The formal designation of a security administrator responsible for the CVC system with adequate independence, expertise, and authority to define and communicate security procedures and rules of behavior.
- Designation of a framework to be used to formulate, implement, and monitor security policies and procedures.
- Procedures to periodically review and update security practices.

Other components that should be included in the security plan include risk assessments (see section 1.4), security training (see section 1.5), user account management (see Management Advisory Report (MAR) finding number 2), and security logging (see MAR finding number 3).

Until DPS management fully implements a security plan and takes steps to fully develop the necessary policies and controls to correct or mitigate information security control weaknesses, the DPS will have limited assurance that sensitive information and systems are adequately protected.

1.4 Risk assessment

The DPS has not completed and documented a formal risk assessment for the CVC system.

Accepted standards state organizations should develop, document, and implement an information security program that includes periodic assessments of the risk and magnitude of harm that could result from the unauthorized access, use, disclosure, disruption, modification, or destruction of information or information systems. A risk assessment is necessary to identify potential threats, identify vulnerabilities in systems, determine the likelihood that a particular threat may exploit vulnerabilities, and assess the resulting impact on the organization's mission, including the effect on sensitive and critical systems and data, according to accepted standards. Risk assessments should include essential elements such as discussion of threats, vulnerabilities, impact, risk model, and likelihood of occurrence, and be updated using the results from ongoing monitoring of risk factors. Only after a risk assessment has been performed can an entity take actions to mitigate

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

the risks identified, including performance of a cost-benefit analysis and development of an action plan to address risks, according to the MAEA.

While DPS personnel have performed informal risk assessment procedures, a comprehensive risk assessment has not been performed. They indicated a comprehensive risk assessment has not been performed for the CVC system because department management was unaware of the need to perform such an assessment. As such, risk assessment procedures that have been completed have been ad-hoc rather than a comprehensive plan to address risks inherent to the system. Consequently, the department has been unable to formally develop a plan to evaluate, prioritize, and remediate risks to an acceptable level.

Since risks and threats change over time, the results of risk assessments should be documented to ensure an appropriate action plan is developed to limit vulnerabilities and to reduce risk to an acceptable level. The risk assessment should also be performed periodically and revised as necessary whenever there is a change in the entity's operations, according to the GAO.

Without a risk assessment program, DPS management does not have assurance appropriate controls are in place to reduce risks of threats and vulnerabilities to an acceptable level.

1.5 Continuing training

The DPS has not established a formal security and privacy awareness training program specifically designed for the CVC system. As organizations implement more powerful information systems and become more reliant on electronic data, proactive security awareness programs become a priority. Uninformed users are a major threat to data security in organizations.

According to accepted standards, the purpose of security awareness, training, and education is to enhance security by (1) raising awareness of the need to protect system resources; (2) developing skills and knowledge so system users can perform their jobs more securely; and (3) building in-depth knowledge as needed to design, implement, or operate security programs for organizations and systems.

Making computer system users aware of their security responsibilities and teaching them correct practices helps users change their behavior. Awareness training also supports individual accountability, which is one of the most important ways to improve information security. With proper security and privacy awareness training and clear communication of data and device use policies, employees can become the first line of defense against cybersecurity incidents. However, without adequate training, users may not understand system security risks and their role in implementing related policies and controls to mitigate those risks.

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

DPS management indicated employees participate in the ITSD's statewide information security awareness program. However, the ITSD program only covers general security and privacy controls and is not specific to the CVC system. As such, additional training is needed for DPS staff regarding specific security requirements of the CVC system and program.

1.6 Data integrity

The DPS does not have sufficient controls in place to ensure integrity of data and information within the CVC system and to prevent multiple users from editing a single record concurrently.

Data integrity exists when data agrees with its source and has not been accidentally or maliciously modified, altered or destroyed, according to accepted standards. Integrity is lost if unauthorized changes are made to the data or system by either intentional or accidental acts. If the loss of system or data integrity is not corrected, continued use of the contaminated system or corrupted data could result in inaccurate data, fraud, or erroneous decisions. DPS staff indicated they monitored data integrity during the conversion from the legacy CVC systems to the current system; however, that control has not continued and procedures to ensure the continued integrity of data have not been established.

In addition, a record-locking control to prevent two users from simultaneously editing the same record in the CVC system is not in place. A record-locking control allows only one user to modify a record at any given time in order to prevent incompatible edits and preserve data integrity. If a record-locking control is not in place, a user is not restricted from making changes to a record while another user is accessing the same record, which increases the risk of inaccurate transaction records as well as any associated reports. According to DPS management, concurrent updating had not been considered until we discussed the issue with them. Establishing a record-locking control requires working in conjunction with the ITSD to develop a system enhancement.

According to accepted standards, data integrity management requires an organization to define and document policies and procedures to ensure integrity and consistency of data. This process improves the quality of management decision-making by helping to ensure reliable and secure information is provided.

Conclusion

Without fully establishing a data governance program in coordination with all responsible entities, management faces an increased risk that security and privacy controls will not be effective or operate as designed, leaving the CVC system more vulnerable to threats and impacting the confidentiality, integrity, and availability of CVC Program data.

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

Recommendations

The DPS:

- 1.1 Form an IT steering committee to oversee the management and operation of the CVC system.
- 1.2 Fully document and periodically review policies and procedures.
- 1.3 Fully develop and document a formal security plan for the CVC system.
- 1.4 Design and implement a formal risk assessment process that includes policies, standards, and procedures for performing periodic risk assessments and for reducing risk to an acceptable level.
- 1.5 Establish a formal security and privacy awareness training program for the CVC system.
- 1.6 Develop and document formal procedures for monitoring and maintaining the integrity of data stored in the CVC system. In addition, work with the ITSD to establish a record-locking control for preventing concurrent editing.

Auditee's Response

- 1.1 *The DPS has maintained an informal committee regarding management and operations of the CVC computer system since the system launched in 2016. During this audit, the DPS formulated a plan to formalize a steering committee for the CVC system. This plan also creates an Information Technology Systems Analyst (ITSA) position, which the DPS filled in April 2018. The ITSA will lead the creation of written processes and lead quarterly committee meetings. The DPS will establish a formal steering committee by October 1, 2018.*
- 1.2 *The DPS has recognized the need to better document its policies and procedures. It began revamping its policies and procedures manual in the spring of 2018, and this process is ongoing. After completion, the document will be reviewed periodically for compliance with changes in regulations and practice. Additionally system specific policies and procedures are scheduled to be developed in conjunction with the security plan.*
- 1.3 *The DPS recognizes the value of a formal security plan for the CVC system. The ITSA along with the ITSD, has been directed to create a security plan following completion of the CVC system risk assessment. This plan will designate the ITSA as the security administrator. The security plan will include a periodic review timetable and a framework to monitor security procedures.*

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

- 1.4 *The DPS has maintained informal risk assessment procedures since launching the current CVC computer system in 2016. During this audit, the DPS created a plan to formalize these risk assessment procedures in order to evaluate, prioritize, and remediate risks inherent to the CVC system. As noted above, the DPS hired an ITSA in April 2018, who will lead the creation of written risk assessments and the mitigation of threats.*
- 1.5 *The DPS is eager to further educate our staff on general security and privacy controls provided by the ITSD, including security and privacy controls specific to the CVC system. Upon completion of the policy manual revision, the DPS will implement a training program that includes risk assessment security, user account management, PII safeguard, and other appropriate subjects.*
- 1.6 *The DPS recognizes the value of formally reviewing data integrity through controls of the CVC system. Your rigorous testing has helped the DPS identify areas for potential improvement. The ITSA, DPS, and ITSD are partnering to improve and limit the risk of modifications to the CVC system. The DPS has requested the ITSD's assistance on improving the CVC system's data integrity, including potentially implementing the suggested record locking capabilities.*

2. User Account Management

DPS management has not fully established controls for the creation and maintenance of user accounts for accessing the CVC system. Existing procedures for granting user access to the CVC system need to be strengthened and documented. Accounts used for support purposes were not removed once no longer required, and inactive accounts were allowed to remain in the user listing. In addition, security roles available to users are not restricted to only those functions necessary to do assigned jobs; roles with super-user capabilities were assigned to system support staff; and controls have not been established to restrict users from accessing the system from multiple locations concurrently.

2.1 Account requests

The DPS has not formally documented policies and procedures for requesting, establishing, and maintaining user access to data and other system resources. Additionally, a standard user access request form is not used to document the request and approval process.

User account control activities include requesting, establishing, issuing, suspending, modifying, closing, and periodically reviewing user accounts and related user privileges, according to accepted standards. To adequately control accounts, an organization should establish policies and procedures for authorizing and maintaining all user accounts, including system administrators. These policies and procedures should cover user access needed for routine operations, emergency access, and the sharing and

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

disposition of data with individuals or groups outside the organization. DPS management indicated they were unsure why such policies and procedures had not been established.

Accepted standards also require access authorizations to be documented on standard forms and approved by resource owners, and listings of authorized users to be maintained. A formal process for transmitting these authorizations should be established to reduce the risk of mishandling, alterations, and misunderstandings.

Without appropriate account access policies and procedures, users may be granted inappropriate or unauthorized access, which can provide opportunities for misuse or inappropriate disclosure of sensitive data.

2.2 User account issues

As of January 2018, one active system account used to convert data from the legacy systems into the CVC system remained active when access was no longer required. We discussed this account with DPS management in April 2018, and the account was disabled in May 2018. DPS management indicated this error went undetected because their review of users focused only on DPS employees, and not system accounts.

As of January 2018, 69 inactive user accounts existed in the CVC system user listing. These accounts are assigned to users who no longer need access to the CVC system as part of their job duties or who had left employment. DPS management indicated these accounts are assigned to inactive status rather than being deleted to preserve the integrity of system logs. However, these accounts could accidentally or maliciously be reactivated, allowing users to regain their access to the CVC system. This weakness is especially critical given that most of these accounts belong to ITSD employees who, although no longer working on the CVC system, are still state employees working on other projects. If one of these user account was reactivated, the user could inappropriately regain access to the CVC system.

After we discussed this issue with DPS management, they created a new role within the system that is not assigned any actual access rights. All inactive user accounts were assigned to this role, meaning that even if the accounts were to be accidentally reactivated, users could not access any information in the system without also changing the role.

Without effective procedures to remove access, terminated employees and system accounts that are no longer required could continue to have access to critical or sensitive resources or have opportunities to sabotage or otherwise impair entity operations or assets, according to the GAO.

2.3 Segregation of duties

DPS management has not adequately segregated incompatible functions within the CVC system.

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

We found certain access roles allowed users to perform incompatible functions. For example, four different access roles allow user accounts the ability to create, update, and approve claims; approve or deny the payment of a claim; delete a claim; edit reference tables; and modify system reference tables. One of these four roles was assigned to multiple ITSD support personnel, who had complete access to every portion of the CVC system. Additionally, we found two roles with identical access rights to the system, which can cause additional administrative burden. DPS management could not explain why the roles were assigned in this manner.

Inadequately segregated duties increase the risk that erroneous or fraudulent transactions could be processed, that improper program changes could be implemented, and that computer resources could be damaged or destroyed, according to the GAO.

2.4 Concurrent access

The DPS has not established controls to limit or detect concurrent access to the CVC system.

Concurrent session controls prevent a single user from accessing an information system from more than a specified number of locations at any given time. These controls help prevent unauthorized users from accessing the system by masquerading as an authorized user. DPS management was unaware of the need to limit concurrent access.

According to accepted standards, the number of concurrent sessions for a user should be limited. Without limiting or detecting access from multiple locations at the same time, management may not be able to ensure the confidentiality, integrity, and availability of data and the system.

Recommendations

The DPS:

- 2.1 Fully establish and document formal policies and procedures, including requiring standard forms, for requesting, approving, and maintaining access to the CVC system.
- 2.2 Periodically review user accounts to ensure access that is no longer necessary is removed timely.
- 2.3 Perform a comprehensive review of the CVC user access roles to ensure incompatible functions are identified and properly segregated.
- 2.4 Manage and monitor the number of concurrent sessions for a single user.

Auditee's Response

- 2.1 *The DPS has maintained an informal process for requesting and removing user access in the CVC system. This system required*

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

supervisor approval for changes in user access status, and used ITSD records as documentation of these changes. Following this audit, the DPS will formalize the process as described in this recommendation. The ITSA will lead these changes, which will be included in the DPS's written policies and procedures.

- 2.2 *The DPS concurs in the need for periodic review of user accounts, including a formal process and timetable. The ITSA has been tasked with developing new procedures to ensure that the right level of access is provided to user accounts, including a biannual review of roles access to minimize user privileges.*
- 2.3 *The DPS concurs in this recommendation. The ITSA will initiate development of a formal process and timetable to accomplish this recommendation. This will include development of user- and role-based access to CVC systems, and a biannual review of roles access to minimize user privileges. After development, these processes will be included in the DPS's written policies and procedures.*
- 2.4 *The DPS recognizes the concerns regarding concurrent access of the CVC system. These concerns are limited as the CVC system is only accessible within the state network with state credentials monitored by ITSD. The ITSA, DPS, and ITSD will meet to discuss limiting the risk of concurrent sessions in the CVC system and the feasibility of implementing this recommendation.*

3. System Controls

The DPS does not have adequate controls and procedures to ensure all program activity is properly recorded in the CVC system. The system does not sufficiently log certain events and does not provide appropriate reports or data to account for system output.

3.1 System logs

The CVC system does not have sufficient logging functionality. In addition, the current logging functionality does not record all necessary details for monitoring certain document processing and security-related activities.

The CVC system is accessed via the state's internal computer network. Access to the system is controlled via the ITSD's consolidated network security application. Accordingly, many security events, such as network logon are recorded in the logs maintained by the ITSD and are not subject to logging within the CVC application itself.

The CVC system contains event logging functionality within the claim processing component of the application. However, this log only writes records when documents are uploaded to the application and when the system generates documents to be sent to the claimant. If a user were to delete an uploaded document or modify the underlying claim, that activity is not

Crime Victims' Compensation System Data Security Management Advisory Report - State Auditor's Findings

logged. Additional items not logged include system-specific security functionality such as changes in what roles a user is assigned to, changes in what system functionality a role grants access to, or modifications to the logs themselves. This enhanced logging functionality is not currently available in the CVC system. DPS management indicated they relied on the ITSD for logging and were not aware of the limited CVC system logging functionality. They agreed the logging functions should be reviewed and improved if they added value.

Without an effective method to identify, log, and monitor significant security-relevant events, management faces an increased risk that unauthorized or inappropriate system activity may not be detected.

3.2 Output controls

The DPS has not established effective controls to ensure system output is complete, accurate, and distributed properly.

When a claim is approved for payment in the CVC system, several steps must be completed to distribute the payment to the claimant. An automated interface sends a check request to the state's accounting system, which causes a check to be printed and returned to the department. The CVC system also generates printed letters to the claimant and produces various electronic reports available to authorized users. This daily activity is summarized into various monthly, quarterly, and annual reports.

The DPS currently relies on manual controls to ensure output is complete and accurate. For instance, staff manually match checks generated by the accounting system to letters generated by the CVC system. However, this procedure would fail to detect instances where both a check and a letter were not created, or where the documents may have been intercepted or tampered with.

DPS management told us they believe the manual controls currently in place are sufficient to control system output. The manual procedures used by DPS staff to reconcile various reports at the end of each month would detect if the reports were out of balance. However this procedure could be enhanced by making it an automated alert that compares data daily, detecting errors or issues more timely.

Without effective output controls, the DPS is at increased risk that inaccurate payments, whether caused by system errors or malfeasance, could occur and not be detected timely.

Crime Victims' Compensation System Data Security
Management Advisory Report - State Auditor's Findings

Recommendations

The DPS:

- 3.1 Work with the ITSD to determine what application-level security events and incidents should be logged and monitored and develop such functionality.
- 3.2 Implement more effective controls over CVC system outputs.

Auditee's Response

- 3.1 *The DPS concurs that there is value in reviewing the logging functions to determine if there is an opportunity to add value through change in functionality. Testing has discovered some areas of improvement. The DPS will work with the ITSD to enhance the CVC system's logging capabilities.*
- 3.2 *At this time, the manual controls currently in place for the CVC system are sufficient for the needs of the program. Physical checks issued by the state's SAM II payment system are matched with letters prepared by the CVC computer system. These independent systems provide safeguards that guard against waste, fraud, and abuse.*

Office of Missouri State Auditor
Nicole Galloway, CPA

Scott County

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Scott County

Election Services Fund Transactions	County officials made disbursements from the Election Services Fund that are questionable or improper based on the statutorily intended purpose of the fund.
Sheriff's Controls and Procedures	The Sheriff does not have proper controls and procedures in place to ensure collection and transmittal of amounts billed and received for boarding of prisoners. The Sheriff has not entered into written agreements with the surrounding counties and cities for the boarding of prisoners. The Sheriff does not have adequate procedures to ensure all inmate monies are refunded upon release.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney does not prepare monthly lists of liabilities for the office's 2 bank accounts and consequently, liabilities are not agreed to the reconciled bank balances. The Prosecuting Attorney has not established procedures to routinely follow up on outstanding checks for the 2 restitution accounts.
Passwords	The County Collector, County Treasurer, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data as required by the county's personnel policy.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	11
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Scott County

We have audited certain operations of Scott County in fulfillment of our duties under Section 29.230, RSMo. In addition, Daniel Jones and Associates, Certified Public Accountants, has been engaged to audit the financial statements of Scott County for the 2 years ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017. The objectives of our audit were to:

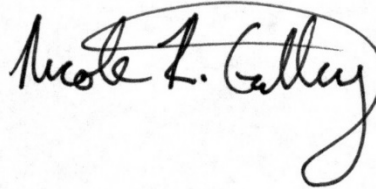

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Scott County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Scott County Management Advisory Report State Auditor's Findings

1. Election Services Fund Transactions

County officials made disbursements from the Election Services Fund (ESF) that are questionable or improper based on the statutorily intended purpose of the fund.

The statutory purpose of the ESF is to provide funding for training programs and the purchase of supplies or equipment to improve the conduct of elections. Fund revenue includes a 5 percent fee assessed on election billings and certain reimbursements from the Missouri Secretary of State's Office. We reviewed the use of the ESF in 2016 and 2017 and identified the following questionable disbursements.

- Missouri Association of Counties conference fees and related expenses totaling \$1,641 for meals, lodging, and mileage reimbursements during 2016 and 2017. For the 4 conferences attended, the conference agendas provided by the County Clerk indicated only one hour of training was related to conducting elections.

We also identified several unallowable disbursements.

- The purchase of 200 solar eclipse sunglasses costing \$400 in 2017. The County Clerk indicated the sunglasses were for use by election workers and county employees. The solar eclipse event occurred on August 21, 2017, but no elections were held on this date.
- An appreciation banquet for election workers costing \$2,021 in 2016. The costs included food, a banquet hall rental, and supplies.
- A disbursement of \$250 to an organization to display 6 American flags in front of the county courthouse on select holidays during 2017.

Section 115.065.4, RSMo, states "The election services fund shall be used by the election authority for training programs and purchase of additional supplies or equipment to improve the conduct of elections, including anything necessarily pertaining thereto."

Costs paid by the fund should be clearly related to the uses allowed by state law and documentation should be retained to demonstrate the disbursements comply with statutory restrictions.

Recommendation

The County Clerk and County Commission ensure the Election Services Fund is used for purposes intended by state law, and retain documentation showing compliance with state law. In addition, the Election Services Fund should be reimbursed for the questionable and unallowable disbursements.

Scott County
Management Advisory Report - State Auditor's Findings

Auditee's Response

The County Clerk provided the following response:

Missouri Association of Counties conference fees and related expenses totaling \$1,641 for meals, lodging and mileage during 2016 and 2017: I attend these meetings to listen to speakers discuss election issues. County Clerks/Election Authorities meet and discuss the changes in the laws concerning elections. Plus vendors are there demonstrating the latest election equipment available.

The purchase of 200 solar eclipse sunglasses costing \$400 in 2017 for use by election workers and county employees. The solar eclipse event occurred on August 21, 2017, but no elections were held on this date: I purchased the glasses because they were sold out everywhere around the county and various judges and employees asked if I could find some. I purchased them because I felt the safety of the election judges and employees was very important.

An appreciation banquet for election workers costing \$2,021 in 2016. The costs included food, a banquet hall rental, and supplies: I wanted to thank the men and women for their hard work they do for the elections in Scott County. The banquet was held after all of the elections in 2016 so everyone could enjoy each other's company, visit and get to know each other in a more relaxed atmosphere than on election day. Election Judges are moved to other precincts sometimes, so this banquet also gave them a chance to meet others that they may work with on Election Day. Elections could not be held if it wasn't for these men and women working these long hard days. This is definitely 100% election related because they discussed working at the polls on Election Day.

A disbursement of \$250 for the display of 6 American Flags in front of the County Courthouse on select holidays during 2017: I paid from the Election Services Fund because I believe the flags stand out and remind people of their freedom to vote.

I paid for the above items from the Election Services Fund because I feel the expenditures were election related. In 2016, \$8,083 was receipted in the Election Services Fund and in 2017, \$5,873.95. This money came from the state, interest earned and the General Revenue Fund. I stand behind my decisions of purchases and believe they are all election related.

As stated in the above paragraphs, I feel the disbursements do follow the law and with the revenues already received in this fund, why transfer more? In the future just like in the past, all expenditures paid from the Election Services Fund will be election related and the invoices will show that. I respect the State Auditor's Office and have always followed their recommendations and will continue to do so if necessary.

Scott County
Management Advisory Report - State Auditor's Findings

The County Commission provided the following response:

Missouri Association of Counties conference voting issues are always an agenda item, plus latest equipment and possible upgrades to our current equipment are displayed and operated.

Solar Eclipse was a once in a lifetime phenomenon. Election workers and employees alike were going to view just like all Missourians. For the safety of all, glasses were purchased.

Appreciation Luncheon is a small act of appreciation from Scott County for a long day of service to the voting public.

Flags purchased are a symbol of voter freedom.

We will continue to ensure the Election Services Fund is used for purposes intended by state law, and retain documentation showing compliance with state law. We will not transfer money to the Election Services Fund at this time, due to our above responses and General Revenue Fund has already transferred the required 5 percent into the fund.

Auditor's Comment

The disbursements indicated above were not related to conducting elections, and as a result, these costs should be reimbursed to the Election Services Fund.

2. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collected monies for civil paper service, bonds, transporting prisoners, inmate monies, and other miscellaneous receipts totaling approximately \$467,000 during the year ended December 31, 2017.

2.1 Prisoner boarding

The Sheriff does not have proper controls and procedures in place to ensure collection and transmittal of amounts billed and received for boarding of prisoners. During 2017, the Sheriff's office did not track all board bills sent or payments received. As a result, the Sheriff's office is unable to monitor billed amounts to ensure payments are received and transmitted to the County Treasurer. County records indicate amounts transmitted to the County Treasurer for board bills totaled approximately \$39,400 in 2017. In addition, the Sheriff has not entered into written agreements with the surrounding counties and cities for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, or any required notification for emergency or non-routine situations.

Procedures such as independent reconciliations of billing records to jail records and payments received should be established to ensure prisoner housing is properly billed, collected, recorded, and transmitted to the County Treasurer. Proper records and follow-up procedures are also necessary to safeguard against possible loss, theft, or misuse of funds going undetected.

Scott County Management Advisory Report - State Auditor's Findings

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written agreements, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

2.2 Inactive inmate account balances

The Sheriff does not have adequate procedures to ensure all inmate monies are refunded upon release. As of May 31, 2018, the Sheriff's office was holding \$2,074 for 397 former inmates in the commissary bank account. These inmates were released from the county justice center but did not claim their commissary account balance.

Follow up on inactive accounts is necessary to ensure monies are appropriately disbursed to the former inmates or as otherwise provided by state law. In addition, establishing procedures to refund all inmate monies upon release will allow the Sheriff to more adequately safeguard any monies being held and reduce the risk of loss, theft, or misuse of monies.

A similar condition was noted in our prior audit report.

Recommendations

The Sheriff:

- 2.1 Develop procedures to ensure collections of costs for boarding prisoners and the proper recording and transmittal of payments received. In addition, the Sheriff should work with the County Commission to obtain written agreements with other counties and cities for the boarding of prisoners.
- 2.2 Refund all inmate monies to inmates upon release. In addition, the Sheriff should attempt to return unclaimed balances to the former inmates. If the payee cannot be located, the amount should be disbursed in accordance with state law.

Auditee's Response

- 2.1 *We have read, understand, and will comply. We have begun working on this, and since the audit we have written agreements with agencies that we hold prisoners for in our surrounding cities and counties. We are also developing procedures to ensure collection of costs for boarding prisoners and the proper recording and transmittal of payments received.*
- 2.2 *We have read, understand, and will comply. We are currently switching to debit cards for all inmates released with funds. We used to issue checks Monday through Friday to inmates released with money on their accounts. The new debit card should eliminate this problem in the future. We are currently working on returning the*

Scott County
Management Advisory Report - State Auditor's Findings

unclaimed balances to the proper owners. If the payee cannot be located, the amount will be disbursed in accordance with state law.

3. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately \$142,000 in bad checks, restitution, delinquent taxes, and related fees during the year ended December 31, 2017.

3.1 Liabilities

The Prosecuting Attorney does not prepare monthly lists of liabilities for the office's 2 bank accounts and consequently, liabilities are not agreed to the reconciled bank balances. At our request, a list of liabilities was prepared for each account. For the current restitution account, identified liabilities totaled \$3,105 at May 31, 2018. The reconciled bank balance was \$4,158, leaving an unidentified balance of \$1,053. For the old restitution account, identified liabilities totaled \$88 at May 31, 2018. The reconciled bank balance was \$24,204, leaving an unidentified balance of \$24,116. After preparing the list, the Prosecuting Attorney's office disbursed \$24,000 of the unidentified balance to the State Treasurer's Office Unclaimed Property Division on June 20, 2018.

Monthly lists of liabilities should be prepared and reconciled to the available cash balance to ensure sufficient cash is available for the payments of amounts due and all monies in the bank can be identified. Prompt follow up on discrepancies is necessary to resolve errors. Further, various statutory provisions provide for the disposition of unidentified monies.

3.2 Outstanding checks

The Prosecuting Attorney has not established procedures to routinely follow up on outstanding checks for the 2 restitution accounts. As of May 31, 2018, 18 checks totaling \$2,439 had been outstanding for over a year, with one check dating back to 2011.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of monies in the account and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law.

Similar conditions previously reported Recommendations

A similar condition to section 2.1 was noted in our 5 prior audit reports and a similar condition to section 2.2 was noted in our 4 prior audit reports.

The Prosecuting Attorney:

- 3.1 Prepare monthly lists of liabilities and reconcile the list to the reconciled bank balance monthly. Any differences should be promptly investigated and resolved. Any unidentified monies should be disposed of in accordance with state law.

Scott County
Management Advisory Report - State Auditor's Findings

- 3.2 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the monies should be disposed of in accordance with state law.

Auditee's Response

- 3.1 *I agree with the recommendation and it is being implemented.*
- 3.2 *I agree with the recommendation and it is being implemented. We have already disbursed 8 of the 18 checks totaling \$1,038.12 to the State Treasurer's Office Unclaimed Property Division.*

4. Passwords

The County Collector, County Treasurer, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data as required by the county's personnel policy. Employees in these offices share passwords.

The county's personnel policy states unique and confidential passwords that are changed periodically are required for county computers. Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are shared in these offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique and confidential to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

A similar condition was noted in our 3 prior audit reports.

Recommendation

The County Collector, County Treasurer, and Recorder of Deeds require confidential passwords for each employee as required by the county's personnel policy.

Auditee's Response

The County Collector provided the following response:

I disagree with the recommendation and feel that it is not practical to implement with the limited staff we have in the office.

The County Treasurer provided the following response:

I will consult with the Information Technology Administrator and implement the recommendation if feasible.

The Recorder of Deeds provided the following response:

Scott County
Management Advisory Report - State Auditor's Findings

This has been implemented. We recently purchased new computers that require unique passwords for each employee. Passwords will be kept confidential.

Scott County

Organization and Statistical Information

Scott County is a county-organized, third-class county. The county seat is Benton.

Scott County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 110 full-time employees and 11 part-time employees on December 31, 2017.

In addition, county operations include the Senate Bill 40 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2018	2017
Jamie Burger, Presiding Commissioner	\$	43,020
Dennis Ziegenhorn, Associate Commissioner		40,308
Donnie Kiefer, Associate Commissioner		40,308
Tara L. Mason, Recorder of Deeds		61,071
Rita Milam, County Clerk		61,071
Paul R. Boyd, Prosecuting Attorney		137,077
Wes Drury, Sheriff		67,863
Glenda Enderle, County Treasurer		61,071
Scott C. Amick, County Coroner		21,726
Julia C. Dolan, Public Administrator		61,071
Mark Hensley, County Collector (1), year ended February 28,	70,336	
Teresa Houchin, County Assessor, year ended August 31,		60,101

(1) Includes \$9,163 of commissions earned for collecting city property taxes.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
President of the Board of Public Service
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2008-61, *City of St. Louis, Board of Public Service*, issued in September 2008, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our ongoing audit of the Board of Public Service. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Board of Public Service that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Board of Public Service

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: City Vehicle Policies

Finding Number: 1.A.

Finding: The city's revised code for motor vehicle policies was outdated, and a new ordinance was needed to clarify which official, board, or department should have overall rulemaking and policy enforcement authority. St. Louis City Revised Code Section 3.54.060 gave the city's Comptroller the authority to establish rules for motor vehicles; however, the Comptroller no longer established rules under this code.

Recommendation: The Board of Public Service (BPS) work with the Board of Estimate and Apportionment to revise the city code to clarify and establish clear authority over policymaking and policy enforcement for city vehicles.

Status of Finding: Not Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

This issue has not yet been addressed. Current ordinance (3.54.060) must be changed to reassign responsibility to oversee the BPS Equipment Services Division (ESD) from the Comptroller to the Mayor or the Board of Estimate and Apportionment. Initiating an ordinance change must come from the Mayor's office. We discussed this issue at the first City Vehicle Policy Revision Committee meeting. Meetings were held which resulted in other policy revisions in 2008 and 2010. Ultimately, because the Comptroller is a member of the Board of Estimate and Apportionment, the city is in compliance with the ordinance as it exists now because that board approves the City Vehicle Policy.

City of St. Louis - Board of Public Service
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: City Vehicle Policies

Finding Number: 1.B.

Finding: The ESD had not been able to complete annual vehicle assignment reports because most city departments were not providing the required information.

Recommendation: The BPS work with the Board of Estimate and Apportionment to ensure the vehicle assignment report is completed annually as required by the Vehicle Policy Manual.

Status of Finding: Partially Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The last complete Annual Vehicle Survey was in fiscal year 2016, which included all departments and a commuting study, and was reported in March rather than the previous October. The fiscal year 2017 survey was incomplete because it was missing the St. Louis Metropolitan Police Department. No survey was attempted in fiscal year 2018. The fiscal year 2019 survey will commence in August 2018.

It remains impossible for the ESD to complete the report and have it posted to the city website until full compliance is achieved. Neither the ESD nor the BPS has the authority to compel compliance.

Contact Phone Number: (314) 768-2891

City of St. Louis - Board of Public Service
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: City Vehicle Policies

Finding Number: 1.C.

Finding: The Vehicle Policy Manual allowed for the purchase of new full-sized sedans for newly-elected city officials but did not address restrictions on how the new vehicles could be equipped.

Recommendation: The BPS work with the Board of Estimate and Apportionment to amend the Vehicle Policy Manual to prohibit or limit options on new vehicle purchases considered a luxury or unnecessary.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

Upon completion of the prior audit, the BPS attempted to work with the Board of Estimate and Apportionment but, according to the then Director of Operations, those members and the Board of Aldermen declined to change the policy or ordinance at that time. The BPS does not have the power to change this policy without cooperation from other boards and departments.

No elected officials covered by the policy have a city car for personal use. The Comptroller and President of the Board of Aldermen discontinued driving a city vehicle for commuting and other personal use. The Mayor has never driven a city vehicle for commuting or personal use. The police officers who protect the Mayor have unmarked, assigned cars and drive the Mayor.

The current Director of Operations has for the past two years intended to update the City Vehicle Policy, but this has been delayed due to the need to include the St. Louis Metropolitan Police Department. When the timing is right, we will convene a working group of stakeholders to revise the vehicle policy for approval at the Director of Operations' request. At that time, the policy may also be changed with regard to the elected officials' vehicles.

Contact Phone Number: (314) 768-2891

City of St. Louis - Board of Public Service
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: City Vehicle Policies

Finding Number: 1.D.

Finding: The city had not established a policy requiring vehicle mileage logs for all city vehicles.

Recommendation: The BPS work with the Board of Estimate and Apportionment to amend the Vehicle Policy Manual to establish a policy requiring complete and detailed mileage logs be maintained for all city-owned vehicles.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The requirement for maintenance of vehicle logs was added to the City Vehicle Policy making appointing authorities responsible for monitoring compliance. No compliance audit has been completed to the ESD's knowledge but we suspect that most departments will not be in compliance over time, except for those using technology to automatically log. The ESD maintains that manual logs are easily doctored to hide misuse even with time-consuming monitoring.

Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Equipment Services Division's Accounting System

Finding Number: 2.A.

Finding: The ESD provided fuel and vehicle maintenance services to most other city departments but was not accounted for as an internal service fund on the city's financial statements.

Recommendation: The BPS work with applicable city officials to establish the ESD as an internal service fund on the city's financial statements in which all applicable costs are billed to and paid by the various city departments.

Status of Finding: Not Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The ESD has repeatedly and consistently requested to be made an internal service fund and includes it in its goals. This change requires action by the Comptroller and Budget Division which have previously refused to make it.

Contact Person: Christopher Amos

Contact Phone Number: (314) 768-2891

City of St. Louis - Board of Public Service
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Equipment Services Division's Accounting System

Finding Number: 2.B.

Finding: The ESD was using an internal pricing system that had not been updated since it was approved in 2003.

Recommendation: The BPS ensure the ESD reviews and updates the internal pricing system on a regular basis to ensure it reflects actual costs of goods and services provided to other city departments.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The ESD updated its rates in fiscal year 2008 and held them flat through fiscal year 2010 because minor labor cost increases were offset by elimination of overhead costs. The fiscal year 2011 rate evaluation likewise resulted in no changes as reduced overhead costs offset labor increases. Another update is planned for late fiscal year 2019 to adjust for management changes, increased technician pay rates, and garage consolidation.

City of St. Louis - Board of Public Service
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Equipment Services Division's Controls and Procedures

Finding Number: 3.A.

Finding: The ESD did not reconcile diesel fuel purchased to fuel used. The ESD had procedures to monitor that the amount of fuel purchased was delivered in the proper quantity; however, the ESD did not reconcile the amount purchased to usage because of anticipated discrepancies.

Recommendation: The BPS ESD reconcile diesel fuel purchased to fuel used, and perform and document follow-up procedures on significant differences.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The ESD now has tank monitoring hardware on all large bulk tanks and central management software. Reconciliations are occurring regularly.

Contact Person: Christopher Amos

Contact Phone Number: (314) 768-2891

City of St. Louis - Board of Public Service
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Equipment Services Division's Controls and Procedures

Finding Number: 3.B.

Finding: The ESD did not have adequate controls over the usage and inventory of automotive lubricants and liquids. Unlike the parts inventories, the liquid inventory (referred to as PM racks inventory) was not secured from unauthorized use, and some authorized use was not recorded.

Recommendation: The BPS ESD implement better security over PM rack inventory items in the maintenance garages and maintain accurate inventory records for these items. The division should continue to monitor inventory variances and take necessary steps to minimize the variances.

Status of Finding: In Progress

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The ESD has already implemented physical controls to the maximum extent possible but is unable to accurately control the dispensing and use of bulk oil and other fluids. An electronic system has been installed at the new Central Garage which will be configured by August 2018 to allocate bulk fluid dispensed from large tanks within the shop and by drivers. This system will not control smaller quantity containers like 55-gallon drums. After a successful implementation at Central Garage, the ESD will request funds to add this system to other garages.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Director of Personnel
City of St. Louis, Missouri

We have compiled the statuses of the audit report findings contained in Report No. 2008-59, *City of St. Louis, Department of Personnel*, issued in September 2008, as part of our current audit of the City of St. Louis. These results were determined by city officials and have not been audited. We will evaluate each status and the procedures implemented to address the related audit findings as appropriate in our upcoming audit of the Department of Personnel. The objectives of the follow-up compilation were to:

1. Provide status information from city officials for each recommendation. The status of each recommendation will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.
 - No Longer Applicable: The recommendation is no longer applicable.
2. Compile the information reported.

To obtain the status for each recommendation, we sent questionnaires to the Department of Personnel that included a brief summary of each finding and recommendation, and requested the status of each finding and a brief description of the steps taken or planned to implement the recommendation or reason(s) why the recommendation has not been implemented or is no longer applicable. This report is a compilation of the information provided, which we received in May 2018.

Audits of various officials and departments of the City of St. Louis are in process, and any findings and recommendations will be included in the subsequent reports.

Nicole R. Galloway, CPA
State Auditor

City of St. Louis - Department of Personnel

Follow-Up Report on Audit Findings

Status of Findings

Finding Title: Incentive Payments

Finding Number: 1.

Finding: Incentive payments paid to employees were not supported by adequate documentation showing additional work was performed. In addition, the city's granting of payments appeared inconsistent.

Recommendation: The Department of Personnel ensure incentive payments are in compliance with the Missouri Constitution, applied consistently throughout the city, and adequately supported with documentation.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

We responded to the recommendation and implemented the recommendation back in 2008. The Department of Personnel does not permit any bonuses pursuant to Article III, Section 39 of the Missouri Constitution (accordingly, none have been granted since the audit).

However, incentive programs are allowed (insofar as it is not retroactive pay), and are authorized under the compensation ordinance 70285, Section 2(n) and 2(o).

City of St. Louis - Department of Personnel
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Wellness Program

Finding Number: 2.A.

Finding: The Department of Personnel did not have a written policy concerning paid time off for participation in the wellness program. It was up to each appointing authority to decide if employees should use personal time or paid time off to participate in the program. City departments were not consistent in allowing paid time off for wellness program activities.

Recommendation: The Department of Personnel establish a written policy which addresses participation by employees in the wellness program.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The wellness program is authorized under Administrative Regulation 148. The Department of Personnel established a written policy which addresses participation by employees in the wellness program.

Contact Person: Linda Thomas

Contact Phone Number: (314) 622-4316

City of St. Louis - Department of Personnel
Follow-Up Report on Audit Findings
Status of Findings

Finding Title: Wellness Program

Finding Number: 2.B.

Finding: The city did not adequately track the total cost of the wellness program. The departments which allowed paid time off to participate in wellness programs did not track this information on timesheets submitted to the Comptroller's office. As a result of not tracking these costs, the Department of Personnel could not analyze the benefits of such a program such as decreased sick leave use or insurance savings versus the total costs associated with the program.

Recommendation: The Department of Personnel require documentation be maintained of the amount of paid time off used by employees participating in the wellness program to determine the total costs of the program. The department should perform a cost analysis of the wellness program to determine if it is beneficial to the city.

Status of Finding: Implemented

Description of steps taken or planned to implement the finding or reason for not implementing or why finding is no longer applicable:

The city does maintain records of paid time off used by employees to participate in the wellness program (BeeFit). Initially, employees must request authorization to participate in a wellness program activity for which he/she will use paid time off. That request must be approved by his/her supervisor and appointing authority. Thereafter, employees are required to submit a weekly BeeFit Wellness timesheet to their supervisor for review and approval. The Department of Personnel does not require that said timesheets be submitted to it. Industry practice has, over the past decade since the original audit was conducted, recognized the complexity of attempting to analyze the effectiveness of individual wellness components. The department does not believe that an effective cost analysis can be performed simply by tracking how many employees use up to three hours of paid leave; it is, however, a de-minimis amount compared to the overall size of the city's wellness program. Due to Health Insurance Portability and Accountability Act and privacy concerns, the department cannot analyze any specific health benefits or cost savings on claims for those relatively few individual employees who do choose to participate in the program, and such a narrowly focused return on investment simply is not practicable.

More importantly, as a part of the wellness program, biometric screenings are conducted (nearly 3,000 employees participated in 2017 and 2018). The employee receives information regarding health risks identified in the screening and can discuss said information with a registered nurse at the screening site. Further, there is a medical doctor at the screening site to provide more in depth information to the employee regarding the health risks that are identified. The value of early identification of health risks and the opportunity to discuss with a doctor/nurse needed follow up care is immeasurable (e.g., preventing one employee from entering a diabetic state can save over \$350,000 for an episode of care).

Further, the merit and cost savings attributable to the Wellness Program may be evidenced, in part, by the fact that the city's per employee/retiree health costs continue to trend well below benchmarks based on our consultant's book of business. During contract negotiations, our health care vendors have stated explicitly that they have looked more

To the County Commission and
Officeholders of Barry County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Barry County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory basis and the Comparative Schedules of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Barry County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Barry County, Missouri, as of December 31, 2017 and 2016, or the changes in financial position, or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Barry County, Missouri, as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated July 11, 2018, on our consideration of Barry County, Missouri’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County’s internal control over financial reporting and compliance.

BARRY COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Barry County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk/Ex-Officio Recorder, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Barry County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

Certain elected County officials, particularly the Collector and Treasurer, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.
 2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
 3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
 4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
 5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
 6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
 7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
 8. Budgets are prepared and adopted on the cash basis of accounting.
 9. Adoption of a formal budget is required by law.
 10. Section 50.740 RSMo. prohibits expenditures in excess of the approved budgets.
- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation were:

	2017	2016
Real Estate	\$ 365,813,551	\$ 338,958,863
Personal Property	133,774,405	129,044,382
Railroad and Utilities	16,390,486	17,297,019
Total	<u>\$ 515,978,442</u>	<u>\$ 485,300,264</u>

For calendar years 2017 and 2016, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2017	2016
Senate Bill 40 Board	\$ 0.0638	\$ 0.0650
Senior Citizens Service Board	0.0491	0.0500
Liberty Common Road	0.1244	0.1244

The Liberty Common Road levy is assessed on properties only within the common road district. The property tax revenues in the General Revenue Fund are from a surtax on commercial real estate and private car tax collections. The Special Road & Bridge Fund receives one-fifth of the basic taxes levied and collected by each Road District in the County.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017 and 2016, the carrying amounts of the County's deposits were \$5,521,517 and \$5,546,100, respectively, and the bank balances were \$5,890,930 and \$6,025,579, respectively. Of the bank balances, \$727,493 for December 31, 2017 and \$924,829 for December 31, 2016, were covered by federal depository insurance. The remainder of the County's balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2017 and 2016, the County Collector held, in addition to the cash and investments listed above, cash representing collections of property taxes on behalf of various taxing districts in the County. Tax collections on deposit amounted to \$12,058,352 and \$12,317,646 at December 31, 2017 and 2016, respectively. The County Collector's deposits were covered by federal depository insurance of \$250,000 as of December 31, 2017 and 2016. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994. The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2017 and 2016, the County collected and remitted to CERF employee withholding and fees collected of \$187,114 and \$180,722, respectively, for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 and \$9,044, respectively, for the years ended December 31, 2017 and 2016.

C. Other Retirement Plan

Barry County has a voluntary 401(a) plan administered by Empower Retirement which is paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2017 and 2016 were \$14,310 and \$12,760, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are

fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with up to 90 days of sick time, to accrue at one day per complete calendar month of employment. Upon retirement, employees are compensated for up to 15 days of accrued sick time. Accrued sick leave will be forfeited upon termination other than retirement. Vacation time is accrued for every full-time employee, and accrues at the rate of zero days per year up to fifteen days per year depending on length of employment. Employees may not carry over any unused vacation time beyond the year earned. Unused vacation will be forfeited at the end of the calendar year. Employees are compensated for unused vacation time at termination.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through July 11, 2018, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Barry County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Barry County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Barry County, Missouri's basic financial statements and have issued our report thereon dated July 11, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Barry County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Barry County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Barry County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Barry County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and recommendations as item 2017-001.

Barry County, Missouri's Response to Findings

Barry County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and recommendations. Barry County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BARRY COUNTY, MISSOURI
FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

2017-001: Monthly Turnover of Funds

Criteria: RSMo 50.370 states that “every county officer who receives any fees or other remuneration for official services which is payable to the county shall at the end of each month...pay over to the county treasurer all fees and other moneys collected by him which belong to the county.”

Condition: There were four instances of the Sheriff’s office not turning over fees collected to the county Treasurer in a timely manner. The month the funds were collected for, the amount of fees collected, and the date the fees were paid over to the Treasurer are detailed as follows:

<u>Month</u>	<u>Amount</u>	<u>Date Paid</u>
December 2016	\$ 8,849	2/22/2017
August 2017	11,041	10/6/2017
November 2017	8,630	2/15/2018
December 2017	9,992	2/15/2018

Cause: Per the Sheriff’s office, the funds were paid over late due to a lack of staffing.

Effect: Delays in paying over fees at the end of each month increase the likelihood that a misappropriation of funds would not be detected in a timely manner.

Recommendation: We recommend the County require the Sheriff’s office to adopt policies to ensure the office is in compliance with RSMo 50.370.

County’s Response: We discussed with the Barry County Sheriff the delay in paying over fees at the end of the month. The Sheriff said the Jail Administrator and other staff members had either quit or been replaced. We will make every effort to pay fees in a timely manner.

Auditor’s Response: The response is appropriate to correct the concern.

OTHER MATTERS

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Comparative Schedules of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, we considered Barry County’s internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated July 11, 2018. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Procurement Procedures

There was one instance of the assessor’s office not properly procuring equipment in excess of \$6,000. Out of forty transactions tested, there was one purchase, for \$6,800 in December 2016 in which a bid was not solicited or sole source documentation included within the Commission minutes. RSMo 50.660 states that, “All contracts and purchases shall be let to the lowest and best bidder after due opportunity for competition, including advertising the proposed letting in a newspaper in the county or township with a circulation of at least five hundred copies per issue, if there is one, except that the advertising is not required in case of contracts or purchases involving an expenditure of less than six thousand dollars. It is not necessary to obtain bids on any purchase in the amount of four thousand five hundred dollars or less made from any one person, firm or corporation during any period of ninety days....” RSMo 50.783.1 states that, “The county commission may waive the requirement of competitive bids or proposals for supplies when the commission has determined in writing and entered into the commission minutes that there is only a single feasible source for the supplies.” Per the assessor, the vendor guaranteed the best price in the market. Therefore, the assessor did not advertise the purchase.

Not following competitive bidding procedures increases the likelihood that the County could purchase an item from a vendor that is not the lowest and best bid.

We recommend the County solicit bids in accordance with Missouri state law, maintain bid documentation in conjunction with associated disbursement records, and include pertinent bid information in the Commission minutes.

Budgetary Procedures

The County’s estimated expenditures for the funds included in our audit report (excluding the Senate Bill 40 and Senior Citizens Service Boards) exceeded actual expenditures by \$3,419,324 (37%) and \$2,742,895 (35%) for the years ended December 31, 2017 and 2016, respectively. The estimated expenditures of the Senate Bill 40 Board exceeded actual by \$436,219 (56%) and \$368,856 (51%) for the years ended December 31, 2017 and 2016, respectively. The explanations for these variances indicated that the County and Senate Bill 40 Board budget excess amounts for unforeseen expenditures that might occur throughout the year. In order for the budgeting process to be effective, the budgets should reflect a realistic estimate of the actual planned expenditures of the County for the year and that budget amendments be made as necessary if there are significant changes in expectations throughout the year. We recommend that the County and Senate Bill 40 Board ensure that future budgets accurately reflect planned expenditures.

BARRY COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with Government Auditing Standards, this section reports the auditors' follow-up on action taken by Barry County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2013 and 2012.

1. The County did not exercise adequate budgetary control over funds which incurred expenditures in excess of the authorized budgeted levels.

Status: Resolved.

2. The County did not have prepared documentation of internal controls.

Status: Resolved.

3. The County did not have a formal fraud risk assessment in place.

Status: Resolved.

CITIZENS SUMMARY

Findings in the audit of the Holt County Collector and Property Tax System

Background

The County Collector bills and collects property taxes for the county and most local governments. Donna Cotton served as County Collector until May 16, 2018. Samantha Timothy was appointed the Holt County Collector and sworn into office on May 30, 2018. The former County Collector received compensation of \$9,460 for the period March 1, 2018, to May 16, 2018, including \$571 of commissions earned for collecting city, levee district, and drainage district property taxes. During the year ended February 28, 2018, the former County Collector received compensation of \$77,437 including \$37,722 of commission earned for collecting city, levee district, and drainage district property taxes.

Findings

The audit identified no significant deficiencies in internal controls, and no significant noncompliance with legal provisions. No findings resulted from our audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
County Collector
Holt County, Missouri

We have audited the County Collector and Property Tax System of Holt County. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. On May 16, 2018, a vacancy occurred in the office of the County Collector of Holt County. A successor was appointed and sworn into office effective May 30, 2018. The scope of our audit included, but was not necessarily limited to, the period of March 1, 2018, to May 16, 2018, and the year ended February 28, 2018. The objectives of our audit were to:

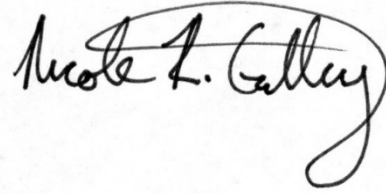

1. Evaluate the county's internal controls over significant property tax functions.
2. Evaluate the county's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and county management and was not subjected to the procedures applied in our audit of the County Collector and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any monies owed to the county or the former County Collector. For the areas audited, we identified (1) no significant deficiencies in internal controls, and (2) no significant noncompliance with legal provisions. No findings resulted from our audit of the County Collector and Property Tax System of Holt County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly distinguishable. It is positioned above the printed name of the State Auditor.

Holt County Collector and Property Tax System

Organization and Statistical Information

The County Collector bills and collects property taxes for the county and most local governments. Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

Donna Cotton served as County Collector until May 16, 2018. Samantha Timothy was appointed the Holt County Collector and sworn into office on May 30, 2018.

The former County Collector received compensation of \$9,460 for the period March 1, 2018, to May 16, 2018, including \$571 of commissions earned for collecting city, levee district, and drainage district property taxes. During the year ended February 28, 2018, the former County Collector received compensation of \$77,437 including \$37,722 of commissions earned for collecting city, levee district, and drainage district property taxes. Compensation was in accordance with statutory provisions.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Reynolds, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Reynolds ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2017, and 2016, or changes in financial position or cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2017, and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Reynolds’ basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2018, on our consideration of the County of Reynolds' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Reynolds' internal control over financial reporting and compliance.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Reynolds, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1845 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: Assessor, County Clerk, Collector, Coroner, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Prosecuting Attorney and Public Administrator.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the county of Reynolds County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation, was:

	<u>2017</u>	<u>2016</u>
Real Estate	\$ 96,631,440	\$ 104,276,022
Personal Property	30,023,383	31,733,643
Railroad and Utilities	<u>46,966,717</u>	<u>47,018,424</u>
	<u>\$ 173,621,540</u>	<u>\$ 183,028,089</u>

During 2017 and 2016, the County Commission approved a \$0.8700 and \$0.8222, respectively, tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	<u>2017</u>	<u>2016</u>
General Revenue Fund	\$ 0.3900	\$ 0.3600
Special Road and Bridge Fund	0.3500	0.3322
Senior Services Fund	0.0300	0.0300
Senate Bill 40 Fund	<u>0.1000</u>	<u>0.1000</u>
	<u>\$ 0.8700</u>	<u>\$ 0.8222</u>

F. Cash and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash investment pool that is available for all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash is separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017, and 2016, the carrying amount of the County's deposits was \$1,632,702.01 and \$1,870,753.10, and the bank balances were \$8,787,959.79 and \$7,369,651.59, respectively. The total bank balances as of December 31, 2017 and December 31, 2016, were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2017, as follows:

Included in the following fund financial statement captions:

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

II. CASH AND INVESTMENTS (concluded)

The carrying values of deposits shown above are included in the financial statements at December 31, 2016, as follows:

Included in the following fund financial statement captions:

<u>Statement of Receipts, Disbursements and Changes in Cash Balances</u>	
Deposits and cash equivalents	\$ 1,870,753.10
Total Deposits as of December 31, 2016	1,870,753.10
<u>Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds:</u>	
Deposits and cash equivalents	9,346,723.05
Total Agency Funds	9,346,723.05
Total Deposits and cash equivalents	\$ <u>11,217,476.15</u>

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2017, and December 31, 2016.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2017, and 2016.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

III. CAPITAL LEASES

On April 22, 2015, the County entered into a lease purchase with Ford Motor Credit to finance the purchase of two Ford Police Explorer Interceptors in the amount of \$60,099. The lease agreement called for three equal payments of \$21,114.64 with the first payment starting on April 22, 2015. The rate of interest on this lease purchase is 5.5%. On June 18, 2016, the County refinanced the balance of \$20,186.09 with Great Southern Bank.

On April 12, 2016, the County entered into a lease purchase with Ford Motor Credit to finance the purchase of two Ford F-150 Pickup trucks in the amount of \$42,815. The lease agreement called for three equal payments of \$15,179.24 with the first payment starting on April 12, 2016. The rate of interest on this lease purchase is 6.5%. On June 18, 2016, the County refinanced the balance of \$27,966.09 with Great Southern Bank.

On June 18, 2016, the County entered into a lease purchase with Great Southern Bank to payoff the Ford Motor Credit lease purchases and refinance the purchase of two Ford F-150 Pickup trucks in the amount of \$48,152.18. In September 2016, one of the Ford Police Explorer Interceptors was totaled out and \$10,100 was applied to the lease purchase. The current lease agreement calls for three equal payments of \$13,539 with first payment starting on June 16, 2017. The rate of interest on this lease purchase is 3.29%.

As of December 31, 2017, the payment for the capital lease of the County is as follows:

	Balance at December 31, 2016	Amount Borrowed	Amount Repaid	Balance at December 31, 2017	Interest Paid During Year
Great Southern Bank Lease Purchase	\$ 38,391.02	\$ -	(\$12,529.07)	\$ 25,861.95	\$ 1,010.45
Totals	<u>\$ 38,391.02</u>	<u>\$ -</u>	<u>(\$12,529.07)</u>	<u>\$ 25,861.95</u>	<u>\$ 1,010.45</u>

As of December 31, 2016, the payment for the capital leases of the County are as follows:

	Balance at December 31, 2015	Amount Borrowed	Amount Repaid	Balance at December 31, 2016	Interest Paid During Year
Ford Explorer Lease Purchase	\$ 38,984.36	\$ -	(\$38,984.36)	\$ -	\$ 2,316.37
Ford F-150 Lease Purchase	\$ -	\$ 42,815.00	(\$42,815.00)	\$ -	\$ 330.33
Great Southern Bank Lease Purchase	\$ -	\$ 48,152.18	(\$ 9,761.16)	\$ 38,391.02	\$ 338.84
Totals	<u>\$ 38,984.36</u>	<u>\$ 90,967.18</u>	<u>(\$91,560.52)</u>	<u>\$ 38,391.02</u>	<u>\$ 2,985.54</u>

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

III. CAPITAL LEASES (Concluded)

The future payments for the lease purchase as of December 31, 2017, are as follows:

<u>Year Ending December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 12,688.66	\$ 850.86	\$ 13,539.52
2019	13,173.29	433.41	13,606.70
	<u>\$ 25,861.95</u>	<u>\$ 1,284.27</u>	<u>\$ 27,146.22</u>

The future payments for the lease purchases as of December 31, 2016, are as follows:

<u>Year Ending December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>

	<u>\$ 38,391.02</u>	<u>\$ 2,294.72</u>	<u>\$ 40,685.74</u>

IV. INTERFUND TRANSFERS

There were no transfers made for the years ended December 31, 2017, and 2016.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (Concluded)

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2017, and 2016 were \$110,844.98 and \$111,384.36, respectively.

VI. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County did not have any COBRA participants at December 31, 2017, and December 31, 2016.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366.00 and \$2,711.50, respectively, for the years ended December 31, 2017, and 2016.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County was involved in pending litigation as of the audit report date. The County's attorneys are vigorously defending the County in these matters. County management believes that such litigation and claims will ultimately be resolved without material financial liability, if any, to the County.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. This ranges from getting one week after the first year of service, and four weeks after fifteen years of service. Upon termination from county employment, an employee is reimbursed for unused vacation and overtime, if applicable. County employees receive two personal days when they start, after one year they get six days. An employee is not reimbursed for unused personal time upon termination of employment. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in refunding of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

IX. RISK MANAGEMENT (Concluded)

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

X. SUBSEQUENT EVENTS

There were no subsequent events to report as of the audit report date.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
SCHEDULE OF STATE FINDINGS
YEARS ENDED DECEMBER 31, 2017 AND 2016

SCHEDULE OF STATE FINDINGS

- A. For the year ended December 31, 2017, expenditures exceeded those budgeted for the following funds: Inmate Security Fund, and County Law Enforcement Restitution Fund.
- B. For the year ended December 31, 2016, expenditures exceeded those budgeted for the following funds: Recorder User Fee Fund, Sheriff's Revolving Fund, County Law Enforcement Restitution Fund, Election Services Fund, Tax Maintenance Fund and Title III Fund.
- C. For the year ended December 31, 2017, the FEMA Fund did not have a budget. This was mandated by FEMA to have a non-interest bearing account to receive FEMA funds late in the year, this money was however budgeted under the Special Road and Bridge Fund.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Reynolds, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Reynolds ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2017, and 2016, and the related statements of cash receipts and disbursements and changes in cash balances-budget and actual for the years then ended, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 27, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To The County Commission
The County of Reynolds, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Reynolds' ("County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2017, and 2016. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2017, and 2016.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2017-001. Our opinion on each major federal program is not modified with respect to this matter.

The County's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2017-001, that we consider to be a significant deficiency.

The County's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2017 AND 2016

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the “Schedule”) includes the federal award activity of the County of Reynolds under programs of the federal government for the years ended December 31, 2017, and 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Reynolds, it is not intended to and does not present the financial position, changes in net assets, or cash flows, of the County of Reynolds.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The County has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 – SUB-RECIPIENTS

Of the federal expenditures presented in the accompanying schedule of expenditures of federal awards, the County provided federal awards to sub-recipients as follows:

<u>Program Title</u>	<u>Sub-Recipients</u>	<u>Federal CFDA Number</u>	<u>Amount Provided to Sub-Recipients</u>
Schools and Roads – Grants to States	Centerville R-1 School District	10.665	2017
			2016
			\$30,196.58
			\$58,014.38
Schools and Roads – Grants to States	Bunker R-III School District	10.665	2017
			2016
			\$52,037.04
			\$100,474.95
Schools and Roads – Grants to States	Lesterville R-IV School District	10.665	2017
			2016
			\$42,282.28
			\$81,640.12

	Award Year:	2016 and 2017
	Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective internal control over federal awards. The County was not in compliance with 2 CFR Section 200.303.

Criteria: Uniform Guidance requires the auditee to document internal controls over each federal program. The County must be in compliance with 2 CFR Section 200.303, which requires the County to establish and maintain effective internal controls over federal awards.

Condition: During the walkthroughs of the County, we noted there is not documentation over internal controls with regards to federal awards in place.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we noted there was not adequate internal control documentation of each federal program.

Effect: Not documenting internal controls over federal compliance requirements could result in the noncompliance of a major component of the federal program.

Cause: Adequate emphasis was not placed on the documentation of internal controls required under the *Uniform Guidance*.

Recommendation: We recommend that the County formally document internal controls over federal programs in accordance with the *Uniform Guidance*, and 2 CFR Section 200.303.

Views of responsible officials and planned corrective actions: The County Clerk (Mike Harper) is in the process of preparing the needed documentation to document their internal control structure in conformity with the *Uniform Guidance*. The Clerk expects to complete this by the next audit period. The Clerk's office can be reached at (573) 648-2494.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2017 AND 2016

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

The last audit performed was for the fiscal years ended December 31, 2013, and December 31, 2012. Pursuant to the guidelines in Uniform Guidance Section 200.511 *Audit findings follow-up*, the County has determined the prior year findings meet the requirements set forth in this section for determining a finding to not warrant further action. The following conditions were met to determine the treatment of these prior year audit findings:

- i.) Two years have passed since the audit report in which the finding occurred was submitted to the Federal Audit Clearinghouse.
- ii.) The Federal agency or pass-through entity is not currently following up with the auditee on the audit finding; and
- iii.) A management decision was not issued.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

The last audit performed under OMB Circular A-133 was for the fiscal years ended December 31, 2013, and December 31, 2012. Pursuant to the guidelines in Uniform Guidance Section 200.511 *Audit findings follow-up*, the County has determined the prior year findings meet the requirements set forth in this section for determining a finding to not warrant further action. The following conditions were met to determine the treatment of these prior year audit findings:

- i.) Two years have passed since the audit report in which the finding occurred was submitted to the Federal Audit Clearinghouse.
- ii.) The Federal agency or pass-through entity is not currently following up with the auditee on the audit finding; and
- iii.) A management decision was not issued.

June 27, 2018

To the County Commissioners
The County of Reynolds, Missouri

In planning and performing our audit of the regulatory based financial statements of the County of Reynolds (the "County") as of and for the years ended December 31, 2017, and 2016, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We considered the following deficiency in the County's internal control to be a significant deficiency as noted in section I.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiencies Considered to be Significant
- II. Information Required by Professional Standards
- III. Management Comments

The County's management has provided a written response to the finding in this report that were identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and Government Auditing Standards

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and the *Uniform Guidance*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 9, 2018. Professional standards also require that we communicate to you the following information related to our audit.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Continued)

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2017 fiscal year. We noted no transactions entered into by the County during the years for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 27, 2018.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Other Matters

We were engaged to report the schedule of expenditure of federal awards, which accompanies the financial statements but is not RSI (required supplementary information). With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

During our testing of federal programs, we noted that the County's Certification of Title III Expenditures and Unobligated Funds were reported, just not in a timely manner. We recommend filing the required reports by their due dates each year, when applicable.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Audrain County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Audrain County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2017, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Audrain County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Audrain County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory basis and the Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Audrain County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Audrain County, Missouri, as of December 31, 2017 and 2016, or the changes in financial position, or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Audrain County, Missouri, as of December 31, 2017 and 2016, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Audrain County, Missouri’s basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated June 6, 2018, on our consideration of Audrain County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

AUDRAIN COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Audrain County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, County Clerk, Collector, Recorder, Coroner, Prosecuting Attorney, Public Administrator, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Audrain County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity. The Senate Bill 40 Board is separately audited by an independent certified public accountant and is therefore not included in this report in accordance with the regulatory basis of accounting. The Senate Bill 40 Board's audit report may be obtained from Audrain Developmental Disability Services at 222 East Jackson St., Mexico, MO 65265 or by calling (573) 581-8210.

Certain elected County officials, particularly the Collector and Treasurer, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from

accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.
 2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
 3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
 4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
 5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
 6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
 7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
 8. Budgets are prepared and adopted on the cash basis of accounting.
 9. Adoption of a formal budget is required by law.
 10. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the Prosecuting Attorney Administrative Fund in 2016.
- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the

following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2017 and 2016, for purposes of taxation were:

	2017	2016
Real Estate	\$ 218,414,782	\$ 208,668,829
Personal Property	85,899,359	81,815,602
Railroad and Utilities	79,015,574	82,642,892
Total	<u>\$ 383,329,715</u>	<u>\$ 373,127,323</u>

For calendar years 2017 and 2016, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2017	2016
General Revenue	\$ 0.2391	\$ 0.2296
Special Road & Bridge	0.3036	0.3036
Common Road District	0.3608	0.3468

The Common Road District levy was applied to an assessed valuation of \$115,869,385 and \$115,838,824 for the years ended December 31, 2017 and 2016, respectively, and is recognized in the Special Road & Bridge Fund.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2017 and 2016, the carrying amounts of the County's deposits were \$11,449,183 and \$6,225,807, respectively, and the bank balances were \$11,849,314 and \$8,197,335, respectively. Of the bank balances, \$352,074 for December 31, 2017 and \$351,819 for December 31, 2016, were covered by federal depository insurance. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2017 and 2016, the County Collector held, in addition to the cash and investments listed above, cash representing collections of property taxes on behalf of various taxing districts in the County. Tax collections on deposit amounted to \$15,835,781 and \$15,333,616 at December 31, 2017 and 2016, respectively. The County Collector's deposits were covered by federal depository insurance of \$252,490 as of December 31, 2017 and \$252,567 as of December 31, 2016. The remainder of the balances at December 31, 2017 and December 31, 2016 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Audrain County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Audrain County do not contribute to the pension plan. The June 30th statutorily required contribution rates were 9.7% and 6.7% (General), and 8.7% and 7.1% (Police) of annual covered payroll for 2017 and 2016 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2017 and 2016, the County contributed \$259,763 and \$230,850 to LAGERS.

4) Funding Status

As of February 28, 2017, the actuarial value of assets exceeded the accrued liabilities of the plan by \$53,181 for the General division and \$327,136 for the Police division. As of February 29, 2016, the actuarial value of assets exceeded the accrued liabilities of the plan by \$153,766 for the General division and \$409,651 for the Police division. These net pension assets are not recognized in the cash basis financial statements of the County.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2017 and 2016, the County collected and remitted to CERF employee withholdings and fees collected of \$214,122 and \$205,356, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 and \$9,044, respectively, for the years ended December 31, 2017 and 2016.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with up to 48 hours of sick time each year, up to a maximum of 480 hours. Upon termination, employees are not compensated for unused sick leave. Vacation time is accrued for every full-time employee, and accrues at the rate of 40 hours per year up to 160 hours per year depending on length of employment, up to a maximum of 200 hours. The maximum amount of vacation allowed to be carried over from one year to the next is 40 hours. Employees leaving County service due to resignation, death or termination are compensated for unused vacation leave accrued.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

In October 2013, the County entered into a lease purchase agreement for improvements to the County Courthouse in the amount of \$700,000. The final payment on this agreement was made in June 2016 in the amount of \$433,672, of which \$7,541 was interest.

In 2010, the County issued Series 2010 Missouri Public Facilities Corporation Leasehold Revenue Refunding Bonds in the amount of \$2,830,000. The final payment on this agreement was made in February 2017 in the amount of \$171,300. The remaining balance of \$283,700 was covered by a debt reserve account held by the bank.

In June 2017, the County entered into a Certificates of Participation (COPS) agreement for a jail expansion project in the amount of \$5,470,000. The debt is to be paid in semi-annual payments

over 17 years, with a fixed interest rate of 2.6% for the first seven years and then two five-year adjustments floored at 2.6% and capped at 4.5%. The schedule of future payments assumes a 4.5% interest rate after the first seven years.

The following schedule shows changes in long-term debt during the years ended December 31, 2016:

Description	Balance 12/31/2015	Additions	Payments	Balance 12/31/2016	Interest Paid
Courthouse Improvements	\$ 426,131	\$ -	\$ 426,131	\$ -	\$ 7,541
Series 2010	870,000	-	415,000	455,000	22,490

The following schedule shows changes in long-term debt during the years ended December 31, 2017:

2033-2034	600,000	27,000	627,000
Total	<u>\$ 5,470,000</u>	<u>\$ 1,664,755</u>	<u>\$ 7,134,755</u>

8. CHANGE IN REPORTING ENTITY

As of January 1, 2016, the County has changed its definition of the reporting entity to exclude the Election Fund. The effect of this change was to decrease the January 1, 2016 cash and cash equivalents/investments balance by \$20.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2017 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through June 6, 2018, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Audrain County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Audrain County, Missouri as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Audrain County, Missouri's basic financial statements and have issued our report thereon dated June 6, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Audrain County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Audrain County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Audrain County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Audrain County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
